Sigma Alpha Epsilon (U. of Ala., 1856), Hon. A. J. Tuttle, Federal Courts, Detroit, Mich.; W. C. Levere, Evanston, Ill.

Sigma Alpha Mu (City, N. Y., 1900), B. P. Goldman, 220 W. 42nd St., N. Y.; M. M. Stone, 277 Broadway, New York City.

Sigma Chi (Miami, 1855), L. DeGraff, Des Moines, Iowa; B. E. Adams, 638 Groveland Park, Chicago, Ill.

Sigma Nu (Va. Milit. Inst., 1869), W. E. Myers, Cleveland, Ohio; E. W. Dunlavey, Lemcke Bldg., Indianapolis, Ind.

Sigma Phi (Union, 1827), F. T. Wood, 165 Broadway, N. Y.; P. J. Ross, 60 Wall St., N. Y.

Sigma Phi Sigma (U. of Pa., 1908), F. L. Knowlton, Oregon Exper. Station, Corvallis, Oregon; H. E. Miller, 2401 Durant Ave., Berkeley, California.

Sigma Phi Epsilon (Richmond, Va., 1901), F. J. Knauss, Denver, Col.; W. L. Phillips, Richmond, Va.

Sigma Iota (La. State U., 1904), Prof. A. Guell, 668 St. Mary St., Baton Rouge, La.; Raul Antongiorgi, San German, Porto Rico.

Sigma Pi (Vincennes, 1897), C. E. Palmer, Champaign, Ill.; R. B. Fall, Clinton, Minn.

Tau Delta Phi (City, N. Y., 1910), Henry Alpern, 2006 Forbes St., Pittsburgh, Pa.; Sidney Goodfriend, 826 Kelly St., New York City.

Tau Epsilon Phi (Columbia, 1910), Dr. I. Schwartz, 503 E. 7th St., Brooklyn, N. Y.; Aleck Grossman, 46 W. North Ave., Atlanta, Ga.

Tau Kappa Epsilon (Ill. Wesleyan, 1899), H. P. Flint, Mt. Vernon, Ill.; H. A. Burd, Steensland Bldg., Madison, Wis.

Theta Alpha (Syracuse, 1909), L. G. Spawn, 903 University Ave., Syracuse, N. Y.; L. G. Green.

Theta Chi (Norwich, 1856), Major G. V. Catuna, 76 William St., New York City; F. W. Ladue, 76 William St., New York City.

Theta Delta Chi (Union, 1847), F. H. Buck, 58 Sutter St., San Francisco, Cal.; E. B. Twitmyeer, Secane, Pa.

Theta Xi (Rensselaer Poly.), W. W. Wiley, 432 Fourth Ave., N. Y.; F. G. Smith, 49 Liberty St., N. Y.

Zeta Beta Tau (Jewish Theol. Sem., 1898), Hon. Julius Kahn, House of Rep., Wash., D. C.; Edw. Haspel, 606 Common St., New Orleans, La.

Zeta Psi (N. Y. U., 1847), C. D. Gregg, St. Louis, Mo.; L. Graves, 11 Broadway, New York City.

PROFESSIONAL.

Agricultural, Honorary.

Alpha Zeta (Ohio, U., 1915), Prof. C. B. Hutchinson, Cornell Univ., Ithaca, N. Y.; Prof. John Parker, Manhattan, Kan.

Gamma Sigma Delta (Ohio U., 1905), C. H. Eckles, 1281 Raymond Ave., St. Paul, Minn.; Prof. L. H. Pammel, Ames, Iowa.

Architectural.

Alpha Rho Chi (U. of Ill., 1914), C. W. Ditchy, 146 Merrick Ave., Detroit, Mich.; H. R. Peterson, 1443 Fifth Ave., S. Minneapolis.

Scarab (U. of Ill., 1909), F. R. Leinkuehler, 4206 Cottage Ave., St. Louis, Mo.; R. T. Jones, Univ. of Illinois, Urbana, Ill.

CHEMICAL.

Alpha Chi Sigma (U. of Wis., 1902), Dr. S. Jordan, 544 Park Ave., Brooklyn, N. Y.; Dr. L. I. Shaw, 1709 G St., N. W., Washington, D. C.

CHEMICAL, HONORARY.

Phi Lambda Upsilon (U. of Ill., 1899), G. D. Beal, Urbana, Ill.; R. K. McAlpine, Ann Arbor, Mich.

CHEMICAL AND PHARMACEUTICAL.

Phi Delta Chi (U. of Mich., 1883), Azor Thurston, Columbus, Ohio; L. C. Heustis, 5005 Park Ave., Indianapolis, Ind.

COMMERCIAL.

Alpha Kappa Psi (N. Y. U., 1904), Prof. J. T. Madden, 32 Waverley Pl., New York City; H. F. Langley, 15 Taft St., Boston, Mass.

Beta Gamma Sigma, H. T. Scovill, Urbana, Ill.; F. H. Elwell, Madison, Wis.

Delta Sigma Pi (N. Y. U., 1907), H. G. Wright, 72 Cedar St., Chicago, Ill. J. B. Edgar, 875 W. 181st St., New York City.

DENTISTRY.

Delta Sigma Delta (U. of Mich., 1883), Dr. E. T. Darby, 1701 Locust St., Philadelphia, Pa.; R. H. D. Swing, 1623 Walnut St., Philadelphia, Pa.

Psi Omega (Balto. Coll. D. S., 1892), Dr. M. M. Printz, 25 E. Washington St., Chicago, Ill.; Dr. H. E. Friesell, 1206 Highland Bldg., Pittsburgh, Pa.

Xi Psi Phi (U. of Mich., 1899), V. H. Nelson, La Salle Bldg., Minneapolis, Minn.; H. B. Pinney, 1205 Marshall Field Annex, Chicago, Ill.

DRAMATIC.

Associated University Players (Chicago, 1914), V. H. Grossberg, Champaign, Ill.; D. E. E. Voight, Athens, Ohio.

EDUCATION, INDUSTRIAL.

Alpha Tau (Carneg. Inst. Tech. Pittsburgh, 1916). J. W. Batman, Pittsburgh, Pa.; G. T. Heddaeus, Pittsburgh, Pa.

ENGINEERING.

Eta Kappa Nu (U. of Ill., 1904), F. A. Coffin, Milwaukee, Wis.; A. B. Zerby, Irwin, Pa.

Sigma Tau (U. of Neb., 1904), W. J. Wohlenberg, New Haven, Ct.; S. A. Smith, Manhattan, Kan.

Tau Beta Pi (Lehigh U., 1885), M. S. Ketchum, U. of P., Philadelphia, Pa.; R. C. Matthews, Knoxville, Tenn.

Theta Tau (U. of Minn., 1904), Prof. G. D. Londerback, U. of Cal., Berkeley, Cal.; E. J. Schrader, Tonopah, Nev.

Triangle (U. of Ill., 1907), G. E. Lommel. W. Lafayette, Ind.; W. R. Manock 10,512 Church St., Chicago, Ill

FORENSIC.

Phi Alpha Tau (Boston, 1902), C. L. Clark, Lincoln, Neb.; W. B. Tripp, 30 Huntington Ave., Boston Mass.

Delta Sigma Rho (at Chicago, 1906), S. B. Houck, Minneapolis, Minn.; Mabel M. Carleton, Cambridge, Mass.

Pi Kappa Delta (Ottawa U., Kan., 1912), J. R. MacArthur, Pasadena, Calif.; C. A. March, Sioux City, Iowa.

Tau Kappa Alpha (at Indianapolis, 1908), Chas. H. Brough, Little Rock, Ark.; E. J. Hecker, Indianapolis, Ind.

GRADUATE.

Phi Eta (U. of Pa., 1906), T. W. Van Metre, Columbia Univ., New York City; G. H. Betz, Columbia University, New York City.

JOURNALISM.

Pi Delta Epsilon (Syracuse U., 1909), J. M. Fassett, Washington, D. C.; E. M. Simonson, N. Y.

Sigma Delta Chi (DePauw U., 1909), Lee A. White, News, Detroit, Mich.; K. C. Hogate, Detroit, Mich.

LEGAL.

Delta Theta Phi (Chicago, 1901), W. H. Thomas, Soc. for Savings Bldg., Cleveland, Ohio; Emery Weller, 509 W. 124th St., New York City.

Gamma Eta Gamma (U. of Me., 1901), W. E. Talcott, Ford Bldg., Detroit, Mich.; Everett Hicks, Chamber of Commerce, Oneonta, N. Y.

Phi Alpha Delta (Chicago, 1902), A. A. Rendigs, Jr., 2d Nat. Bank Bldg., Cincinnati, Ohio; G. K. Brasher, Scarrit Bldg., Kansas City, Mo.

Phi Delta Phi (U. of Mich., 1869), G. A. Urquhart, Davis Bldg., Windsor, Ont.; E. A. Donnelly, Milwaukee, Wis.

Sigma Delta Kappa (U. of Mich., 1914), C. Hilding Anderson, Ashland Bk., Chicago, Ill.; J. K. Pollock, Jr., Ann Arbor, Mich.

Sigma Nu Phi (Nat., 1903), Carlyle S. Baer, 1719 K St., N. W., Wash., D. C.; Wilbur F. Drown, 1027 12th St., N. W., Wash., D. C.

LEGAL, HONORARY.

Order of the Coif, Dean W. E. Mikell, Univ. of Pa., Philadelphia, Pa.; Prof. W. W. Cook, Yale Univ., New Haven, Ct.

MEDICAL.

Alpha Kappa Kappa (Dartmouth, 1888), Dr. J. P. Sprague, Grinnell, Iowa; Dr. A. B. Landrum, Columbus, Ohio.

MEDICAL.

Alpha Epsilon Iota (U. of Mich., 1890), Dr. M. Warwick, 113 Church St., Minneapolis, Minn.; Miss H. Slaughter, Ann Arbor, Mich.

RHODES SCHOLARSHIPS.

Two Rhodes Scholarships to the University of Oxford are assigned to each State in the Union. The scholarships are tenable for three years and have the value of £300 a year. To be eligible a candidate must be—(a) A citizen of the United States, (b) Over 19 and not over 25 years of age, (c) Above Sophomore standing in some recognized degree-granting university or college in the United States. Candidates may apply either from the State in which they have their ordinary private domicile, home, or residence, or from the State in which they have received at least two years of their college education.

Selections are made on the basis of the candidate's record in school and college supplemented by references of persons who know him and by a personal interview with the Committee of Selection. There is no written examination. Elections are made on the basis of—(1) Qualities of manhood, force of character, and leadership. (2) Literary and scholastic ability and attainments. (3) Physical vigor, as shown by interest in outdoor sports or in other ways. No restriction is placed on a Rhodes scholar's choice of studies. He may read for the Oxford B. A. in any of the Final Honor Schools, he may enter for any one of the so-called Diploma Courses, or, if qualified by previous training, may be admitted to read for advanced degrees such as the B. Sc., B. Litt., B. C. L., or Ph. D.

An election is held each year in two-thirds of the States of the Union. In 1922 one scholar will be elected in Ariz., Conn., Del., Fla., Id., Ill., Ind., Ky., La., Me., Md., Mass., Mont., Nev., N. Hamp., N. Jer., N. Mex., N. York, N. Car., N. Dak., Ohio, Okla., Penn., R. Isl., S. Car., S. Dak., Tenn., Utah, Vt, Va., W. Va., Wyo. Applications were made up to Nov. 1, 1921, and the elections were held in Dec., 1921. Application blanks and further information may be obtained from Pres. Frank Aydelotte, American Secretary to the Rhodes Trustees, Swarthmore College, Swarthmore, Pa., or from any one of the Secretaries of Committees of Selection, a list of which he has. The Secretary for N. Y. State is Dr. Augustus S. Downing, State House, Albany.

The 1920 Rhodes Scholarship for New York State was awarded to Alex. B. Trowbridge Jr., (Cornell University), of Flushing, L. I.

AMERICAN UNIVERSITY UNION IN EUROPE.

Board of Trustees—William R. Castle, Jr., Harvard Univ. (appointed by the Maison des Etudiants); Livingston Farrand, Pres. Univ. of Col.; John H. Finley (appointed by Pres. N. Y. University Club); Frank J. Goodnow, Pres. Johns Hopkins Univ.; A. Ross Hill, Pres. Univ. Mo. (ex-officio, Pres. Assoc. Amer. Universities); Samuel F. Houston, Trustee Univ. Pa.; H. B. Hutchins, Pres. Univ. Mich.; Harry Pratt Judson, Pres. Univ. Chicago; Anson Phelps Stokes, Sec. Yale Univ.; Henry B. Thompson, Trustee Princeton Univ.; John H. Wigmore, Prof. in Northwestern Univ.; James H. Woods, Prof. in Harvard Univ. *Chairman of Trustees*—Anson Phelps Stokes, New Haven, Conn. *Vice Chairman*—H. B. Hutchins, Ann Arbor, Mich. *Secretary*—James H. Woods, Cambridge, Mass. *Treasurer*—Henry B. Thompson, 320 Broadway, New York, N. Y.

THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA.

THE Federal Council of the Churches of Christ in America was established in 1908 by the official action of thirty Protestant denominations in the United States to represent them and act for them in matters of common interest. The bodies thus composing the Federal Council are:

Baptist Churches, North.
National Baptist Convention.
Free Baptist Churches.
Christian Church.
Christian Reformed Church in North America.
Churches of God in N. A. (General Eldership).
Congregational Churches.
Disciples of Christ.
Friends.
Evangelical Synod of N. A.
Evangelical Association.
Methodist Episcopal Church.
Methodist Episcopal Church, South.
African M. E. Church.
African M. E. Zion Church.
Colored M. E. Church in America.
Methodist Protestant Church.
Moravian Church.
Presbyterian Church in the U. S. A.
Presbyterian Church in the U. S. (South).
Primitive Methodist Church.
Protestant Episcopal Commissions on Christian Unity and Social Service.
Reformed Church in America.
Reformed Church in the U. S.
Reformed Episcopal Church.
Reformed Presbyterian Church, General Synod.
Seventh Day Baptist Churches.
United Brethren Church.
United Evangelical Church.
United Presbyterian Church.

The work of the Federal Council is carried on through several important commissions, interdenominational in membership, dealing with various fields of the churches' interest. Through the Commission on Evangelism the evangelistic agencies of the various denominations co-operate in organizing united evangelistic efforts by the churches in communities throughout the country. The Commission on the Church and Social Service carries on extensive educational and research work concerning the church and social questions, particularly emphasizing better industrial relations and organizing conferences between churches and representatives of employers and labor to promote co-operation and a Christian spirit in industry. The Commission on International Justice and Goodwill is pursuing a vigorous programme in behalf of Christian internationalism, stressing at the present time a campaign for the reduction of armament. The Commission on Councils of Churches is responsible for organizing and developing local federations or councils of churches in the larger communities, with a view of making the churches more effective forces in the community life. Other important Commissions deal with Christian Education, Temperance, Negro Churches and Race Relations, Relations with France and Belgium and Relations with Religious Bodies in Europe.

The Central Office of the Council is at 105 East 22d Street, New York City. Offices are also maintained in the Woodward Building, Washington, D. C., and at 19 South La Salle Street, Chicago, Ill. The officers of the Council are: *President*, Robert E. Speer; *Treasurer*, Alfred R. Kimball; *General Secretaries*, Charles S. Macfarland and Samuel M. Cavert. The officers and secretaries of the Commissions are as follows: On *Evangelism and Life Service*, Rev. J. Ross Stevenson, Chairman; Rev. Charles L. Goodell Executive Secretary; on *Christian Education*, Rev. William Adams Brown, Chairman; on the *Church and Social Service*, Shelby M. Harrison, Acting Chairman; Rev. Worth M. Tippy, Executive Secretary; Rev. F. Ernest Johnson, Research Secretary; on *Negro Churches and Race Relations*, John J. Eagan, Chairman; on *Temperance*, Carl E. Milliken, Chairman; on *International Justice and Goodwill*, Dr. John H. Finley, Chairman; Rev. Sidney L. Gulick, Secretary; on *Relations with France and Belgium*, William Sloane Coffin, Chairman; on *Relations with Religious Bodies in Europe*, Bishop James Cannon, Jr., Chairman; on *Councils of Churches*, Fred B. Smith, Chairman; Rev. Roy B. Guild, Executive Secretary.

Italic dioceses are archdioceses. Cardinals, 2; archbishops, 16; bishops, 93; secular clergy, 15,814; religious clergy, 5,829; total clergy, 21,643; churches with resident priests, 10,790; missions with churches, 5,790; total churches, 16,580; seminaries, 113; seminary students, 8,291; colleges for boys, 215; academies for girls, 710; parishes with schools, 6,048; orphan asylums, 295; orphans, 46,777; homes for the aged, 118.

ROMAN CATHOLIC HIERARCHY.

AT the head of the Roman Catholic Church is the SUPREME PONTIFF, BENEDICT XV., Giacomo de Chiesa, born at Genoa, Italy, Nov. 21, 1854; made Archbishop of Bologna, Dec. 18, 1907; Cardin May 25, 1914; elected Pope, as successor of Pius X., September 3, 1914, crowned September 6, 1914. T Pontiff is, in orders, a Bishop. His ecclesiastical title is: His Holiness, the Pope; Bishop of Rome a Vicar of Jesus Christ; Successor of St. Peter, Prince of the Apostles; Supreme Pontiff of the Universal Churc Patriarch of the West; Primate of Italy; Archbishop and Metropolitan of the Roman Province; Soverei or the Temporal Dominions of the Holy Roman Church.

THE COLLEGE OF CARDINALS.

NOTE—The College of Cardinals, when complete, is made up of 70 members, of whom 6 are Cardin Bishops, 50 are Cardinal-Priests, and 14 are Cardinal-Deacons. The College is the Senate of the Rom Church. They advise the Pope and elect his successor. The Cardinal-Bishops take their titles from t Suburban Sees of Rome: Porto and Santa Rufina, Albano, Palestrina, Sabina, Frascati, and Velletri.

NAME.	Office or Dignity.	Nationality	Year of Birth.	Year o Creatio

LATTER DAY SAINTS (MORMONS)—CHURCH MEMBERSHIP, 1916.

(The Church of Jesus Christ of Latter Day Saints, founded in 1830, at Fayette, N. Y., by Joseph Smith, was moved to Kirtland, Ohio, in 1831; thence to Missouri, to Illinois, and, finally, to Salt Lake City. In 1853 a defection became the Reorganized Church of Jesus Christ of Latter Day Saints. In the table statistics appear for both branches.)

AMERICAN ACADEMY OF ARTS AND LETTERS.

The first seven members of the American Academy of Arts and Letters were selected by the National Institute of Arts and Letters from its own body in 1904 by ballot. The seven were William Dean Howells, Augustus Saint-Gaudens, Edmund Clarence Stedman, John La Farge, Samuel L. Clemens, John Hay and Edward MacDowell. In order to become eligible to the American Academy one must first be a member of the National Institute of Arts and Letters. This society was organized at a meeting of the American Social Science Association in 1898. The qualification for membership is stated in the Constitution, "It shall be notable achievement in art, music or literature." The number in the institute is limited to 250, and the election is by ballot.

The American Academy of Arts and Letters numbers fifty members, and the officers are: William Milligan Sloane, Chancellor; Thomas Hastings, Treasurer; Robert Underwood Johnson, 15 W. 81st St., New York City, Secretary.

The following are the living members of the academy, as of Oct. 15, 1921:

John Singer Sargent
Daniel Chester French
James Ford Rhodes
William Milligan Sloane
Robert Underwood Johnson
George Washington Cable
Henry van Dyke
William Crary Brownell
Basil Lanneau Gildersleeve
Woodrow Wilson
Arthur Twining Hadley
Henry Cabot Lodge
Edwin Howland Blashfield
Thomas Hastings
Brander Matthews
Thomas Nelson Page
Elihu Vedder
George Edward Woodberry
George Whitefield Chadwick
George deForest Brush
William Rutherford Mead
Bliss Perry
Abbott Lawrence Lowell
Nicholas Murray Butler
Paul Wayland Bartlett
Owen Wister
Herbert Adams
Augustus Thomas
Timothy Cole
Cass Gilbert
William Roscoe Thayer
Robert Grant
Frederick MacMonnies
William Gillette
Paul Elmer More
Gari Melchers
Elihu Root
Brand Whitlock
Hamlin Garland
Paul Shorey
Charles Adams Platt
Maurice Francis Egan
Archer M. Huntington
Childe Hassam
David Jayne Hill
Lorado Taft
Booth Tarkington

The directors of the academy are: N. M. Butler, Hamlin Garland, Cass Gilbert, Thomas Hastings, A. M. Huntington, R. U. Johnson, Brander Matthews, W. M. Sloane, and Augustus Thomas.

NATIONAL ACADEMY OF DESIGN.

(Founded 1825. Headquarters. 109th Street and Amsterdam Avenue, New York.)

Council.—Edwin H. Blashfield, President; Harry W. Watrous, Vice-President; Charles C. Curran, Corresponding Secretary; Douglas Volk, Recording Secretary; William S. Robinson, Louis Betts, R. I. Aitken, Emil Carlsen, W. P. Granville-Smith, Charles A. Platt.

Address is New York City, unless otherwise stated. Date of election is in parentheses.

Members—Herbert Adams, (1899); Robt. I. Aitken, (1914); Henry Bacon, (1917); Geo. R. Barse, Jr., (1899); Paul W. Bartlett, Wash., D. C., (1917); Batchelder-Evelyn B. Longman, (1919); Gifford R. Beal, (1914); Cecilia Beaux, (1902); Geo. Bellows, (1913); Frank W. Benson, Salem, Mass., (1905); Louis Betts, (1915); Edwin H. Blashfield, (1888); Max Bohm, (1920); Fred A. Bridgman, Abroad, (1881); Arnold W. Brunner, (1916); Geo. de Forest Brush, (1908); Howard R. Butler, Princeton, N. J., (1899); Alex S. Calder, (1913); Emil Carlsen, (1906); Carlton T. Chapman, (1914); F. S. Church, (1885); B. West Clinedinst, (1898); Wm. A. Coffin, (1912); Timothy Cole, Poughkeepsie, N. Y., (1908); Colin C. Cooper, (1912); E. Irving Couse, (1911); Bruce Crane, Bronxville, N. Y., (1901); C. C. Curran, (1904); Elliott Dalgerfield, (1906); W. P. W. Dana, London, (1863); C. H. Davis, Mystic, Conn., (1906); Lockwood de Forest, Santa Barbara, Cal., (1898); Franklin de Haven, (1920); Louis P. Dessar, Lyme, Conn., (1906); Chas. M. Dewey, (1907); Thos. W. Dewing, (1888); Frederick Dielman, Ridgefield, Conn., (1883); Paul Dougherty, (1907); Frank V. DuMond, Briarcliff Manor, N. Y., (1906); Lydia F. Emmet, (1912); Ben Foster, (1904); August Franzen, (1920); Jas. E. Frazer, (1917); Daniel C. French, (1901); Frederick K. Friesecke, (1914); Daniel Garber, Philadelphia, Pa., (1913); Edward Gay, Mt. Vernon, N. Y., (1907); Cass Gilbert, (1908); Chas. Grafly, Philadelphia, Pa., (1905); W. Granville-Smith, (1915); Albert L. Groll, (1910); Hamilton Hamilton, Norwalk, Conn., (1889); Alex. Harrison, Abroad, (1901); Birge Harrison, Woodstock, N. Y., (1910); Childe Hassam, (1906); Thos. Hastings, (1909); Chas. W. Hawthorne, (1911); Robert Henri, (1906); Wm. H. Howe, Bronxville, N. Y., (1897); Geo. Inness, Jr., Cragsmoor, N. Y., (1899); John C. Johansen, (1915); Francis C. Jones, (1894); H. Bolton Jones, (1883); Wm. S. Kendall, New Haven, Conn., (1905); Isidar Konti, Yonkers, N. Y., (1909); F. W. Kost, Brookhaven, L. I., (1906); W. L. Lathrop, New Hope, Pa., (1907); Ernest Lawson, (1917); DeWitt M. Lockman, (1921); Will H. Low, Bronxville, N. Y., (1890).

Frederick W. MacMonnies, (1906); Herman A. MacNeil, College Point, N. Y., (1906); Paul H. Manship, (1916); Geo. W. Maynard, (1885); Wm. R. Mead, (1910); Gari Melchers, (1906); Chas. H. Miller, Queens, L. I., (1875); Richard E. Miller, (1915); Louis Moeller, Wakefield, N. Y., (1894); F. Luis Mora, (1906); Thos. Moran, (1884); H. Siddons Mowbray, Washington, Conn., (1891); Hobart Nichols, (1920); Chas. H. Niehaus, Grantwood, N. J., (1906); Leonard Ochtman, Cos Cob, Conn., (1904); Ivan G. Olinsky, (1919); Walter L. Palmer, Albany, N. Y., (1897); Maxfield Parrish, Windsor, Vt., (1906); DeWitt Parshall, Santa Barbara, Cal., (1917); Joseph T. Pearson, Jr., elect; Joseph Pennell, (1909); Chas. A. Platt, (1911); Edward C. Potter, Greenwich, Conn., (1906); Edward H. Potthast, (1906); Henry Prellwitz, Peconic, N. Y., (1912); A. Phimister Proctor, Los Altos, Cal., (1904); Robert Reid, (1906); Wm. Ritschel, (1914); Wm. S. Robinson, (1911); Charles Rosen, New Hope, Pa., (1917); Fred G. R. Roth, Englewood, N. J., (1906); Carl Rungius, (1920); Chauncey F. Ryder, (1920); John S. Sargent, Boston, Mass., (1897); W. Elmer Schofield, (1907); Aaron D. Shattuck, Granby, Conn., (1861); Geo. H. Smillie, Bronxville, N. Y., (1882); Henry B. Snell, (1906); Robt. Spencer, (1920); Gardner Symons, (1911); Lorado Taft, Chicago, Ill., (1911); Edmund C. Tarbell, Boston, Mass., (1906); William Thorne, (1913); Louis C. Tiffany, (1880); D. W. Tryon, (1891); R. W. Van Boskerck, (1907); Elihu Vedder, Abroad, (1865); Douglas Volk, (1899); Robert W. Vonnoh, (1906); Henry O. Walker, Lakewood, N. J., (1902); Horatio Walker, (1891); Henry W. Watrous, (1895); Frederick J. Waugh, Kent, Conn., (1911); Adolph A. Weinman, (1911); John F. Weir, Providence, R. I., (1866); C. D. Weldon, (1897); Carlton Wiggins, Lyme, Conn., (1906); Irving R. Wiles, (1897); Frederick B. Williams, (1909); Chas. H. Woodbury, Boston, Mass., (1907); George H. Yewell, (1880); Cullen Yates, (1919).

Associates—Wayman Adams; Thos. Allen, Boston, Mass.; Karl Anderson; Grosvenor Atterbury; Wm. J. Baer; Hugo Ballin; Chester Beach; Reynolds Beal, Old Lyme, Conn.; E. A. Bell; Frank A. Bicknell; Chas. Bittinger; Ernest L. Blumenschein, Taos, N. M.; Mary G. Blumenschein, Taos, N. M.; Geo. H. Bogert; Adolph Borie; Solon H. Borglum, Norwalk, Conn.; Wm. A. Boring; Joseph H. Boston; Wm. W. Bosworth; Robert B. Brandegee, Farmington, Conn.; Hugh H. Breckenridge, Philadelphia, Pa.; Miss Fidelia Bridges, Canaan, Conn.; Geo. E. Browne; Bryson Burroughs; John F. Carlson, Woodstock, N. Y.; Chas. S. Chapman, Leonia, N. J.; Adelaide C. Chase, Boston, Mass.; Eliot Clark; Ralph Clarkson, Chicago, Ill.; C. C. Coleman, Capri, Italy; Charlotte B. Coman; Paul Cornoyer, Gloucester, Mass.; Wm. Cotton; Louise Cox; Thos. B. Craig, Rutherford, N. J.; Arthur Crisp; Cyrus E. Dallin, Arlington Heights, Mass.; Francis Day, West Stockbridge, Mass.; W. H. Drake; Edward Dufner; L. C. Earle, Grand Rapids, Mich.; Abastenia St. L. Eberle; Rudolph Evans; Wm. B. Faxon; Anna Fisher; John Flanagan; John F. Folinsbee, New Hope, Pa.; Will H. Foote, Old Lyme, Conn.; Kenneth Frazier; J. H. Freedlander; Sherry E. Fry; Henry B. Fuller, Windsor, Vt.; Lucia F. Fuller, Madison, Wis.; I. M. Gaugengigl, Boston, Mass.; Robert D. Gauley; Lillian M. Genth; Chas. Dana Gibson; Howard Giles; Wm. J. Glackens; Bertram C. Goodhue; Edmund Graecen; Frank R. Green; Walter Griffin, Portland, Me.; Oliver D. Grover, Chicago, Ill.; Jules Guerin; Ben Ali Haggin; Philip L. Hale, Boston, Mass.; Wm. J. Hays, Millbrook, N. Y.; Albert Herter; Laura C. Hills, Boston, Mass.; Chas. L. Hinton, Bronxville, N. Vonnoh; H. M. Walcott, Rutherford, N. J.; C. Howard Walker, Boston, Mass.; Harry F. Waltman; Everett L. Warner, Lyme, Conn.; J. Louis Webb; William Wendt, Los Angeles, Cal.; Wm. J. Whittemore; Guy Wiggins, Lyme, Conn.; Chas. M. Young, Radnor, Pa.; Mahonri Young, Leonia, N. J.

THE ROYAL ACADEMY OF ARTS.

THE Royal Academy of Arts, Burlington House, London, was founded in 1768. It holds yearly exhibitions (May-Aug.) of the works of living artists. There were, at last accounts, 43 Royal Academicians and 27 Associates. *President*—Sir Aston Webb. *Secretary*—W. R. M. Lamb.

THE ALFRED B. NOBEL PRIZES.

THE Swedish scientist Alfred B. Nobel, the inventor of dynamite, died in 1896, bequeathing his fortune, estimated at $9,000,000, to the founding of a fund, the interest of which should yearly be distributed to those who had mostly contributed to the benefit of mankind improvement during the year immediately preceding.

The Board of Directors of the Nobel Foundation, exclusively consisting of Swedes, must reside in Stockholm. The board has in its care the funds of the institution, and hands yearly over to the awarders of the prizes the amount to be given away. The value of each prize is on an average $40,000.

WASHINGTON ON RELIGION AND MORALITY.

(Extract from an address on retiring from the public service of the United States.)

"Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. In vain would that man claim the tribute of patriotism who should labor to subvert these great pillars of human happiness, these firmest props of the duties of men and citizens. The mere politician, equally with the pious man, ought to respect and to cherish them. A volume could not trace all their connections with private and public felicity. Let it simply be asked, where is the security for property, for reputation, for life, if the sense of religious obligation desert the oaths which are the instruments of investigation in courts of justice? And let us with caution indulge the supposition that morality can be maintained without religion. Whatever may be conceded to the influence of refined education on minds of peculiar structure, reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principles.

"It is substantially true that virtue or morality is a necessary spring of popular government. The rule, indeed, extends with more or less force to every species of free government. Who that is a sincere friend to it can look with indifference upon attempts to shake the foundation of the fabric?

"Promote, then, as an object of primary importance, institutions for the general diffusion of knowledge. In proportion as the structure of a government gives force to public opinion it is essential that public opinion should be enlightened.

"Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened and, at no distant period, a great nation to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of time and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?"

ODD FELLOWS, INDEPENDENT ORDER OF.

OFFICERS of the Sovereign Lodge: *Grand Sire*—Joseph Oliver, Toronto, Can. *Grand Secretary*—J. Edward Krowe, Baltimore. Total membership in the order, in the world, 2,570,965, of which 1,933,735 are males. There are 17,165 lodges, and 3,500 subordinate encampments, the latter having 318,332 members. The number of Rebekah Lodges is 9,632, with a membership of 925,840. They are women. The total amount of relief paid out in 1920 was $7,941,914.

The New York State Officers are: *Grand Master*—Edward C. Conway, 36 State Street, Albany. *Grand Secretary*—Harry Walker, 31 Union Sq. West, N. Y. City. Membership in the Empire State, as of Jan. 1, 1921, was 927 lodges, with 146,610 members. Rebekah lodges numbered 600. Relief paid out in the State in 1920 was $496,769.

MOOSE, LOYAL ORDER OF.

Director General—James J. Davis, Washington, D. C. *Supreme Dictator*—James F. Griffin, Boston, Mass. *Supreme Secretary*—Rodney H. Brandon, Mooseheart, Ill. Instituted 1888. Lodges, 1,669; members, Loyal Order of Moose, 558,057; women of Mooseheart Legion, 32,570; Junior Order of Moose, 5,178; total, 595,805.

New York Lodge, No. 15: *Dictator*—P. A. Shanor, 1465 Broadway. *Secretary*—John W Brophy, 101 W. 127th St.

RULES IN CASE OF FIRE.

CRAWL on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Familiarize yourself with the location of hall windows and natural escapes. Learn the location of exits to roofs of adjoining buildings. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Should you hear cry of "fire," and columns of smoke fill the rooms, above all KEEP COOL. Keep the doors of rooms shut. Open windows from the top. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke. Stand at a window and get benefit of outside air. If room fills with smoke keep close to floor and crawl along by the wall to the window.

Do not jump unless the blaze behind is scorching you. Do not even then if the firemen with scaling ladders are coming up the building or are near. Never go to the roof, unless as a last resort and you know there is escape from it to adjoining buildings. In big buildings fire always goes to the top. Do not jump through flame within a building without first covering the head with a blanket or heavy clothing and gauging the distance. Don't get excited; try to recall the means of exit, and if any firemen are in sight DON'T JUMP.

If the doors of each apartment, especially in the lower part of the house, were closed every night before the occupants retired there would not be such a rapid spread of flames.

AMERICAN LEPER COLONIES.

On January 1, 1921, the U. S. Government established a Home for Lepers at Carville, La.; having taken over the State Home for Lepers previously located at that place.

The following institutions are under the control of Municipal, State, Territorial, or Insular Authorities: San Francisco, Cal., Leper Home; administered by the Health Officer, San Francisco, Cal.

Massachusetts Leper Station, Penikese Island, Mass.; administered by the State Commissioner of Health, Boston, Mass.

County Hospital, Leper Ward, Los Angeles, Cal.

Hawaiian Leper Colony, Molokai, H. T.; administered by the Secretary, Territorial Board of Health, Honolulu, H. T.

Philippine Leper Colony, Culion Island, P. I.; administered by the Director of Health, Manila, P. I.

Porto Rico Leper Colony, Cabras Island, P. R.; administered by the Insular Director of Sanitation. San Juan, P. R.

Panama Leper Colony, Canal Zone; administered by the Director of Sanitation.

The number of lepers in the world is estimated at over 1,000,000 and under 2,000,000. India has the most, with China second, and Africa third.

THE AMERICAN RED CROSS.

(Contributed by the organization, Oct. 27, 1921.)

THE American Red Cross operates under its charter by act of Congress of Jan. 5, 1905, "to furnish volunteer aid to the sick and wounded, or armies in time of war in accordance with the conventions of Geneva; to act in matters of voluntary relief and in accord with the military and naval authorities as a medium of communication between the American people and their army and navy; to continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the suffering caused by pestilence, famine, fire, floods and other great national calamities, and to devise and carry on measures for preventing the same."

Warren G. Harding is President of the American Red Cross and John Barton Payne is Chairman of the Central Committee, the governing body composed of eighteen persons, six of whom represent the Federal Government. National Headquarters is located at Washington, D. C., and from it the activities of 3,452 chapters are directed through nine divisional headquarters. From National Headquarters also relief operations in foreign countries are directed.

All accounts of the American Red Cross are audited by the War Department through which also there is submitted to Congress the annual report of the society. This report for the last fiscal year shows that in addition to its famine relief operations in China the organization carried on relief operations in fourteen European countries. The report also shows that 2,309 Red Cross chapters were assisting disabled World War veterans and their families in addition to which the National organization maintained 448 Red Cross workers in Government hospitals to assist War Risk patients. Members of the army and navy were served by the Red Cross at 264 posts and stations.

During the year the Red Cross administered emergency relief and assisted in the rehabilitation of victims in forty-three disasters. Public Health nurses were maintained by 1,035 chapters; health centres by 351; other health activities by 374; first aid classes by 380; life-saving classes by 205; home hygiene and care of the sick classes by 757; food selection classes by 303. Volunteers gave a variety of services in 1,502 chapters while by 708 chapters Red Cross home service was extended to assist the civilian population. The expenditures by National Headquarters of the Red Cross during the fiscal year ended June 30, 1921, and budget for the fiscal year ending June 30, 1922:

	Expenditures, Fiscal Year 1920-1921.	Budget, Fiscal Year 1921-1922.
Child health programme in Europe	$1,176,327.31	$6,000,000.00
Other relief in foreign lands	13,967,064.07	4,978,859.63
Work for disabled ex-service men and women	2,692,094.86	3,669,256.35
Service and assistance to the chapters and their branches	3,323,676.93	2,126,094.86
Disaster relief	271,244.07	543,976.43
Regular army and navy hospital and other service	496,242.36	469,600.00
Assistance to allied organizations, appropriated and reserved	123,096.56	306,723.99
Other activities (including contributions restricted for special purposes)	1,415,209.79	498,546.41
Management	1,027,785.40	768,600.00
Total	$24,492,741.35	$19,361,657.67

Revenues of National Headquarters during the fiscal year ending June 30, 1921, were $14,382,353.29, or $10,110,388.06 less than expenditures. There having been at the beginning of the fiscal year a balance of $43,518,157.99, there was on June 30, 1921, a balance of $33,507,769.93. There having been budgeted for the fiscal year ending June 30, 1922, $19,361,657.67 and $10,912,325.00 set aside for continuing certain specified activities for June 30, 1922, there remained June 30, 1921, unallotted funds totalling $3,233,787.26, in addition to which there were total endowments and a general reserve totalling $7,581,658.37. The foregoing figures do not include chapter revenues and expenditures.

The membership of the American Red Cross at the end of the last fiscal year was 5,804,857, of whom 32,787 were life and patron members and the remainder enrolled during the last previous Roll Call.

BEE WINE."

(By R. V. Wadsworth in the Manchester (England) Guardian.)

THE "bees" which make the wine are really a combination of two lowly organisms, a yeast, Saccharomyces pyriformis, and a fission fungus, Bacterium vermiforme. The first produces the fermentation of the sugar, forming alcohol, and the second makes the jelly-like mass in which the yeast cells are embedded (which latter can be clearly seen under the microscope). The production of "bee wine" is consequently just a fermentation with yeast, as in the production of all alcoholic drinks. It is said that there is more lactic acid produced by this than by the yeast Saccharomyces cerevisiæ, used in the production of beer, and to this is perhaps due the many medicinal properties often claimed for the wine.

THE SALVATION ARMY.

(Prepared by that Organization.)

National Headquarters, 122 West 14th Street, New York City.

IN 1920 the United States branch of the movement underwent a thorough reorganization. Three territories were created, with headquarters respectively in New York, Chicago and San Francisco—Commissioner Thomas Estill being placed in charge of the Eastern territory, with Col. Richard Holz as Chief Secretary; Commissioner William Peart in charge of the Midwest territory, with Col. Sidney Gauntlett as his Chief Secretary; and Lieut.-Commissioner Adam Gifford in charge of the Western territory, with Col. William Turner as Chief Secretary. Separate editions of the War Cry were published in each territory. Commander Evangeline Booth remains in general charge of the work in the entire country.

International officials—William Bramwell Booth, eldest son of the founder of the Salvation Army, is General of the entire organization, the international headquarters being in London, England. His wife Mrs. Bramwell Booth, has charge of the work in the British Isles. Next in rank comes Commissioner Edward J. Higgins, Chief of the Staff, who some years ago was Chief Secretary for the work in the United States of America.

The Salvation Army in the United States has (as of year ending Sept. 30, 1920) 1,036 corps and outposts; 3,649 officers and cadets; 52 hotels for men, 3 for women and 4 boarding houses for young women—total accommodations, 5,646; beds supplied, 1,555,546; meals supplied, 494,513; 82 industrial homes, with accommodations for 2,118, and 1,260,032 meals and 420,743 beds supplied; 3 children's homes, with accommodations for 440, and 130,029 beds and 394,548 meals supplied; 19 slum posts and nurseries, with 72,300 children sheltered in a year; 26 rescue homes and maternity hospitals, with accommodations for 1,572 and 4,481 girls and 1,180 children admitted; Christmas dinners for 288,766, and toys for 125,231 children; $56,181 persons afforded temporary relief outside industrial homes and hospitals; outside employment found for 52,219 men and 13,034 women; 257,026 lbs. of ice and 3,043,418 lbs. of coal distributed.

A. work, 6,261; local officers (senior and junior), 71,419; bandsmen (senior), 26,181 bandsmen (junior) 6,417; songsters, 27,805; corps cadets, 17,384; periodicals issued, 82, total copies per issue, 1,384,990.

THE KNIGHTS OF COLUMBUS.

(By John B. Kennedy of K. of C. Headquarters.)

THE Knights of Columbus—the leading Catholic laymen's organization in the world—was founded by Rev. P. J. McGivney in 1882 in St. Mary's parish, New Haven, Conn. From an original membership of eleven it grew from city to city in Connecticut and then from State to State and beyond national boundaries, until its membership is more than 800,000 and it operates in the United States and its possessions in Canada, Newfoundland, Mexico and Cuba. It has more than 2,000 councils, many of which own club buildings and are governed by State jurisdictions, of which there are 55, and by a Supreme Council composed of elected State representatives, while executive power is vested in a board of directors. The primary object of the Knights of Columbus is to associate Catholic men for religious and civic usefulness. There are four degrees of membership, none of which has any secret or oath-bound stipulation—the competent ecclesiastical and civic authorities being empowered to demand and receive the degree work of the order.

The Knights have maintained since their inception an insurance feature for members. Insurance on members now in force approximates $250,000,000. The solvency of the order, as measured by actuarial standards, is over 126 per cent. Non-insurance members are associates. The order was originally made up of only insurance members. Previous to their emergence into general public notice as an agency of war welfare work the Knights had done educational and social work. They founded the first chair of American history in this country—at the Catholic University, Washington—and they endowed the same university with $500,000 for fifty scholarships in perpetuity. State and local councils also supported educational and social work. The Knights aided the victims of many catastrophes.

An important work of the Knights has been their nine-year fight against extreme radicalism through the medium of public forums. Lecturers have been sent through the country to combat materialistic Socialism. This work has met with success and is being continued. The K. of C. first entered war welfare work in the Spanish-American War. When the war with Germany started they raised $1,500,000 among their members and began at the cantonments at home. Later, on Gen. Pershing's invitation, the Knights went overseas and there, as well as at home, supported by a fund of $14,000,000 donated by people of all classes, they carried on an intensive and extensive work.

In all, the Knights received approximately $40,000,000 from the American people. With the balance remaining at the conclusion of active war work, they financed a Nation-wide chain of employment bureaus, finding work for 500,000 former service men at a minimum wage of $20 per week; they awarded 416 free college scholarships to former service men in institutions like Yale and Georgetown, and inaugurated a Nation-wide chain of free night schools for service men and women, with nominal charges for civilians. These schools graduated 40,000 pupils last year. There are more than 100 of them in operation, teaching technical, business and citizenship courses. The balance of the war camp fund on hand is for use in continuing the educational work in hand and in conducting hospital relief work for the ex-service men in the public health service hospitals, the Knights of Columbus having been specially designated to co-operate with the Red Cross in providing for the comfort and entertainment of these men for whom the war is not yet over.

The Knights' latest public move has been the decision to undertake compiling a complete history of the United States.

THE NATIONAL HEALTH COUNCIL.

THE National Health Council is an organization composed of the nine leading national voluntary health agencies of this country, together with the United States Public Health Service as a conference member. The members are as follows: American Public Health Association, American Red Cross, American Social Hygiene Association, Conference of State and Provincial Health Authorities of North America, Council on Health and Public Instruction of the American Medical Association, National Child Health Council, National Committee for Mental Hygiene, National Organization for Public Health Nursing, National Tuberculosis Association, United States Public Health Service (conference member).

The officers of the council are: *Chairman*—Dr. Livingston Farrand. *Vice-Chairman*—Dr. L. K. Frankel. *Recording Secretary*—Dr. S. J. Crumbine. *Treasurer*—Dr. W. F. Snow. Each member organization elects a representative and an alternate to serve on the Council. The Surgeon General represents the United States Public Health Service. The American Child Hygiene Association, the Child Health Organization of America, and the National Child Labor Committee are indirectly members through their affiliation with the National Child Health Council.

GRAND ARMY OF THE REPUBLIC.

Commander-in-Chief—Lewis S. Pilcher, Brooklyn. *Senior Vice-Commander-in-Chief*—Robert W. Mo-ide, Indianapolis.

A. interests itself in the City Student, Town and Country Associa-ns throughout the United States and its Territories, and through its Foreign and Overseas Department orks with other members of the World's Committee of the Y. W. C. A. in carrying on Association work the women and girls in Europe, the Near East, the Orient, and South America. Work in the Oriental ntries is undertaken by the Association only upon the invitation of the Mission Boards already working he country. At present, work is being carried on under this department in 15 countries, with a staff 24 Secretaries.

THE Y. W. C. A. IN THE UNITED STATES.

There are in the United States 1,075 affiliated Y. W. C. A.s, with 119 branches. The Y. W. C. A.s of United States have a membership of 559,000, real property amounting to over $20,500,000 and gross gets for 1921 of over $19,000,000, about 75% of which is met by earnings from cafeterias, classes, board-homes, etc. The National Board during 1920 expended upon its regular work $3,599,750, of which 4,040 was used in promoting Y. W. C. A. work in China, Japan, India and South America. The National rd has endowment yielding approximately $100,000 interest annually and income-producing features, h in 1920 brought in $897,197.

Under the Continuation Committee of the National War Work Council, there was still going on during) and 1921 certain work of post-war significance, financed by the balance of sums originally appropriated this work from war work funds. During 1920, $3,314,601 was so expended in the United States and ope, leaving a balance of $2,416,998 to be used in 1921. The slogan of the Association is "In Service for Girls of the World." This service to the girls and women of America has been through local Associations taining Industrial Club Centres, International Institutes for Foreign Born Women, Associations on dent Campuses, Associations among Indian girls, colored girls, clubs for business and professional women, in high schools and business, offering to all of these educational, recreational and health programmes, on the religious ideas of the Association.

THE Y. W. C. A. IN NEW YORK CITY.

It has in New York City 13 Association residences, offering comfortable, clean and homey rooms at oderate price. These have 1,159 beds and during 1920 53,086 girls were housed. 22,725 girls found ings through the Y. W. C. A. Rooms Registry Service during the year 1920. There are 11 cafeterias dining rooms, including those connected with residences, which furnish wholesome, inexpensive food. 920 the Association served 1,229,465 meals. Y. W. C. A. bureaus for employment and vocational ice in 1920 placed 14,442 girls in positions; 1,111 girls attended Y. W. C. A. educational classes covering e than 45 subjects as varied as stenography, Spanish, domestic science and costume designing; foreign women and girls of 26 nationalities availed themselves of the services of baby clinics and employment rtments and joined language classes and recreational activities of the International Institutes. Musical s, hiking clubs, and social clubs had a membership of 8,460 girls in 1920. Gymnasium classes were nded by 8,474; swimming pools were used by 45,076; 43,404 girls were present at Y. W. C. A. religious es and summer conferences.

Officers of the Metropolitan Board, 1921, are: Mrs. William Fellowes Morgan, President; Mrs. am W. Rossiter, Vice-President; Mrs. Edward Perry Townsend, Acting Secretary; Mrs. Will Henry s. Treasurer; Mrs. Warren A. Ransom, Assistant Treasurer.

YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA.

THE INTERNATIONAL COMMITTEE.

GENERAL offices, 347 Madison Avenue, New York City. Officers: *Chairman*, Alfred E. Marling. *Vice Chairmen*—James W. Speers, Roger H. Williams, William D. Murray, Abner Kingman. *Treasurer*—B. F. Fancher. *General Secretary*—John R. Mott. *Consulting General Secretary*—Richard C. Morse. The International Committee was incorporated April 16, 1883. It is now composed of an authorized membership of 200 representative business men scattered throughout North America. It is the agent of the International Convention of Young Men's Christian Associations, charged with encouraging, promoting and supervising Christian welfare work among men and boys.

The Home Division concerns the work in United States and Canada and includes the following eleven departments: City, county, student, transportation (railroad), army and navy, colored, industrial, boys' physical, educational and religious. Regional divisions: Eastern, Central, Southern, Western and Pacific. The Overseas Division includes the work in its relation to the many local and national organizations in foreign lands. The General Service Division includes the work of the six bureaus as they serve the interests of both the Home Division and the Overseas Division—Association Men, Association Press, Business Building, Personnel, Records.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION IN NORTH AMERICA.

Under the supervision of the International Committee in North America, there are (Sept. 1, 192 2,120 local Young Men's Christian Associations, 5,722 employed officers including vacancies; 97,6 directors and volunteer committee men; 935,581 members, of which 219,376 are boys. The total net proper and funds paid in is $140,821,300; contributions toward current expenses, $10,364,600; and the total o erating expenditures $47,814,400. These financial figures do not include any war work data. The servi of the association to men and boys includes a great variety of activities, among the more important which are 69,118 socials and entertainments; 84,718 situations or positions secured through the employme section; 342,852 different men and boys were registered in the regular gymnasium classes; 121,945 differe men and boys enrolled in the educational courses; 180,808 in the regular courses in Bible study; 35,6 decisions for the Christian life; and 10,909 united with the church of their choice.

OVERSEAS (FOREIGN) WORK.

The foreign work of the International Committee which began in the mission fields following the I ternational Convention of 1881 has developed so that for its work the past year it has required a budg of $1,467,396. Associations in foreign lands that are closely related to the International Committee ha over 600 employed secretaries, 206 of whom are maintained by the International Committee. The fi foreign association was organized at Tungchow College, China, in 1885, and the permanent work has spre to 20 different countries under the direction of the International Committee (not including the war wo of the National War Work Council in 44 countries, nor the foreign work of the British National Counc Permanent association work in any country is undertaken only in response to the call of the missionar of that country.

NATIONAL WAR WORK COUNCIL.

The National War Work Council of the Young Men's Christian Associations, organized April 28, 19 for Christian welfare work among American soldiers, sailors and marines in the World War, completed work and was dissolved March 8, 1921. It is replaced by a Board of Trustees of 10 men which is responsi to the International Committee and the International Convention. For this welfare service in the w friends of young men gave over $167,000,000 and over 25,000 men and women Y workers sacrificially serv the men in the war both at home and abroad. In this great work, covering nearly four years, $158,000,(was expended. The $9,000,000 balance was divided into two parts—one-half being set aside for any ot national emergency during the next three years, and the other half to be used for buildings and equipm for men in the American Army and Navy. The International Committee is continuing this war serv in the army of occupation, among prisoners of war, and among the allied armies of many nations.

UNAUTHORIZED STRIKES. WAR STRIKES.

In 1917, 72; 1918, 58; 1919, 125; 1920, 251. The "outlaw" strikes of 1919 involved 1,053,256 wo in 1920, they affected 850,837.

Between April 6, 1917, the date of America's entrance into the war, and Nov. 11, 1918, the da signing the armistice, 6,205 strikes and lockouts occurred.

NUMB. OF TRADE UNIONISTS IN THE WORLD.

The International Labor Office of the League of Nations estimates the total number of membe labor unions at 32,680,000, as against 10,835,000 in 1910. The estimate covers the 20 chief countries world

Germany (1921), 9,700,000, including: Metal wo 's, 1,700,000; agricultural workers, 750,000 tory workers, 700,000; transport workers, 640,000; textile workers, 650,000; building trades, 430,430; workers 400,000; railway men, 400,000; woodworkers, 370,000; salaried employees, 567,000; mun workers, 269,915; tailors, 136,000.

Great Britain (1919) 5,436,000, including: Mining, quarrying, 890,000; railways, 535,000; transport, 335,000; iron and steel, 140,000; engineering and foundry, 556,000; shipyards, 170,000; bull woodworking, 280,000; printing and paper, 100,000; cotton textiles, 350,000; other textiles, 140,000; shoe, leather, 100,000; clothing, 95,000; food trades, 40,000; distributing trades, 170,000; agriculture, 80 clerks and agents, 65,000; government employees, 200,000; general labor, 970,000; women workers, 60, miscellaneous trades, 160,000.

Austria (1919) 378,000 paying members in Fed. of Trade Unions.

Netherlands (1919) 373,000, including: National Federation of Trade Unions, 191,000; Ro Catholic Federation of Trade Unions, 92,000; Evangelical Federation of Trade Unions, 46,000; Nat Labor Secretariat, 34,000; Non-partisan Federation of Trade Unions, 34,000. The Dutch Federatic Trade Unions (1920) reported 248,000 members, including many of above.

Czecho-Slovakia (1919) 500,000, of which 98,000 were women. In the list are: Metal workers, 95 agriculture, 90,000; miners, 50,000 railroad, 42,000; unskilled, 36,000; textile, 30,000; building tr 12,000; woodworkers, 15,000; glass workers, 13,000.

Denmark (1920) 360,000, of which 277,000 were affiliated with the Danish Trade Union Associa

Switzerland (1919) 210,000, affiliated with the Central Association.

Hungary (1919) 500,000. Many of the trade unions, alleged to be radical, were dissolved by Kun, and their reorganization under the succeeding administration has been slow.

Australia (1920) 582,000, including: Rail, 75,000; shipping, 50,000; agriculture, 44,000; metal wor 47,000; food, drink, tobacco, 41,000; building, 36,000; mines and quarries, 36,000; clothing, 30,000.

WHAT A WORKER CAN DO.

(From a bulletin of the Woman's Bureau, U. S. Dept. of Labor.)

A TELEPHONE operator's average daily hours are eight and one-half, but what with overtime, Su work, "working through," loss of relief, or "excess loading," these are often exceeded. Two hundred twenty-five calls per hour, or three and one-half per minute, seems an example of real "speed," an the "peak load" often exceeds this.

In the needle trades a girl tends a sewing machine carrying 12 needles making 4,000 stitches a mi or 2,400,000 in 10 hours, often working in a bright light and with unshaded eyes, and amidst a deafening

In the pea-canning industry a girl inspects two cans of peas per second or 72,000 per day. The ca place the caps on the cans at the rate of 60 to 80 per minute.

In the shoe industry a workman revolves the shoe in such manner as to trim off the crimped su leather from the "upper." His task is 5,200 shoes a day.

In the eyeletting department of the shoe industry an expert worker can finish 2,000 pairs of wo shoes in one day. Each of these shoes has as many as 12 holes irregularly spaced making 48,000 ey per day.

AMERICAN FEDERATION OF LABOR.

Executive Council—President, Samuel Gompers; Secretary, Frank Morrison; Treasurer, Daniel J. bin, 222 E. Michigan St., Indianapolis, Ind.; First Vice-President, James Duncan, 25 School Street incy, Mass.; Second Vice-President, Jos. F. Valentine, Commercial Tribune Bldg., Cincinnati, Ohio. ird Vice-President, Frank Duffy, Carpenters' Bldg., Indianapolis, Ind.; Fourth Vice-President, William een, 1102-8 Merchants' Bank Bldg., Indianapolis, Ind.; Fifth Vice-President, W. D. Mahon, 104 East gh Street, Detroit, Mich.; Sixth Vice-President, T. A. Rickert, 175 West Washington Street, Chicago, ; Seventh Vice-President, Jacob Fischer, 222 East Michigan Street, Indianapolis, Ind.; Eighth Vice sident, Matthew Woll, 6111 Bishop Street, Chicago, Ill.

Headquarters, A. F. of L. Building, Washington, D. C.

In the Federation are 111 national and international unions, representing 34,000 local unions, 5 de tments, 49 State branches, 983 city centrals, and 799 local trade and Federal labor unions.

The building trades, metal trades, mining, railroad and union label trades departments are all at shington.

STATE BRANCHES, A. F. OF L.

State branches and central bodies of the A. F. of L. are maintained for legislative and educational poses, and they have no power to call strikes or negotiate wages or working conditions. Following the chief officers of the State branches:

bama. Lewis Bowen, Birmingham.
zona. Thos. A. French, Phoenix.
ansas. L. H. Moore, Fifth and Scott Streets, Little Rock.
ifornia. Paul Scharrenberg, 525 Market Street, an Francisco.
orado. Ed Anderson, Denver.
necticut. I. M. Ornburn, 215 Meadow Street, New Haven.
aware. Fred W. Stierle, Wilmington.
rida. W. P. Mooty, Miami.
rgia. Loule P. Marquardt, Atlanta.
ho. Al Reynolds, Labor Temple, Boisé.
ois. Victor A. Olander, 164-166 West Washington Street, Chicago.
iana. Adolpn J. Fritz, United Building, Indianapolis.
a. Earl C. Willey, Sioux City.
sas. William Howe, Topeka.
tucky. Peter J Campbell, Louisville.
isiana. Ernest H. Zwally, Shreveport.
ne. H. B. Brawn, Augusta.
ryland-District of Columbia. Henry Broening, American Building, Baltimore.
ssachusetts. Martin T. Joyce, Emberton Building, Boston.
higan. John J. Scannell, Detroit.
nesota. George W. Lawson, 75 West Seventh Street, St. Paul.
sissippi. Jos. W. Jones, Meridian.
Missouri. J. W. Wines, St. Joseph.
Montana. J. T. Taylor, Helena.
Nebraska. Frank M. Coffey, Labor Bur., Lincoln.
Nevada. E. C. Mulcahy, Sparks.
New Hampshire. Chas. H. Bean, Jr., Franklin.
New Jersey. Henry F Hilfers, Newark.
New Mexico. C. P. Fisher, Gallup.
New York. Edw. A. Bates, Jones Building, Utica,
North Carolina. C. G. Worley, Asheville.
North Dakota. N. M. Aune, Grand Forks.
Ohio. Thomas J. Donnelly, Ferris Building, Columbus.

West Virginia, M. V. Brown, Pliny.
Wisconsin, Mrs. Edith K. Relk, Rhinelander.
Wyoming, Miss Margaret Bundy, Burns.

WORKMEN'S COMPENSATION LAWS OF STATES AND TERRITORIES.

(Summary of Georgia's 1921 law is on page 304.)

Note—Injuries covered as a rule are personal injuries arising out of and in course of employment nor ue to wilful intention to injure self or another, or to intoxication. Maine adds unless habit of ntoxication was known to the employer. Colorado, Massachusetts, Michigan, Oregon, Pennsylvania, Vashington, Wisconsin, and Wyoming do not specify intoxication as an exception. Illinois, Montana, nd Ohio make no exception, neither wilful injury nor intoxication. Delaware, Indiana, Kansas, Louisiana, outh Dakota, Oklahoma, Virginia, and Vermont make an exception also of employee's failure to use asonable safety appliances. Delaware, Hawaii, Idaho, and New York include diseases contracted as sured against. Kentucky excepts results of pre-existing diseases. Arizona covers injuries caused by illure of employer or his agents to exercise due care or to comply with any law affecting the employment. tah includes injuries occurring outside of the State, and injuries caused by the wilful act of a third person rected against an employee because of his employment. Oklahoma does not cover fatal injuries.

Claims for awards are not assignable, as a rule, are generally exempt from execution, and are not subject attachment or garnishment.

Payments to widows, or widowers, usually end at remarriage; and end to children when they reach years.

ALASKA, 1915.

Administrative System—The courts. **Security for Compensation**—Attachment pending action, employer may deposit cash or bond with court. **Employments Covered**—Elective, as to mining erations having five or more employees. **Waiting Period**—Two weeks. **Medical and Surgical ovisions**—Only in fatal cases involving no dependents, maximum, $150. **Compensation for Dis-ility; Total.** (a) **Temporary:** (b) **Permanent**—(a) 50% of wages during disability, maximum, 6 nths. (b) $3,600; $1,200 additional for wife, and $600 for each child under 16; if single, $600 for each pendent parent, maximum, $6,000. **Partial.** (a) **Temporary**—(a) 50% of wages; maximum period, months; maximum amount, $4,800. If permanent, lump sums proportioned to number of dependents, nging from $120 to $3,000, less payments for temporary disability. **Death Benefits; (a) Dependents. No Dependents**—(a) $3,000 to widow or minor orphan; $600 to each child under 16 and to dependent rents, maximum, $6,000; if single, $1,200 to each dependent parent. (b) $150 for burial; $150 for other penses between death and burial.

ALABAMA, 1919.

(To take effect January 1, 1920.)

Adm. Sys.—Circuit Courts with appeal to Supreme Court, and Insurance and Compensation Commissioners. **Sec. for Comp.**—Right to compensation, and award has same preference as other unpaid ges. **Employ.**—Where sixteen or more are regularly employed, excluding casuals, domestic servants, m laborers, common carriers engaged in interstate commerce, and municipalities (cities, towns, villages, ool districts); but municipalities and employers of less than sixteen may elect to come under provisions act. **Wait.**—Five days. **Med. and Surg.**—Reasonably necessary medical and surgical treatment l attention, medicine, supplies, and apparatus during first sixty days of disability, not to exceed $100. **mp. for Dis.: Temp. Shares lapsing redistributed. Orphan children or t abandoned by surviving parent continue to receive benefit until 16 even beyond 285 weeks. Wage computing death benefits reckoned as not less than $10, nor more than $30 per week.

HAWAII, 1917.

Adm. Sys.—Industrial Accident Boards for each county; appeals to courts. **Sec. for Comp.**—I ments are preferred the same as wage claims. Employees have direct recourse to insuring comp Insolvency of employer does not release insurer. **Employ.**—All public and all industrial employm for pecuniary gain. **Wait.**—Seven days. **Med. and Surg.**—Reasonable surgical, medical and hos services during disability, not exceeding $150; $100 funeral expenses if death within 6 months. **Comp for Dis.; Total**—Sixty per cent. of weekly wages, $3 minimum, $18 maximum, for not longer than weeks; total not to exceed $5,000. If wages are less than $3, full wages will be paid unless disabilit permanent, when $3 will be paid. **Partial**—Fifty per cent. of wage decrease, $12 maximum, not 312 weeks; total not to exceed $5,000. Fixed awards for specified injuries in lieu of all other bene Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To widow or depen widower alone, 40% of average weekly wages; if one or two dependent children, 50%; if three or m 60%; 30% to one or two orphans; 10% additional for each child in excess of two; total not to exceed 5 If no consort or child, but other dependents, 25% to 40%. Payments to widow to cease on death or re riage, and to widower on termination of disability or remarriage; to children reaching 16, unless incap of self-support, then to 18; to other beneficiaries on termination of disability. No payments exce children for more than 312 weeks. Wages not less than $5 nor over $36.

The act does not apply to elective officials, nor to employees receiving over $1,800 a year.

IDAHO, 1918.

Adm. Sys.—Industrial Accident Board of three. Awards final, unless appeal is taken to the Dist Court within 30 days. **Sec. for Comp.**—Private employers must either insure in the State Insura Fund or deposit security in form of a surety fund or guaranty contract. **Employ.**—All public and priv carried on for pecuniary gain. Employees injured outside the State are covered, as well as those hi outside the State if they would be entitled under law of State where hired. Agricultural, domestic a casual employees, outworkers, employees of charitable organizations and members of employer's fam although excluded, may be included by agreement. **Wait.**—Seven days. **Med. and Surg.**—Reasons medical, surgical, and hospital service. In death case, $100 for burial, and if there are no dependents ployer must pay $1,000 to Industrial Administration Fund. **Compen. for Dis.: Total**—Fifty-five cent. of average weekly wages for 400 weeks, and $6 per week thereafter. **Partial**—Same for not more t 150 weeks. **Death Ben.**—To dependent widow or widower, 45% of average weekly wages, with additio percentages up to 55%, in proportion to the number of dependents and children under 18. No payme cover over 40 weeks. Alien dependents get only half of the usual compensation.

The act does not apply to those earning over $2,400 a year, nor to elective officers.

ILLINOIS, 1917.

Adm. Sys.—Disputes determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law may be reviewed by the courts. **Sec. for Comp.**—Awards constitute liens on all property of employer within the county paramount to all other claims, except liens, taxes, mortgages or trust deeds. Injured employees are subrogated to right of insolvent employer's insurance. **Employ.**—Building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors or corrosive liquids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. **Wait.**—Six days. **Med. and Surg.**—Medical and surgical aid for not over 3 weeks, not over $200. If no dependents, a burial benefit not over $150. **Compen. for Dis.: Total**—Fifty per cent. of employee's weekly earnings, $7 minimum, $12 maximum, during disability, or until payments equal a death benefit; thereafter, if the disability is permanent, 2 sum annually equal to that of a death benefit, not less than $10 per month. **Partial, (b) Perm.**—(b) 50% of loss of earning capacity, not more than $12 per week. For certain specific injuries (mutilations, etc.), a benefit of 50% of weekly wages for fixed periods, in addition to temporary total disability. The basis of 50% is to be increased 5% for each child under 16 years of age, maximum 65%. The minimum of $7 per week is to be increased for each such child, the total not to exceed $10. The maximum of $12 is to be increased $1 for each child, the total not to exceed $15. For serious and permanent disfigurement, not causing incapacity not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years, except in case of permanent total incapacity. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings, not less than $1,650 (to a widow with one child under 16, $2,750, if two or more children, $1,850), nor more than $3,500 (to a widow with one child under 16, $3,750, if two or more children, $4,000). If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered the last two years was of the earnings of deceased. Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments. Employers may maintain a benefit system.

INDIANA, 1917.

Adm. Sys.—Industrial Board, with appeals to courts on questions of law. **Sec. for Comp.**—Contracts of insurance must inure directly to benefit of persons entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors. Insurance required, or proof of financial ability to meet payments. **Employ.**—All except interstate and foreign commerce, for which Federal laws make provision; railroad employees engaged in train service, and domestic and agricultural labor, unless employer makes contrary election; compulsory as to State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital services for first 30 days, and longer at option of employer; employee must accept unless otherwise ordered by Industrial Board; $100 for funeral expenses, if death from the injury occurs within 300 weeks. **Compen. for Dis.: Total**—Fifty-five per cent. of wages for not more than 500 weeks. **Partial**—Fifty per cent. of wage loss for not more than 300 weeks. For certain specified injuries, 55% of wages for designated periods ranging from 10 to 200 weeks. Same basis and total amounts are limited as for death benefits. Any payments may be commuted to a lump sum after 26 weeks. **Death Ben.**—To persons wholly dependent, 50% of weekly wages; to those partially dependent, amounts proportionate to decedent's contribution to their support. Term of payment limited to 300 weeks. Payments cease on remarriage of widow or dependent widower, or on children attaining the age of 18 years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

IOWA, 1917.

Adm. Sys.—Committees of Arbitration, with the Industrial Commissioner as Chairman; limited appeals to courts. **Sec. for Comp.**—Employers must insure in approved companies or mutual associations, furnish proof of financial ability, deposit security or contract with employees. Claim for compensation is first lien. If insured is incapable, insurer must settle direct with beneficiary. **Employ.**—All industries except agriculture and domestic service, in absence of contrary election by employer. Compulsory as to State and municipalities. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable surgical, medical and hospital services, and supplies for first 4 weeks, not exceeding $100. Reasonable expenses of last sickness, and burial not to exceed $100. **Compen. for Dis.: Total, (a) Temp.: (b) Part.**—(a) 60% of wages, not more than $15 nor less than $6 (unless wages are less than $6, then full wages), for not more than 300 weeks. The same as for temporary disability, to be paid for a period of not more than 400 weeks. **Partial, Perm.**—(b) Specified maimings—60% of average weekly wages for fixed periods, beginning with date of injury. Payments for total temporary and total permanent disability for fifth, sixth, and each of both weeks are 100% of the weekly earnings. If disability continues beyond those dates, only after the seventh week. Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court. **Death Ben.**—To persons wholly dependent, a weekly payment equal to 50% of the wages, but not more than $15 nor less than $5 per week, for 300 weeks. If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings. If employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent. If the spouse dies during compensation period, unpaid benefits go to other dependents if any; if she remarries and there are no dependent children, payments cease.

KANSAS, 1917.

Adm. Sys.—Disputes not settled by agreement may be referred to arbitration, subject to an appeal to the courts. **Sec. for Comp.**—Lump sums awarded by the court may be secured by order of the court by bond. If employer was insured, insurer is subrogated to the rights and duties of the employer. Claims for awards are not assignable or subject to execution, etc. **Employ.**—Railways, factories, quarries, mechanical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous explosive or inflammable materials, if employing five or more; mines; employers in other industries and those employing less than five persons may also elect. **Wait.**—One week. **Med. and Surg.**—On demand, medical, surgical and hospital treatment, not over $150 in all, for not more than 50 days. If no dependents, a reasonable expense for burial, not exceeding $150. **Compen. for Dis.: Total**—Payments during incapacity, after the first week, equal to 60% of the earnings but not less than $6 nor more than $15 per week. **Partial**—Sixty per cent. of wage loss during incapacity after first week. Lump sums equal to 50% of the wages for specified periods are to paid for designated losses in lieu of all other compensation. No payments for total or partial disability shall extend for more than 8 years. After 6 months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings of the deceased, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750. If only partial dependents survive, a sum proportionate to the injury to such dependents. Compensation ceases upon the marriage of any dependent or when a minor becomes 18, unless physically or mentally incapable of wage earning.

KENTUCKY, 1916.

Adm. Sys.—Workmen's Compensation Board, a member thereof, or a referee appointed by it. Lim appeals to courts. **Sec. for Comp.**—Employers accepting act must insure in a stock or mutual comp or the State Employees' Insurance Association, or give proof of financial ability. Payments cease on remarriage of widow or widower, en child, brother, or sister reaches the age of 16, unless an invalid.

NEBRASKA, 1917.

dm. Sys.—Compensation Commissioner; appeal to District Court of county, with further appeal preme Court. **Sec. for Comp.**—Employer must insure or give proof of financial ability. Policies inure directly to beneficiaries. Awards have same preference as wage claims. **Employ.**—All indus- except domestic service, agriculture, and interstate or foreign commerce in absence of contrary election. pt employees may make affirmative election. **Wait.**—Seven days. **Med. and Surg.**—Medical ospital service during first 21 days, not over $200. Time may be extended in cases of dismemberment jor operations. A reasonable sum, not over $150, for expenses of last sickness and burial. **Comp. is.: Total**—66⅔% of the weekly wages, not less than $6 nor more than $15 per week for 300 weeks; fter, while disability lasts, 45%, not less than $4.50 nor more than $15. If weekly wages are less

than minimum, full wages are paid. **Partial**—66⅔% of loss of earning capacity, not over $15 per week nor for more than 300 weeks. For certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods in lieu of other payments, $15 maximum, $6 minimum, unless wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or more compensation is computed from date of injury. Lump sums may be substituted for periodic payments but if for death or permanent disability, the approval of the court must be obtained. **Death Ben.**—To persons wholly dependent, 66⅔% of the employee's wages, not less than $6 nor more than $12; not exceeding 300 weeks; if wages were less than $6, full wages. If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of deceased to their support bore to his wages. Compensation to children ceases when they reach 16, unless mentally or physically incapacitated from earning

NEVADA, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure in State Insurance Fund. State management of fund and collection of premiums by the State. Payments not assignable; exempt from attachment, etc. **Employ.**—All except domestic and farm labor, provided the employe elects; compulsory as to the State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Reasonable medical, surgical, and hospital aid for 90 days, but may be extended to one year by the Industrial Commission. Burial expenses not to exceed $125. **Comp. for Dis.: Total**—60% of the average monthly wages, not less than $30 nor more than $72 for twelve months, and not over $60 thereafter. **Partial**—60% of the loss of earning capacity, not more than $40 per month for not more than 60 months, wages in excess of $120 need not be considered. For certain specific injuries (mutilations, etc.), a monthly payment equal to one-half the monthly wages, but not less than $30 nor more than $60 for fixed periods, in addition to payments for temporary total disability. No compensation is payable for the first week of disability, but if it continues three weeks or longer compensation is paid from the date of the injury. The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000. **Death Ben.**—To widow or dependent widower, 30% of the average wages, with 10% additional for each child under eighteen years of age, total not to exceed 66⅔%. If only children survive, they receive 15% each, the total not to exceed 66⅔%. If there are none of the foregoing dependent parents may receive 25% of the average monthly wage during dependency; if dependent brothers or sisters under eighteen, 20% for one and 30% if more than one, other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefit in a lump sum. Payments to children cease at eighteen, unless incapable. Payments to non-residents aliens 60% of above. No excess of wages over $120 per month considered.

NEW HAMPSHIRE, 1912.

Adm. Sys.—Disputes settled by agreement or action in equity. **Sec. for Comp.**—No provision for insurance. Employer must satisfy Commissioner of Labor of financial ability or file a bond. Payments have same preferences as claims for unpaid wages, or for personal services. **Employ.**—Industries dangerous to life or limb, including operation and maintenance of steam and electric roads, work in shops, mills, factories, etc., employing five or more; work about quarries, mines, foundries. **Wait.**—Two weeks. **Med. and Surg.**—If no dependents, expenses of medical care and burial not in excess of $100. **Comp. for Dis.: Total**—Beginning with the fifteenth day, a sum not exceeding 50% of average weekly earnings. **Partial**—A sum not in excess of 50% of loss of earning capacity. In no case is compensation to exceed $10 a week, nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments. **Death Ben.**—To persons wholly dependent, a sum equal to 150 times the average weekly earnings of deceased, not to exceed $3.000.

NEW JERSEY, 1914.

Adm. Sys.—Workmen's Compensation Bureau, subject to appeal to courts. **Sec. for Comp.**—Employers must furnish proof of financial ability or insure. Policies must be for benefit of employees. Right of compensation has same preference as claim for unpaid wages. **Employ.**—All employments in absence of contrary election. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital service for 27 days (not over $50); to 17 weeks and $200 by special agreement. 'Expense of last sickness and burial, not exceeding $100 for burial. **Comp. for Dis.: Total, (a) Temp.**: (b) **Perm.**—(a) 66⅔% of wages payable during disability, but not beyond 300 weeks. (b) 66⅔% of wages during such disability, not beyond 400 weeks. **Partial, (b) Perm.**—(b) For certain specific injuries (mutilations, etc.), 66⅔% of wages during fixed periods. All weekly payments are subject to the same rule as to maximum and minimum as for death benefits. A lump sum payment may be substituted at the discretion of the Compensation Bureau. **Death Ben.**—To one dependent, 35% of the wages of the deceased, and for each additional dependent 5% additional, the total not to exceed 60%, payable for not more than 300 weeks. Compensation not to be less than $6 nor more than $12 per week, unless the earnings are less than $6, when full wages are paid. Payments to widows cease on remarriage, to orphans at 18, unless mentally or physically deficient. Provision made also for education and rehabilitation. If no dependents, payment to State treasury of $400 is made by the employer.

NEW MEXICO, 1917.

Adm. Sys.—District courts. **Sec. for Comp.**—Employer must file bond or certificate of guaranty, mutual, or other insurance, unless he can satisfy the Judge he is solvent. **Employ.**—Extra hazardous (enumerated), where four or more are employed, or where work is carried on upon a derrick, scaffolding, pole, or other structure ten or more feet above the surface of the ground; others by election. **Wait.**—Ten days. **Med. and Surg.**—Medical care up to $50, during "waiting" period of 14 days. $50 for funeral expenses. **Comp. for Total Dis.**:—Fifty per cent. of earnings for 520 weeks. Compensation is increased 50% if caused by employer's failure to provide safety devices provided by law, and decreased 50% if caused by the employees' failure to observe a statutory regulation concerning safety, or to use safety levice provided. **Death Ben.**—To a dependent widow or widower, 40% of earnings, 5% additional for each child up to 60%.

There is a special schedule for permanent partial disabilities, ranging from 3 to 150 weeks, and from $6 to $12 per week. Lump sum settlements can be made.

NEW YORK, 1918.

Adm. Sys.—State Industrial Commission, with limited appeals to the courts. **Sec. for Comp.**—Employer must give proof of financial ability, or must insure in State fund or mutual or stock company. Policies must inure directly to beneficiary. Payments have same preference as unpaid wages. **Employ.**—All industries employing four or more employees, except domestic service and agricultural pursuits. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical treatment and hospital services for sixty days; costs to be approved by the commission. $100 for funeral expenses. **Comp. for Dis.: Total**—66⅔% of wages during continuance. **Partial**—66⅔% of wage loss. For specified permanent partial disabilities (mutilations, etc.), 66⅔% of wages for fixed periods, separate provision for disfigurements. The foregoing payments may not be less than $8 nor more than $20 per week, except for certain maimings the maximum may be $20. Payments begin on the fifteenth day, but if the disability continues for more than forty-five days compensation is allowed from the beginning. **Death Ben.**—To a widow or dependent widower also 30% of wages of deceased, 10% additional for each child under eighteen; dependent orphans under eight receive 15% each, and dependent parents or grandparents, 25%; brothers or sisters, 15% each; aggre-

ayments in no case to exceed 66⅔%. Payments to widow or widower cease on death or remarriage; ayments to children, brothers and sisters at eighteen and to parents when dependence ceases. In com- uting the above benefits no wages in excess of $125 monthly are considered. Occupational diseases are cluded as accidents. Amendments of 1920 make it a misdemeanor to demand or solicit fees; maximum mpensation is increased to $20 a week; survivors may get a death claim; awards are liens.

NORTH DAKOTA, 1919.

Adm. Sys.—Workmen's Compensation Bureau. **Sec. for Comp.**—Insurance compulsory; self-surance not permitted. **Employ.**—All public and private, other than agricultural and domestic service, d common carriers by railroad (which may come in by election). **Comp. for Dis.**—66⅔% of wages uring total, and 66⅔% of wage loss during temporary partial, **Death Ben.**—To widow or dependent idower until death or remarriage; to children up to eighteen; payments to parents until death, remarriage cessation of dependency; to other beneficiaries, eight years, not to exceed $20, nor less than $6 per week. neral benefit up to $100.

There is a limited appeal to the courts. When the widow of a victim remarries she receives 156 weeks' mpensation as a lump sum settlement.

OHIO, 1917.

Adm. Sys.—Industrial Commission; limited appeal to civil courts. **Sec. for Comp.**—State Insurance und. Employers must insure or give proof of ability to pay benefits. Non-insurers must give bond or curity. Insurance is under State control. Claims have same preference as on tax judgments. **Employ.** -All employing five or more regularly; also establishments employing less than five, if employer elects to y premiums. **Wait.**—One week. **Med. and Surg.**—Medical, hospital, etc., not over $200, but more ay be allowed in case of necessity. Burial expenses not to exceed $150. If no dependents, medical and ospital services, not over $200, and burial expenses as above. **Comp. for Dis.: Total, (a) Temp.; (b) erm.**—(a) Weekly payments of 66⅔% of average weekly wages during disability, not less than $5 nor ore than $15; but not for longer than six years, nor exceeding $3,750. (b) A weekly payment as above, ntinuing until death. **Partial, (a) Temp.; (b) Perm.**—(a) 66⅔% of loss of earning capacity during ntinuance, but not exceeding $12 per week, or a total of $3,750. (b) In certain specified injuries (muti- tions, etc.), 66⅔% of wages for fixed periods, with the same maximum and minimum limitations as noted ove, in addition to payments during temporary total disability. In all cases, if wages are less than scribed minimum, then total wages are paid as compensation; an expected increase in wages may be ven consideration. **Death Ben.**—To persons wholly dependent, 66⅔% of the average weekly earnings the deceased for eight years, not less than $2,000 nor more than $5,000. If only partial dependents rvive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrial ommission may determine in each case, not exceeding a maximum of $5,000.

OKLAHOMA, 1915.

Adm. Sys.—Industrial Commission. Appeals to the Supreme Court. **Sec. for Comp.**—Insurance ompanies or fund systems must be approved by the commission. Claims cannot be assigned, and pay- ents are exempt from levy, execution, etc. **Employ.**—"Hazardous" (enumerated list and general clause), which more than two are employed; agriculture, stock raising, retail stores, and interstate railways not cluded; work by State or municipalities is included. **Wait.**—Two weeks. **Med. and Surg.**—Necessary edical, surgical, or other treatment for first sixty days. **Comp. for Dis.: Total, (a) Temp. (b) erm.**—(a) 50% of average weekly wages for not more than 300 weeks. (b) 50% of average weekly ages for not more than 500 weeks. **Partial, (b) Perm.**—(b) 50% of wage loss for not more than 300 eeks; for specified injuries, 50% of weekly wages for fixed periods in lieu of other compensation. Payments ay not exceed $18 per week nor be less than $8, unless wages were less than $8, when full wages will be aid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have ayments commuted to lump sums equal to one-half of the value of the present worth.

OREGON, 1916.

Adm. Sys.—State Industrial Accident Commission. Review by Circuit Court. Appeals from Circuit ourt as in other civil cases. **Sec. for Comp.**—Insurance under State control. State gives subsidy, mployer deducts 1% from employee's daily earnings, and contributes this and a percentage of monthly ayroll. **Employ.**—All hazardous occupations, factories, mills, and workshops using machinery; mines, uarries, wharves and docks, dredges, engineering, telephone, telegraph, electric light, etc. All in absence f contrary election. **Med. and Surg.**—Transportation, medical, surgical, and hospital expenses, not ceeding $250. If wages less than $3, full wages will be paid. **Partial**—Fifty per cent. of wage decrease, maximum $10, for not more than 200 weeks. For certain specified injuries, 50% of weekly wages, but not more than $12.50 for designated periods running from 4 to 170 weeks. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To dependent widow or widower, 33⅓% of weekly wages, 40% if there be one or two children, 45% if more than two; if no parent, 25% to one or two children, 10% additional for each child in excess of two, total not to exceed 40%; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15% to 25%. Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching eighteen, unless incapable, in no case to exceed 260 weeks or $3,500. Payments to other classes end in 208 weeks at most. Basic wages not less than $5 weekly.

VIRGINIA, 1918.

Adm. Sys.—State Commission of three. **Sec. for Comp.**—Policies inure directly to employee. Claims or awards have same preference as those for wages. **Employ.**—All except domestic service and farm labor, and steam railroads; includes public employment. **Wait.**—Fourteen days. **Med. and Surg.**—Medical and surgical aid by employers for thirty days. Funeral expenses not over $100. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, maximum $10, minimum $5, total for disability not over 400 weeks or $4,000. **Partial, (a) Temp.; (b) Perm.**—(b) Act has schedule for permanent partial, loss of thumb so much, index finger so much, and so on. (a) 50% of weekly loss during disability, not more than $10 nor over 300 weeks. **Death Ben.**—Not more than 300 weeks or $4,000; to alien dependents (except Canadians), not over $1,000. 50% of average weekly wages to dependents. There is an appeal to the courts.

WASHINGTON, 1917.

Adm. Sys.—Industrial Insurance Department. Review by Superior Court. Appeals from Superior Court as in other civil cases. **Sec. for Comp.**—Accident fund, under State control. **Employ.**—All extra-hazardous employment, including mills, factories, workshops where machinery is used; blast furnaces, mines, quarries, and wharves, engineering, logging, lumbering, building trades, telegraph, telephone, and electric lights, etc. Railroads are excluded. **Wait.**—Eight days. **Med. and Surg.**—Proper and necessary medical and surgical services, and hospital care if injuries temporary; if permanent, until awards are made on basis of nature of disability. Expenses of burial not over $75. **Comp. for Dis.: Total (a) Temp.; (b) Perm.**—(b) If unmarried, $30 per month; if with a wife or invalid husband, but no child under sixteen, $30 per month; if husband not an invalid, $15 per month; if married or a widow or widower with a child or children under sixteen, $5 additional for each child, total not to exceed $50; if so helpless as to require attendant, $20 per month, in addition to other benefits. **Partial, (a) Temp.; (b) Perm.**—(a) Payment as for total disability continues in proportion to loss of earning power, provided this exceeds 5%. (b) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000; others to be computated proportionately; if the injured person is a minor, the parents receive an additional sum equal to 10% of the award to the injured person. Monthly payments may be converted into a lump sum, payment not over $4,000, in case of death or permanent total disability. No benefits are to be paid for the first eight days, unless the disability continues for more than thirty days. **Death Ben.**—To widow or invalid widower, a monthly payment of $30; to each child under sixteen, $5 per month, total not over $50; if no parent, $10 to each child under sixteen, total not to exceed $40. To other dependents, if none above survive, a monthly payment equal to 50% of the average amount previously contributed, total not to exceed $20. To the parent or parents of unmarried minor, a monthly payment of $20, until he would have been twenty-one. Payments to widow or widower continue until death or remarriage, and to a child under sixteen. If a widow remarries she receives a lump sum of $240.

WEST VIRGINIA, 1915.

Adm. Sys.—Compensation Commissioner; limited appeal to Supreme Court. **Sec. for Comp.**—Insurance through a State fund. Employers of approved ability may carry own risks, giving bond. Payments only to beneficiaries, and exempt from claims of creditors, attachment or execution. **Employ.**—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance Fund. **Wait.**—One week. **Med. and Surg.**—Medical, nurse and hospital services, not over $150 ($300 in special cases). Reasonable funeral expenses, not over $150. **Comp. for Dis.: Total**—For permanent total disability (85% or above); 50% of the average weekly wages during life. **Partial, (a) Temp.; (b) Perm.**—(a) 50% of loss of earning capacity, not more than $10 per week nor exceeding 26 weeks, except that for certain ununited fractures, etc., may be fifty-two weeks. (b) 50% of wages for periods varying with degree of disability (from 10 to 70%), from 30 to 210 weeks; from 70 to 85% disability, 40% of wages for life. Lump sum payments may be substituted for periodic payments in case of either injury or death. **Death Ben.**—To widow or invalid widower, $20 per month and $5 per month additional for each child under the age of fifteen years, total not to exceed $35 per month. To orphan child or children, $10 each per month until fifteen, total not over $30 per month. To other persons wholly dependent, if no widow, widower, or child, 50% of average monthly support received from deceased during preceding year, not exceeding $20 per month for six years. If deceased was a single minor, to a dependent parent 50% of earnings, not over $6 per week until he would have become twenty-one. If only partial dependents survive, compensation computed. Payments to widow or widower cease on remarriage, and to children at fifteen. If widow or widower remarry within two years, to be paid 20% of balance of 10 years.

There can be lump sum settlements for either injury or death.

WISCONSIN, 1917.

Adm. Sys.—Industrial Commission; limited review by the courts. **Sec. for Comp.**—Employer must give proof of financial ability or insure. Claims have preference, are non-assignable, and exempt from attachment or execution. Commission may require deposits, purchase of annuities, or the giving of bonds. **Employ.**—All, if the employer elects. Election is presumed where there are three or more employees, except as to agriculture and railroads. **Wait.**—One week. **Med. and Surg.**—Medical, surgical, and hospital treatment for ninety days, and for such additional time as will in judgment of commission lessen the period of compensation. Christian Science healing permitted if both employer and employee agree. Occupational disease is subject to compensation same as industrial accidents. Artificial limbs supplied. Reasonable expense of burial, up to $100. **Comp. for Dis.: Total**—Sixty-five per cent. of average weekly earnings. **Partial**—Sixty-five per cent. of loss of earning power. For certain specific injuries (mutilations, etc.), a sum equal to 65% of average weekly earnings for fixed periods, ranging from 6 to 320 weeks, which include the time for healing. For serious permanent disfigurement, a lump sum may be allowed, not over $750. Payments begin with the eighth day, but if disability continues for twenty-eight days, benefits are payable for first seven days. In case of temporary or partial disability,

COMPENSATION LAWS OF THE VARIOUS STATES—*Continued.*

aggregate compensation not over four years' earnings; for permanent total disabilities payments are limited —nine to fifteen years, according to age of injured person. Lump sum payments may be substituted at any time after six months. **Death Ben.**—To persons wholly dependent, a sum equal to four years' earnings, but which when added to any prior compensation will not exceed six years' earnings. If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year. All payments are to be made in weekly instalments equal to 65% of the average weekly earnings. Dependence of children ceases at eighteen, unless physically or mentally incapacitated.

WYOMING, 1917

Adm. Sys.—Disputes settled by District Courts of the counties, with appeal to the Supreme Court of the State. **Sec. for Comp.**—Insurance in State fund required. Insurance under State control. Payments not assignable, nor subject to attachment, execution etc. **Employ.**—Extra-hazardous (enumerated list), in which three or more are employed, interstate railroads excepted; use of explosives and work ten feet above ground included. **Wait.**—Ten days. **Med. and Surg.**—None. $50 for funeral expenses unless other arrangement exists under agreement. **Comp. for Dis.: Total (a) Temp.; (b) Perm.**—(b) Lump sum of $1,400 if single, $1,600 if wife or invalid husband, and a sum equal to $60 per year for each child until sixteen years old, total for children not to exceed one and one-half times the sum allowed the injured workman. (a) $18 per month if single, $24 if married, and $5 per month for each child under sixteen, total monthly payment not over $35, and aggregate not to exceed the amount payable if the disability were permanent. **Partial (b) Perm.**—(b) Fixed lump sums for specified injuries, others in proportion. No payments for first ten days unless the disability continues for more than thirty days. **Death Ben.**—Lump sum payment of $2,000 to widow or invalid widower, and an additional sum equal to $10 per year until sixteen for each child, total for children not to exceed $3,000. If there are dependent parents and no spouse and no child under sixteen, a sum equal to 50% of one year's contribution, not exceeding $1,000. Payments to non-resident aliens, beneficiaries are limited to 33⅓% of the above amounts, and only the widow and children under sixteen are considered.

UNITED STATES, 1916.

Adm. Sys.—United States Employees Compensation Commission. **Sec. for Comp.**—No provision for insurance. Payments made from special compensation fund. **Employ.**—All civilian employment of the United States Government and the Panama Railroad. **Wait.**—Three days. **Med. and Surg.**—Reasonable medical, surgical, and hospital services and supplies. $100 burial expenses, and transportation of bodies of residents of the United States dying away from home, if relations desire it. **Comp. for Dis. Total**—66⅔% of the monthly pay during continuance of the disability. **Partial**—66⅔% of the difference in wage earning capacity due to such disability. Payments are subject to the same maximum and minimum amounts as in case of death. Payments on account of death, or permanent disability, may be computed to a lump sum. **Death Ben.**—To widow or dependent widower alone, 35% of the monthly wage with 10% additional for each child, total not to exceed 66⅔%. To dependent parents, 25% if one, 40% if both are dependent. If there is a widow, widower, or child, the parents' rights are subordinate, and the total awards may not exceed 66⅔%. Other dependent relatives receive benefits in smaller amount subject to claims of foregoing. Payments to widow or widower terminate on death or remarriage, to child on marriage, reaching eighteen. Payments to other beneficiaries in no case extend beyond eight years. All payments subject to maximum of $66.67 per month, and minimum of $33.33, unless actual earnings are less, when compensation will equal earnings.

If only children survive, one child gets 25%, and each additional child 10%, total not to exceed 66⅔%.

GEORGIA, 1921.

Adm. Sys.—Industrial Commission. **Wait.**—One week. **Med. and Surg.**—Not more than 8 weeks nor over $200. **Comp. for Dis.; Temp. total**—50% of earnings so long as incapacity lasts, but not to exceed death benefit, not less than $7.50 nor more than $14 per week. **Perm. disfig.** to hand, head or face amounts to be fixed by agreements or arbitrations, not over 25% of death ben. **Part dis.**, 50% of difference in earning capacity before and after. Schedule for special injuries, increases of **max.**, $14, and **min.**, $7.5 to $15, $16 and $17; and $8.50, $9.50 and $10.50, for 1, 2 and 3 children. **Death Ben.**: to widow, parent husband, child totally dependent, sum equal to four times average annual earnings, not less than $1,65 nor more than $3,750. To parent, child or children, grandparents or grandchild, partially dependent, proportionate to dependency, same **min.** and **max.** To collaterals such percentage of sum as average payment made during two years bears to average earnings for two years. Increases of above, **min.**, to $1,750, and **max.** to $4,000, in case of widow and one child under 16; **min.** to $1,850, and **max.** to $4,250, to widow with two or more children. If no dependents burial fee $150.

Felony, desertion one year, habitual drunkenness, cruelty, neglect to provide one year, husband a vagrant, physical incapacity, indignities rendering condition intolerable, pregnancy of wife by other than husband at marriage, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, force or fraud.

AGES AT WHICH MARRIAGE IS VALID.

Males (age without parents' consent), 21 years in every State except Idaho, Ill., Mich., Minn., Nev., N. H., N. C., S. C., Tenn., and W. V., where it is 18 years.

Males (age with parents' consent), 14 years in Ky., La., N. H., and Va.; 16 years in Iowa, Tex., and Utah; 17 years in Ala., Ark., Ga., and Kan.; 18 years in Ariz., Cal., Hawaii, Idaho, Ill., Ind., Mich., Minn., Mont., Neb., Nev., N. Mex., N. C., N. Dak., Ohio, Okla., Ore., Porto Rico, S. C., S. Dak., Tenn., Wis., Wyo. There is no definite age provision in Ct., Del., District of Columbia, Fla., Me., Mass., N. Y., R. I., S. C., Tex., and Vt.; 21 years elsewhere.

Females (age without parents' consent), 16 years in Md., N. H.; 21 years in Fla., Ky., La., Pa., Porto Rico, R. I., Va., W. Va., and Wyo.; 18 years in the other States.

Females (age with parents' consent), 12 years in Ky., La., Md., Miss., Va.; 13 years in N. H.; 14 years in Ala., Ariz., Ark., Ga., Iowa, N. C., R. I., S. C., Tex., Utah; 15 years in Cal., Hawaii, Kan., Minn., Mo., N. Mex., N. C., N. Dak., Okla., S. Dak., and Wis.; 16 years in Ill., Ind., Mich., Mo., Mont., Neb., Nev., Ohio, Ore., Porto Rico, W. Va., and Wis.; 18 years in Alaska, Col., Idaho, N. J., N. Y., Tenn., and Vt.

The lowest age at which a single female can make a valid contract, except marriage, is 18 years in Ark., Cal., Col., Hawaii, Idaho, Ill., Iowa, Kan., Minn., Mont., Neb., Ohio, Okla., Ore., S. Dak., Vt. and Washington; 21 years in the other States.

Most of the States require consent of parents to marriages of males under 21 or of females under 18; exceptions are for males under 18 in Idaho, Ill., Minn., Nev., N. H., S. C.; under 20 in Hawaii; under 16 in Ct. and Tenn.; for women under 21 in Fla., Ky., La., Pa., Va., W. Va., and Wyo.; under 16 in Ct., Ill., Md., Nev., N. H., R. I., Tenn., and W. Va.; under 15 in Minn.

The lowest age at which a married female can make a valid contract, except marriage, is 14 years in Ariz., Iowa, Tex.; 16 years in Neb., Ore., Porto Rico; 18 years in Ala., Alaska, Ark., Cal., Hawaii, Idaho, Ill., Ind., Kan., Minn., Mont., Ohio, Okla., S. Dak., Utah, Vt., Wash.; 21 years in the other States.

†† New York a judgment ceases after 10 years to be a lien on real estate.

CRIMES AND PENALTIES.

WHILE the penalties for homicide are not precisely uniform throughout the various States of the Unio except for the continuance or the abolishment of capital punishment, they are similar. With regard other serious crimes, likewise, differences are more seeming than real. Felonies, such as manslaughte arson, burglary, robbery and larceny, are in some States subdivided into degrees, first, second, third a even fourth; while in others there is a single general classification. Where there is no subdivision into d grees, however, the modifying of penalties by reason of attending circumstances, results in the same effe as though there were degrees.

CRIMES AGAINST THE UNITED STATES.

Treason—Whoever, owing allegiance to the United States, levies war against them, or adheres to the enemies, giving them aid and comfort, is guilty of treason. The penalty upon conviction is imprisonme for not less than 5 years, fine of not less than $10,000, or death. Misprision of treason consists in gener of having knowledge of, concealing and not disclosing the treason of others. The penalty is imprisonme for not more than 7 years, and fine of not more than $1,000, or both fine and imprisonment. Rebellion insurrection is the inciting, setting on foot, assisting or engaging in armed resistance to the execution the laws by two or more. The penalty on conviction is imprisonment for not more than 10 years; fine not more than $10,000, or both. Offenses against the mails fall into two general classes; one, the misu of the mails for immoral or fraudulent purposes; the other, robbing the mails; penalties vary with the natu of the particular offense.

CRIMES AGAINST THE STATES, PROVIDED FOR IN THE VARIOUS STATE PENAL CODE

Bank Hold-up—Kan., 10 to 50 yrs.; No. Dak., 30 yrs. or less.

Murder in the First Degree may be generally defined to be the unlawful, intentional and premeditated killing of a human being, or such a killing resulting from the commission or attempt to commit o of the graver crimes, such as arson, burglary, rape or robbery.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attem to commit some lesser crime.

The penalty for murder in the first degree by the Federal Statutes is death by hanging. Hanging also the penalty in Connecticut, Delaware, Florida, Georgia, Missouri, New Mexico, Hawaii and the Distri of Columbia. Death by hanging or life imprisonment in Alabama, California, Colorado, Idaho, Iow Louisiana, Maryland, Mississippi, Montana, New Hampshire, Oregon, West Virginia and Wyoming, Alas and Porto Rico. In Illinois, hanging or imprisonment not less than 14 years to life. In Texas, hanging, or a term of imprisonment not less than 5 years. Death by electricity in Arkansas, Massachusetts, Nebrask New Jersey, New York, North Carolina, Pennsylvania and Vermont. Death by electricity or life impr onment in Indiana, Kentucky, Ohio, Oklahoma and South Carolina. Life imprisonment in Arizo Kansas, Maine, Michigan, Minnesota, North Dakota, Rhode Island, South Dakota, Tennessee, Washingto Wisconsin. In the State of Utah, the penalty may be death or life imprisonment; if death, the convict person may choose between hanging or shooting. In Tennessee, the jury may fix the term of imprisonme In the State of Washington, the jury may, by special verdict, find for the death penalty. In New Jers and Oregon penalty is death, unless jury recommends life imprisonment; in Nevada, lethal gas.

Murder in the second degree is punished in the Federal Constitution by imprisonment for not less th 10 years to life. The same penalty, not less than 10 years up to life is imposed in the States of Arizo Idaho, Iowa, Nebraska, Nevada, Rhode Island, Utah. Not less than 10 (the statutes not mentioning l imprisonment) is the penalty in Alabama, California, Kansas, Missouri, Montana, Washington and Por Rico. Life imprisonment is the penalty in Connecticut, Delaware, Florida, Georgia, Indiana, Michig Minnesota, Ohio, Oregon, Vermont. The statutes of Illinois, Kentucky, Louisiana, Mississippi, Oklahon South Carolina and Texas have no second degree murder classification. In Arkansas the penalty is fr 5 to 21 years; Maryland, 5 to 18; Michigan and New Hampshire, any term of years to life; no minim term mentioned. New Jersey, not over 30; New Mexico, 3 or more; New York, not less than 20 up to li North Carolina, 2 to 30; North Dakota, 10 to 30; Pennsylvania, not over 20; Tennessee, 10 to 20; Virgi and West Virginia, 5 to 18; Wisconsin, 14 to 25; Wyoming, not less than 20 up to life; Alaska, not less th 15; Hawaii, 20 up to life; District of Columbia, not less than 20 up to life.

In Colorado the death sentence is not imposed where the conviction is had on circumstantial eviden nor on one under 18 years of age. In Delaware the jury may recommend commutation of the death se tence to imprisonment for life. In Delaware killing by husband of man found in adultery with wife is misdemeanor, not a felony.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unla ful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively triv character or intentionally in the heat of passion and without premeditation.

Penalties for manslaughter vary, scarcely any two States fixing precisely the same. Many of the Sta do not subdivide into first and second. Where there is but the single heading the penalties are as follov California (not over 10), Connecticut (not over 10 years and fine of $1,000), Delaware (1-10 and $500 $5,000), Florida (not over 20 or $5,000), Idaho (not over 10), Illinois (any term up to life fixed by the Di sion of Pardons and Paroles), Indiana (2-21), Iowa (not over 8 and $1,000), Louisiana (not over 20 and $2,00 Maine (not over 20 and $1,000, or both), Maryland (not over 10 or $500), Massachusetts (not over 2 Michigan (15 or not over $1,000), Mississippi (not over 20 and $500), Montana (not over 10), Nebras (1-10), Nevada (not over 10), New Jersey (not over 10), New Mexico (1-10), North Carolina (4 months 20 years), Ohio (1-20), Oregon (1-15 and $5,000), Rhode Island (not over 20), South Carolina (2-30), Tex (2-5), Vermont (not less than 1 up to life or $1,000), Virginia (1-15), Washington (not over 20 and fin Wyoming (1-20), Alaska (1-15), District of Columbia (not over 15, or $1,000, or both). Where t degrees are specified the penalty for manslaughter in the first is: Alabama (1-10), Arizona (not over 1 Arkansas (2-7), Colorado (1-8), Georgia (1-20), Kansas (5-21), Kentucky (2-21), Minnesota (5-20), M souri (not less than 5), New Hampshire (not over 30), New York (not over 20), North Dakota (5-1 Oklahoma (not less than 4), Pennsylvania (not over 12 and $1,000), South Dakota (not less than 4), Te nessee (2-10), Utah (1-10), West Virginia (1-5), Wisconsin (5-10), Hawaii (10-20), Porto Rico (not over 1 And for second degree: In Alabama (not over 1 and $500), Georgia (1-3), Kansas (3-5), Kentucky (1- Minnesota (1-15), Missouri (3-5), New Hampshire (not over 10 or $1,000, or both), New York (not ov 15 or $1,000, or both), North Dakota (1-15), Oklahoma (2-4), Pennsylvania (not over 2 and $1,000), Sou Dakota (2-4), Tennessee (1-15), Utah (not over 1), West Virginia (court fixes penalty), Wisconsin (4- Hawaii (5-10), Porto Rico (not over 10).

Assault with Intent to Kill—Under Federal Statutes, assault with intent to kill or to commit a ra is punishable by imprisonment for not more than 20 years, while assault with intent to commit a felo other than murder or rape is punishable by not more than 5 years' imprisonment and a fine of not over $3,0 In Iowa, assault with intent to kill is punishable by 10 years' imprisonment; not over 10 in Kansas, Mas chusetts, Missouri, New York and Oklahoma; from 1 to 10, North Dakota, Oregon, Virginia; not less th 10 in Porto Rico; 1 to 14, California, Colorado, Idaho, Illinois, Nevada, Wyoming; 1-20, Maine, Rho Island and Utah; Alabama (2-20), Arizona (5 up to life), Arkansas (1-21), Connecticut (10-30), Delawa (not over 3), Florida (not over 20), Georgia and Maryland (2-10), Indiana (2-14 and $2,000), Kentuc (1-5), Louisiana (not over 2 and $1,000), Michigan (any term to life or $8,000), Minnesota (5-10 and not ov $100), Mississippi (not over 5 or $1,000), Montana (5-10), Nebraska and Texas (2-15), New Hampsh (not over 20), New Jersey (not over 7 or $200, or both), New Mexico, (1 to 25 years or $1,000), North Car

ina (fine or imprisonment, or both), Ohio and Alaska (1-15), Pennsylvania (not over 7 and $1,000), South Dakota (not over 5), Tennessee (3-21), Vermont (not over 10 and $1,000), Washington (not less than 5), West Virginia (2-10), Wisconsin (1-5 or $1,000), Hawaii (not over 5 and a fine), District of Columbia (not over 15). In Texas, an assault with a dagger incurs a double penalty. In Iowa, assault with intent to commit a rape (not more than 20).

Rape—In Federal Courts, rape is punishable with death by hanging. While many States have death as the extreme penalty, in few is it the same one. Arkansas and North Carolina (death by electricity), Alabama, Delaware, Kentucky, and Louisiana (hanging), Florida and Mississippi (hanging or life imprisonment), Georgia (hanging or 1-20), Missouri (hanging or not less than 5), Oklahoma (electrical execution or not less than 15), South Carolina (electrical execution or 5-40), Tennessee (electrical execution or not less than 10 to life), Texas (hanging or not less than 5 to life), Virginia (electrical execution or 5-20), West Virginia (hanging or 7-20), District of Columbia (hanging or 5-30). Many of the States do not inflict the death penalty. Arizona (5 to life), California (not over 50), Colorado (3 to life), Connecticut (not over 20), Idaho (not less than 5 to life), Illinois (3-life), Indiana (2-21), Iowa (any term to life), Kansas (5-21). Maine (any term of years), Maryland, hanging or 18 months-21 years), Massachusetts and Michigan (any term to life), Minnesota (7-30), Montana (not less than 5), Nebraska (3-20), Nevada (not less than 20 up to life), New Hampshire (not over 30), New Jersey (not over 15 or $5,000, or both), New Mexico (5-20), New York (10-20), North Dakota (not less than 1), Ohio and Oregon (3-20), Pennsylvania (not over 15 and $1,000), Rhode Island (not less than 10 up to life), South Dakota (not less than 10), Utah and Washington and Porto Rico (not less than 5), Vermont (not over 20 or $2,000, or both), Wisconsin (1-30), Wyoming (not less than 1 up to life), Alaska (3-20), Hawaii (up to life and $1,000). The rape of a daughter, sister or female under 12 is punished in Alaska by life imprisonment. In Indiana rape of female under 12, life imprisonment. In Nevada rape accompanied with extreme violence may be punished by death or imprisonment not less than 20 years in jury's discretion.

Arson—where classified in degrees—though the number and exact definitions of degrees vary greatly —is in general classified with reference to two conditions, first, the character of the building burned, whether dwelling house or structure likely to contain a human being; and, second, whether the crime is committed by day or night. Thus the most serious offense is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night. The Federal Statutes for arson in the first degree impose a penalty of not more than 20 years, and for the second degree, not more than 20 years and a fine of not more than $5,000. Some States punish arson in the first degree with death. These are: Alabama (hanging or not less than 10), Delaware (hanging), Louisiana (hanging or 1 to 10), Maryland (hanging or not over 20), Mississippi (hanging or life imprisonment), North Carolina, South Carolina and Virginia (death by electricity), Vermont (any term to 30 years or death by electricity), Hawaii (hanging or life imprisonment). The imprisonment which may be imposed for arson in the first degree takes a wide range—New York (not over 40), Iowa (30), New Hampshire (not over 30), Oklahoma (10-30), Florida and Michigan (any term up to life), Georgia (1 to life), Idaho (2 to life), Illinois (1-20), Indiana (2-21), Kansas (10-21), Kentucky (5-12), Maine (1-20), Minnesota and North Dakota (not less than 10), Nebraska (1-20), New Jersey (not over 15 or $2,000, or both), New Mexico (2-20), Ohio (not over 20), Oregon, West Virginia and Alaska (10-20), Texas (5-20). Utah (2-15), Wisconsin (3-14), Wyoming (1-21), South Dakota and Porto Rico (not less than 10), Arizona and California (not less than 2), Arkansas (2-10), Colorado and District of Columbia (1-10), Connecticut (not over 10), Missouri, Montana and Washington (not less than 5). The penalties for arson in the second degree are as varied as those for the first. In the Federal Courts, for more than 20 and $5,000. California (1-25), Colorado (not over 2 and $1,000), Delaware (1-10 and $500 to $5,000), Iowa (10-20), Kansas (7-10), Louisiana (1-20), Maine (any term of years), Maryland (2-20), Minnesota (7-15), New Hampshire (not over 20), New Mexico (1-15), New York (not over 25), North Dakota (7-10), Oregon (5-15), Pennsylvania (not over 10 and $2,000), South Dakota (7-10), Tennessee (2-21), Vermont (not over 10 or $1,000), Virginia (5-18), Washington (not over 10 or $5,000), Alaska (5-15), Hawaii (life or any number of years), Alabama and Oklahoma (2-10), Arizona, Idaho, Montana, Utah and Porto Rico (1-10), Arkansas (6 months and fine), Massachusetts and Mississippi (not over 10), Missouri (not less than 5), Nevada (1-3 and fine), South Carolina (in discretion of the court), Wisconsin (3-10).

Burglary—The classification of burglary or house breaking depends on substantially the same elements as those of arson, namely, the building entered, whether a dwelling or other building, and whether the offence was committed by day or night. Burglary in the first degree is punished in North Carolina by death by electricity; Virginia (electricity or 5-18), Delaware (hanging or not over 14), Florida and Iowa (any term up to life), Maine (any term of years), Massachusetts (life imprisonment or not less than 10), Ohio (life or 5-30), Rhode Island and South Carolina (not less than 5 up to life), Alabama, Georgia and Illinois (1-20), Arkansas, California, Idaho, Montana, Alaska and Porto Rico (1-15), Connecticut, Michigan and Hawaii (not over 20), Indiana (10-20), Kansas (10-20), Mississippi (7-15), Nevada and Wyoming (1-14), New Hampshire (not over 30), New Mexico (3-12), Oklahoma (7-20), Oregon, Tennessee and Wisconsin (5-15), Pennsylvania (not over 10 and $10,000), Texas (2-12), Utah (25-40), Vermont (not over 15 or $1,000), District of Columbia (not over 15), West Virginia (2-15), Minnesota, New York, North Dakota, South Dakota (not less than 10), Missouri and Washington (not less than 5), Arkansas (3-7), Colorado and Nebraska (1-10), Kentucky (2-10), Maryland, (3-10). Burglary by means of dynamite or other explosives is punished in Colorado by imprisonment from 25 to 40 years; in Wisconsin (15-40), and in Wyoming (not over 60). Quite a number of States have no heading of second degree burglary. These are Alabama, Arkansas, Colorado, Kentucky, Louisiana, Maryland, Michigan, Nebraska, New Jersey, Rhode Island, South Carolina, West Virginia, and Wyoming, also the District of Columbia. The penalties where it is specified do not show as much variance as in the first degree. Connecticut, Florida, Iowa, Massachusetts (not over 20), Delaware, Georgia and Utah (1-20), Minnesota, Mississippi, New York, North Carolina and Hawaii (not over 10), Maine (1-10), Arizona, California, Idaho, Montana, Nevada and New Hampshire (not over 5), Texas (not less than 5), North Dakota and New Mexico (1-5), Oregon, South Dakota, Tennessee and Virginia (3-10), Indiana (2-14), Kansas (5-10), Missouri (not less than 2), Ohio (1-15), Oklahoma (2-7), Pennsylvania (not over 10 and $500), Vermont (not over 10 or $1,000), Washington (not over 15), Wisconsin (2-8), Alaska (2-5), Porto Rico (not over 2).

Robbery may be generally defined as the theft of property from the person or immediate presence of the victim, accomplished by force or fear. Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury. In the following synopsis, degrees are not considered. Federal Statutes fix the penalty for robbery at not more than 15 years. Alabama punishes robbery by death (hanging or not less than 10), Virginia (electrical execution or 5-18), Massachusetts, Michigan and Hawaii (any number of years to life), Maine (any term of years), Idaho, Rhode Island and Texas (5 to life), Oregon and Utah (3 to life), Illinois (1 to life), Oklahoma (not less than 10), New York and South Dakota (10-20), Kansas (10-21), Arizona, Nevada and Washington (not less than 5), North Carolina (5-60), Minnesota (5-20), Tennessee (5-15), Indiana (5-14 and $1,000), West Virginia (5-10), Arkansas (3-21), Nebraska, New Mexico and Wisconsin (3-15), Colorado (3-14), Maryland (3-10), Kentucky and South Carolina (2-10), Georgia and Iowa (2-20), Montana and Porto Rico (1-20), Ohio and Alaska (1-15), Wyoming (1-14), North Dakota (1-10), California (not less than 1), New Hampshire (not over 30), Vermont (not over 20 and $1,000), Florida (not over 20), New Jersey (not over 15 or $1,000, or both), Louisiana (not over 14), Delaware (not over 12), Connecticut (not over 7),

Pennsylvania (not over 5 and $1,000), District of Columbia (6 months to 15 years). In Nevada train rob bery and in Texas robbery by means of deadly weapons may be punished with death. Train robberies i Territories are punishable by imprisonment not more than 20 years and a fine of not more than $5,000.

Grand Larceny is simply theft of property above a fixed value, generally $25 to $50—more State also classify as grand larceny theft of property from the person of the victim, irrespective of value, though of course, accomplished without the force or fear which constitutes the crime of robbery. In the Federa Courts, grand larceny is punishable by not more than 10 years' imprisonment and a fine of not more tha $10,000. Wisconsin (1-25), Alabama and Georgia (1-20), Maryland (1-15), Idaho, Indiana, Montana an Nevada (1-14), New Mexico, Oregon, Utah, Virginia, Alaska, Porto Rico and District of Columbia (1-10 Tennessee, Texas and West Virginia (2-10), Nebraska and Ohio (1-7), Arkansas, Kentucky, Maine and Nort Dakota (1-5), Hawaii (not over 20), Washington (not over 15), Louisiana, New York, North Carolina an Wyoming (not over 10), Kansas and Missouri (not over 7), New Jersey (not over 7 or $2,000, or both Connecticut, Iowa, Massachusetts, Mississippi, New Hampshire, Oklahoma and South Dakota (not ov 5), Florida and Rhode Island (not over 5 or $1,000), Michigan (not over 5 or $5,000), Pennsylvania (3 an $500), Delaware (not over 3), South Carolina (3 months to 10 years). Special penalties are imposed i certain States for horse and cattle stealing. In Calif., Mont. and N. Mex., taking horses, cattle, etc., is gran larceny, irrespective of value; in Arkansas for stealing horse or mule (1-15); in Missouri and New Hampshir larceny of horse or cattle (not over 7); in Texas horse theft (5-10); in Georgia there are various grades o larceny of horses, cattle, etc. In Connecticut the punishment for larceny of over $2,000 (not over 20). I North Carolina habitual offenders receive longer terms.

Forgery in general means the false making, imitating or counterfeiting or alteration of a genuine si nature or written instrument. There are numerous Federal Statutes defining and imposing penalties f alteration of public records and documents. These do not come within the purview of this synopsis, beir no one general classification. Counterfeiting is punished by imprisonment of not more than 15 years ar a fine of not more than $5,000. There is some uniformity but not a great deal in the various State penalti for forgery. North Dakota (not less than 10), North Carolina (4 months to 10 years), Oklahoma (7-20 Kentucky (5-15), Tennessee (3-15), Arkansas (2-21), Oregon and Alaska (2-20), Mississippi and New Mexi (2-15), Indiana (2-14 or $1,000), Alabama, Georgia and West Virginia (2-10), Texas (2-7), Nebraska, Oh and Utah (1-20), Montana (1-15), Nevada and Wyoming (1-14), Maryland, Virginia, Porto Rico and Di trict of Columbia (1-10), Wisconsin (1-7), South Carolina (1-7), Kansas (not over 21), Minnesota, New Yo and Washington (not over 20), Michigan (not over 14), Florida, Iowa, Maine, Massachusetts, Missou South Dakota (not over 10), Pennsylvania and Vermont (not over $1,000), Rhode Island (not over 10, $1,000, or both), Hawaii (not over 10 and $500), New Hampshire (not over 7), New Jersey (not over 7 $2,000, or both), Connecticut (not over 5). In Iowa changing plate numbers on autos is classified as forger

Bigamy—A person who, having a husband or wife living, marries another, is guilty of bigamy. Und Federal Statutes, polygamy (or bigamy) in the Territories is punished by imprisonment for not more th 5 years and a fine of not more than $500. Five years' imprisonment is the most general maximum penal in the States for bigamy and fines are quite commonly imposed. Some of the States, however, have a mo severe extreme penalty and some a lesser maximum. Kentucky (3-9), Virginia (3-8), Tennessee (2-21 Arkansas (3-7), New Mexico and District of Columbia (2-7), Alabama and Texas (2-5), Indiana (2-5 $1,000), Georgia (1-10), Nebraska, Ohio and Alaska (1-7), North Dakota, West Virginia and Wyomi (1-5), Illinois, Nevada and Rhode Island (1-5 and $1,000), Louisiana (1-5 and $500), Wisconsin (1-5 and fin Oregon (1-4), Mississippi (not over 10), California (not over 10 and $5,000), Arizona (not over 10 and $2,00 New Jersey (not over 10 or $1,000, or both), Delaware (not over 6 and $2,000), Connecticut, Iowa, Kansa Massachusetts, Missouri, New York, Oklahoma, South Dakota and Washington (not over 5), Idaho (n over 5 and $2,000), Minnesota and Vermont (not over 5 and $1,000), Florida, Maine, Michigan and Ut (not over 5 or $500), Porto Rico (not over 3 or $2,000), Montana (not over 3 and $1,000), New Hampshi (not over 3 and $500), Pennsylvania (not over 2 and $1,000), Hawaii (not over 2 or $500).

Perjury under the various State codes usually means false testimony on a material point given in a action or proceeding at law. The following are the penalties imposed in accordance with this usual defi tion. In the Federal Courts (not more than 5 and not more than $2,000), Iowa (10 up to life), Oklahom (5-20), Georgia (4-10), Ohio and Oregon (3-10), Indiana (2-21 or $50 and $1,000), Minnesota, Texas and D trict of Columbia (2-10), Wisconsin (2-5), South Dakota (1-20), Arkansas and Tennessee (1-15), Arizon California, Colorado, Idaho, Illinois, Montana, Nebraska, Nevada and Wyoming (1-14), North Dako Utah, Alaska and Porto Rico (1-10), New Mexico (1-7), Kentucky (1-5), West Virginia (1 year and $1,00 North Carolina (4 months to 10 years), Florida, New Hampshire, Massachusetts, Rhode Island and Hawa (not over 20), Michigan and Washington (not over 15), Vermont (not over 15 and $1,000), Maine, Mar land, Missi ippi and New York (not over 10), Delaware (not over 10 and $2,000), Kansas, Missouri a South Carolina (not over 7), New Jersey (not over 7 or $2,000, or both), Pennsylvania (not over 7 and $50 Connecticut and Louisiana (not over 5), Virginia (not over 1 and $1,000). In many of the States sever penalties than those given above are imposed, varying with the character of the action or the results the false testimony. Thus in Colorado and Texas perjury which causes conviction in a capital case is pu ished by death. In capital cases, irrespective of results, the penalty is: In Alaska (2-20), Oregon (5-2 Kansas (not less than 7), Maine, Mississippi and Missouri (not less than 10), Massachusetts and Michig (any term up to life), Wisconsin (3-15). In cases of felony not necessarily capital: Alabama (3-20), Ne York (not more than 20), North Dakota (not less than 10), Virginia (2-10), West Virginia (1-10).

Where crimes are divided into several degrees, it is generally within the province of the jury, in convic ing, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or i prisonment it is the province of the jury to determine the punishment, except upon a plea of guilty, wh the duty devolves upon the court.

NOTE—Figures in parentheses are years. Money figures are maximum.

PENALTIES FOR USURY.

Penalties for usury differ in various States. California, misdemeanor with jail term, $500 fine both; Colorado, Maine, Massachusetts (except on loans of less than $1,000), have no provisions on t subject. Loss of *principal and interest* is the penalty in Arkansas and New York. Loss of principal Delaware and Oregon.

Loss of interest in Alabama, Arizona, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisian Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), Nort Dakota (double amount if paid), Porto Rico, South Carolina, South Dakota, Virginia, Washington (doub amount if paid), Wisconsin, Hawaii, and Wyoming. In Alaska, Montana, Oklahoma, Texas, Vermon double the amount of interest collected.

Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missou Nevada, New Hampshire (three times), Ohio, Pennsylvania, Tennessee, Vermont and West Virgini Loss of principal and interest in Rhode Island, also fine or imprisonment. In New Mexico, fine and fo feiture of double amount collected.

By the Federal act No. 103, the period of military service is to be excluded from the computation time limited for the bringing of an action by or against persons in the service. This applies to all the court Federal, State or district, in the country, and to causes of action accruing prior to or during the servi and to limitations established before or after the passage of the act.

ADMINISTRATION OF DECEASED PERSONS' ESTATES.

THESE statutes have been revised for THE ALMANAC by one of the largest law firms in New York City making a specialty in their practice of the inheritance laws. All the data has been carefully brought up to date.

INHERITANCE TAX LAWS.

The following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.

Second—To one or more of the next of kin entitled to share in the estate.

Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE.	Inheritance Tax.	Preferred Obligations.
Alabama.....	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employés.
Arizona.....	To grandfather, grandmother, parents, husband, wife, child, brother, sister, son-in-law, or daughter-in-law, lineal descendant, or adopted child, 1%; $5,000 exempt to each beneficiary above named. Estates less than $10,000 exempt. To uncle, aunt, nephew, niece or descendant thereof, 2%; $2,000 exempt to each beneficiary named. Estate less than $5,000 exempt. To others, 3% up to $10,000; 4% from $10,000 to $20,000; 5% from $20,000 to $50,000; 6% above $50,000. $500 exempt.	No statutory provision.

Alaska.—Up to $15,000—to wife or lineal issue, 1%; to husband or lineal ancestor, 1½%; brother or sister or descendant of such; wife or widow of son or husband of daughter, 3%; brother or sister of father or mother, or descendant of such, 4%; other collaterals, or strangers, or body politic or corporate, 5%; (these are known as "primary" rates); on $15,000 to $30,000, double primary rates; $30,000 to $50,000, two and one-half times; $50,000 to $100,000, three times; over $100,000, three and one-half times. Exemption of $10,000 to widow, husband, lineal issue (including adopted children); exemption to lineal ancestors, $3,000; and to collaterals, $1,000; charitable transfers to hospitals, schools, etc., up to $2,500 exempt.

Arkansas.....	On amounts not exceeding $5,000 the rate is 1% to parents, husband or wife, child or adopted child, lineal descendant, brother, sister, son-in-law or daughter-in-law. To all others the rate on the same amount is 3%. $3,000 passing to widow or minor child and $1,000 passing to the other immediate relatives mentioned is exempt. The exemption to others more remote is $500. On amounts in excess of $5,000 the primary rates (1% and 3% respectively) are increased as follows: From $5,000 to $10,000, twice the primary rates; from $10,000 to $30,000, 3 times the primary rates; from $30,000 to $50,000, 4 times; $50,000 to $100,000, 5 times; $100,000 to $500,000, 6 times; $500,000 to $1,000,000, 7 times; above $1,000,000, 8 times.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California.....	(a) To husband, wife, descendants, ancestors, adopted children or issue thereof, 1% up to $25,000; 2% from $25,000 to $50,000; 4% from $50,000 to $100,000; 7%, $100,000 to $200,000; 10%, $200,000 to $500,000; 12%, $500,000 to	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages due within sixty days. 4. Debts preferred by U. S. laws.

STATE.	Inheritance Tax.	Preferred Obligations.

Funeral expenses. 2. Headstone not over $25 3. Expenses of last sickness. 4. Taxes. 5. Debts due to State. 6. Debts due to U. S. 7. Wages within 3 months, not over $50 per creditor.
Virginia.....	On amounts not exceeding $50,000 the primary rates are: (a) To grandparent, parent, husband or wife, child, descendant, brother or sister, 1%. $15,000 exempt. (b) To others more remote, 5%. On larger amounts the primary rates are multiplied as follows: (1) from $50,000 to $250,000, twice; (2) $250,000 to $1,000,000, 3 times; (3) above $1,000,000, 4 times.	1. Funeral and administration expenses. 2. Expenses of last sickness, not exceeding $50, doctor or druggist. 3. Taxes. 4. Money owing as trustee or in fiduciary capacity.
Washington....	To parents, husband or wife, lineal descendant, adopted child or its descendants, $10,000 exempt. Rates on excess are: 1% up to $50,000; 2% $50,000 to $100,000; 3% $100,000 to $250,000; 5% above $250,000. To brother, sister, uncle, aunt, nephew or niece, no exemption, the rates on the amounts stated are: 3%, 5%, 7% and 9%. To others more remote, the rates on the same amounts are: 6%, 9%, 12% and 15%.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Wages, within ninety days. 5. Taxes. 6. Judgments and mortgages which are liens on land.
West Virginia...	To lineal ancestor, husband, wife, descendant, the rate is 1% on amounts up to $25,000; $25,000 to $50,000, 1½%; $50,000 to $100,000, 2%; $100,000 to $500,000, 2½%; above $500,000, 3%. Exempt up to $10,000, except in case of widow, where $15,000 is exempt. To brother or sister the rate is 3% up to $25,000, and for the varying amounts stated above the rates are 4½%, 6%, 7½% and 9%. To others more remote the rates are 5%, 7½%, 10%, 12½% and 15%.	1. Funeral and administration expenses. 2. Debts owing to U. S. 3. Taxes. 4. Fiduciary obligations.
Wisconsin	(1) Tax of 1% to husband, wife, lineal descendants, lineal ancestors, adopted child, and lineal issue thereof. (2) To brothers, sisters and their descendants, wife or widow of son, or husband of daughter, 4%. (3) To uncles, aunts or their descendants, 6%. (5) To all others, 8%. When the estate is above $25,000 the above rates are multiplied as follows: $25,000 to $50,000, 2 times on excess; $50,000 to $100,000, 3 times on excess; $100,000 to $500,000, 4 times on excess; above $500,000, 5 times on excess. Exempt $25,000 to widow and lesser amounts to other relatives, down to $100 exemptions to strangers in blood.	1. Last sickness and funeral expenses. 2. Debts preferred by U. S. laws.
Wyoming.....	Tax of 2% on amount above $10,000 to parents, husband or wife, child, brother, sister, lineal descendants, wife or widow of son, husband of daughter, adopted or acknowledged child for ten years. To others than above, tax of 5%; $500 exempt.	1. Funeral and administration expenses. 2. Expenses of last sickness and sixty days' wages, including medical attendance and medicines. 3. Judgments and mortgages. 4. All claims presented within six months. 5. All claims presented within one yr.
United States...	The Federal Tax is imposed on the estate as a whole, not on the shares of the several legatees, irrespective of the relationship of the beneficiaries to the decedent. $50,000 of each estate is exempt from tax. The rates on the excess are as follows: Not exceeding $50,000, 1%; $50,000 to $150,000, 2%; $150,000 to $250,000, 3%; $250,000 to $450,000, 4%; $450,000 to $750,000, 6%; $750,000 to $1,000,000, 8%; $1,000,000 to $1,500,000, 10%; $1,500,000 to $2,000,000, 12%; $2,000,000 to $3,000,000, 14%; $3,000,000 to $4,000,000, 16%; $4,000,000 to $5,000,000, 18%; $5,000,000 to $8,000,000, 20%; $8,000,000 to $10,000,000, 22%; exceeding $10,000,000, 25%.	

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from $100 to $500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow nor descendants (given below); Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin. In Delaware the widow takes all up to $3,000 and one-half after that. If no kin, widow takes all.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to $5,000 and one-half of the residue.

(d) In Connecticut the widow takes the entire estate up to $2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes $2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes $1,500, and, if the estate exceeds $3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to $20,000 and three-fourths of the residue (if brother, sister or parent survive, otherwise all to widow).

(h) In Michigan the widow takes the entire estate up to $3,000 and one-half of the residue (if brother, sister or parent survive, otherwise all to widow).

(j) In Vermont the widow takes entire estate if not exceeding $2,500; if more than $2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than $400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally, and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—*Continued.*

the mother, and if both parents are dead, then to the brothers and sisters of their descendants: Arkansas, District of Columbia and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally: Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, the husband takes the same distributing share as a widow would take.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

(f) In North Carolina, where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half; if there be more than one child, husband takes child's share.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayors and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to

hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument Law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington, and Wisconsin—and the same general rules apply in all the States.

LAW OF CONTRACTS.

A contract is an agreement of two or more parties by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration, without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor or administrator to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from $30 to $200. In a number of the States no such provision exists.

In many of the States, declarations or conveyances of trust estates.

In many States, representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy, except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed: Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander, or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff).

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia. In New Hampshire tax collector may also arrest person for non-payment of poll tax if not sufficient property upon which to make distress.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected, and in certain circumstances against defendant who conceals property from Sheriff. The drawer of a check on which, on presentation to the bank, payment is refused is guilty of a mis-

ARREST IN CIVIL ACTION—*Continued.*

demeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days, and not then if the drawer makes good the invalid check.

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed on all actions except to recover debt or taxes.

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation Money or property sought to be recovered was in gambling on a bet or wager.

WILLS.

A WILL OR TESTAMENT is a final disposition of a person's property, to take effect after his death. A codicil is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants. In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made *orally* by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses, who must subscribe their names thereto in the *presence* of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States: California, Connecticut, Idaho, Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah and the Hawaiian Islands; and in the following States only females at 18 years: Colorado, District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only: Alabama, Arkansas, Missouri, Oregon, Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will. In Colorado, persons of 17 years, and in New York males of 18 and females of 16 years may dispose of personalty. WITNESSES—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3), South Carolina (3), Vermont (3).

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898, AS AMENDED BY SUBSEQUENT ACTS.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(*a*) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(*b*) Any natural person, except a wage-earner, or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, mining, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but no national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

SEC. 7. DUTIES OF BANKRUPTS.—(*a*) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat. 1134, as follows:

SEC. 24. Original jurisdiction in district courts.

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankruptcy Act of July 1, 1898.

SEC. 4, Act of January 28, 1915, as follows:

"That the judgments and decrees of the Circuit Courts of Appeals in all proceedings and cases arising under the Bankruptcy Act and in all controversies arising in such proceedings and cases shall be final, save only that it shall be competent for the Supreme Court to require by *certiorari*, upon the petition of any party thereto, that the proceeding, case, or controversy be certified to it for review and determination, with the same power and authority as if taken to that court by appeal or writ of error; but *certiorari* shall not be allowed in any such proceeding, case, or controversy unless the petition therefor is presented to the Supreme Court within three months from the date of such judgment or decree."

By act of Congress, approved March 2, 1917, section 17 of the Bankruptcy Law of 1898 was amended by adding to debts not affected by a discharge those "for breach of promise of marriage accompanied by seduction."

The war suspended for a time the operation of bankruptcy laws in their application to those who were engaged in war service, military or civil. These were embodied in the moratorium provisions of both Federal and State statutes.

UNITED STATES IMMIGRATION LAW OF FEB. 5, 1917.

(For new Immigration Restriction Act, see page 324.)

The *tax* on immigrant aliens entering, including seamen, is $8. Children under sixteen years, when with a parent, are exempted, also aliens in transit to another country.

Excluded Classes.—All idiots, imbeciles, feeble-minded persons, epileptics, insane persons; persons who have had one or more attacks of insanity at any time previously; persons of constitutional psychopathic inferiority; persons with chronic alcoholism; paupers; professional beggars; vagrants; persons afflicted with tuberculosis in any form or with a loathsome or dangerous contagious disease; persons not comprehended within any of the foregoing excluded classes who are found to be and are certified by the examining surgeon as being mentally or physically defective, such physical defect being of a nature which may affect the ability of such alien to earn a living; persons who have been convicted of or admit having committed a felony or other crime or misdemeanor involving moral turpitude; polygamists, or persons who practise polygamy or believe in or advocate the practice of polygamy; Anarchists, or persons who believe in or advocate the overthrow by force or violence of the Government of the United States or of all forms of law, or who disbelieve in or are opposed to organized government, or who advocate the assassination of public officials, or who advocate or teach the unlawful destruction of property; persons who are members of or affiliated with any organization entertaining and teaching disbelief in or opposition to organized government, or who advocate or teach the duty, necessity, or propriety of the unlawful assaulting or killing of any officer or officers, either of specific individuals or of officers generally, of the Government of the United States or of any other organized government because of his or their official character, or who advocate or teach the unlawful destruction of property; prostitutes, or persons coming into the United States for the purpose of prostitution or for any other immoral purpose; persons who directly or indirectly procure or attempt to procure or import prostitutes or persons for the purpose of prostitution or for any other immoral purpose; persons who are supported by or receive in whole or in part the proceeds of prostitution.

Persons, hereinafter called contract laborers, who have been induced, assisted, encouraged, or solicited to migrate to this country by offers or promises of employment, whether such offers or promises are true or false, or in consequence of agreements, oral, written, or printed, express or implied, to perform labor in this country of any kind, skilled or unskilled; persons who have come in consequence of advertisements for laborers printed, published, or distributed in a foreign country; persons likely to become a public charge, persons who have been deported under any of the provisions of this act, and who may again seek admission within one year from the date of such deportation, unless prior to their re-embarkation at a foreign port or their attempt to be admitted from foreign contiguous territory the Secretary of Labor shall have consented to their reapplying for admission; persons whose ticket or passage is paid for with the money of another, or who are assisted by others to come, unless it is affirmatively and satisfactorily shown that such persons do not belong to one of the foregoing excluded classes; persons whose ticket or passage is paid for by any corporation, association, society, municipality, or foreign Government, either directly or indirectly; stowaways, except that any such stowaway, if otherwise admissible, may be admitted in the discretion of the Secretary of Labor; all children under sixteen years of age unaccompanied by or not coming to one or both of their parents, except that any such children may, in the discretion of the Secretary of Labor, be admitted if in his opinion they are not likely to become a public charge and are otherwise eligible; unless otherwise provided for by existing treaties, persons who are natives of islands not possessed by the United States adjacent to the continent of Asia, situate south of the twentieth parallel latitude north, west of the one hundred and sixtieth meridian of longitude east from Greenwich, and north of the tenth parallel of latitude south, or who are natives of any country, province, or dependency situate on the continent of Asia west of the one hundred and tenth meridian of longitude east from Greenwich and east of the fiftieth meridian of longitude east from Greenwich and south of the fiftieth parallel of latitude north, except that portion of said territory situate between the fiftieth and the sixty-fourth meridians of longitude east from Greenwich and the twenty-fourth and thirty-eighth parallels of latitude north, and no alien now in any way excluded from, or prevented from entering the United States shall be admitted to the United States. *The provision next foregoing, however, shall not apply to persons of the following status or occupations:* Government officers, ministers or religious teachers, missionaries, lawyers, physicians, chemists, civil engineers, teachers, students, authors, artists, merchants, and travellers for curiosity or pleasure, nor to their legal wives or their children under sixteen years of age who shall accompany them or who subsequently may apply for admission to the United States, but such persons or their legal wives or foreign-born children who fail to maintain in the United States a status or occupation placing them within the excepted classes shall be deemed to be in the United States contrary to law, and shall be subject to deportation as provided in section nineteen of this act.

All aliens over sixteen years of age, physically capable of reading, who cannot read the English language or some other language or dialect, including Hebrew or Yiddish: *Provided*, That any admissible alien, or any alien heretofore or hereafter legally admitted, or any citizen of the United States, may bring in or send for his father or grandfather over fifty-five years of age, his wife, his mother, his grandmother, or his unmarried or widowed daughter, if otherwise admissible, whether such relative can read or not; and such relative shall be permitted to enter. *The following classes of persons shall be exempt from the operation of the illiteracy test, to wit:* All aliens who shall prove to the satisfaction of the proper immigration officer or to the Secretary of Labor that they are seeking admission to the United States to avoid religious persecution in the country of their last permanent residence, whether such persecution be evidenced by overt acts or by laws or governmental regulations that discriminate against the alien or the race to which he belongs because of his religious faith; all aliens who have been lawfully admitted to the United States and who have resided therein continuously for five years and who return to the United States within six months from the date of their departure therefrom; all aliens in transit through the United States; all aliens who have been lawfully admitted to the United States and who later shall go in transit from one part of the United States to another through foreign contiguous territory: *Provided*, That nothing in this act shall exclude, if otherwise admissible, persons convicted or who admit the commission, or who teach or advocate the commission, of an offense purely political: *Provided further*, That the provisions of this act relating to the payments for tickets or passage by any corporation, association, society, municipality, or foreign Government shall not apply to the tickets or passage of aliens in immediate and continuous transit through the United States to foreign contiguous territory: *Provided further*, That skilled labor, if otherwise admissible, may be imported if labor of like kind unemployed cannot be found in this country, and the question of the necessity of importing such skilled labor in any particular instance may be determined by the Secretary of Labor upon the application of any person interested, such application to be made before such importation, and such determination by the Secretary of Labor to be reached after a full hearing and an investigation into the facts of the case: *Provided further*, That the provisions of this law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, nurses, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession, or persons employed as domestic servants: *Provided further*, That whenever the President shall be satisfied that passports issued by any foreign Government to its citizens or subjects to go to any country other than the United States, or to any insular possession of the United States or to the Canal Zone, are being used for the purpose of enabling the holder to come to the continental territory of the United States to the detriment of labor conditions therein, the President shall refuse to permit such citizens or subjects of the country issuing such passports to enter the continental territory of the United States from such other country or from such insular possession or from the Canal Zone: *Provided further*, That aliens returning after a temporary absence to an unrelinquished United States domicile of seven consecutive years may be admitted in the discretion of the Secretary of Labor, and under such

conditions as he may prescribe: *Provided further*, That nothing in the contract-labor or reading-test provisions of this act shall be construed to prevent, hinder, or restrict any alien exhibitor, or holder of concession or privilege for any fair or exposition authorized by act of Congress, from bringing into the United States, under contract, such otherwise admissible alien mechanics, artisans, agents, or other employees natives of his country as may be necessary for installing or conducting his exhibit or for preparing for installing or conducting any business authorized or permitted under any concession or privilege which may have been or may be granted by any such fair or exposition in connection therewith, under such rules and regulations as the Commissioner General of Immigration, with the approval of the Secretary of Labor, may prescribe both as to the admission and return of such persons: *Provided further*, That the Commissioner General of Immigration with the approval of the Secretary of Labor shall issue rules and prescribe conditions, including exaction of such bonds as may be necessary to control and regulate the admission and return of otherwise inadmissible aliens applying for temporary admission: *Provided further*, That nothing in this act shall be construed to apply to accredited officials of foreign Governments, nor to their suites, families, or guests.

VIOLATIONS AND PENALTIES.

Violations of the immoral-women clause are punishable on conviction, by imprisonment up to ten years and a fine up to $5,000. Violations of the contract-labor clause are punishable, on conviction, by $1,000 fine in each case and (or) imprisonment up to two years. Violations of the Anarchist clause carry prison up to five years and fine up to $5,000. Other violations carry various penalties. It is unlawful for any person or concern engaged in bringing immigrants to give fare rebates or to solicit immigration; penalty, $400 fine in each case. The penalty for smuggling immigrants is fine up to $2,000 and prison up to five years. Immigrant ships must bring written records of each alien, with name, description, destination, etc., signed by the ship's surgeon; penalty, $10 for each unrecorded alien. Incoming aliens at all U. S. ports are examined by U. S. Public Health Service doctors, and each immigrant must be examined by at least two inspectors, under oath. False testimony by an immigrant or in his behalf is punishable as perjury. Impeding inspection is punishable by fine up to $2,000 and prison up to one year. An alien can appeal to a board of special inquiry, and then to the Secretary of Labor, whose word is final. Excluded aliens are returned at the ship's expense.

Aliens may be deported at any time within five years of their arrival if found guilty of crime or of having been of the excluded classes at arrival. An alien otherwise admittable may be let in by giving a cash bond that he or she will not become a public charge. The amount of cash is fixed in each case by the Secretary of Labor. It is unlawful for a ship to pay off or discharge an alien seaman in a U. S. port unless he lands merely to reship. An alien seaman unlawfully entered may be deported within three years of arrival, and this applies to any other person who got in unlawfully and who was not of the excluded classes.

Whenever an alien shall have been naturalized or shall have taken up his permanent residence in this country and thereafter shall send for his wife or minor children to join him, and said wife or any of said minor children shall be found to be affected with any contagious disorder, such wife or minor children shall be held under such regulations as the Secretary of Labor shall prescribe, until it shall be determined whether the disorder will be easily curable or whether they can be permitted to land without danger to other persons; and they shall not be either admitted or deported until such facts have been ascertained; and if it shall be determined that the disorder is easily curable and the husband or father or other responsible person is willing to bear the expense of the treatment, they may be accorded treatment in hospital until cured and then be admitted, or if it shall be determined that they can be permitted to land without danger to other persons, they may, if otherwise admissible, thereupon be admitted: *Provided*, That if the person sending for wife or minor children is naturalized, a wife to whom married or a minor child born subsequent to such husband or father's naturalization shall be admitted without detention for treatment in hospital, and with respect to a wife to whom married or a minor child born prior to such husband or father's naturalization the provisions of this section shall be observed, even though such person is unable to pay the expense of treatment, in which case the expense shall be paid from the appropriation for the enforcement of this act.

AMENDMENT EXCLUDING ALIENS.

An act of Congress, approved June 5, 1920, amends the amendment of Oct. 16, 1918, as to Anarchists so as to exclude from admission to the United States the following classes:

(*a*) Aliens who are Anarchists; (*b*) aliens who advise, advocate, or teach, or who are members of or affiliated with any organization, association, society, or group that advises, advocates, or teaches, opposition to all organized government; (*c*) aliens who believe in, advise, advocate, or teach, or who are members of or affiliated with any organization, association, society, or group, that believes in, advises, advocates, or teaches: (1) the overthrow by force or violence of the Government of the United States or of all forms of law, or (2) the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers (either of specific individuals or of officers generally) of the Government of the United States or of any other organized government because of his or their official character, or (3) the unlawful damage, injury or destruction of property, or (4) sabotage;

(*d*) Aliens who write, publish, or cause to be written or published, or who knowingly circulate, distribute, print, or display, or knowingly cause to be circulated, distributed, printed, published, or displayed, or who knowingly have in their possession for the purpose of circulation, distribution, publication, or display, any written or printed matter advising, advocating, or teaching opposition to all organized government, or advising, advocating or teaching: (1) the overthrow by force or violence of the Government of the United States or of all forms of law, or (2) the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers (either of specific individuals or of officers generally) of the Government of the United States or of any other organized government, or the unlawful damage, injury or destruction of property, or (4) sabotage;

(*e*) Aliens who are members of or affiliated with any organization, association, society, or group that writes, circulates, distributes, prints, publishes, or displays, or causes to be written, circulated, distributed, printed, published, or displayed, or that has in its possession for the purpose of circulation, distribution, publication, issue, or display, any written or printed matter of the character described in subdivision (d).

For the purpose of this section: (1) the giving, loaning, or promising of money or any thing of value to be used for the advising, advocacy, or teaching of any doctrine above enumerated shall constitute the advising, advocacy, or teaching of such doctrine; and (2) the giving, loaning, or promising of money or any thing of value to any organization, association, society, or group of the character above described shall constitute affiliation therewith; but nothing in this paragraph shall be taken as an exclusive definition of advising, advocacy, teaching, or affiliation.

Any alien who shall, after he has been excluded and deported or arrested and deported in pursuance of the provisions of this act, thereafter return to or enter the United States or attempt to return to or to enter the United States shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment for not more than five years; and deported.

ALIENS ADMITTED TO MARRY.

An act of Congress, approved June 5, 1920, amends the Immigration Act by adding that an alien who cannot read may, if otherwise admissible, be admitted if within five years hereafter a citizen of the United States who has served in the military or naval forces of the United States during the war with the Imperial German Government requests that such alien be admitted, and with the approval of the Secretary of Labor marries such alien at a United States immigration station. Approved, June 5, 1920.

Under an act of Congress, approved May 10, 1920, the Secretary of Labor is given power to deport, after a hearing, aliens found guilty of violating any of the so-called war acts, including interned aliens.

Congress, by a joint resolution, approved Oct. 19, 1918, amended the Immigration Law so as to re-admit any alien who enlisted or served here or abroad in the United States or other Allied forces if such alien applies for readmission within a year after the war's end, or returns to a United States port within two years after the war's end. In such cases the head tax is remitted, and the alien is let in.

THE IMMIGRATION RESTRICTION LAW.

The Immigration Restriction Law of May 19, 1921, operative until June 30, 1922, defines "alien" as any person not native born or naturalized, exclusive of Indians not taxed, and citizens of the islands under U. S. jurisdiction. It limits the number of aliens admissible to three per cent. of the number of the particular nationality in each case resident in the U. S. as shown by the 1910 census. Exceptions are government employees, their families and servants, visitors for pleasure or business, others merely going through the country as a convenient route, one year residents of Canada, Newfoundland, Cuba, Mexico, or Central or South American countries, and children (under eighteen) of U. S. citizens. Not more than 20 per cent. of each nationality to be admitted in any one month. Preference to be given to relatives and fiancees of U. S. citizens, of applicants for citizenship, and of persons eligible to citizenship by service in U. S. military or naval forces between April 6, 1917 and Nov. 11, 1918, inclusive.

IMMIGRATION QUOTAS UNDER RESTRICTION ACT.

* Includes military naturalizations.

STATUS OF NATURALIZED AMERICANS ABROAD.

Section 2 of the Citizenship Act of March 2, 1907, contains the following provision: "When any naturalized citizen shall have resided for two years in the foreign state from which he came, or for five years in any other foreign state, it shall be presumed that he has ceased to be an American citizen, and the place of his general abode shall be deemed his place of residence during said years: provided, that such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular office of the United States under such rules and regulations as the Department of State may prescribe: and provided also, that no American citizen shall be allowed to expatriate himself when this country is at war."

Section 4 of the Citizenship Act of March 2, 1907, in part provides that: "Any foreign woman who acquired American citizenship by marriage to an American shall be assumed to retain the same after the termination of marital relation if she continues to reside in the United States, unless she makes formal renunciation thereof before a court having jurisdiction to naturalize aliens."

U. S. NATURALIZATION LAWS.

(Revised by the Commissioner of Naturalization, Department of Labor.)

THE following courts alone have the power to naturalize aliens: United States District Courts in the States and Territories; also all courts of record in any State or Territory having a seal, a clerk, and jurisdiction in actions at law or equity, or law and equity, in which the amount in controversy is unlimited.

The power to naturalize is limited to persons residing within the geographical limits of the respective courts.

Any alien, white, or of African nativity or descent, is required, if he desires to become naturalized, to file a declaration of intention in the clerk's office of a court having jurisdiction, and such declaration may not be filed until the alien has reached the age of eighteen. This declaration must contain information as to the name, age, occupation, time and place of arrival in the United States, and must further show that it is the declarant's *bona fide* intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign prince, potentate, state or sovereignty, and particularly to the one of which he may be at the time a citizen or subject.

The widow, and children who are under age at the time that an alien who has made his declaration of intention has died, without having secured a certificate of naturalization, are exempted from the necessity of filing a declaration of intention.

PETITIONS FOR NATURALIZATION.

Not less than two years after an alien has filed his declaration of intention, and after not less than five years' continuous residence in the United States, he may file a petition for citizenship in any one of the courts which has jurisdiction over the place in which he resides, provided he has lived at least one year continuously, immediately prior to the filing of such petition, in the State or Territory in which such place is located. This petition must be signed by the petitioner in his own handwriting and shall give his full name, place of residence, occupation, place of birth and the date thereof, the place from which he emigrated, and the date and place of his arrival in the United States. If such arrival occurred subsequent to the passage of the act of June 29, 1906, he must secure a certificate from the Department of Labor showing the fact of such arrival and the date and place thereof, for filing with the clerk of the court to be attached to his petition. If he is married he must state the name of his wife and, if possible, the country of her nativity and her place of residence at the time of the filing of his petition, and, if he has children, the name, date and place of birth and present place of residence of each living child. The petition must set forth that he is not a disbeliever in or opposed to organized government, or a member of or affiliated with any organization or body of persons teaching disbelief in or opposition to organized government; that he is not a polygamist or a believer in the practice of polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may, at the time of filing such petition, be a citizen or subject. This petition must be verified at the time it is filed by the affidavit of two credible witnesses, who are citizens of the United States and who shall state that they have known the petitioner during his entire residence (not exceeding five years) in the State in which the petition is filed, which must be not less than one year, and that they have known him to be a resident of the United States continuously during the five years immediately preceding the filing of the petition; that during such time he acted as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same. If a portion of the five years has been passed by the petitioner in some other State than that in which he resides at the time of filing his petition the affidavit of the witnesses may verify so much of the petitioner's residence as has been passed in the State (not less than one year), and the portion of said five years' residence out of the State may be shown by depositions at the time of hearing on the petition.

No petition may be heard until the expiration of at least ninety days after it is filed nor within thirty days preceding a general election. At the hearing upon a petition, which shall be at a date fixed by order of the court, the witnesses are required to again attend and testify in open court so that the Judge or Judges thereof may be satisfied that the petitioner is qualified and that he has complied with all the requirements of the law.

MILITARY SERVICE A SHORT-CUT TO UNITED STATES NATURALIZATION.

The act of May 9, 1918, in reference to naturalization of honorably discharged soldiers and sailors who served during the present war, has been superseded by the act of July 19, 1919, as follows: "Any person of foreign birth, who served in the military or naval forces of the United States during the present war, after final examination and acceptance by the said military or naval authorities, and shall have been honorably discharged after such acceptance and service, shall have the benefits of the seventh sub-division of Section 4, of the act of June 29, 1906, 34 Statutes at Large, Part 1, Page 596, as amended, and shall not be required to pay any fee therefor; and this provision shall continue for the period of one year after all of the American troops are returned to the United States."

The above described "benefits" are: Exemption from declaration of intention and certificate of arrival; exemption from $4.00 fee; exemption from proof of United States residence for five years and State residence for one year. An applicant for naturalization under this statute must first appear before a naturalization examiner with his honorable discharge and two citizens to identify him as the person named therein and, after passing the required preliminary examination, he may file his petition for naturalization and be heard immediately by any naturalization court.

In cases of applicants in military or naval service petitions may be filed in the most convenient court without proof of residence within its jurisdiction. Honorable discharges or certificates of service are deemed *prima facie* proof as to residence and character, and the petition of a person in actual service may be heard immediately even though within thirty days of an election. Aliens in the military or naval service of the United States abroad (i. e., "not within the jurisdiction of any court authorized to naturalize aliens" —wording of statute), may file petitions without appearing in person, and may take the oath of allegiance by written verification. Service by aliens on vessels of other than American registry is not accepted as residence within the United States.

Alien seamen who have sailed three years on United States merchant or fishing vessels are protected as American citizens after declaring intention of becoming such. (This means that aliens who have sailed three years or more on American vessels may claim protection as American citizens by simply asking for it and, at the same time, declaring their intention of becoming citizens.) Aliens honorably discharged on account of disability in performance of duty while in military or naval service during the war or at its termination, may be relieved of the necessity of proving continuous five years' residence. Citizens having lost citizenship by entering the service of the Allies may resume citizenship by taking the oath of allegiance.

A subject of an enemy country may, by the eleventh subdivision of the act of May 9, 1918, become naturalized during war-time by the following means: He should make his petition for naturalization in the customary manner, and thereafter have the clerk of court serve on the Commissioner of Naturalization the special ninety-day alien enemy notice required by the statute. If the applicant's declaration of intention was less than two years old when war was declared with his native country he must be excepted by the President, through the Department of Justice, from the alien enemy classification before he may secure final hearing. In all such cases the objection of the Government to the final hearing of the application must be withdrawn before he may become naturalized.

PASSPORT REGULATIONS.

1. AUTHORITY TO ISSUE—Section 4075 of the Revised Statutes of the United States, as amended by the act of Congress approved June 14, 1902, provides that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, and by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States."

2. TO WHOM PASSPORTS ARE ISSUED—Section 4076 of the Revised Statutes of the United States (U. S. Comp. Stat., 1901, 2765) provides that "no passport shall be granted or issued to or verified for any other persons than those owing allegiance, whether citizens or not, to the United States." Persons who have declared their intention to become citizens are not classed as citizens.

3. BY WHOM ISSUED AND REFUSAL TO ISSUE—No one but the Secretary of State may grant and issue passports in the United States (Rev. Stat., Secs. 4075, 4078) and he is empowered to refuse them in his discretion. Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secretary of State. Applications for passports by persons in Porto Rico or the Philippines should be made to the chief executives of those islands. The evidence required of such applicants is similar to that required of applicants in the United States.

4. FEE—A fee of ten dollars is required to be collected for every citizen's passport issued. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Draft or checks will not be accepted. No fees charged to widow, child, parent, brother or sister of an American soldier, sailor or marine buried abroad to visit country of burial.

5. APPLICATIONS: AFFIDAVIT OF APPLICANT—A person who is entitled to receive a passport, if within the United States, must submit a written application, in duplicate, in the form of an affidavit, to the Secretary of State. The application should be made by the person to whom the passport is to be issued and signed by him, as it is not proper for one person to apply for another. The affidavit must be made before a clerk of a Federal court or of a State court authorized by the act of Congress of June 29, 1906, to naturalize aliens, within the jurisdiction of which the applicant or his witness resides, and the seal of the court must be affixed; *but in any place where there is a Federal court the affidavit must be made before a clerk of such court*, unless there is in such place an agent of the Department of State, in which case the Secretary may, in his discretion, require the application to be made before such agent.

The applicant must state from what point he intends to leave the United States, the object of trip and evidence of same, and the date of his intended departure, and also, if by a port of the United States, by what ship he intends to sail.

Passports will be issued to all parts of the world except countries where internal conditions or relations with the United States prevent.

(c) PHOTOGRAPHS—The application must also be accompanied by duplicate photographs of the applicant, on thin paper, unmounted, and not larger in size than three by three inches. One must be attached to the back of application by the clerk of court or the department's agent before whom the application is made, with an impression of such officer's seal so placed as to cover part of the photograph but not the features, and the other sent loose, to be attached to the passport by the department. The loose photograph must be signed by the applicant across its face, so as not to obscure the features, and the signature thereon must correspond to the applicant's signature affixed to the application. *Photographs on cardboard or postcards will not be accepted.*

(d) WITNESS—The application must be supported by an affidavit of at least one credible witness, who has known the applicant at least two years, stating that the applicant is the person he represents himself to be and that the facts stated in the application are true to the best of the witness's knowledge and belief. This affidavit must be made before the clerk of court or the department's agent before whom the application is executed, and the witness must accompany the applicant when he makes his application. The witness must be an American citizen, established in a recognized profession or business and having his office or place of business within the jurisdiction of the court or the department's agent (e. g., a clergyman, lawyer, physician, banker, broker, real estate dealer, or merchant). The witness, in signing the application, should state the nature of his profession or business and his professional or business address. *No lawyer or other person will be accepted as witness to a passport application if he has received or expects to receive a fee for his services in connection therewith.*

6. NATIVE CITIZEN—An application containing the information indicated by rule 5 will be sufficient evidence in the case of a native citizen; except that a person born in the United States in a place where births are recorded will be required to submit a birth certificate with his application. If a birth certificate is not obtainable, the application must be supported by an affidavit of the physician who attended the birth or affidavits of parents or other reputable persons having actual knowledge of the applicant's birth in this country. Passports issued by the Department of State or its diplomatic or consular representatives are intended for identification and protection in foreign countries and not to facilitate entry into the United States, immigration being under the supervision of the Department of Labor.

7. A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES—In addition to the statements required by rule 5, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. In such case evidence of the father's birth in this country, similar to that required in section 6, above, should be submitted.

8. NATURALIZED CITIZEN—In addition to the statements required by rule 5, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country and, if possible, what ship he sailed on, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization.

9. WOMAN'S APPLICATION—If she is unmarried, in addition to the statements required by rule 5, she should state that she has never been married. If she is the wife of a native citizen of the United States, the fact should be made to appear in her application, which should be made according to the form prescribed for a native citizen, whether she was born in this country or abroad. If she is the wife of a naturalized citizen, in addition to the statements required by rule 5 she must transmit for inspection her husband's certificate of naturalization or a certified copy of the court record thereof, must state that she is the wife of the person described therein, and must set forth the facts of his birth, emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen. She should sign her own Christian name, with the family name of her husband. (Thus, Mary Doe; not Mrs. John Doe.) A married woman's citizenship follows that of her husband. It is essential, therefore, that a woman's marital relation be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established, unless a widow or divorced, in which case she is privileged to make her choice. A divorcee must submit the official decree issued by the court.

PASSPORT REGULATIONS—*Continued.*

10. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT—In addition to the statements required by rule 5 the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rules governing the application of a naturalized citizen.

11. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES—In addition to the statements required by rule 5, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government, and must submit affidavits from at least two credible witnesses who are able to corroborate his statements as to birth, residence, and loyalty.

12. EXPIRATION OF PASSPORT—*A passport is valid for twelve months from date of its issuance, and may be renewed for another twelve months.* A new one will be issued upon a new application, accompanied by the old passport.

13. WIFE, MINOR CHILDREN, AND SERVANTS—When the applicant is accompanied by his wife, minor children, and maid servant, who is a citizen of the United States, it will be sufficient to state the fact, giving their names in full, the dates and places of their births, and the allegiance of the servant, when one passport will suffice for all those under twenty-one years of age. In such case, however, photographs of each person should accompany the passport application. For a man servant or any other person in the party a separate passport will be required. A woman's passport may include her minor children and maid servant under the above-named conditions. (The term "maid servant" does not include a governess, tutor, pupil, companion, or person holding like relation to the applicant for a passport.)

14. TITLES—Professional and other titles will not be inserted in passports.

15. SURRENDER OF OLD PASSPORTS—An applicant for a new passport who holds an expired or unexpired passport or passports should submit the latter to the clerk of court or agent of the Department of State before whom he executes his application for a new passport. In such case the clerk of court or agent of the Department of State will cancel the old passport by cutting out a piece of the seal thereon and stamping, or writing in indelible ink, the word "Cancelled," across the face of the passport, which may then be returned to the applicant. After cancelling an old passport the official who takes the application should make a notation on the margin thereof, giving the number and date of issuance of the passport cancelled.

16. BLANK FORMS OF APPLICATION—They will be furnished by the department free of charge to persons who desire to apply for passports. Supplies of blank applications are also furnished by the department to clerks of courts and are held by the department's agents.

After passport has been received it is necessary to obtain a Clearance Certificate at port of departure to show Income Tax laws have been compiled with. It is necessary to obtain vises from the consuls representing countries named in passport.

CUSTOM HOUSE EXAMINATION OF BAGGAGE FROM ABROAD.

1. A declaration is required of every passenger; but the senior member of a family may declare for the entire family if the members thereof are all residents of the same country and have their baggage placed under the same letter on the pier. Your baggage will not be examined until you have prepared and delivered to the customs officers a declaration on this form.

2. Penalties under U. S. Revised Statutes 2802 and 3082—Failure to declare any article which should be declared subjects it to seizure and the passenger to criminal prosecution. The offering of gratuities to customs officers is a violation of the law.

3. Residence—Persons arriving in the United States are divided as follows: (*a*) Returning residents of the United States and (*b*) all persons other than returning residents of the United States; and their declarations must be made accordingly. Citizens of the United States shall be deemed to be returning residents of the United States, unless they present satisfactory evidence that they have given up their residence in the United States and have acquired an actual bona fide residence in a foreign country. Residence of a wife follows that of her husband and the residence of a minor child that of its parents.

4. Returning residents of the United States must declare all articles obtained abroad in any manner. This includes articles obtained by purchase, gift, exchange or otherwise; articles worn or carried on the person as well as those in the baggage; used articles as well as new, and trunks and other containers obtained abroad. Commissions for others and articles intended directly or indirectly for sale must be so described in the declaration. Articles which may be included in the $100 exemption must not be omitted from the declaration. The actual cost of repairs or alterations made abroad on any article taken out of the United States must be declared. Personal or household effects returned in the same condition shall be admitted free of duty upon their identity being established, provided that such articles as were obtained abroad on a previous trip were properly declared when originally imported.

5. All persons other than returning residents of the United States may bring in free of duty necessary and appropriate wearing apparel, articles of personal adornment, toilet articles, and similar personal effects actually owned by them and intended for their own wear and use. All other articles in their baggage or on their person must be declared. Household effects, foodstuffs, cigars and cigarettes, tools of trade, articles owned by others or intended for others or for sale or for business or professional use are among the items required to be declared.

6. The actual cost of declared articles must be stated in all declarations or the foreign market value thereof if obtained otherwise than by purchase. If articles have depreciated in value through wear or use, the attention of the appraising officer should be called to such fact at the time of the examination. Articles are appraised at their value in their condition as imported. Passengers dissatisfied with values placed upon dutiable articles may make demand for reappraisement to the officer in charge on the pier, but no such demand can be entertained after the articles have been removed from customs custody.

7. Cigars, cigarettes and tobacco must be declared. Adult passengers may be allowed free of duty and internal revenue tax 50 cigars or 300 cigarettes or 3 pounds of smoking tobacco, if not for sale.

8. Merchandise or samples of merchandise, foreign or domestic, accompanying a passenger as baggage, whether the property of himself or another, must be declared as merchandise in this entry. A statement of the number of such packages and of the general character of the contents and the total value thereof will be sufficient.

9. Theatrical scenery, property and apparel and all other articles, foreign or domestic, which may be intended for use on the stage or for exhibition purposes, must be declared. Each package and its contents must be described.

10. All dogs must be declared. Collies, shepherd or sheep, and police dogs are subject to quarantine.

11. Bonded baggage—Baggage may be forwarded in bond. Passengers should specify on the declaration, in the space "Entry," the number of such packages, the general character and total value of the contents and the destination of the packages to be bonded.

12. The following articles are prohibited: Wines, liquors and other intoxicating beverages; cuttings or parts of sugar cane and plants and seeds, except vegetable and flower seeds, unless a permit has been previously obtained from the Department of Agriculture, Washington, D. C.; smoking opium; fur-seal skins taken in the waters of the North Pacific Ocean, and garments made in whole or in part from such skins; aigrettes, osprey plumes, and the feathers or parts of wild birds. Such articles must be delivered to the customs officers on the pier.

UNITED STATES PATENT OFFICE PROCEDURE.

(Revised by the Patent Office at Washington.)

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories referring to the specifications for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

If an inventor wishes to file an application for patent, it is advised by the United States Patent Office, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for patents must be made in writing to the Commissioner of Patents. The applicant must file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor.

When the nature of the invention admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called for by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more that twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Chargé d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the invention is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more that he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, $15. On issuing each original patent, $20. In design cases: For three years and six months, $10; for seven years, $15; for fourteen years, $30. On every application for the reissue of a patent, $30. On filing each disclaimer, $10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty-five cents. For uncertified printed copies of specifications and drawings of patents, ten cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, $1; of over three hundred and under one thousands words, $2; for each additional thousand words, or fraction thereof, $1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of the drawings of pending, patented or abandoned cases, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Negative photographic copies of specifications and drawings of foreign patents, or of any page or part of page of any printed publication in the possession of the office, will be furnished on paper 7x11 inches for fifteen cents per sheet. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps

PATENT OFFICE PROCEDURE—*Continued.*

and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

The most important changes in Patent Office practice put in effect in the past year are as follows:

In Rule 93. "An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention. In order to ascertain whether any question of priority arises the Commissioner may call upon any junior applicant to state in writing the date when he conceived the invention under consideration. All statements filed in compliance with this rule will be returned to the parties filing them. In case the applicant makes no reply within the time specified, not less than ten days, the Commissioner will proceed upon the assumption that the said date is the date of the oath attached to the application. The fact that one of the parties has already obtained a patent will not prevent an interference, for, although the Commissioner has no power to cancel a patent, he may grant another patent for the same invention to a person who proves to be the prior inventor."

In Rule 77. "If an applicant neglects to prosecute his application for one year after the date when the last official notice of any action by the office was mailed to him, the application will be held to be abandoned, as set forth in Rule 171."

REGISTRATION OF TRADE-MARKS IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," approved February 20, 1905, and later amendatory acts:

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag, or banner adopted by any institution, organization, club, or society which was incorporated in any State in the United States prior to the date of the adoption and use by the applicant: Provided, That said name, distinguishing mark, character, emblem, colors, flag, or banner was adopted and publicly used by said institution, organization, club, or society prior to the date of adoption and use by the applicant; unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the minds of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By Act of Congress approved February 18, 1909, the second section of the trades-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a

REGISTRATION OF TRADE-MARKS—*Continued.*

member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Charge d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge, or Magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

A fee of $10.00 is required by law to be paid with each application for the registration of a trade-mark, and this fee will include the certificate of registration, if the trade-mark be determined to be registrable.

An Act of Congress, signed March 19, 1920, puts in effect the provisions of the International Trade-Mark Convention at Buenos Aires, August 20, 1910, by requiring registration of a facsimile of the trade-mark, name, residence of registrant, etc.

COPYRIGHT LAW OF THE UNITED STATES.

(Revised by Thorvald Solberg, Register of Copyrights.)

THE copyright law approved March 4, 1909, which took effect on July 1, 1909, provides that the application for registration of any work "shall specify to which of the following classes the work in which copyright is claimed belongs":

(a) Books, including composite and cyclopædic works, directories, gazetteers and other compilations; (b) periodicals, including newspapers; (c) lectures, sermons, addresses, prepared for oral delivery; (d) dramatic or dramatico-musical compositions; (e) musical compositions; (f) maps; (g) works of art, models or designs for works of art; (h) reproductions of a work of art; (i) drawings or plastic works of a scientific or technical character; (j) photographs; (k) prints and pictorial illustrations. The amendment of August 24, 1912, adds: (l) motion picture photo-plays; (m) motion pictures other than photo-plays.

The application for registration of any article should distinctly specify to which one of these classes the work belongs. An article is not entitled to registration unless it is reasonably possible to class it under one or the other of the designations named in the statute.

For works reproduced in copies for sale or public distribution: 1. Publish the work with the copyright notice. The notice may be in the form "Copyright, 19....(year date of publication) by.....(name of copyright proprietor), or in case of works specified above (f) to (k) the notice may consist of the letter C enclosed in a circle (C) accompanied by the initials, monogram, mark or symbol of the proprietor—provided that his name shall appear on some accessible part of the copies." 2. Promptly after publication send to the Copyright Office, Library of Congress, Washington, D. C., two copies (or if the work is by a foreign citizen and is first published in a foreign country, one copy only) of the best edition of the work, with an application for registration. In the case of motion picture photo-plays and of motion pictures other than photo-plays a description of the work must be filed, together with copies of the reels, and a money order payable to the Register of Copyrights for the statutory registration fee of $1.

In the case of books by American authors, or permanent residents of the United States, the copies deposited must be accompanied by an affidavit, under the official seal of an officer authorized to administer oaths, stating that the typesetting, printing and binding of the book have been performed within the United States. Affidavit and application forms will be supplied by the Copyright Office on request.

Books of foreign origin in a language or languages other than English are not required to be manufactured in the United States. In the case of a book in the English language published abroad before publication in this country, an *ad interim* copyright for 30 days from the day of the deposit of the foreign copy may be secured by depositing in the Copyright Office one complete copy of the foreign edition within 30 days after its publication abroad. If two copies of such book manufactured in this country are deposited with application for registration and fee ($1) published during the *ad interim* term, the copyright shall be extended for the full term of 28 years.

For works not reproduced in copies for sale: Copyright may also be had of certain classes of works (see a, b, c, below) of which copies are not reproduced for sale, by filing in the Copyright Office an application for registration, with the statutory fee of $1, sending therewith: (a) In the case of lectures or other oral addresses or of dramatic or musical compositions, one complete manuscript or typewritten copy of the work. This privilege of registration, however, does not exempt the copyright proprietor from the deposit of printed copies of a dramatic or musical composition or lecture where the work is later reproduced in copies for sale. A new application must be made in such cases and another fee of $1 paid. (b) In the case of photographs not intended for general circulation, one photographic print. (c) In the case of works of art (paintings, drawings, sculpture); or of drawings or plastic works of a scientific or technical character, one photograph or other identifying production of the work. In the case of a motion picture photo-play, a title and description and one print taken from each scene or act. In case of a motion picture other than a photo-play, a title and description with not less than two prints to be taken from different sections of a complete motion picture. In all these cases, if the work is later reproduced in copies for sale, two copies must then be deposited.

For registration of any work subject to copyright, $1, which sum is to include a certificate of registration under seal. But only one registration at one fee is required in the case of several volumes of the same book deposited in the Copyright Office at the same time. For every additional certificate of registration, or copy of record under seal, 50 cents. In the case of photographs the fee shall be 50 cents where a certificate is not requested. For recording and certifying an assignment of copyright, or for a certified copy of an assignment, $1, if the instrument is not over three hundred words in length; if more than three hundred and less than one thousand words in length, $2; if more than one thousand words in length, $1 additional for each additional one thousand words or fraction thereof over three hundred words. For comparing a copy of an assignment with the record of such document in the Copyright Office and certifying the same under seal, $1. For recording the transfer of the proprietorship of copyright articles, 10 cents for each title of a book or other article, in addition to the fee prescribed for recording the instrument of assignment. For recording an extension or renewal of copyright, 50 cents. Remittances should be made by money order payable to the Register of Copyrights. Forms for application for copyright registration will be furnished on request.

The original term of copyright runs for twenty-eight years. Within one year prior to the expiration of the original term, the author, if living, or the widow or widower of the author, or the children of the author if he be not living; or if none of these be living, then the author's executors, or in the absence of a will, the

author's next of kin may secure a renewal for a further term of twenty-eight years, making fifty-six years in all. In case of composite works, if the proprietor secured the original copyrights, he may also secure the renewal.

Copyrights are assignable by any instruments of writing. Every assignment of copyright must be recorded in the Copyright Office within three calendar months after its execution in the United States or within six calendar months after its execution without the limits of the United States. "In default of which it shall be void as against any subsequent purchaser or mortgagee for a valuable consideration, without notice, whose assignment has been duly recorded." Every assignment of copyright executed in a foreign country must be acknowledged by the assignor before a consular officer or Secretary of legation of the United States authorized by law to administer oaths or perform notarial acts. The certificate of such acknowledgment under the hand and official seal of such consular officer or Secretary of legation is *prima facie* evidence of the execution of the instrument.

COPYRIGHT AMENDMENT OF 1920.

An amendment to the United States Copyright Law approved December 18, 1919, has these features: limits granting of copyright to foreign authors or proprietors domiciled in U. S. at time of first publication, or to citizens, or to subjects of states or nations which grant (by treaty, convention, agreement, or law) copyright benefits giving substantially equal protection to U. S. citizens, or whose state or nation is a party to an international agreement—the existence of such reciprocal conditions to be determined by proclamation of the President from time to time; such rights to last for fifteen months after the date of the President's proclamation of peace. In the case of a book first published abroad in English, the deposit of one complete copy of foreign editions, with request for reservation of copyright, shall secure an *ad interim* copyright good for four months after such deposit.

INTERNATIONAL COPYRIGHT RELATIONS.

Copyright is not secured in foreign countries by action in the Copyright Office, but only by complying with the legislation of such countries.

Copyright relations have been established with the following foreign countries by proclamation of the President: Austria, Belgium, Chile, Costa Rica, Cuba, Denmark, France, Germany, Great Britain and the British possessions, Italy, Luxemburg, Mexico, Netherlands and possessions, Norway, Portugal, Spain, Sweden, Switzerland, Tunis.

Copyright proclamations have been issued under Sec. 1 (e) of the act of 1909, securing copyright control of mechanical musical reproduction in the U. S. to citizens or subjects of Australia, Belgium, Cuba, France, Germany, Great Britain, Italy, Luxemburg, New Zealand and Norway. The convention with Hungary includes such protection.

Copyright treaties have also been entered into with China, Japan and Hungary (the latter in effect on October 16, 1912). The Copyright Convention of Mexico of 1902 has been ratified by the United States and is effective from July 1, 1908, as between the United States and Costa Rica, Guatemala, Honduras, Nicaragua and Salvador. The Pan-American Copyright Convention signed at Buenos Ayres in 1910 was proclaimed July 13, 1914, and is effective as between the United States and Bolivia, Brazil, Costa Rica, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras, Nicaragua, Panama, Paraguay, Peru, Salvador and Uruguay.

President Wilson, on April 14, 1920, signed a proclamation granting to subjects of Great Britain and dominions except Canada, Australia, New Zealand, South Africa and Newfoundland, copyright protection. Protection is also granted to records, perforated rolls and other devices for production of music, work by mechanical means. The proclamation did not afford protection to works republished in either country since August 1, 1914, but provided protection for all works first produced or published after that date and before the President's proclamation of peace.

The British Government issued an Order in Council protecting works first published in U. S. between August 1, 1914, and termination of the war, conditional upon publication in England not later than six months after the termination of the war.

The State Department advises interested American authors and publishers to take immediate steps to obtain copyright protection in England for works published in this country since August 1, 1914, which have failed to obtain such protection in England.

NEW BRITISH COPYRIGHT LAW.

A new law of Great Britain requires that patents (of foreign manufacturers) be worked on a commercial scale within the United Kingdom within four years, and extends duration of patents to sixteen years—heretofore fourteen.

AUTHORITY OF THE COMMISSIONER OF PATENTS.

The Commissioner of Patents is charged with the administration of the patent laws, and supervision of all matters relating to the granting of letters patent for inventions, and the registration of trade-marks. He is by statute made the tribunal of last resort in the Patent Office, and has appellate jurisdiction in the trial of interference cases, of the patentability of inventions, and of registration of trade-marks. Appeals lie from his decisions to the United States Court of Appeals of the District of Columbia.

The first Patent law in the U. S. was approved April 10, 1790. In the first year 3 patents were granted, one of them to Sam'l Hopkins for his method of making potash and pearlash, dated July 31, 1790. In the second year 33 patents were granted, and 11 in the third year. The Patent Office was burned, with most of the records, in 1836. Up to January 1, 1836, there had been 9,957 patents issued.

NOTE—Computations based on fiscal years.

NATIONAL BUDGET LAW.

THE President, June 10, 1921, approved the Budget and Accounting Act, intended as a money-saving plan for co-ordinating departmental expenditures. Charles G. Dawes was appointed Director of the Budget. The Bureau of the Budget was made a part of the Treasury Department. Under the act, the President shall transmit to Congress on the first day of each regular session the Budget, which shall set forth in summary and in detail:

(a) Estimates of the expenditures and appropriations necessary, in his judgment, for the support of the Government for the ensuing fiscal year; except that the estimates for such year for the Legislative Branch of the Government and the Supreme Court of the United States shall be transmitted to the President on or before October 15 of each year, and shall be included by him in the Budget without revision; (b) His estimates of the receipts of the Government during the ensuing fiscal year, under (1) laws existing at the time the Budget is transmitted and also (2) under the revenue proposals, if any, contained in the Budget; (c) The expenditures and receipts of the Government during the last completed fiscal year; (d) Estimates of the expenditures and receipts of the Government during the fiscal year in progress; (e) The amount of annual, permanent or other appropriations, including balances of appropriations for prior fiscal years, available for expenditure during the fiscal year in progress, as of November 1 of such year; (f) Balanced statements of (1) the condition of the Treasury at the end of the last completed fiscal year, (2) the estimated condition of the Treasury at the end of the fiscal year in progress, and (3) the estimated condition of the Treasury at the end of the ensuing fiscal year if the financial proposals contained in the Budget are adopted; (g) All essential facts regarding the bonded and other indebtedness of the Government; and (h) Such other financial statements and data as in his opinion are necessary or desirable in order to make known in all practicable detail the financial condition of the Government.

If the Budget estimates exceed the current Government revenues, the President can recommend to Congress taxes or loans to cover the difference.

PACKERS CONTROL LAW.

THE Meat Packers and Stockyards Act, giving the Secretary of Agriculture control over the meat packing industry, was signed by the President, August 15, 1921.

The act makes it unlawful for any packer to (a) Engage in or use any unfair, unjustly discriminatory or deceptive practice or device in commerce; or (b) Make or give, in commerce, any undue or unreasonable preference or advantage to any particular person or locality in any respect whatsoever, or subject, in commerce, any particular person or locality to any undue or unreasonable prejudice or disadvantage in any respect whatsoever; or (c) Sell or otherwise transfer to or for any other packer, or buy or otherwise receive from or for any other packer, any article for the purpose or with the effect of apportioning the supply in commerce between any such packers, if such apportionment has the tendency or effect of restraining commerce or of creating a monopoly in commerce; or (d) Sell or otherwise transfer to or for any other person, or buy or otherwise receive from or for any other person, any article for the purpose or with the effect of manipulating or controlling prices in commerce, or of creating a monopoly in the acquisition of, buying, selling, or dealing in, any article in commerce, or of restraining commerce; or (e) Engage in any course of business or do any act for the purpose or with the effect of manipulating or controlling prices in commerce, or of creating a monopoly in the acquisition of, buying, selling, or dealing in, any article in commerce, or of restraining commerce; or (f) Conspire, combine, agree, or arrange with any other person (1) to apportion territory for carrying on business in commerce, or (2) to apportion purchases or sales of any article in commerce, or (3) to manipulate or control prices in commerce; or (g) Conspire, combine, agree or arrange with any other person to do, or aid or abet the doing of, any act made unlawful by subdivision (a), (b), (c), (d), or (e).

The Secretary of Agriculture can give the packers hearings on complaints being made, and can issue orders binding on the packers. Each side can appeal to the U. S. Court, as in the case of the Federal Trade Commission. The Secretary of Agriculture is authorized to license stockyards to do business. Violations by packers are liable to $10,000 fine and 5 years in prison. Stockyards violations are liable to $1,000 fine and 1 year in prison.

GRAIN CONTROL LAW.

THE Capper-Tincher Act for regulating trading on grain exchanges was signed by the President, Aug. 24, 1921. The act puts a prohibitive tax on grain speculation and upon all grain exchanges which do not become "contract markets." Exchanges and their individual members are required to report all transactions to the Secretary of Agriculture. Certain exemptions are granted to co-operative associations.

The act provides that in addition to the taxes now imposed by law there is hereby levied a tax amounting to 20 cents per bushel on each bushel involved therein, whether the actual commodity is intended to be delivered or only nominally referred to, upon each and every privilege or option for a contract either of purchase or sale of grain, intending hereby to tax only the transactions known to the trade as "privileges," "bids," "offers," "puts and calls," "indemnities," or "ups and downs."

SECTION 4. That in addition to the taxes now imposed by law there is hereby levied a tax of 20 cents a bushel on every bushel involved therein, upon each contract of sale of grain for future delivery except —(a) Where the seller is at the time of the making of such contract the owner of the actual physical property covered thereby, or is the grower thereof, or in case either party to the contract is the owner or renter of land on which the same is to be grown, or is an association of such owners, or growers of grain, or of such owners or renters of land; or (b) Where such contracts are made by or through a member of a board of trade which has been designated by the Secretary of Agriculture as a "contract market," and if such contract is evidenced by a memorandum in writing which shows the date, the parties to such contract and their addresses, the property covered and its price, and the terms of delivery, and provided that each board member shall keep such memorandum for a period of three years from the date thereof, or for a longer period if the Secretary of Agriculture shall so direct, which record shall at all times be open to the inspection of any representative of the U. S. Department of Agriculture or the U. S. Department of Justice.

Violations of the act are liable to $10,000 fine and a year in prison.

GOVERNMENT AID TO FARMERS.

THE act authorizing the War Finance Corporation to advance not more than $1,000,000,000 United States Government credit to producers of and dealers in agricultural products was approved by the President, Aug. 24, 1921. Aid may be given up to July 1, 1922.

The act provides that whenever the directors of the corporation shall be of the opinion that conditions arising out of the war, or out of the disruption of foreign trade created by the war, have resulted in or may result in an abnormal surplus accumulation of any staple agricultural product of the United States, or lack of a market for the sale of same, or that the ordinary banking facilities are inadequate to enable

GOVERNMENT AID TO FARMERS.—*Continued.*

producers of or dealers in such products to carry them until they can be exported or sold for export in an orderly manner, the corporation shall thereupon be empowered to make advances, for periods not exceeding one year from the respective dates of such advances, upon such terms, not inconsistent with this act, as it may determine:

"(a) To any person engaged in the United States in dealing in or marketing any such products, or to any association composed of persons engaged in producing such products, for the purpose of assisting such person or association to carry such products until they can be exported or sold for export in an orderly manner. Any such advance shall bear interest at a rate not exceeding 1½ per centum in excess of the rate of discount for ninety-day commercial paper prevailing at the Federal Reserve Bank of the district in which the borrower is located at the time when such advance is made;

"(b) To any person without the United States purchasing such products, but in no case shall any of the money so advanced be expended without the United States. Every such advance shall be secured by adequate security of such character as shall be prescribed by the Board of Directors of the corporation. The rate of interest charged on any such advance shall be determined by the Board of Directors. The corporation shall retain power to recall an advance or require additional security at any time.

"(c) To any bank, banker or trust company in the United States which makes or has made an advance or advances to any such person as is described in paragraph (a) of this section for the purpose therein set forth or which makes or has made an advance or advances to any producer for the purpose set forth in paragraph (a). The aggregate of advances made to any bank, banker or trust company shall not exceed the amount remaining unpaid of the advances made by such bank, banker or trust company for purposes herein described. Such advances shall bear interest at the rates fixed by the corporation.

The advances provided for by this act may be made until July 1, 1922. The corporation may from time to time extend the time of payment of any such advance or advances through renewals, substitution of new obligations, or otherwise, but the time for the payment of any advance shall not be extended beyond three years from the date upon which such advance was originally made. All advances made under this act shall be made against promissory note or notes, or other instrument or instruments, in writing imposing on the borrower a primary and unconditional obligation to repay the advance at maturity, with interest as stipulated therein, with full and adequate security in each instance by indorsement, guaranty, pledge, or otherwise."

THE SHERMAN LAW.

THE following is the text concerning trusts:

SEC. 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 2. Every person who shall monopolize, or attempt to monopolize, or combine or conspire with any other person or persons to monopolize any part of the trade or commerce among the several States, or with foreign nations, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the Court.

SEC. 3. Every contract, combination in form of trust or otherwise, or conspiracy, in restraint of trade or commerce in any Territory of the United States, or the District of Columbia, or in restraint of trade or commerce between any such Territory and another, or between any such Territory or Territories and State or States or the District of Columbia, or with foreign nations, or between the District of Columbia and any State or States or foreign nations, is hereby declared illegal. Every person who shall make any such contract, or engage in any such combination or conspiracy, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding $5,000, or by imprisonment not exceeding one year, or by both said punishments in the discretion of the Court.

SEC. 4. The several Circuit Courts of the United States are hereby invested with jurisdiction to prevent and restrain violations of this act; and it shall be the duty of the several District-Attorneys of the United States, in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the Court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree, the Court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

SEC. 5. Whenever it shall appear to the Court before which any proceeding under sec. 4 of this act may be pending that the ends of justice require that other parties should be brought before the Court, the Court may cause them to be summoned, whether they reside in the district in which the Court is held or not; and subpoenas to that end may be served in any district by the Marshal thereof.

SEC. 6. Any property owned under any contract or by any combination, or pursuant to any conspiracy (and being the subject thereof) mentioned in Section 1 of this act, and being in the course of transportation from one State to another, or to a foreign country, shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

SEC. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared to be unlawful by this act may sue therefor in any Circuit Court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained, and the costs of suit, including a reasonable attorney's fee.

SEC. 8. That the word "person" or "persons" wherever used in this act shall be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the Territories, the laws of any State or the laws of any foreign country.

Approved July 2, 1890.

CLAYTON ACT AMENDMENTS TO SHERMAN LAW.

Suits and proceedings against a corporation may be brought in any district wherein found or transacting business. Subpoenaes may run into any district, except that in civil cases permission of court must be had to bring witness more than 100 miles. Violations by corporations deemed also that of individual directors, officers or agents authorizing, or doing any of acts constituting violation in whole or in part. Injunctive relief against threatened loss provided for, and temporary injunctions without notice under stringent safeguards (giving security, prompt and early hearing, etc.). Special provisions enacted to cover disputes between employers and employees. In general so-called "strikes" and "striking" by laboring men

CLAYTON ACT AMENDMENTS TO SHERMAN LAW.—*Continued.*

and unions where peaceable means and methods alone are employed, cannot be enjoined. Persons or corporations wilfully disobeying orders, decrees, etc., issued under the Sherman law may, in certain cases, be proceeded against as for criminal contempt. In such cases defendant may demand jury trial. Punishment for contempt is not to exceed $1,000 fine, nor six months imprisonment. These provisions do not apply to contempts committed in presence of the court, or so near thereto as to obstruct the administration of justice.

The Sherman and Clayton acts do not apply to labor or farmers' unions.

LOYALTY OATHS REQUIRED OF NEW YORK TEACHERS.

CHAPTER 666 of the Laws of 1921 provides that every teacher in the public schools of this State shall obtain from the Commissioner of Education a certificate of qualifications. The law prescribes that this certificate shall state that the teacher holding the same is a person of good moral character and that he has shown satisfactorily that he is loyal and obedient to the Government of this State and of the United States. It also provides that no such certificate shall be issued to any person who, while a citizen of the United States, has advocated, either by word of mouth or in writing, a form of government other than the Government of the United States or of this State, or who advocates or has advocated, either by word of mouth or in writing, a change in the form of Government of the United States or of this State, by force, violence or any unlawful means.

In order to carry out the requirements of this law it is necessary for the Commissioner of Education to require each teacher in the public schools of the State to execute an oath of loyalty and obedience to the laws of the State and of the United States as prescribed and to demand a certification of good moral character and of loyal citizenship.

RAILROAD TRAIN SPEED.

THE modern high-grade express passenger locomotive can run at the rate of 112 miles an hour on a heavy-rail, straight track, provided it is ballasted by a train behind it, to keep it from jumping off. The heavier the engine and train, the smoother they ride. In actual practice, on account of curves and switches, the big coal consumption at high speed, and the frictional wear on the equipment, 50 miles an hour is not often exceeded by railroad trains over any considerable distance. Expense and danger limit speed.

The fastest time on record for a distance of over 440 miles was made by the Lake Shore & Michigan Southern R. R. from Buffalo to Chicago, in June, 1905, noted above. The fastest long distance run less than 440 miles was on the New York Central R. R., September 11, 1895, from New York to Buffalo, 436½ miles, in 407 minutes actual time. Average speed, 64½ miles an hour, with two stops and 28 slow-ups, and on January 1, 1903, from Albany to Buffalo, 302 miles, in 295 minutes.

On August 15, 1898, on P. & R. and C. R. R. of N. J., "Royal Blue Line," between Elizabeth, N. J. and Jenkintown, a distance of 69 miles, in 61 minutes, including 2 slow-ups, some of the miles being traversed in 38 seconds.

On October 7, 1913, a special train on the Baltimore & Ohio, occupied by a party of baseball writers en route to report the World's Series, ran from Pittsburgh to Cumberland, Md., 147 miles, in 3 hours and 37 minutes, without stops, and from Cumberland to Baltimore, 190 miles, without stops, in 3 hours and 55 minutes, an average of 48.7 miles per hour. Both of these runs were made without taking water.

The Jarrett and Palmer special theatrical train, Jersey City to Oakland (San Francisco), 3,311 miles, June, 1876, 83 hours, 45 minutes; average speed, 39.53 miles per hour.

In May, 1906, the "Harriman Special" made the run from Oakland, Cal., to New York City in 71 hours, 27 minutes.

A special train of an engine and two cars, which was run in January, 1911, to carry J. P. Morgan from Washington to New York over the Pennsylvania Railroad, made the trip of 226.8 miles in 3 hours, 55 minutes and 30 seconds, or at the rate of 57.8 miles an hour.

Figures for 1916 and 1920 are from Bradstreet's. New York means Manhattan and Bronx, and the figures do not include alterations.

Reports to Bradstreet's from 163 cities of the United States show 359,740 permits granted in 1920, involving $1,408,465,421 of values, a decrease of 3.4 per cent. in number of permits, but a gain of 7.5 per cent. over 1919, and to this extent the greatest building value ever recorded. Following is the summary of building permits and values at 163 cities for 1920, with percentages of gain or loss from the preceding year:

	No. of Cities.	No. of Permits 1920.	Values 1920.	Compared With 1919.	
				Per Cent. Permits.	Per Cent. Values.
New England	25	21,039	$102,771,066	5.0	21.2
Middle	34	79,189	464,631,792	7.4	2.4
Western	22	67,068	245,079,030	21.0	1.4

NATIONAL WEALTH.

The total, or national, wealth of the United States was estimated at $300,000,000,000 on Feb. 1, 1921 ($2,800 per capita), by the Government Loan Organization.

In 1904 and 1912 the Census Bureau estimated U. S. national wealth on the following basis:

Form of Wealth.	1904.	1912.	Form of Wealth.	1904.	1912.
	Dollars.	*Dollars.*		*Dollars.*	*Dollars.*
Real property taxed	55,510,247,564	98,362,813,569	Priv. owned waterw'ks.	275,000,000	290,000,000
Real property exempt	6,831,244,570	12,313,519,502	Priv. owned central electric lt. and pwr. stat's	562,851,105	2,098,613,122
Live stock	4,073,791,736	6,238,388,985			
Farm imp. and mach	844,989,863	1,368,224,518	Total	4,840,546,909	10,265,207,321
Gold and sil. coin and bul.	1,998,603,303	2,616,642,734			
Mfg. mach., tools, &c.	3,297,754,180	6,091,451,274	All other:		
Railroads and equipment.	11,244,752,000	16,148,532,502	Agricultural products	1,899,379,652	5,240,019,651
			Manufacturing products	7,409,291,668	14,693,861,489
Total	83,801,383,216	143,139,573,114	Imported merchandise	495,543,685	826,632,467
			Mining products	408,066,787	815,552,233
Street railways, &c.:			Cloth'g and per. orn'ts.	2,500,000,000	4,295,008,593
Street railways	2,219,966,000	4,596,563,292	Furniture, carriages, &c.	5,750,000,000	8,463,216,222
Telegraph systems	227,400,000	223,252,516			
Telephone systems	585,840,000	1,081,433,227	Total	18,462,281,792	34,324,290,655
Pull. and private cars	123,000,000	123,362,701			
Shipping and canals	846,489,804	1,491,117,193			
Irrigation enterprises		360,865,270	Grand total	107,104,211,917	187,739,071,090

United States National wealth in previous years: (1850), $7,135,780,000; (1860), $16,159,616,000; (1870), $30,068,518,000; (1880), $43,642,000,000; (1890), $65,037,091,000; (1895), $77,000,000,000; (1900), $88,517,306,775.

In June, 1920, in a paper read before the Bankers' Institute, London, Edgar Crammond estimated the national wealth of chief countries as follows: United States, $350,000,000,000 to $400,000,000,000; United Kingdom, $120,000,000,000; France, $92,500,000,000; Germany, $83,000,000,000; Italy, $35,500,000,000; Belgium, $12,000,000,000; Japan, $23,500,000,000.

United Kingdom—The national or capital wealth of the British Empire was estimated officially, in 1917, in Parliament, by a Crown Minister, at $130,000,000,000, divided as follows: United Kingdom, $80,000,000,000; Canada, $10,000,000,000; Australia, $6,000,000,000; New Zealand, $1,500,000,000; South Africa, $3,000,000,000; India and Ceylon, $18,000,000,000.

National wealth of other nations—Argentina (1916), $13,865,000,000; Denmark (1900), $2,000,000,000; Germany (1908), $83,000,000,000; Russia in Europe, $60,000,000,000; Austria-Hungary, $55,000,000,000; Turkey, Bulgaria, $4,000,000,000.

UNITED STATES WORLD WAR COSTS.

(Revised from data made public up to July 1, 1921.)

Military cost, as per report of Secretary Houston	$24,010,000,000.00
Extra cost of Government functions under war conditions, as per report of Secretary Houston	4,500,000,000.00
Red Cross contributions	978,512,225.00
Other relief contributions to organizations—Salvation Army, Knights of Columbus, Y. M. C. A., etc., estimated at one-half Red Cross	490,000,000.00
Governmental contributions to relief from war supplies, etc.	648,000,000.00
American citizen claims against Germany, as per report of Secretary of State	221,133,231.21
Confiscated American-owned property in Germany	191,147,346.76
Confiscated property of American prisoners in Germany	12,560.08
Pension costs, estimated by comparison with Civil War pensions. Wounded in Civil War were 246,712, and in World War 224,089. Civil War pensions up to June 30, 1919, were $5,299,859,509.30	5,000,000,000.00
Obligations of foreign Governments absorbed in the United States by private interests since Aug. 1, 1914	4,129,820,344.11
Governmental loans to Allies, with interest	10,000,000,000.00
Total	$50,168,625,707.16

ANIMALS ON TRIAL FOR MURDER.

In legal archives there are many fully authenticated accounts of trials in which animals have stood in the dock on trial for their lives, says the London Mail. The prisoners have included oxen, pigs, sows, bulls, horses, rats, cocks, and even noxious insects and beetles. The records of criminal tribunals in France show that ninety-two such cases took place between the years 1120 and 1741. In 1314 a bull gored a man to death at Moisy, and being formally prosecuted for murder, was sentenced to be strangled. The bull's advocate unsuccessfully appealed. A horse was condemned to death at Dijon in 1389 for having killed a man, and in 1403 a sow was hanged for having killed and devoured a child at Meulan. At Lavegny in 1457 a sow and her six little pigs were tried on a charge of having killed and partially eaten a young girl. The sow was condemned to death, but the court acquitted the piglets in consequence of their immature age, the bad example of their parent, and the absence of direct evidence.

The Mayor of Laon pronounced sentence of death on a pig in 1494 for having mutilated and destroyed an infant in its cradle, and concluded his judgment with the words, "We, in detestation and horror of this crime, and in order to make an example and satisfy justice, have declared, judged, sentenced, pronounced, and appointed that the said hog, being detained a prisoner, and confined in the said abbey, shall be, by the executioner, strangled, and hanged on a gibbet, near and adjoining the gallows." A farmyard cock was tried on the quaint charge of having laid an egg at Bale in 1474. The prosecution declared that cocks' eggs were of great use in magical preparations, that a sorcerer would rather possess one than a philosopher's stone, and that Satan employed witches to hatch out winged serpents from such eggs. The prisoner's counsel contended that no evil animus had been proved, that no injury had resulted, and that the laying of the egg was an involuntary act and therefore not punishable. These arguments were of no avail, and the bird was burned at the stake as a sorcerer.

The "Memoires de la Societe Royal Academique de Savole" give a curious account of proceedings taken against beetles in 1445 and 1487. They had committed great ravages in the St. Julian vineyards. Having listened to counsel on either side, the Judge suggested that the vine-growers should cede to the defendants land where they could live without trespassing on the vineyards; otherwise he ordered that the vineyards should be respected by the beetles under certain penalties. The beetles' lawyer protested that the land was barren, and the court appointed assessors to survey it. They reported favorably, but the beetles raised a legal quibble, and so it went on, but what the upshot was is not known owing to the destruction of the documents.

HELP IN CASE OF ACCIDENTS.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air, and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and limewater.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

Stings of Venomous Insects, etc. Apply weak ammonia, oil, salt water, or iodine.

Fainting. Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

NOTE TO THE TABLE.

O. P. Austin, Chief Statistician National City Bank of New York, from whose data many of the above figures are taken, estimates the total debts of the nations at $382,634,000,000. His 1921 figures for chief nations, other than those named in the table above, are: Argentina, $758,000,000; Australia, $1,956,000,000; Austria, $15,834,000,000; Belgium, $4,670,000,000; Brazil, $969,000,000; Bulgaria, $1,432,000,000; Canada, $2,345,000,000; Chile, $240,000,000; China, $1,886,000,000; Cuba, $87,000,000; Czecho-Slovakia, $9,135,000,000; German States, $8,300,000,000; Greece, $812,000,000; Hayti, $32,000,000; Japan, $1,713,000,000; Netherlands, $1,046,000,000; Peru, $29,000,000; Panama, $3,000,000; Paraguay, $9,000,000; Portugal, $1,880,000,000; Spain, $2,335,000,000; Switzerland, $370,000,000; Uruguay, $172,000,000; Venezuela, $41,000,000.

It should be added that the above table, as well as the figures beneath it, are estimated on the basis of par at exchange.

NUMBERS IN HISTORY.

(Summary of two lectures, before the war, at University College, London, by Prof. Hans Delbrück of the University of Berlin.)

PROF. DELBRUCK said in his first talk that one of his first observations in comparing the phenomena of the history of war in different ages was the likeness between the battles in which the Swiss conquered Duke Charles the Bold and the battles in which the Greeks overcame the Persians. They had in an interval of 2,000 years exactly the same arms and the same political institutions fighting each other—on the one side a great war lord with his knights and bowmen; on the other citizens and peasants, republicans, with arms for hand-to-hand fighting. In both cases the latter had the victory over the former. From the course of the battles in which the Swiss smote the Burgundians a historian might draw conclusions regarding the course of the Battles of Marathon and Plataea. Our historical knowledge of these battles was extensive enough but of very little trustworthiness: but there were resources of information in modern geography and maps and there were the laws of tactics, which could be determined for every sort of arms.

The first point to which in any history of war they had to direct attention was the number of the warriors. It was a recognized fact that Moltke displayed great genius in 1870 when he directed a monstrous mass of his troops from one centre, drew them up abreast and made them act together in battle. To direct such a mass unitedly was, even with railways, roads, telegraphs and a General Staff, an exceedingly difficult task, and if it was so difficult with such aid by such a man, then all those reports which we had received of similar armies in olden times—Assyrians, Persians, Gauls, Huns or Germans—were struck out of history. Armies, however, demanded not only to be moved but also to be fed, and even for this side of campaigning later war history, such as the provisioning of Bazaine's army in Metz, gave us measures of which we could make use for older times. Herodotus told us that 5,100,000 men was the strength of the army of Xerxes.

If that were true one might calculate that the last men could only have left Susa, beyond the Tigris, when the first arrived before Thermopylae. The plain of Marathon was so small that 50 years ago a Prussian staff officer who visited it wrote with some astonishment that a Prussian brigade would scarcely have room there for its exercises. The glory of the Swiss was not that they smote the enemy at great odds but that their enemy had an army of knights and professional warriors, while they were a levy of citizens and peasants. At first sight the glory of the Greek victories might seem diminished by taking away the numerical superiority of Xerxes's army, but, on the contrary, the performance was much greater. The Greeks had not to fight enormous hordes of Asiatic people, divested of any soldierly or even manly virtue, driven into the battle by whips, but an army of the best soldiery, which could be overcome only by the union of the brave fighting of the mass of the people with the strategical guidance of Generals who had not been surpassed in the world's history. It was not the quantity but the quality of enemies that endangered the freedom of Greece.

Turning to the Romans, he would like to divide the conquest of the world by the town of Rome into four different chapters—the subduing of the Latin tribe, the subduing of Italy, the defeat of the Carthaginians, and the conquest of Gaul by Cæsar. The pre-eminence of the Roman armies in all these centuries lay in the Roman discipline. The Spartans too were well disciplined, but their numerical and economic strength was far too small to build up an empire. The lecturer described in detail the Roman military organization, and closed with a review of some of the features of the battle of Cannae.

Prof. Delbrück, in his second lecture, passing to the overthrow of the Roman Empire by the Teutons, said that all the statements about the hundreds of thousands of Germans and Gauls who, according to Roman sources, had been vanquished were just as worthless as the tales of the Greeks about the army of Xerxes. Why did not the Romans profit by their number to take possession of Germany? The task was perhaps not impossible but extremely difficult. The country which could not supply enough food for its own inhabitants could not nourish a hostile army, and Germany had no roads along which supplies could be transported. It seemed sufficient to the Romans not to fight the barbarians offensively but only to protect the empire against invasion, and the whole of the army was placed on the borders. This system lasted for about three centuries.

It was the longest period of peace the world ever saw. All the authors of the time agreed in condemning it. In their eyes and in the eyes of many historians of our day the period was one of despotism at the head and moral depravity among the masses That was true to a certain degree and the strongest empirical proof that peace was not the highest good of humanity. But they ought to open their eyes to some other aspects of this period. Above all, it saw the spread of Christianity. Were they to believe that the people whose children showed the courage of the martyrs had no longer men with the courage of soldiers? The answer was that courage did not suffice to make soldiers. It was above all discipline that gave Rome its supremacy. Why did the Romans give up their legions? The old Roman discipline was derived from the old Roman gods, and in the third century the belief in these gods was undermined and shaken from several sides.

The Roman soldier swore obedience to the Emperor, but how could the men feel themselves bound by the military oath if every few years they were ordered by their own superiors to break it and swear allegiance to another Emperor? At the same time a great economical revolution came over the empire. The system of payment by money was supplanted by the system of payment in kind. With the latter system they could not have a great standing army of mercenaries. Even in our time we should be unable to settle daily commerce by cash. We had found out means of credit. But a ruler who had come into power by murdering his predecessor would have very likely no more respect for his notes than he had for his life. So in these times the credit was lacking that was the basis of every substitute for cash. The rulers tried to satisfy the soldiers by increasing their supply of corn and at last gave each a piece of land to cultivate. The result was that the soldier became a peasant and the disciplined legion ceased to exist.

In the military exploits of the Normans they saw, even better than anywhere else, that the number of the Normans never could have been very great. As to the Battle of Hastings, harmony had not yet been attained among the scholars of this country. He presumed, however, that William might have had not 60,000 and not even 32,000, as some historians had calculated, but 7,000 to 6,000, and that Harold had not 1,200,000, as stated by Bishop Guido of Amiens, but perhaps 4,000. The bulk of the people were peaceable, and did not believe they were greatly interested in the question whether their King was called Harold or William. So it was natural to conclude, as in his opinion the course of the battle showed, that in Harold's host there were no peasants.

Of the general stock of money in the United States in 1920, fiscal year, $4 336,200,000 was outside the Treasury and the banks, in general circulation.

Specie payments were suspended from Jan. 1, 1862, to Jan. 1, 1879, during the greater part of which period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally above $25,000,000. In 1876 subsidiary silver again came into use. The coinage of standard silver dollars was resumed in 1878 and again discontinued during the fiscal year 1905. First issue of Federal Reserve notes in fiscal year 1915.

For redemption of outstanding certificates an exact equivalent in gold coin or bullion or standard silver dollars is held in the Treasury, and is not included in the account of money held as assets of the Treasury. During the fiscal year 1915 there is included with the Treasury assets the amount of money held by Federal Reserve banks and Federal Reserve agents against issues of Federal Reserve notes.

In 1907 the Director of the Mint reduced his estimate of the stock of gold coin in the United States by $135,000,000, and in 1910 reduced his estimate of the stock of subsidiary silver coin in the United States by $9,700,000.

TOTAL MONEY IN CIRCULATION IN UNITED STATES 1800-1860.

(Figures in parentheses are per capita.)

1800, $26,500,000 ($4.99); 1810, $55,000,000 ($7.60); 1820, $67,100,000 ($6.96); 1830, $87,344,295 ($6.78); 1840, $186,305,488 ($10.91); 1850, $278,761,982 ($12.02); 1855, $418,020,247 ($15.34).

NEW YORK CLEARING HOUSE ASSOCIATION DATA.

(Prepared for the Almanac by the Manager, William J. Gilpin.)

THE association is now composed of 24 national banks, 12 State banks, and 14 trust companies. The Federal Reserve Bank of New York and the Clearing House City Collection Department also make their exchanges at the Clearing House, making 52 clearing institutions. There are 9 banks and trust companies in the city and vicinity, not members of the association, which make their exchanges through banks that are members, in accordance with constitutional provisions. *President*—Walter E. Frew, President of the Corn Exchange Bank. *Secretary*—Lewis L. Clarke, President American Exchange National Bank. *Manager*—William J. Gilpin. *Assistant Manager*—Clarence E. Bacon. *Examiner*—Charles A. Hanna.

VALUE AND WEIGHT OF GOLD.

(By the United States Assay Office, New York.)

THE unit in weighing gold is the troy ounce. A "fine" ounce means an ounce of pure gold. The mint value of gold does not fluctuate, but remains constant at $20.67183462 per fine ounce. Troy measure is used in weighing gold. The grain is the same in both troy and avoirdupois measure, but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The troy pound is never used in weighing gold, even when the weights of large quantities are to be computed. The avoirdupois ounce contains 437½ grains and the avoirdupois pound contains 7,000 grains, there being 16 ounces to the pound.

CONDITION OF MEMBERS, N. Y. CLEARING HOUSE ASSOCIATION.

For the week ending Oct. 15, 1921. The figures are six-day averages, except as to capital and net profits. The last named item covers the period from the foundation of the institution.

NEW YORK FEDERAL RESERVE BANK.

The net profits, in 1920, of the Federal Reserve Bank of New York were $53,128,130 (on a capital of $26,399,000), as against $27,395,619 in 1919. Out of the 1920 earnings the bank paid a franchise tax of $39,318,510. During 1920 the amount rediscounted for member institutions fluctuated between $651,900,000, the low point on March 17, and $1,006,800,000, the high point on Nov. 1. Many of the larger New York members borrow only for a single day or for two or three days and renew their loans only for such amounts as they actually need, thereby adjusting their reserve positions almost daily to correspond with legal requirements. The transactions of this character for the year were over $50,000,000,000, as against $42,000,000,000 in 1919.

On June 30, 1921, there were 8,178 national banks with $1,276,720,565 capital and $743,290,374 circulation. In the fiscal year 130 national banks were closed (28 by insolvency), 212 new ones were chartered, and 372 existing banks increased their capital by $65,000,800.

One national bank in New York City has over $600,000,000 deposits; 33 in the United States have each over $50,000,000 deposits.

BANKING CAPITAL, DEPOSITS, ETC., BY STATES.

(.000 omitted in all columns of figures except the first, which gives number of institutions.)

The following table shows, by States, the resources and liabilities of all reporting banking institutions combined (as of June, 1920), including 18,195 State banks, 620 mutual savings banks, 1,087 stock savings banks, 1,408 loan and trust companies, 790 private banks, and 8,030 national banks.

MISCELLANEOUS DATA.

Excluding United States and postal savings deposits and dividends unpaid, the total deposits in national banks, June 30, 1920, were $14,018,810,000.

Total deposits in State banks, $10,873,035,000; in loan and trust companies, $6,085,675,000; in private banks, $169,573,000.

Of the *loans and discounts*, $27,413,000 were secured by farm lands; $2,530,112,000 by other real estate (including mortgages owned); $8,518,594,000 by collateral other than real estate; and $20,180,028,000 were unclassified. *Overdrafts* were $109,186,000.

Of the *investments*, $3,344,054,000 were in U. S. bonds; $642,683,000 in State, county and municipal bonds; $1,144,692,000 in railroad bonds; $529,313,000 in bonds of other public service corporations; and $5,726,783,000 were unclassified. *Banking houses* were valued at $863,191,000; other owned real estate, $137,785,000.

Of the *cash on hand*, $34,215,000 was in gold coin; $41,928,000 in gold certificates; $58,410,000 in silver coin; $44,103,000 in silver certificates; $133,003,000 in legal-tender notes; $76,748,000 in national bank notes; $252,980,000 in Federal Reserve notes; $2,524,000 in nickels and cents; $432,467,000 was unclassified cash.

Undivided profits (less expenses and taxes paid) were $976,261,000; *national bank circulation*, $688,178,000.

Of the *individual deposits*, $15,679,376,000 were subject to check without notice; $1,288,926,000 were demand certificates or deposit; $514,862,000 were certified checks and cashiers' checks; $7,493,015,000 were savings deposits; $2,619,479,000 were time certificates; $47,046,000 were dividends unpaid; $99,376,000 were postal savings deposits; and $10,087,905,000 were unclassified (including $2,337,275 time deposits on open accounts in national banks).

UNITED STATES PATENT OFFICE STATISTICS SINCE 1838.

1878	663	2,400,785	879,897,425	1918	1,819	11,379,553	5,471,579,948
1879	639	2,268,707	802,490,298	1919	1,719	11,434,881	5,906,082,000
1880	629	2,335,582	819,106,973	1920	1,707	11,437,556	6,536,470,000

Of the 1,707 savings banks in the United States in 1920, mutual savings banks numbered 620, with 9,445,327 depositors, and $5,186,845,000 in deposits; stock savings banks numbered 1,087, with 1,982,229 depositors, and $1,349,625,000 in deposits. Unpaid dividends are not included in deposits.

In the foregoing table the figures for 1896 to 1908, inclusive, but not subsequently, include the number of depositors and the amount of deposits in the State banks of Illinois having savings departments but not the number of such banks, by reason of the fact that general returns from these institutions are incorporated in State banks' returns.

In the assembling of data in relation to savings banks the classification of banks as made by the State banking departments is closely followed, in consequence of which a number of so-called State savings banks formerly treated as savings banks are now regarded as commercial banks, and the returns therefrom are combined with the latter, which accounts for the relatively small amount of deposits reported for stock savings banks since 1915.

SAVINGS BANKS IN FOREIGN COUNTRIES.

By "private" is meant communal, or any other kind except postal. Denmark figures do not include 3,113 ($551,787) deposits in Faroe Islands, and 202,710 ($54,580,017) deposits of savings in ordinary Danish banks. German figures exclude Brunswick. Russian figures exclude $769,307,000 of securities held by savings banks for depositors. United Kingdom figures exclude $734,760,760 of Government stock held by postal savings banks for depositors, and $75,287,135 of Government stock held by private savings banks for depositors. Canadian figures exclude savings deposits in other than postal or Government savings banks.

FOREIGN COINS VALUED IN UNITED STATES MONEY.

(Proclaimed by the Secretary of the Treasury as of October 1, 1921.)

ENTRIES of merchandise liquidated upon the values proclaimed herein will be subject to reliquidation upon the order of the Secretary of the Treasury whenever satisfactory evidence shall be produced to him showing that the values in United States currency of the foreign money specified in the invoices were at the date of certification at least five per centum more or less than the values herein proclaimed.

MONETARY SYSTEM OF THE UNITED STATES.

(Revised by the Director of the Mint.)

GOLD COIN—Weight, 25.8 grains to the dollar; fineness, 900-1000, unlimited as to issue; denominations, $2.50, $5, $10, $20; legal tender, unlimited; receivable for all public dues; exchangeable for gold certificates and subsidiary and minor coin.

STANDARD SILVER DOLLARS—Weight, 412.5 grains; fineness, 900-1000; ratio to gold, 15.988 to 1; coinage ceased in 1905, resumed in 1921; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; exchangeable for silver certificates and smaller coins.

SUBSIDIARY SILVER COIN—Weight, 385.8 grains to the dollar; fineness, 900-1000; ratio to gold, 14.953 to 1. Limit of issue, needs of the people. Denominations 10 cents, 25 cents, 50 cents; legal tender not to exceed $10; receivable for all dues up to $10; exchangeable for minor coin; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

MINOR COIN—Weight 5 cent piece, 77.16 grains, 75 per cent. copper, 25 per cent. nickel; 1 cent piece, 48 grains, 95 per cent. copper, 5 per cent. tin and zinc; limit of issue, needs of the people; legal tender not to exceed 25 cents; receivable for all dues up to 25 cents; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

GOLD CERTIFICATES—Limit of issue for gold bullion, to two-thirds of the amount of gold certificates outstanding; for gold coin, unlimited, unless gold coin reserve against United States notes (greenbacks) falls below $100,000,000; denominations, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; made legal tender by act Dec. 24, 1919; receivable for all public dues; redeemable in gold coin at the Treasury.

SILVER CERTIFICATES—Unlimited as to issue for standard silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100; not a legal tender; receivable for all public dues; redeemable in silver dollars at the Treasury.

UNITED STATES NOTES—Limit of issue, $346,681,016; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender for all debts, public and private, except customs and interest on the public debt; receivable for all public dues; redeemable in gold at the Treasury.

TREASURY NOTES OF 1890—No further issues; volume steadily diminishing by redemption in silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; redeemable in gold or silver dollars at the Treasury.

NATIONAL BANK NOTES—Limit of issue not to exceed capital of banks; denominations, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE BANK NOTES—Issue unlimited, except by the required security, and by the discretion of the Federal Reserve Board; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE NOTES—Limit of issue same as Federal Reserve Bank notes; denominations, $5, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; not a legal tender; receivable for all public dues; redeemable in gold at the Treasury, and in gold or "lawful money" at any Federal Reserve Bank.

SCIENTIFIC PROCRESS IN 1921.

(Compiled by the National Geographic Society, Washington, D. C. Gilbert Grosvenor, President.)

ARCHAEOLOGY AND PALEONTOLOGY.

The 1921 National Geographic Society Expedition to the Chaco Canyon National Monument, under the leadership of Neil M. Judd, successfully inaugurated excavations at Pueblo Bonito and Pueblo del Arroyo. More than forty rooms and five large kivas, or subterranean circular ceremonial chambers, were opened up and a considerable collection of cultural objects recovered. These collections will be presented by the Society to the National Museum. It is the Society's intention to study early Indian agriculture and to work out the details of the geophysical conditions existing in the time when the pueblos were peopled.

A nearly complete skeleton of a Nototherium Mitchelli, a marsupial as large as a rhinoceros, was found in the Pleistocene beds of Tasmania. A broken collar-bone and healed injuries to the nose and snout bear witness to the gigantic battles in which the animal engaged. Although cut off from the general stream of mammalian evolution the marsupials of Australia include most of the forms that one sees in the non-marsupial fauna of the other continents.

The University of Pennsylvania Museum exhibited a clay "postage stamp," which served also as a seal for a registered package, dated about 2300 B. C. It is a picture of Ibi-Sin, the last King of Ur of the Chaldees. The face is distinctly non-Semitic, and gives a clue to the personal appearance of the Sumarians. Excavations at Knossus and Psaestos and other sites in Crete confirm the existence of a people whose form of civilization was earliest in Europe. Ruins of a highly developed Graeco-Roman civilization were discovered at Palmyra, about 95 miles east of Homs, Syria. The exceptional drought prevailing in Switzerland caused a sinking of lake levels —revealing pile foundations of lake-dwellings believed to be 7,000 years old. Important finds of Pleistocene mammal remains in the vicinity of Benson, Ariz., were made by Mr. J. W. Gidley of the U. S. National Museum. An ancient Buddhist convent, hewn out of the rocks, was found on the Island of Bali, Dutch East Indies. A fire in Constantinople led to the discovery of the remains of the palace of Daphne and other ruins. The United States National Museum received from the upper cretaceous deposits along Red Deer River of Alberta Province, Canada, a skull of the crested dinosaur Stephanosaurus. Prof. Carl Blegen of the American Archaeological School at Athens discovered the ruins of a prenistoric city in southern Greece between Corinth and Mycenae which appears to have been a flourishing community about 2000 B. C. The skeleton of a sea lizard, Tylosaurus proriger, from the chalk deposits of western Kansas has been put on exhibition at the U. S. National Museum. The skeleton of a man eight or nine feet tall and the mummified torso of a human body at least 4,000 years old were found in a mound near Greensburg, Pa., by Dr. Holland, Curator of the Carnegie Museum of Pittsburgh. The Egypt Exploration Society has undertaken the work of excavating Amarna, the capital of Amenophis IV., the "Heretic King." An imposing temple, said to be as large as that of Jupiter at Olympia, and dating from 400 B. C., was unearthed at Rerras, Thessaly. Another was discovered near the City of Volo. C. Forester Cooper, Curator in the University Museum of Zoology, Cambridge, England, discovered in the Bugti beds of Baluchistan, dating from Oligocene times, the skeleton of Baluchiterium osborni, the largest animal yet found to have existed upon the earth. Two of its neck vertebrae are in the American Museum of Natural History. Recent excavations at Mycenae by the British School of Archaeology at Athens showed that Mycenae was a flourishing city by 2000 B. C.

The mummy of Queen Ti, the morganatic wife of the Egyptian King Amenophis III. and mother of Amenophis IV., who abandoned the gods of his fathers to build altars to the God of Israel, and who died about 1420 B. C., has been placed in the museum of the Emory University at Atlanta, Ga. Thousands of mummified bodies of the Sacred Ibis were found by M. Lacau under the ruined temple at Deir Medineh, Egypt. Many thousands of written documents were also discovered in this "waste-paper basket of ancient Egypt." Dr. W. D. Smith, Chief of the Mines Division of the Bureau of Science of the Philippine Government, discovered some skulls on the Island of Masbate which indicate that the island was once inhabited by a different people from the present race. Italian Government officials in Africa discovered in old Cyrenaica a sculptured head believed to be that of the Venus of Cyrene. Workmen building a wall for the Palestine Government unearthed a section of the walls of the ancient Tiberias.

The Mexican Government has undertaken the excavation of the site of the ancient City of San Juan de Teotihuacan, which covers an area of fifteen square miles and is thought to have had a population of 100,000. Prof. J. H. Breasted of the University of Chicago brought to America a six-sided prism containing the Royal Annals of Sennacherib concerning the chief campaign of his western wars and admitting his defeat at the hand of Hezekiah, as told in the Book of Isaiah. The Court of Herod the Tetrarch was discovered in Palestine. Digging in a sand bank on the beach at San Leon, near Galveston, Tex., R. T. Roy discovered the skeleton of a huge elephant whose tusks were more than 12 feet long. Dr. Frederick Webb Hodge, Director of the New York Museum of the American Indian, headed an expedition to Haweikun, the most ancient of the Zuni pueblos. Dr. Clarence S. Fisher, Curator of the Babylonian section of the University of Pennvania Museum, headed an expedition to Palestine.

The Egyptian Expedition of the Metropolitan Museum of Art reported the discovery on the west bank of the Nile, at Thebes, of the tomb of Mehenkwetre, Chancellor of tne kingdom about 2000 B. C. In one chamber were several groups showing the life of the Nile Valley 4,000 years ago. One of these group scenes, made up of sculptured images, shows the Chancellor sitting in a portico, while four scribes enumerate and record the herds of cattle driven before him. In another group the beeves are shown in the stable, some eating from mangers, some being fed fodder. A third group shows the slaugnterhouse. Another series of three groups show the disposition of the crops—the sacked grain, of which the scribes are keeping accounts, the baking of bread, and the brewing of beer. Still another group shows the art of weaving in his day. Also there are models of houses, with their gardens and pools, of boats rigged for sailing upstream, boats for paddling downstream, and boats with large cabins and kitchen tenders for excursions on the river. In each boat Mehenkwetre sits at ease smelling a lotus bud, with a singer to entertain him. There are 24 models in all and they are said to constitute the finest collection of life-depicting sculpture ever found in Egypt.

ASTRONOMY.

Prof. Albert A. Michelson of the University of Chicago, and Mount Wilson Observatory, California, measured the diameter of Betelgeuse, and found its diameter 300,000,000 miles, its volume 27,000,000 times that of the sun, and 8,100,000,000,000,000 times that of the earth. By the same process Antares was measured and found to be even larger than Betelgeuse. Prof. Michelson accomplished the measurement of these stars by employing the principle of interferometry, discovered by him, in connection with the big 100-inch telescope of Mount Wilson Observatory. The mirror of that telescope is obscured by an opaque cap with two slits, adjustable in width and distance apart. When the instrument is focussed on a star, there appears a series of interference bands arranged in equal distances apart parallel to the two slits. When these slits are properly adjusted a distance is finally attained between them at which the fringes disappear. Through this method two values are obtained, the angle subtended by the star, and its distance. With these known, the diameter is a matter of simple calculation. The device is accurate to within .0001 of a second of arc, or approximately the angle subtended by the head of a pin at a distance of 1,000 miles.

A "light-electric" cell for telescopic purposes far surpassing the selenium cell in responding to variations of light, has been invented by a Swiss scientist named Rosing. It has the added advantage over the selenium cell in not being subject to "fatigue."

Marconi has been testing the new apparatus in his wireless telephony experiments. During midsummer, the Fons-Winnecke comet approached to within a few million miles of the earth and then, under planetary influences, departed from its indicated orbit. Magnetic disturbances accompanying the aurora borealis, observed in May, blew out fuses and otherwise damaged electrical apparatus, substantially interfering with cable operations. Announcement was made that 39 minor planets were discovered in 1920.

The Einstein theory of relativity will be further tested during the total solar eclipse of Sept. 20, 1922. The American Astronomical Society is gathering data, including meteorological observations, this year, in the region covered by the eclipse, and will suggest lines of work most needed, serving as a clearing house in arranging for loans of instruments and apparatus. Dr. Charles G. Abbot of the United States Astrophysical Observatory succeeded in devising a "solar cooker" on Mount Wilson, California, with which he was able, using only the sun's heat, to bake bread, cook meat and vegetables, and make preserves. The Nebula Dreyer, No. 584, in the constellation of Cettus, possesses a velocity of more than 1,200 miles per second.

BIOLOGY.

The Mulford Biological Expedition engaged in botanical and other researches, with the primary object of finding new plants with medicinal properties, in the Amazon basin during the year. Prof. Raymond Pearl discussed the conditions of cellular immortality and reviewed the progress of biology in the matters of artificial parthenogenesis and tissue culture, and the views regarding senescence to which they lead. The life of the unfertilized egg-cell can be prolonged only by some stimulus to development. Both adult and embryonic tissues in vitro show that the phenomena of senescence do not originate in the cells themselves. All the essential body tissues, including heart muscle, nerve cells, spleen, connective tissue, and kidney cells have been shown to be capable of indefinite growth by mitotic division outside of the body. Dr. Carrel has kept a strain of connective tissue from the heart of a chicken alive and going for nine years. The conclusion is reached that there is a potential immortality not only of germ-cells but also of tissue-cells and that senescence is a phenomenon of the differentiated body as a whole, due to the effects of the various types of cells upon one and other.

The second International Congress of Eugenics was held in New York City in September under the honorary presidency of Dr. Alexander Graham Bell, and the presidency of Prof. Henry Fairfield Osborn. Whalers in British Columbia waters caught a female whale 50 feet in length which possessed hind legs that projected about four feet from the body near the tail and were about six inches broad. Dr. David Starr Jordan, studying a collection of deep-water fishes from Hawaii that had been killed by the recent lava flow from Mauna Loa, found that most of them were of species new to science. J. F. Rock, agricultural explorer of the United States Department of Agriculture, started on an expedition to southeastern Asia, to look for chestnut trees capable of resisting the chestnut blight and to complete his studies of the chaulmoogra tree.

Prof. H. T. Martin of the University of Kansas removed from the chalk pits of western Kansas a bird of the Hesperonis family possessing no wings but well supplied with teeth and dating from the cretaceous period. It was well preserved and gave a clear idea of the semi-plumaceous feathery covering which the bird possessed. Ten teeth were included with the fossil. Prof. Raymond Ditmars, Curator of the New York Zoological Gardens, discovered an albino rattlesnake in the Berkshire Hills. It is believed to be the only one of its kind in captivity. Carl E. Akley headed an expedition to Africa on behalf of the American Museum of Natural History to secure an entire family of gorillas for a habitat group in the museum.

Prof. Metalnikow, the French bacteriologist, reported to the Pasteur Institute that he had found that the germs of diphtheria, plague, tetanus and tuberculosis are not able to survive in the bodies of caterpillars. He concludes that the caterpillars possess digestive juices which destroy pathogenic microbes and that it may be possible to isolate caterpillar serum which will conquer tuberculosis.

Dr Henry E. Crampton returned to the American Museum of Natural History with a collection of between twelve and thirteen thousand specimens of plant and animal life gathered during an extended expedition to the Islands of the Pacific. The Miami Aquarium and Biological Laboratory succeeded in capturing a female sawfish and keeping her alive in captivity. She has given birth to a number of young fish, which is said to be the first instance of a sawfish being born in captivity in the history of marine laboratory work.

A number of organizations, including the Smithsonian Institution, the American Museum of Natural History, the National Geographic Society, Field-Columbian Museum in Chicago, and Harvard, Yale, Johns Hopkins, Pennsylvania and Michigan Universities, have undertaken to participate in the establishment of an Institute of Research in tropical America.

CHEMISTRY.

A spectroscopic method of measuring the purity of gold has been devised by the Bureau of Standards. The device is said to be accurate to one part to a million. A movement was launched in Cuba to replace gasoline with alcohol as motor power for automobiles.

Mme. Curie's visit to America did much to stimulate popular interest in radium. The United States Bureau of Mines announced that the United States produces more radium than the remainder of the world together. At the annual meeting of the American Chemical Society prophecies were made that solar rays will yet come to supplant the dwindling supplies of coal, petroleum, and other present sources of energy; that the day of "cold light" such as is seen in the firefly may be expected to dawn before many years; that method of causing rain clouds to precipitate will yet be found; that catalytic action will be more used in chemical processes; that tidal power will be developed, and that there will be a wider employment of the energy of the earth's rotation thus far used only in the application of the gyroscope.

Dr. Julius Lillienfeld, Professor of Physics, University of Leipsic, gave a demonstration of his new X-ray tube, said to give much clearer results in X-ray work than have been maintained heretofore, before the New York Roentgen Society and the Department of Physics of Columbia University. Dr. Kling of the State Bacteriological Laboratory (Stockholm, Sweden) was reported to have discovered the microbe of "sleeping sickness." It was announced that Profs. Kravkoff and Kedovoff of Russia have perfected a new anaesthetic consisting of one part methylpropylcarbinol to one hundred parts of warm salty water. This is pumped into a large vein in the elbow.

Prof. Calmette of the Pasteur Institute in Paris has found that the tuberculosis bacillus succeeds in growing in a glycerine medium containing bile, but loses its infective power with man and beast. He hopes to perfect a vaccine employing this principle. The United States Army has perfected a new candle which produces a dense white non-poisonous and non-toxic smoke, much more opaque as a protective screen than black and absolutely harmless to persons passing through it.

ENGINEERING.

Ground was broken on Oct. 12, 1920, for the new vehicular tunnel beneath the Hudson River. On Saturday April 30, a document was signed by which the States of New York and New Jersey pledged themselves to close co-operation in the future development of the Port of New York. Subway engineers in Philadelphia completed the largest underpinning operation in the history of the world, involving the shifting of 100,000 tons, or one-fourth the total mass of the Philadelphia City Hall. Seattle, Wash., opened up a new terminal pier 367 feet wide and 2,560 feet long. New Orleans was engaged in developing its harbor facilities during the year. The Inner Harbor Navigation Canal, connecting the Mississippi River and Lake Pontchartrain by a waterway a little more than five miles long, will provide the city with ocean docks fronting on quiet water and having a small tidal fluctuation.

Plans for the extension of Pearl Harbor, the U. S. Naval Base in Hawaii, are under execution. A new dock six and a half miles below London on the Thames, capable of accommodating vessels of up to 30,000 tons was opened during the year. France

and England were both pushing experiments for the perfection of the hellcopter aeroplanes designed to rise vertically from the ground and to hover when desired. The British Air Ministry has been experimenting with mooring masts for dirigible airships and has found these masts fully as safe and much more economical than sheds. An airship anchored to one of these masts has repeatedly stood a fifty-mile wind, and it is estimated that it would be safe at its moorings even in a ninety-mile gale.

The French Government budget for the year provides for a two and a half million franc appropriation for the study of the utilization of the energy of tides as a source of commercial power. John Temple, an Englishman, has perfected a device by which he hopes to be able to hurl 5-ton projectiles 200 miles with a velocity of 5 miles a second. At a demonstration held in the Woolworth Building, a small gun built on the principle involved discharged a projectile into a sheet of steel with no more noise than the click of a cash register.

The Federal Power Commission has granted an application for the preliminary permit to develop the energy of the waters of the Colorado River, above the Boulder Canyon project, where 3,000 feet of waterfall will produce 4,350,000 horse-power, equal to half the present hydro-electric power generated in the United States to-day. The dams will give absolute flood control and provide irrigation water for three and a quarter million acres of land. The storage basin will impound 40,000,000 acre feet of water, sufficient to supply every man, woman and child in the world with approximately twenty gallons per day. The project will make the river navigable for 400 miles above Boulder Canyon. The power utilized from the river will represent a saving of 90,000,000 barrels of oil. Through the closing of Cypress Creek Gap in the lower Mississippi River more than 3,000 square miles of land has been made accessible to reclamation, and crops annually valued at more than $40,000,000 rescued from periodic inundation. A suspension bridge across the Colorado River in the Grand Canyon was completed during the year.

The success of radio control in the manoeuvring of the battleship Iowa was so marked that the Navy Department has been engaged in extensive work in the development of this new science with a view to its widespread use in the naval operations of the future. At the experimental establishment of the British Army at Woolwich, radio telegrams were transmitted through the adaptation of the Wheatstone automatic transmitter, at speeds ranging from 450 to 1,000 words per minute. A message was transmitted in fac-simile by wireless over a Baliniograph to the Matin in Paris. Engineers at the Pittsfield, Mass., laboratories of the General Electric Company succeeded in transmitting an electrical current of one million volts. This is approximately five times as high a voltage as has ever been employed before. With such transmission of energy made possible commercially, service stations could reach everything within a radius of a thousand miles. Work on the Government railroad in Alaska was prosecuted during the year, with 479 miles in operation and only 61 miles yet to be built.

A vast irrigation project under construction in upper Egypt includes two dams and a storage basin on the Blue Nile, capable of holding 9,000,000 acre-feet of water, and a canal 225 miles long to abort the swamp in the Sudd region which now absorbs the greater part of the White Nile water. When finished, the whole project will conserve 80 per cent. of the mean annual flow of the Nile. It is announced that a tunnel is to be constructed under the Suez Canal through which connections between the Egyptian railways and the new line to Palestine will be maintained.

GEOGRAPHY.

NORTH AMERICA.—The National Geographic Society announced the foundation of a series of Memoirs. These Memoirs will contain both accounts of the activities of the Society's expeditions of interest to the general reader, and technical papers intended for specialists in the various fields of science covered. The first number will be devoted to the Mount Katmai expeditions, which resulted in the discovery of the Valley of Ten Thousand Smokes, the collection of new data in the field of volcanology, and the creation of the Katmai National Monument, embracing more than 1,000,000 acres. The non-magnetic yacht of the Carnegie Institution of Washington put in at San Francisco after a long cruise beginning in October, 1919. Up to that time she had covered over 300,000 miles on the high seas, making a magnetic survey of all the oceans.

Earthquake shocks were felt in the State of Vera Cruz, Mexico, Oct. 8, 1920, with considerable property damage in the regions of Cordoba, Jalapa, Teocelo and Coshautlan; in Portland, Ore., and Spokane, Wash., in November, 1920; in southern Honduras and western Nicaragua, in December, 1920; in the San Gabriele Valley of southern California, on Jan. 8, 1921; in Willows, Cal., on Jan. 13, 1921; around Corinth and Lake George, N. Y., on Jan. 19, and also on Jan. 27, 1921; at Philadelphia, Trenton and elsewhere, on Jan. 26, 1921; on the Isthmus of Tehuantepec, on Feb. 3, 1921; in Guatemala and Salvador on Feb. 19, 1921; in Nicaragua, Guatemala and Salvador, March 28, 1921; in Salvador on May 15, 1921; in Fairbanks, Alaska, on March 12, 1921; in Danville, Ill., and Terre Haute, Ind., on March 14, 1921; in Syracuse, N. Y., on March 30, 1921; in Los Angeles, Cal., on April 21, 1921; in the State of Jalisco, Mexico, on May 14, 1921; in Santa Cruz, Cal., on June 11, 1921; in San Francisco, Cal., on July 24, 1921; in New Canton, Va., on Aug. 7, 1921; in Los Angeles, Cal., on Sept. 3, 1921; in Riverside, Cal., on Sept. 10, 1921; in Elsinore, Utah, on Sept. 29 and 30, 1921; in Harrisburg, Ill., and San Juan del Sur, Nicaragua, on Oct. 1, 1921.

The volcanoes of Mexico and Central America showed more general signs of activity during the year than for many years past. Popocatepetl, overlooking Mexico City, was stirred to activity by the earthquake which shook the Isthmus of Tehuantepec on Feb. 5. Izalco, ten miles from the City of Sonsonate, Salvador, threw out large quantities of lava in November, 1920, and San Miguel, another Salvadorean volcano, also began to show signs of activity. Colima, in the State of Jalisco, became active in May. Masaya, near Nicaragua, became active in April. Mount Lassen, California, was in a mild state of eruption during the latter part of October, 1920, and the early part of February, 1921.

SOUTH AMERICA.—A Swedish Scientific Commission under the leadership of Prof. Otto Nordenskjold did reconnaissance work in the mountains of Peru and made glaciological observations in southern Chile. The London School of Tropical Medicine sent out an expedition to British Guiana to investigate filariasis with a view of obtaining information as to its treatment and prevention. A party of Swiss engineers visited Venezuela and Colombia for the purpose of investigating the doubtful points with reference to the Venezuela-Colombia boundary as fixed under arbitration by the King of Spain. The volcano Lanin, near Valdivia, Chile, was reported to be in a state of eruption in December, 1920. Villarica, in the same district, was discharging flame and lava during the same month. Ashes of a sulphurous nature fell upon Arequipa, Feb. 9, 1921, supposedly from the volcano Ubinas.

The following earthquakes were reported: Oct. 28, 1920, the cities of Coquimbo and Atacama were seriously shaken; Nov. 23, 1920, in the States of Corboda and San Luis, Argentina; Dec. 13, 1920, in the Villarica district of Chile; Dec. 17, 1920, in Mendoza Province, Argentina, killing 150 persons in the village of La Valle, and again on Jan. 3, 1921, levelling the few walls left standing in La Valle and Castro de Araujo; Dec. 9 to 16, 192 quakes in the mountainous region of Valdivia and Cautin, southern Chile. During the period Lake Villarica rose five feet and then subsided again, Lake Caburgua is said to have sunk fifteen feet, the Turbio River disappeared entirely, and the Tancura River shrank to almost half its normal flow; Jan. 17, 1921, at San Diego; March 15, 1921, a severe one occurred in the village of Chilelto, in the province of La Rioja, Argentina.

EUROPE.—The following earthquakes were reported from Europe during the twelve months under review: at Giarre, Sicily, at the base of Mount Etna, Sept. 28, 1920, destroying both Giarre and Codadivopie; in the Pontevedra district, Spain, in November, 1920, shattering buildings in Lugo, Corunna, and Ferrol; in southern Albania in December, 1920, killing 42 persons, injuring 200, and rendering homeless 500; at the City of Elbassan, Albania, on Jan. 2, 1921, by which the city was almost oblit-

SCIENTIFIC PROGRESS—*Continued.*

erated, with 14 persons killed, 300 injured, and 10,000 made homeless.

Vesuvius was in a state of simple explosive activity during the year. On April 6, the most violent eruption in fifteen years occurred, accompanied by loud internal rumblings. The volcano Stromboli, on the Island of Stromboli, burst into activity again June 26, 1921. Torrential rains caused a landslide five miles wide near Ferruzziano, Italy, on April 3, 1921, destroying the villages of Gorne and Frati. The Societie de Geographie, Paris, celebrated the one hundredth anniversary of its organization from July 4 to 7, 1921.

ASIA.—An expedition into the interior of Asia, sponsored by the American Museum of Natural History, and led by Dr. Roy Chapman Andrews, left New York expecting to spend five years in search of new material in a hitherto little explored region. An expedition sent out under the auspices of the Royal Geographical Society and the Alpine Club, in an attempt to climb Mount Everest, the world's highest peak, reported the finding of a comparatively open route. Earthquakes reported during the year in Asia were as follows: in Peking, China, Dec. 16, 1920, rocking buildings and creating much excitement; in Kansu and Shensi provinces, Dec. 16, 1920, resulting in 40,000 casualties. The volcano Asama in the province of Shinshu, Japan, was active during the year.

AFRICA.—The French succeeded in effecting a junction of troops between Algeria and Mauretania across the desert of Sahara. Prince Wilhelm of Sweden went into Central Africa to explore the Kiwu volcanic region. The Mackie ethnological expedition visited in Central Africa for the purpose of studying the Ankole Bahimas; the British Natural History Museum sent expeditions to the west coast and the Jeb-Maria Mountains; the Duke of the Abruzzi sought the sources of the Webi Shebeli River. Two violent earthquakes were reported from Algiers on Dec. 17, 1920.

POLAR.—The trustees of the Captain Scott Memorial Fund have established a Polar Research Institute in connection with the Department of Geography in Cambridge University. An expedition, led by Sir Ernest Shackleton, sailed for the Antarctic regions in a Norwegian sealer rechristened The Quest for the purpose of engaging in several years of Polar research in that part of the Antarctic known as Enderby Quadrant.

Roald Amundsen, discoverer of the South Pole, reached Seattle July 4, coming from Cape Serge, Siberia, by way of Nome, Alaska, having left his schooner Maude at the former place fast in the ice and disabled by a broken propeller. The Maude was released by the U. S. cutter Bear and towed to safe waters. Capt. Amundsen expects to start out again in 1922 on his proposed drift around the rim of the Arctic Sea, with a possible dash across the Pole by airplane.

Elwin Fairfax Naulty planned a dash across the North Polar regions by airplane. Vilhjalmur Stefansen announced that he intended to make another three-year trip into the Arctic regions. Donald B. MacMillan expected to reach Baffin Land late in August. His plan was to try to penetrate the interior next summer and to spend about two years in the Arctic. The Danish explorer Lange Koch led a three-year expedition into Northern Greenland as a bicentenary commemoration of the departure of Hans Egede in 1721. Knud Rasmussen headed an expedition to Greenland to explore the archipelago between Greenland and the American continent, and also to investigate the migrations and folklore of the Eskimo.

OCEANICA.—The volcano of Kilauea, on the Island of Hawaii, was active during the year. Following weeks of steady rising the lava at the end of December, 1920, reached the rim of the pit of Halemaumau and poured over the side toward the southeast of the great crater. In March all of the trails in the old crater bottom had been destroyed. A severe earthquake destroyed most of the houses on the Island of Yap in December, 1920. Another quake, occurring on Oct. 10, 1920, at Baguio, capital of Bengust, Province of Luzon, in the Philippines, damaged the observatory there, broke water mains, and cracked a number of concrete walls.

GEOLOGY.

Deposits of petroleum were discovered along the Rosari River in Colombia by American engineers. Large deposits of osmiridium and gold-bearing gravels were discovered in Tasmania. A meteorite was found about 15 miles from Navajo, Ariz., which weighs about 4,000 pounds and has a maximum diameter of 33 inches. A rich deposit of nickel copper was reported as having been found at Bear River, Manitoba. High grade salt deposits were discovered at Fort McMurray on the Athabasca River in Canada. Prof. Roilin T. Chamberlain measured the internal motion of glaciers by the use of a delicate time-recording shear-metre.

Scientists declare that this generation has not heretofore had an opportunity of observing such a period of advance as characterizes the glaciers of the Alps to-day. Eighteen oil wells were brought in in Southern Albania. There was a stampede into the Mackenzie River basin in Canada, brought about by the announcement of the discovery of oil there. A gas well was opened up in Costa Rica.

Profs. Daly and Palache of Harvard, accompanied by Dr. Molengraaf of Holland, have planned an expedition to South Africa, where, with Dr. Fred. E. Wright, petrologist of the Geophysical Laboratory of the Carnegie Institution of Washington, they will study the origin of granite. It was reported that radium deposits similar to those in Czecho-Slovakia have been discovered in the Arad district of Transylvania. It was announced that iron ore deposits estimated to aggregate 37,000,000 tons have been discovered in Switzerland.

Prof. R. A. Daly suggested before the National Academy of Sciences that facts in hand indicate that the seas sank nearly twenty feet during post-glacial times.

THE PUEBLO FLOOD.

ON the afternoon of June 3, 1921, flood waters of the Arkansas River, suddenly swollen by a great cloudburst, at Swallows, 15 miles west, swept into Pueblo, Col., inundating the city, sweeping away dams and bridges, drowning many, mainly foreigners and mill workers, and cutting off communication with the outside world. Every store within six blocks of Main Street was inundated and all newspaper publishing suspended. To add to the flood horrors a number of fires started, some caused by lightning flashes, others possibly of incendiary origin. The flood area extended 200 miles north and south of Pueblo. The Arkansas which passes through Pueblo is a relatively small stream except when swollen for a few months by the melting snows in the high mountains in the interior of the State. Near Pueblo it is joined by the Fountain, a sandy, gradual stream fed from the foothills, that runs almost dry in summer. But all of this country is broken by deep ravines and sharp gorges, whose dry beds, in time of dashing rains, suddenly become raging torrents. The floods were general all along the Eastern slope of the Rockies in Colorado, ruining the crops on thousands of ranches. A week after the flood began 66 persons were known to be dead and 127 missing. In Pueblo houses were toppled over, freight and passenger cars in the railroad yards tossed about like chips, and railroad, telegraph, telephone, sewerage, water supply, electric, gas and fire protection systems all put out of commission; flaming buildings struck by lightning set fire to masses of floating lumber and wreckage. The damage was roughly estimated at $20,000,000. The loss of life was remarkably small and was mostly among foreigners who refused to heed repeated warnings. At Frederick, Col., there was three feet of water in the main street; Marshall, northwest of Denver, a town of 200 inhabitants, was flooded; at Louisville, north of Marshall, several houses were washed away but no lives lost; at Loveland, north of Denver, a large cattle centre, the dikes of the lake were broken and the electric power plant from which the Weld County towns obtain their light and power was put out of commission; at Lafayette houses were swept away and hundreds of cattle drowned; at Estes Park, northeast of Denver, all bridges were washed away; to the northeast of Denver, four deaths were reported near Sterling, Logan County; waters from a cloudburst in eastern Weld County, west of Sterling, covered an area 30 to 40 miles

THE PUEBLO FLOOD—*Continued.*

in length and nearly a mile in width; at Broomfield, on the highway between Boulder and Denver, 400 auto tourists were caught by the flood and marooned, unable to go in either direction. At Las Animas, where warning came too late, people took refuge in churches and school buildings. Five Mexicans are known to have been drowned at Las Animas, three of them children, many houses were washed into the streets. In Pueblo, eleven telephone girls were marooned in an upper story of the telephone building. Many who refused to heed warnings of the approaching flood were taken from second story windows, from trees, telephone poles and roofs by rescue parties in rowboats.

Mrs. Carl Davis and her baby, living on Pawnee Creek, near Sterling, were the first flood victims and Duffey Wilson, switchman, J. E. Littlejohn, engineer, and "Dutch" Haines were drowned when the Denver & Rio Grande R. R. train, due in Pueblo 7.45 P. M., was swept into the river.

Early on June 4, Col. Patrick J. Hamrock, in command of the State Rangers, took charge of the city to prevent looting and to establish temporary shelter for the hundreds of homeless people. One of the first of his instructions was to "kill the looters." Secretary of War Weeks instructed commanders at Fort Logan, near Denver, and Fort Douglas, Utah, to hurry available supplies to the relief of the refugees. Medicines, tents and blankets, as well as commissary supplies, were on the way from both posts within a few hours after the orders left the War Department. The Red Cross soon organized, authorized to expend $50,000 if necessary, and schools, churches and the court house were thrown open to sufferers. Charles W. Lee, head of a local wholesale grocery house, was appointed food administrator. On June 8, Col. Hamrock announced that all civilian guards on duty in the flood area would be withdrawn and control of the city pass into the hands of the military. A refugee camp with accommodations for 2,000 persons was ordered constructed at once. He at the same time announced that a seven-ward hospital was then ready which could take care of 1,000 should any epidemic start. There was no epidemic.

ORIGIN OF WHALES AND SEALS.

(By Prof. O. Abel.)

If we turn to the primitive history of the seals, we are forced to say that their origin is not yet clear. The most probable supposition is that they originated from bears. Paleontology unfortunately leaves us in the lurch, as the oldest seals of the Miocene already show all the characteristics of existing seals. But through the multifarious observations which at present extend throughout all civilized countries, it will doubtless be possible to bring this problem to solution some time soon. If we review the results of our investigations, we see that the marine mammals do not form a single group, but belong to series of entirely different forms not closely related. The whales originated from very old land carnivores, the sea-cows from elephant-like pachyderms, the sea-otter from ordinary otters, and the seals probably from bears. We have seen that in spite of many similarities in the form of the body, the whales are not allied to the ichthyosaurs; also among marine mammals there is a series of corresponding lines.

Whales live exclusively in the water. No whale is fashioned to move on land. Progression takes place only through the powerful turning about of the great caudal fin, with its flukes, which acts like the screw at the stern of a ship. The body is more or less fusiform, and the swiftest swimmers have a high dorsal fin, as well as a pointed snout, which cuts the waves like the prow of a ship. The arms and hands have been transformed into flippers, which serve as a steering apparatus. Since the work of propelling the body falls on the caudal fin, or flukes, the hind limbs have become superfluous, and have been reduced to rudiments which lie deep in the soft parts. The pelvis has lost its connection with the vertebral column, and in the dolphins consists of a very small, slender rod of bone. In the bowhead, in addition to a larger remnant of the femur, a smaller remnant of the tibia is present. The dentition is adapted to environmental conditions in a remarkable manner. As the food is swallowed whole, the teeth have only the function of fangs to seize and hold the prey. The number of teeth varies greatly. It ranges from 246 in the long-beaked dolphin to two in the bottle-nosed whale. The snout is short.

The principal food of the cetaceans is fish. Only one species, a dolphin inhabiting the coast of Cameroon, has become herbivorous. A large number of cetaceans feed solely on cuttlefish, especially those toothed whales in which the teeth are reduced in number, such as the sperm whale and bottle-nosed whale. The Ganges dolphin lives chiefly on small fresh-water crustaceans. The whalebone whales are seldom fish-eaters, although the common finback and the little piked whale are exceptions. The principal food of the whalebone whales consists of minute crustaceans and soft mollusks.

The sea-cows, or sirenians, are awkward, stupid creatures, which can scarcely move on land, but are excellent swimmers. In spite of their whale-like form, they must be associated with the ungulates, from which at first sight they seem very different. Their food consists exclusively of aquatic plants, and it is for this reason that they live only on the seacoast or in rivers. The arms and hands, as in the whales, take the form of flippers. As in the whales also, locomotion is due solely to the action of the caudal fin, and the hind limbs are aborted. A sea-cow leaves the water no more willingly than a whale. Their arms, however, are capable of supporting the body while the animals are grazing on the fields of seaweed and on this account they are still movable at the elbow, which is no longer the case in whales.

The seals are at once distinguishable from the whales and sea-cows from the fact that they possess well-developed hind limbs. The tail, on the contrary, is aborted and does not end in a fin. The manner of progression in the water is entirely different in the representatives of the three families of pinnipeds (sea-lions, walruses and seals). The seal swims by powerful back strokes of its hind limbs, which are formed like fins, and after a stroke are laid against one another and, as it were, folded together. This mode of swimming has a great advantage, because the surface exposed to the water, and hence the resistance of the water, is thereby greatly reduced. The arms of the seal serve only for steering, as in the whales.

Only one genus of otters, *Enhydris* (or *Lutax*), that to which the sea-otter belongs, can be included among marine mammals, as all other otters are fresh-water animals and only occasionally go to sea. The sea-otter has a special interest for us, because its adaptation for a life in the sea has not progressed so far that the characters peculiar to otters have been effaced. If we compare the sea-otter with its allies, however, we see that its hind limbs have already become real fins, as in the seals, while the fore feet differ but little from those of land otters. It follows as a consequence of the larger size of the hind flippers that they play a more important role in the locomotion of this animal in the water than do the fore legs.

We have passed step by step from the whales, which are modified in a remarkable manner for life in the sea, to the otters, which show but few differences from carnivorous land mammals. The thought might arise, therefore, that the sea-otters have descended from the otters, the seals from the sea-otters, and the whales from the seals; or, in other words, that in these several types we see before us the various stages through which the development of the whales has passed. This is not the case. We have only to observe the different modes of locomotion in the water displayed by the whales on the one hand and the seals on the other, and to consider that in the seals the tail is aborted and does not bear a fin, while in the whales the tail fin is extraordinarily powerful, to be relieved of all doubt that there are here two fundamentally different forms of adaptation for life in the sea.

Because these modifications of the seals and whales are entirely different, the latter can not possibly be derived from the former. The whales must possess ancestors in which the tail was long and well developed, so that at an early stage it could assume the labor of locomotion in the water. Similarly, detailed comparisons show that no close relationship exists between the seals and otters, and that the seals must have taken their origin from another branch of the carnivore stem.

LIFE INSURANCE IN FORCE IN THE UNITED STATES.

FIRE LOSSES IN UNITED STATES, BY STATES, 1915-1919.

(The figures, covering five-year period named, were compiled by the National Board of Fire Underwriters, N. Y., which estimates that fires not reported to the insurance companies would have added 25 per cent. to the totals.)

UNITED STATES TARIFF CUSTOMS DUTIES.

WHEN the Almanac went to press Congress was at work on a permanent tariff law to succeed the ac of 1913 together with the revisions of 1916 and 1921. Until the new law is passed, the rates below hold good

EMERGENCY TARIFF ACT OF 1921, ON AGRICULTURAL PRODUCTS.

The provisions and rates of the Emergency Act of May 27, 1921, hold, pending a new permanent tarif law. The rates under the Emergency Act are as follows:

There shall be levied, collected and paid upon the following articles, when imported from any foreig country into the United States or into any of its possessions (except the Philippine Islands, the Virgin Islands and the Islands of Guam and Tutuila), the following rates of duty, namely:

Wheat, 35 cents per bushel.

Wheat flour and semolina, 20 per centum ad valorem.

Flaxseed, 30 cents per bushel of 56 pounds.

Corn or maize, 15 cents per bushel of 56 pounds.

Beans, provided for in paragraph 197 of the act entitled "An act to reduce tariff duties and to provid revenue for the Government, and for other purposes," approved Oct. 3, 1913, 2 cents per pound.

Peanuts or ground beans, 3 cents per pound.

Potatoes, 25 cents per bushel of 60 pounds.

Onions, 40 cents per bushel of 57 pounds.

Rice, cleaned, 2 cents per pound, except rice cleaned for use in the manufacture of canned foods, on whic the rate of duty shall be 1 cent per pound; uncleaned rice, or rice free of the outer hull and still having th inner cuticle on, 1¾ cents per pound; rice flour, rice meal, and rice broken which will pass through a No 12 wire sieve of a kind prescribed by the Secretary of the Treasury, one-fourth of 1 cent per pound; paddy or rice having the outer hull on, three-fourths of a cent per pound.

Lemons, 2 cents per pound.

Oils: Peanut, 26 cents per gallon; cottonseed, cocoanut, and soya bean, 20 cents per gallon; olive 40 cents per gallon in bulk, 50 cents per gallon in containers of less than five gallons.

Cattle, 30 per centum ad valorem.

Sheep: One year old or over, $2 per head; less than one year old, $1 per head.

Fresh or frozen beef, veal, mutton, lamb, and pork, 2 cents per pound. Meats of all kinds, prepare or preserved, not specially provided for herein, 25 per centum ad valorem.

Cattle and sheep and other stock imported for breeding purposes shall be admitted free of duty.

Cotton having a staple of one and three-eighths inches or more in length, 7 cents per pound.

Manufactures of which cotton of the kind provided for in paragraph 16 is the component material c chief value, 7 cents per pound, in addition to the rates of duty imposed thereon by existing law.

Wool, commonly known as clothing wool, including hair of the camel, angora goat, and alpaca, bu not such wools as are commonly known as carpet wools: Unwashed, 15 cents per pound; washed, 30 cent per pound; scoured, 45 cents per pound. Unwashed wools shall be considered such as shall have been shor from the animal without any cleaning; washed wools shall be considered such as have been washed wit water only on the animal's back or on the skin; wools washed in any other manner than on the animal's bac or on the skin shall be considered as scoured wool. On wool and hair provided for in this paragraph, whic is sorted or increased in value by the rejection of any part of the original fleece, the duty shall be twice th duty to which it would otherwise be subject, but not more than 45 cents per pound.

Wool and hair of the kind provided for when advanced in any manner or by any process of manufactur beyond the washed or scoured condition, and manufactures of which wool or hair of the kind provided for the component material of chief value, 45 cents per pound in addition to the rates of duty imposed thereo by existing law.

Sugar, tank bottoms, syrups of cane juice, melada, concentrated melada, concrete and concentrate molasses, testing by the polariscope not above 75 degrees, one and sixteen one-hundredths of 1 cent pe pound, and for every additional degree shown by the polariscopic test, four one-hundredths of 1 cent pe pound additional, and fractions of a degree in proportion; molasses testing not above 40 degrees, 24 per centu ad valorem; testing above 40 degrees and not above 56 degrees, 3½ cents per gallon; testing above 56 de grees, 7 cents per gallon; sugar drainings and sugar sweepings shall be subject to duty as molasses or suga as the case may be, according to polariscopic test.

Butter, and substitutes therefor, 6 cents per pound.

Cheese, and substitutes therefor, 23 per centum ad valorem.

Milk, fresh, 2 cents per gallon; cream, 5 cents per gallon.

Milk, preserved or condensed, or sterilized by heating or other processes, including weight of immediat coverings, 2 cents per pound; sugar of milk, 5 cents per pound.

Wrapper tobacco and filler tobacco when mixed or packed with more than 15 per centum of wrappe tobacco, and all leaf tobacco the product of two or more countries or dependencies when mixed or packe together, if unstemmed, $2.35 per pound; if stemmed, $3 per pound; filler tobacco not specially provide for in this section, if unstemmed, 35 cents per pound; if stemmed, 50 cents per pound. The term "wrappe tobacco" as used in this section means that quality of leaf tobacco which has the requisite color, texture and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf to bacco.

Apples, 30 cents per bushel.

Cherries in a raw state, preserved in brine or otherwise, 3 cents per pound.

Olives, in solutions, 25 cents per gallon; olives not in solutions, 3 cents per pound.

SEC. 2. The rates of duty imposed by Section 1 (except cotton manufactures and wool, described i the foregoing) in the case of articles on which a rate of duty is imposed by existing law, shall be in lieu o such rate of duty.

TITLE II.—ANTI-DUMPING.

DUMPING INVESTIGATION.

SEC. 201. (a) That whenever the Secretary of the Treasury (hereinafter in this Act called the "Sec retary"), after such investigation as he deems necessary, finds that an industry in the United States is bein or is likely to be injured, or is prevented from being established, by reason of the importation into th United States of a class or kind of foreign merchandise, and that merchandise of such class or kind is bein sold or is likely to be sold in the United States or elsewhere at less than its fair value, then he shall make suc finding public to the extent he deems necessary, together with a description of the class or kind of merchan dise to which it applies in such detail as may be necessary for the guidance of the appraising officers.

(b) Whenever, in the case of any imported merchandise of a class or kind as to which the Secretary ha not so made public a finding, the appraiser or person acting as appraiser has reason to believe or suspec from the invoice or other papers or from information presented to him, that the purchase price is less, or tha the exporter's sales price is less or likely to be less, than the foreign market value (or, in the absence of suc value, than the cost of production) he shall forthwith, under regulations prescribed by the Secretary, notif the Secretary of such fact and withhold his appraisement report to the collector as to such merchandise unt the further order of the Secretary, or until the Secretary has made public a finding as provided in subdivisio (a) in regard to such merchandise.

SPECIAL DUMPING DUTY.

SEC. 202. (a) That in the case of all imported merchandise, whether dutiable or free of duty, of a clas

Or kind as to which the Secretary has made public a finding as provided in Section 201, and as to which the appraiser or person acting as appraiser has made no appraisement report to the collector before such finding has been so made public, if the purchase price or the exporter's sales price is less than the foreign market value (or, in the absence of such value, than the cost of production) there shall be levied, collected, and paid, in addition to the duties imposed thereon by law, a special dumping duty in an amount equal to such difference.

(b) If it is established to the satisfaction of the appraising officers that the amount of such difference between the purchase price and the foreign market value is wholly or partly due to the fact that the wholesale quantities, in which such or similar merchandise is sold or freely offered for sale to all purchasers for exportation to the United States in the ordinary course of trade, are greater than the wholesale quantities in which such or similar merchandise is sold or freely offered for sale to all purchasers in the principal markets of the country of exportation in the ordinary course of trade for home consumption (or, if not sold or offered for sale for home consumption, then for exportation to countries other than the United States), then due allowance shall be made therefor in determining the foreign market value for the purposes of this section.

(c) If it is established to the satisfaction of the appraising officers that the amount of such difference between the exporter's sales price and the foreign market value is wholly or partly due to the fact that the wholesale quantities, in which such or similar merchandise is sold or freely offered for sale to all purchasers in the principal markets of the United States in the ordinary course of trade, are greater than the wholesale quantities in which such or similar merchandise is sold or freely offered for sale to all purchasers in the principal markets of the country of exportation in the ordinary course of trade for home consumption (or, if not so sold or offered for sale for home consumption, then for exportation to countries other than the United States), then due allowance shall be made therefor in determining the foreign market value for the purposes of this section.

DYES AND CHEMICALS.

SEC. 501. (a) That on and after the day following the enactment of this act (May 27, 1921) no sodium nitrite, no dyes or dyestuffs, including crudes and intermediates, no product or products derived directly or indirectly from coal tar (including crudes, intermediates, finished or partly finished products, and mixtures and compounds of such coal tar products), and no synthetic organic drugs or synthetic organic chemicals, shall be admitted to entry or delivered from customs custody in the United States or in any of its possessions unless the Secretary determines that such article or a satisfactory substitute therefor is not obtainable in the United States or in any of its possessions in sufficient quantities and on reasonable terms as to quality, price and delivery, and that such article in the quantity to be admitted is required for consumption by an actual consumer in the United States or in any of its possessions within six months after receipt of the merchandise.

(b) Upon the day following the enactment of this act the War Trade Board Section of the Department of State shall cease to exist; all clerks and employees of such War Trade Board Section shall be transferred to and become clerks and employees of the Treasury Department and all books, documents, and other records relating to such dye and chemical import control of such War Trade Board Section shall become books, documents and records of the Treasury Department. All individual licenses issued by such War Trade Board Section prior to the enactment of this act shall remain in effect during the priod of their validity, and the importations under such licenses shall be permitted. All unexpended funds and appropriations for the use and maintenance of such War Trade Board Section shall become funds and appropriations available to be expended by the Secretary in the exercise of the power and authority conferred upon him by this section.

The following table shows the import duties on chief articles, under the act of 1909; and under the act of 1913 as revived since, including the Emergency Tariff Act revisions.

UNITED STATES CUSTOMS DUTIES.

(ad val.—ad valorem; n.s.p.f.—not specially provided for.)

ARTICLES.	RATES OF DUTY UNDER	
	Law of 1909.	Law of 1913.
SCHEDULE A—CHEMICALS, OILS AND PAINTS.		
Acids, n.s.p.f.	25 p.c. ad val.	15 p.c. ad val.
Alcoholic compounds, n.s.p.f.	60c. lb. and 25 p.c. ad val.	10c. lb. and 20 p.c. ad val. to 40c. lb. and 20 p.c. ad val.
Alkalies, alkaloids, and all chemical and medicinal compounds, preparations, mixtures and salts, and combinations thereof	25 p.c. ad val.	15 p.c. ad val.
Ammonia, carbonate of, and muriate of	¾c. lb.	¾c. lb.
Coal-tar products, not medicinal and not colors or dyes	Free list.	15 p.c. ad val. and 2½c. lb.
Group I. Acenaphthene, anthracene having a purity of less than twenty-five per centum, benzol, carbazol having a purity of less than twenty-five per centum, cresol, cumol, fluorene, metacresol having a purity of less than ninety per centum, methylanthracene, methylnaphthalene, naphthalene having a solidifying point less than seventy-nine degrees centigrade, orthocresol having a purity of less than ninety per centum, paracresol having a purity of less than ninety per centum, pyridin, quinolin, toluol, xylol, crude coal tar, pitch of coal tar, dead or cresote oil, anthracene oil, all other distillates which in being subjected to distillation yield in the portion below two hundred degrees centigrade a quantity of tar acids less than five per centum of the original distillate, and all other products that are found naturally in coal tar, whether produced or obtained from coal tar or other source, and not otherwise specially provided for in this title.		Exempt from duty.
Group II. Amidonaphthol, amidophenol, amidosalicylic acid, anilin oil, anilin salts, anthracene having a purity of twenty-five per centum or more, anthraquinone, benzoic acid, benzaldehyde, benzylchloride, benzidin, binitrobenzol, binitrochlorobenzol, binitronaphthalene, binitrotuluol, carbazol having a purity of twenty-five per centum or more, chlorophthalic acid, cumidin, dimethylanilin, dinaisidin, dioxynaphthalene, diphenylaimin, metacresol having a purity of ninety per centum or more, methylanthraquinone, metanilic acid, naphthalene having a solidifying point of seventy-nine degrees centigrade or above, naphthylamin, naphthol, nahphthylenediamin, nitrobenzol, nitrotoluol, nitronaphthalene, nitranilin, nitrophenylenediamin, nitrotoluylenediamin, orthocresol having a purity of ninety per centum		

ARTICLES.	RATES OF DUTY UNDER	
	Law of 1909.	Law of 1913.
or more, paracresol having a purity of ninety per centum or more, phenol, phthalic acid, phthalic anhydride, phenylenediamin, phenylnaththylamin, resorcin, salicylic acid, sulphanilic acid, toluidin, toildin, toluylenediamin, xylidin, or any sulphoacid or sulphoacid salt of any of the foregoing, all similar products obtained, derived, or manufactured in whole or in part from the products provided for in Group I., and all distillates which on being subjected to distillation yield in the portion distilling below two hundred degrees centigrade a quantity of tar acids equal to or more than five per centum of the original distillate, all the foregoing not colors, dyes, or stains, photographic chemicals, medicinals, flavors, or explosives, and not otherwise provided for in this title	.....	15 p. c. ad val and 2c. lb.
Group III. All colors, dyes, or stains, whether soluble or not in water, color acids, color bases, color lakes, photographic chemicals, medicinals, flavors, synthetic phenolic resin, or explosives, not otherwise specially provided for in this title, when obtained, derived, or manufactured in whole or in part from any of the products provided for in Groups I. and II. (see p. 371), natural alizarin and indigo, and colors, dyes, or color lakes obtained, derived, or manufactured therefrom		30 p.c. ad. val· 4c. lb.
Alizarin or indigo dyes		30 p. c. ad val.
Drugs	1¼c. lb. and 10 p.c. ad val.	10 p.c. ad val.
Drugs and medicines in pills, capsules, etc	.....	25 p.c. ad val.
Glue, value not above 10c. per pound	2½c. lb.	1c. lb.
Oil, castor, gals	35c. gal.	12c. gal.
Oil, whale, gals	8c. gal.	5c. gal.
Opium, crude and not adulterated, containing 9 per cent. and over of morphia, lbs	$1.50 lb.	$3 lb.
Paints, colors, pigments, etc	30 p.c. ad val.	15 to 20 p.c. ad val.
Perfumery, cosmetics, containing alcohol	60c. lb. and 50 p.c. ad val.	40c. lb. and 60 p.c. ad val.
Perfumery, cosmetics, not containing alcohol	60 p.c. ad val.	60 p.c. ad val.
Soap, castile and unperfumed toilet soap	1¼c. lb.	10 p.c. ad val.
Soap, perfumed toilet	50 p.c. ad val.	30 p.c. ad val.
Soda, bicarbonate of	5-8c. lb.	¼c. lb.
Sponges, not advanced in value by chemical processes	20 p.c. ad val.	10 p.c. ad val.
Talcum	.....	15 p.c. ad val.
SCHEDULE B—EARTHS, EARTHENWARE & GLASSWARE.		
Cement (other than Portland hydraulic)	8c 100 lbs.	10 p.c. ad val.
Earthenware, common, not ornamented	25 p.c. ad val.	15 p.c. ad val.
Glassware, decorated or cut	60 p.c. ad val.	45 p.c. ad val.
Marble, manufactures of, except for jewelry, n.s.p.f	50 p.c. ad val.	45 p.c. ad val.
Opera and field glasses, and frames for same	45 p.c. ad val.	35 p.c. ad val.
Spectacles and eyeglasses, and frames for same	Graduated rate.	35 p.c. ad val.

Wood, n.s.p.f.
Wood alcohol.
Wood pulp.
Works of art, originals or for certain institutions, or 10 years old.
Wrought iron or steel nails, n.s.p.f.

LITIGATION OF CUSTOMS CLAIMS.

(By the Board of United States General Appraisers.)

A statutory judicial remedy is given by the Customs Practise Act of June 10, 1890, and supplements thereto, for the return of money illegally exacted by the administrative customs officials, before a special statutory Court of Customs Claims called the Board of United States General Appraisers. If the valuation by the local appraiser of imported merchandise upon which an ad valorem duty is assessed is disputed by the importer he may appeal for a re-valuation (or re-appraisement as it is called) within ten days after the local appraiser has made the assessment. If the Importer is dissatisfied with the classification by the Collector of Customs at the port of entry, he may file a protest in writing within thirty days with such Collector, who thereupon must forward the papers to the Board, and the case is regularly docketed.

There is no limitation upon the amount involved in such litigation. It covers and includes merchandise imported by Parcel Post and claims arising from the assessment and classification of baggage not exempt from duty. The trial of the case is usually had at the port of entry or some nearby place. Regular dockets for the trial of such cases are held at New York, Philadelphia, Boston, Baltimore, Chicago, Cincinnati, St. Louis, St. Paul, Seattle, Portland, San Francisco and Los Angeles. In addition special dockets are held in other customs districts at the convenience and on request of the importers' attorneys. There are no court costs and the procedure is simple and expeditious yet includes all the safeguards and protections of an ordinary court trial. Numerous claims against the Government, arising from the administration of the customs laws, are thus litigated and involve in the aggregate large sums of money. Re-appraisement cases are heard by a single member of the Board with an appeal by either the Government or the importer from his judgment to a board of three. Classification cases, including contests over the legality of an appraisement, the legality of any administrative regulation promulgated by the Secretary of the Treasury, or the legality of other administrative action resulting in the levy of an excessive rate or amount of duty by the Collector of Customs, are decided by the Classification Board. An appeal lies from this Board's judgment to the Court of Customs Appeals at Washington from whence certiorari lies to the Supreme Court of the United States in treaty cases, constitutional cases and other cases which the Attorney General certifies as of sufficient importance.

The number of farms reporting forest products in 1919 was 2,014,696, or 31.2 per cent. of all farms, while forest products were reported by 2,409,853 farms, or 37.9 per cent. of all farms, in 1909.

Of the total value of forest products of farms in 1919, $217,716,046, or 55.2 per cent., represented the value of products sold in 1919, and $176,605,782, or 44.8 per cent., represented the value of products used on the farm. With the value of products sold is included the value of products cut and held for sale, and also the value of standing timber sold; and with the value of products used on the farm is included the value of products cut in 1919 and held for use later.

The number of farms reporting merchantable timber (timberland with trees mostly of saw-log size) on January 1, 1920, was 946,871, or 14.7 per cent. of all farms.

In Minnesota, 78,314 farms, or 43.9 per cent. of all farms in the State, reported co-operative marketing of farm products in 1919. Both co-operative elevators and co-operative creameries are numerous in this State.

Sales through farmers' marketing organizations in the United States in 1919 amounted to $721,983,639' or an average of $1,412 for each farm reporting. The most important products marketed in this way were grain, milk and cream, fruits, and truck crops.

The number of farms in the United States reporting co-operative purchasing of farm supplies through farmers' organizations in 1919 was 329,449, or 5.1 per cent. of all farms. In six States, co-operative purchasing of farm supplies was reported by over 20,000 farms, as follows: Iowa, 32,530; Kansas, 32,321; Minnesota, 29,611; Nebraska, 27,335; Wisconsin, 21,792, and Ohio, 21,250.

Important items purchased co-operatively were fertilizer, feed, binder twine, spraying materials, coal, crates, boxes, etc.

Note—Exports, imports and circulation are for fiscal years, ended June 30. The other figures are for calendar years. Prod. figures are revised finals by U. S. Mint Director; preliminary figures are on page 125.

COINAGE OF SILVER DOLLARS RENEWED IN 1921.

Operations were started at the United States Mint at Philadelphia Feb. 19, 1921, to renew the coinage of silver dollars, the first that have been put into circulation since 1905. The new coins were authorized by the Pittman Act of April 23, 1918, which permitted the Secretary of the Treasury to break up and sell not to exceed 350,000,000 silver dollars.

Blanks indicate, in most cases, no available figures.

German silver stock is converted into dollars at gold value. Italy's silver covers only stock in banks of Italy, Naples and Sicily. Great Britain's silver stock covers only silver coin in circulation. Sarawak silver and paper does not include Straits Settlements silver and paper in circulation. Italy's paper money is exclusive of 1 and 2 lire Government notes. Polish paper marks have been converted into dollars at same rate as German marks.

Unclassified metallic money in the countries named in the table totals $299,980,000.

Gold money per capita in chief countries—Argentina, $61.73; Australia, $21.99; Canada, $13.46; Cuba $15.52; Denmark, $20.39; France, $11.70; Germany, $4.70; Great Britain, $17.47; Italy, $5.56; Netherlands, $37.73; Spain, $22.24; Switzerland, $23.89; United States, $26.85; Uruguay, $41.32.

Gold held abroad: Argentina, $3,978,023; Paraguay, $787,277, Bank of France, $376,035,000; Greece, $257,094,199; Bank of Norway, $15,622,929; National Bank of Roumania, $95,294,798; Switzerland, $12,575,880; French Indo-China, $4,935,668; Japan, (April, 1920), $350,000,000, Straits Settlements, $3,763,687; Union of South Africa, $3,235,288; Spain, $15,929,469; Peru, $14,112,850; Jugoslavia, $67,464,875 gold and silver).

NOTE—The compilations in the table above have been made from such data as are available—avowedly incomplete. The amount of gold and silver in circulation in many countries is not obtainable, and in some countries that held by private banks cannot be given.

For the United States the figures given cover all domestic gold and silver coin, but only such bullion and foreign coin as owned by the Government and Federal Reserve Banks. All foreign coin which comes into possession of the Government is converted into bullion.

Amount of surtax is the total of the installments for the income considered.

In computing the tax personal exemption of $2,500 is allowed on incomes not in excess of $5,000. On incomes of $6,000 and over, $2,000 is allowed. No allowance is made for credit for dividends or interest on U. S. obligations, if any, included in net income.

The Revenue Act of 1921 was approved by the President on November 23. Many changes are made in the former law by this act, among which are the repeal of the excess-profits tax and the taxes on transportation, as of January 1, 1922, and the reduction of the surtax to 50 per centum on individual income in excess of $200,000 for the year 1922 and thereafter.

Though the excess-profits tax provision of the Revenue Act of 1918 is repealed as of January 1, 1921, it remains in force for the assessment and collection of all taxes which have accrued under it at the time it ceased to be in effect, and for the imposition and collection of all penalties accruing in relation thereto.

ESTATE TAX.

This tax, which is in lieu of the tax imposed by Title IV. of the Revenue Act of 1918, is imposed upon the transfer of the net estate of every decedent dying after the passage of the law, whether a resident or non-resident of the United States, and with certain exceptions is substantially a re-enactment of the tax imposed by Title IV. of the Revenue Act of 1918. Title IV. of that act is repealed as of the date of passage of the 1921 act. The schedule at top of next page shows the rates effective.

Married women making separate returns from husbands	.....	.....	7,635	.....	.....	.....
Total number of returns filed	357,515	336,652	437,03	3,472,890	4,425,114	5,332,760

In 1916 the net income on returns filed separately by husband and wife is combined and the total appears as one return. In all other years the returns of married women, filed separately, are so classed.

NAVAL EDUCATION SYSTEM OF THE UNITED STATES.

THE Bureau of Navigation of the Navy Department is charged with the training and education of the line officers of the navy, and each staff bureau with the training of the staff officers. Midshipmen, when appointed, are given four years instruction on general and technical subjects at the Naval Academy. Upon graduation these midshipmen are commissioned as line officers and are ordered to sea duty. None is sent to any special schools until he has had at least one year at sea. Officers who have shown special qualifications and interest in the subjects mentioned below are selected for special instruction. In recent years 40 per cent. to 80 per cent. of each Naval Academy class have received special instruction in some one of these subjects. The following courses are maintained by the Bureau of Navigation:

War College—Newport, R. I., one year; for officers of command or flag rank. This course includes theoretical instruction in the art of naval warfare, and war games played on game boards.

Post-Graduate Work—Naval Academy, Annapolis, Md., and various educational institutions; two years. The first year of this course is at the Naval Academy and consists of the preparation and technical groundwork. This work merges into the specialization course continued at the institution, offering the best available facilities in the given work, viz.: ordnance, marine, gas, electrical and radio engineering. Columbia University, Massachusetts Institute of Technology, George Washington and Harvard are among the institutions at which special instruction is given. As a part of this course practical work during the summer is given to student officers at such places as navy yards, naval gun factory, Bureau of Mines, Bureau of Standards and large industrial plants.

Naval Construction—Naval Academy and Massachusetts Institute of Technology; two to three years. First year at post-graduate work at Naval Academy and the remainder at Massachusetts Institute of Technology, studying design and construction of ships. These officers are transferred from the line to the construction corps.

Submarines—New London, Conn.; three months. This course is practical training in handling submarines and firing torpedoes from them.

Torpedoes—Naval Torpedo Station, Newport, R. I.; five months. Theoretical and practical instruction in the assembly, firing, care and maintenance of various types of torpedoes.

Aviation—Pensacola, Fla.; nine months. Training in both heavier than air and lighter than air craft.

Law—Judge Advocate General's office and George Washington University; three years. Certain officers while on duty in the Judge Advocate's office take the law course at George Washington University, giving special attention to military law and procedure.

Optical Instruments and Gyroscopic Instruments—Naval gun factory, Ford instrument works and other industrial plants. From time to time officers are sent to places where such instruments are manufactured, to learn the details and principles of manufacturing, while others are given shorter courses in the care, operation and maintenance of these instruments.

EDUCATION AND TRAINING OF ENLISTED MEN IN THE NAVY.

There are shore training stations at Newport, R. I.; Hampton Roads, Va.; Great Lakes, Ill.; San Francisco, and Gulfport, Miss. At the Newport and San Francisco training stations there are special schools for enlisted men who desire to enter the Naval Academy. Trade schools are maintained at the stations and at several of the navy yards and naval air stations. The course of training for apprentice seamen and firemen, third class, at training stations, is four months. Upon the completion of the course of training at training stations, apprentice seamen will be rated seamen, second class, or firemen, third class, and granted the usual leave before being transferred to ships. Every endeavor is made to qualify those who are unable to swim 50 yards. This is particularly desirable in the case of line petty officers, and no man shall be made a coxswain or a member of a power boat's crew who has not so qualified.

Men need not be continuous service men to be eligible for entrance to a trade school, but, except in the case of recruits who will enter immediately after enlistment, no men will be detailed who will not have at least two years to serve on their current enlistment after they have completed their course. A recruit must have enlisted for at least three years to be eligible for entrance to any trade school having a course of six months or more. A recruit who has enlisted for two years or more is eligible for entrance to a trade school having a course of less than six months. Men who complete a course of instruction in any service trade school are not qualified for furlough without pay or discharge by purchase or by special order during the remainder of the enlistment in which the course was completed. A man who applies for instruction in any service trade school shall be so informed and required to sign a statement that he has no intention of requesting furlough without pay or discharge by purchase or special order during his current enlistment, and that no reason exists or can be anticipated to necessitate such discharge. Men who have completed one course of instruction in any trade school, whose course is six months or longer, will not be considered eligible for entrance to another trade school except that men entering the apprentice courses in the aviation mechanics' school may be advanced through the higher trade schools of his specialty if his aptitude and progress warrant. Men qualifying for a rating prior to the completion of a course are to be rated and transferred to receiving ships for general detail.

UNITED STATES MARINE CORPS.

John A. Lejeune, Major General Commandant. Headquarters, Navy Building, 18th and B Streets, N. W., Washington, D. C. The authorized strength of the corps is (Aug. 1, 1921): 1,093 officers, 116 warrant officers, 42 pay clerks, and 27,400 enlisted men, as follows: 1 major general commandant, 1 major general (permanent), 1 major general (temporary), 3 brigadier generals, staff: 6 brigadier generals, line, 33 colonels, 44 lieutenant colonels, 124 majors, 329 captains, 276 first lieutenants, 275 second lieutenants, 58 marine gunners, 58 quartermaster clerks, 42 pay clerks, 73 sergeants major, 368 quartermaster sergeants, 2 drum majors, 413 first sergeants, 399 gunnery sergeants, 1,853 sergeants, 3,303 corporals, 320 drummers, 320 trumpeters, 5,071 privates, first class, 15,211 privates, 1 leader of band, 1 second leader, 10 principal musicians, 25 first-class musicians, 20 second-class musicians, 10 third-class musicians.

GENERAL OFFICERS OF THE MARINE CORPS, IN ADDITION TO THE COMMANDANT.

Brigadier Generals, Staff—Henry C. Haines, Adjutant and Inspector; Charles L. McCawley, Quartermaster; George Richards, Paymaster. *Major Generals, Line*—George Barnett, Wendell C. Neville. *Brigadier Generals, Line*—Joseph H. Pendleton, Eli K. Cole, Smedley D. Butler, Charles G. Long, Logan Feland, Harry Lee.

The losses to June 12, 1920, due to the World War, had been: Killed in action, 1,451; died of wounds, 1 006; died of disease, 304; accidentally killed, 28; died of other causes, 18; total, 2,807. Wounded, 8,616. In hands of the enemy, none; missing, none. Total casualties, 11,423.

Commissioned officers are appointed from graduates of the Naval Academy, from worthy non-commissioned officers of the Marine Corps, and from civil life.

Information regarding pay, allowances, etc., may be obtained from the U. S. Marine Corps, Washington, D. C. Re-enlistments are made at all marine barracks, posts and stations. There are recruiting stations at 24 E. 23d St., New York City; 402 Atlantic Ave., Boston; 1331 Arch St., Philadelphia; 418 9th St., N. W., Washington, D. C.; 537 So. Dearborn St., Chicago; United Fruit Building, New Orleans, and in every other large city.

Besides the 290,955 widows on the roll in 1921, there were 4,285 dependents, 2,163 minors, and 919 helpless children; of the 267,731 invalids, 102 were army nurses of the Civil War. Of the total number of pensioners on June 30, 1921, there were 218,775 Civil War soldiers, as against 243,520 a year before. Of the widows, 278,098 were of the Civil War, as against 290,100 a year before. To pensioners in foreign countries were paid $1,342,022, as against $1,280,581 the year before. In the year ended June 30, 1921, there were 24,775 Civil War soldiers who died, as against 27,871 in the previous year.

The largest number of Civil War soldiers on the pension roll, 745,822, was in the year ended June 30, 1898. On June 30, 1921, there were surviving 64 widows of the War of 1812, and also 109 soldiers and 2,135 widows of the War with Mexico, as well as 39,282 pensioners of the War with Spain.

On June 30, 1921, there were 63 World War soldiers and 32 widows and other dependents of that war on the Pension Roll. For all information as to pensions other than World War, apply to the Commissioner of Pensions, Washington, D. C.

WORLD WAR PENSIONS

World War pensions, etc., are handled by the U. S. Veterans' Bureau, formerly the Bureau of War Risk Insurance, Treasury Dept., Washington, D. C., Director, C. R. Forbes. On September 30, 1921, there were 207,592 compensation claims upon which payments are being made. Of this number, 159,026 were disability claims and 48,566 death claims. There had been paid in compensation the sum of $253,772,297.56.

The rate of pay given veterans depends upon the degree of disability and the number of dependents. The following section from the War Risk Insurance Act as amended by Act of Congress, December 24, 1919, gives the rate of compensation paid for death or disability resulting from personal injury suffered, or disease contracted in the line of duty.

Section 302. That if the disability results from injury:

1. If and while the disability is rated as total and temporary, the monthly compensation shall be the following amounts: *a*. If the disabled person has neither wife nor child living, $80; *b*. If he has a wife and no child living, $90; *c*. If he has a wife and one child living, $95; *d*. If he has a wife and two or more children living, $100; *e*. If he has no wife but one child living, $90, with $5 for each additional child. *f*. If he has a mother or father, either or both dependent on him for support, then in addition to the above amounts $10 for each parent so dependent.

2. If and while the disability is rated as partial and temporary, the monthly compensation shall be a percentage of the compensation that would be payable for his total and temporary disability equal to the degree of the reduction in earning capacity resulting from the disability, but no compensation shall be payable for a reduction in earning capacity rated less than 10 per centum.

3. If and while the disability is rated as total and permanent the rate of compensation shall be $100 per month: Provided, however, that the loss of both feet, or both hands, or the sight of both eyes, or the loss of one foot and one hand, or one foot and the sight of one eye, or one hand and the sight of one eye, or becoming helpless and permanently bedridden shall be deemed to be total permanent disability: Provided, further, that for double total permanent disability the rate of compensation shall be $200 per month.

4. If and while the disability is rated as partial and permanent the monthly compensation shall be a percentage of the compensation that would be payable for his total and permanent disability equal to the degree of the reduction in earning capacity resulting from the disability, but no compensation shall be payable for a reduction in earning capacity rated at less than 10 per centum.

The Veterans' Bureau, by the Act of August 9, 1921, took over from the Federal Board for Vocational Education, the work of providing for the vocational rehabilitation of disabled persons discharged from the military or naval forces, and also for their hospital care. The Bureau also took over the work for veterans done by the U. S. Public Health Service. On May 5, 1921, there were being hospitalized in all hospitals veterans of the United States, including contract hospitals, 26,092 patients of the bureau, classified as follows: Tuberculosis, 10,266; Neuropsychiatric, 7,349; general medical and surgical, 8,477.

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS.

(Navy Building, 17th and B Sts., N. W., Washington.)

Chairman—Charles D. Walcott, S. D.; *Sec.*—S. W. Stratton, S. D.; *Chairman Exec. Comm.*—Joseph S. Ames, Ph. D.; Major Thurman H. Bane, U. S. A.; William F. Durand, Ph. D.; John F. Hayford, C. E.; Chas. F. Marvin, M. E.; Rear Adm. William A. Moffett, U. S. N.; Major Gen. Mason M. Patrick, U. S. A.; Michael I. Pupin, Ph. D.; Rear Adm. D. W. Taylor, U. S. N.; Orville Wright, B. S.; *Exec. Officer*—George W. Lewis; *Ass't Secretary*—John F. Victory.

UNITED STATES BUREAU OF EFFICIENCY.

Chief—Herbert D. Brown; *Ass't Chief and Senior Accountant*—Harold N. Graves; *Efficiency Ratings*—William H. McReynolds; *Organization*—C. R. Hugins; *Accounting*—V. G. Croissant; *Statistics*—George C. Havenner; *Labor-Saving Devices*—Wilson E. Wilmot; *Duplication of Work*—Herbert H. Rapp; *Chief Clerk and Disbursing Clerk*—Miss D. F. Fridley; *Librarian*—Gladys E. Weaver.

INTERSTATE COMMERCE COMMISSION.

Charles Caldwell McChord, Chairman; Clyde Bruce Aitchison, Henry Clay Hall, Joseph Bartlett Eastman, Winthrop More Daniels, Balthaser Henry Meyer, Johnston B. Campbell, Edgar I. Lewis, Mark Winslow Potter, John Jacob Esch, Frederick I. Cox; George B. McGinty, Secretary.

ALABAMA Public Service Commission—A. G. Patterson, President; S. P. Gaillard, B. H. Cooper; Atticus Mullin, Secretary.

ARIZONA Corporation Commission—D. F. Johnson, Chairman; Amos A. Betts, Loren Vaughn; Stanley Williamson, Secretary.

ARKANSAS Railroad Commission—W. E. Floyd, Chairman; Joe Hardage, Joseph G. Walker; Harvey G. Combs, Secretary.

CALIFORNIA Railroad Commission—H. W. Brundige, President; H. D. Loveland, Chester H. Rowell, Irvin Martin, S. H. Benedict; H. G. Mathewson, Secretary.

COLORADO Public Utilities Commission—Grant E. Halderman, Chairman; A. P. Anderson, Frank P. Lannon A. J. Lindsay, Secretary.

CONNECTICUT Public Utilities Commission—Richard T. Higgins, Chairman; Charles C. Elwell, Joseph W. Alsop; Henry F. Billings, Secretary.

DISTRICT OF COLUMBIA Public Utilities Commission—Cuno H. Rudolph, President; James F. Oyster, Col. Charles W. Kutz, Col. Charles Keller; Daniel E. Garges, Secretary.

FLORIDA Railroad Commission—R. Hudson Burr, Chairman; Newton A. Blitch, A. S. Wells; Lewis G. Thompson, Secretary.

GEORGIA Railroad Commission—Chas. Murphey Candler, Chairman; Paul B. Trammel, Vice-Chairman; James A. Perry, John T. Boifeuillet, J. D. Price; Albert Collier, Secretary.

IDAHO Public Utilities Commission—Geo. E Erb, President; E. M. Sweeley, J. M. Thompson; C. J. Callahan, Secretary.

ILLINOIS Commerce Commission—Frank L. Smith, Chairman; Cicero J. Lindly, Vice-Chairman; Hal W. Trovillion, P. H. Moynihan, Jas. F. Sullivan; Julius Johnson, Secretary.

INDIANA Public Service Commission—J. W. McCardle, Chairman; Glenn Van Auken, George M. Barnard, Maurice Douglass, Edgar M. Blessing; L. C. Loughry, Secretary.

IOWA Board of Railroad Commissioners—Chas. Webster, Chairman; Dwight N. Lewis, Fred P. Woodruff; George L. McCaughan, Secretary.

KANSAS Public Utilities Commission—Clyde M. Reed, Chairman; J. W. Greenleaf, H. A. Russell; R. C. Dellinger, Secretary.

KENTUCKY Railroad Commission—J. S. Cooper, Chairman; Frank N. Burns, E. C. Kash; W. W. Jesse, Secretary.

LOUISIANA Railroad Commission—Shelby Taylor, Chairman; John T. Michel, Huey P. Long; Henry Jastremski, Secretary.

MAINE Public Utilities Commission—Chairman; Herbert W. Trafton, Albert Greenlaw; Geo. F. Giddings, Clerk.

MARYLAND Public Service Commission—William Milnes Maloy, Chairman; J. Frank Harper, Ezra B. Whitman; Frank Harper, Executive Officer.

MASSACHUSETTS Department of Public Utilities—Henry C. Attwill, Chairman; David A. Ellis, Alonzo R. Weed, Everett E. Stone, Henry G. Wells; Andrew A. Highlands, Secretary.

MICHIGAN Public Utilities Commission—Sherman T. Handy, Chairman; William W. Potter, Samuel Odell, Earl R. Stewart, William M. Smith, Will H. Brunson, Secretary.

MINNESOTA Railroad and Warehouse Commission—O. P. B. Jacobson, Chairman; Fred W. Putnam, Ivan Bowen; Thos. Yapp, Secretary.

MISSISSIPPI Railroad Commission—George R. Edwards, President; W. B. Wilson, C. M. Morgan; James Galceran, Secretary.

MISSOURI Public Service Commission—John A. Kurtz, Chairman; Edwin H. Bean, Noah W. Simpson, Edward Flad, Hugh McIndoe; L. H. Breuer, Secretary.

MONTANA Board of Railroad Commissioners—Ex-officio Public Service Commission; Lee Dennis, Chairman; Daniel Boyle, Samuel M. Ross; E. G. Tooney, Secretary.

NEBRASKA Railway Commission—H. G. Taylor, Chairman; H. L. Cook, T. A. Browne; John E. Curtiss, Secretary.

NEVADA Public Service Commission — J. F. Shaughnessy, Chairman; W. H. Simmons, J. G. Scrugham; Benson Wright, Secretary.

NEW HAMPSHIRE Public Service Commission—William T. Gunnison, Chairman; John W. Storrs, Thomas W. D. Worthen; Walter H. Timm, Clerk.

NEW JERSEY Board of Public Utility Commissioners—John J. Treacy, Chairman; Harry V. Osborne, Harry Bacharach; A. N. Barber, Secretary.

NEW MEXICO Corporation Commission—Hugh H. Williams, Chairman; Bonifacio Montoya, J. M. Luna; A. L. Morrison, Clerk.

NEW YORK Public Service Commission—William A. Prendergast, Chairman; William R. Pooley, Charles Van Voorhis, Oliver C. Semple, Charles G. Blakeslee; Francis E. Roberts, Secretary.

NEW YORK Transit Commission—George McAneny, Chairman; LeRoy T. Harkness, John F. O'Ryan; James B. Walker, Secretary.

NORTH CAROLINA Corporation Commission—W. T. Lee, Chairman; George P. Pell, A. J. Maxwell; R. O. Self, Clerk.

NORTH DAKOTA Board of Railroad Commissioners—Frank Milholland, President; C. W. McDonnell, W. H. Stutsman; J. H. Calderhead, Secretary.

OHIO Public Utilities Commission—Geo. T. Poor, Chairman; Chas. C. Marshall, E. A. Tinker; J. E. Baird, Acting Secretary.

OKLAHOMA Corporation Commission—Campbell Russell, Chairman; A. L. Walker, E. R. Hughes; P. E. Glenn, Secretary.

OREGON Public Service Commission—Fred A. Williams, Chairman; Hylen H. Corey, Fred G. Buchtel; William P. Ellis, Secretary.

PENNSYLVANIA Public Service Commission—W. D. B. Ainey, Chairman; John S. Rilling, John W. Reed, S. Ray Shelby, Samuel M. Clement, Jr., James S. Benn; John G. Hopwood, Secretary.

RHODE ISLAND Public Utilities Commission—William C. Bliss, Chairman; Samuel E. Hudson, Robert F. Rodman; Geo. A. Carmichael, Secretary.

SOUTH CAROLINA Public Service Commission—William Banks, Chairman; W. B. de Loach, S. B. Earle; William Banks, Secretary.

SOUTH CAROLINA Railroad Commission—Frank W. Shealy, Chairman; James Cansler, H. H. Arnold; J. P. Darby, Secretary.

SOUTH DAKOTA Board of Railroad Commissioners—J. W. Raish, Chairman; D. E. Brisbine, J. J. Murphy; E. F. Norman, Secretary.

TENNESSEE Railroad and Public Utilities Commission—B. A. Enloe, Chairman; Harvey H. Hannah, Julian H. Campbell; J. H. Corbitt, Secretary.

TEXAS Railroad Commission—Allison Mayfield, Chairman; Clarence E. Gilmore, Earle B. Mayfield; E. R. McLean, Secretary.

UTAH Public Utilities Commission—Abbot R. Heywood, President; Joshua Greenwood, Warren Stoutnour; T. E. Banning, Secretary.

VERMONT Public Service Commission—Walter A. Dutton, Eli H. Porter, William R. Warner, Neil D. Clawson, Clerk.

VIRGINIA State Corporation Commission—William F. Rhea, Chairman; Berkley D. Adams, Alexander Forward; Richard T. Wilson, Clerk.

WASHINGTON Department of Public Works—E. V. Kuykendall, Director; Hance H. Cleland, Supervisor Division Public Utilities; Frank R. Spinning, Supervisor Division of Transportation; James Allen, Supervisor Division of Highways; J. H. Brown, Secretary.

WEST VIRGINIA Public Service Commission—Ernest D. Lewis, Chairman; Edgar G. Rider, G. R. C. Wiles; R. B. Bernheim, Secretary.

WISCONSIN Railroad Commission—Carl D. Jackson, Chairman; Henry R. Trumbower, Lewis E. Gettle; C. D. Le Cheverell, Secretary.

WYOMING Public Service Commission—Claude L. Draper, Chairman; Maurice Groshon, H. M. Huntington; E. N. Crowley, Secretary.

INTERSTATE COMMERCE COMMISSION—*Continued.*

ALASKA, Alaskan Engineering Commission—F. Mears, Chairman and Chief Engineer; Wm. Gerig, Assistant Chief Engineer.
HAWAII Public Utilities Commission—William T. Carden, Chairman; Alex J. Gignoux, Ingram M. Stainback; H. P. O'Sullivan, Secretary.
PHILIPPINE ISLANDS Board of Public Utility Commissioners—Mariano Cui, President; Stephen Bonsal, Clyde A. DeWitt; R. A. Cruz, Secretary.
PORTO RICO Public Service Commission—José E. Benedicto, Chairman; Guillermo Esteves, Vice-Chairman; J. W. Bonner, Manuel Camuñas, Salvador Mestre, Paul G. Miller, A. Ruiz Soler, José G. Torrés, L. Santiago Carmona; Pablo Berga, Secretary.

CANADIAN COMMISSIONS.

CANADA Department of Railways and Canals—Hon. J. D. Reid, Minister; G. A. Bell, Deputy Minister; J. W. Pugsley, Secretary.
CANADA Board of Railway Commissioners for Canada—Hon. F. B. Carvell, Chief Commissioner; S. J. McLean, Assistant Chief Commissioner; Hon. W. B. Nantel, Deputy Chief Commissioner; A. C. Boyce, Dr. J. C. Rutherford; A. D. Cartwright, Secretary.

PROVINCES.

ALBERTA Board of Public Utility Commissioners—George H. V. Bulyea, Chairman; A. A. Carpenter, G. A. Thibault, Secretary.
MANITOBA Public Utilities Commission—P. A. Macdonald, Commissioner; A. W. Smith, Secretary.
NEW BRUNSWICK Board of Commissioners—A. B. Connell, Chairman; F. Michaud, J. D. P. Lewis; E. S. Carter, Clerk.
NOVA SCOTIA Board of Commissioners of Public Utilities—John U. Ross, Chairman; R. T. MacIlreith, Vice-Chairman; Parker R. Colpitt; Laura B. Taylor, Secretary.
ONTARIO Railway and Municipal Board—D. M. McIntyre, Chairman; A. B. Ingram, Vice-Chairman; J. A. Ellis; H. C. Small, Secretary.
QUEBEC Public Service Commission—Adrien Beaudry, President; A. W. G. Macalister, Acting President; F. C. Laberge; M. Jos. Ahern, Secretary.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE.

(United States Department of Commerce.)

Berlin—Charles E. Herring, Commercial Adviser; *Brussels*—Samuel H. Cross, Acting Commercial Attache; *Bucharest*—Louis E. Van Norman, Trade Commissioner; *Buenos Aires*—Edward F. Feely, Commercial Attache; *Constantinople*—Paul L. Edwards, Representative of the Department of Commerce; *Copenhagen*—Norman L. Anderson, Commercial Attache; *Habana*—Chester Lloyd Jones, Acting Commercial Attache; *The Hague*—Howard W. Adams, Trade Commissioner; *Johannesburg*—Perry J. Stevenson, Trade Commissioner; *London*—Walter S. Tower, Commercial Attache; *Lima*—W. E. Dunn, Acting Commercial Attache; *Madrid*—Charles H. Cunningham, Commercial Attache; *Melbourne*—J. W. Sanger, Trade Commissioner; *Mexico City*—Purl L. Bell, Trade Commissioner; *Paris*—William C. Huntington, Commercial Attache; *Peking*—Julian H. Arnold, Commercial Attache; *Prague*—Vladimir A. Geringer, Trade Commissioner; *Riga*—H. L. Groves, Trade Commissioner; *Rio de Janeiro*—William L. Schurz, Commercial Attache; *Rome*—Henry C. MacLean, Commercial Attache; *Santiago*—Charles A. McQueen, Commercial Attache; *Shanghai*—Lynn W. Meekins, Trade Commissioner; *Tokio*—James F. Abbott, Commercial Attache; *Vienna*—William F. Upson, Representative of the Department of Commerce; *Vladivostok*—Carl J. Mayer, Trade Commissioner; *Warsaw*—H. B. Smith, Trade Commissioner.

INTERNATIONAL SANITARY BUREAU.

Honorary Director—Dr. Pablo Garcia Medina, Bogota, Colombia; *Director*—Surgeon Gen. Hugh S. Cumming, United States Public Health Service, Washington, D. C.; *Vice Director*—Assistant Surgeon Gen. J. H. White, United States Public Health Service, Washington, D. C.; *Secretary*—Dr. Julio Bianchi, Minister of Guatemala, Washington, D. C.; *Executive Clerk*—W. P. Montgomery Pan-American Building, Washington, D. C.; *Board of Directors*—Dr. J. Liambias, Director General Public Health, Buenos Aires, Argentina; Dr. Carlos Chagas, Director General Public Health, Rio de Janeiro, Brazil; Dr. Juan Guiteras, Director General Public Health, Habana, Cuba; Dr. Luis Razetti Secretary Academy of Medicine, Caracas, Venezuela.

225,000 AIR PASSENGERS IN 1920.

COMMERCIAL aircraft in the United States flew 6,000,000 miles on its second-year wings in 1920, according to the Manufacturers' Aircraft Association Nearly 1,000 planes divide the flying honors in this class with a total of 225,000 passengers carried. In the absence of Federal laws and registration, where gypsy flying flourishes without record, it is difficult to estimate the United States flying record accurately The Aircraft Year Book accomplished this by a questionnaire among manufacturers and by consulting information gathered by the Army Air Service. Complete figures show that the Army Air Service flew 6,250,000 miles, the Naval Aviation flew 1,500,000 and the Aerial Mail flew 1,500,000.

Eighty-seven civilian companies carried passengers without one recorded fatal accident. The great majority of the accidents occurred during stunt and exhibition or experimental flights.

According to the manufacturers the United States broke five world's records, saved more timber by aerial forest patrol than was spent on the aviation service, flew 8,000 miles daily in the Aerial Mail Service and carried a huge amount of freight.

UNITED STATES SHIPPING BOARD.

and

U. S. SHIPPING BOARD EMERGENCY FLEET CORPORATION.

GENERAL ADMINISTRATION.

Chairman—Albert D. Lasker; *Vice Chairman*—T. V. O'Connor; *Commissioners*—George E. Chamberlain, Frederick I. Thompson, Edward C. Plummer, Wm. S. Benson, Meyer Lissner.

EMERGENCY FLEET CORPORATION.

President, E. F. C.—Jos. W. Powell; *Vice Presidents, E. F. C.*—J. Barston Smull, Wm. J. Love, A. J. Frey, Elmer Schlesinger, H. S. Kimball, Edward P. Farley; *Ass't to Chairman*—Ralph V. Sollitt; *Ass't to Pres. Powell, E. F. C.*—G. O. MacConachie; *Ass't to V. P. Kimball, E. F. C.*—Richard H. Bailey, Jr.

Legal Division, E. F. C.—Ass't Gen. Counsel—Nathan A. Smyth; *Special Counsel*—S. H. F. Freund; *Admiralty Counsel*—Glen R. Snider; *Chairman Claims Commission*—Judge W. D. Meals; *Member Claims Commission*—Capt. R. M. Watt; *Sec. Claims Commission*—O. P. M. Brown; *In Charge Claims Section*—Joseph Fairbanks.

General Comptroller's Dept., E. F. C.—General Comptroller—E. A. Shepherd.

Treasurer's Office, E. F. C.—Treasurer—T. L. Clear; *Ass't Treasurer*—Heber M. Wells.

Secretary's Office, E. F. C.—Secretary—Clifford W. Smith; *Ass't Secretary*—J. P. James.

THE CIVIL SERVICE OF THE UNITED STATES.

On June 30, 1916, the number of classified positions in Washington was 30,020; outside, 266,900. On the date of the Armistice, November 11, 1918, the number, both classified and unclassified in Washington was 117,760, and outside 800,000. On July 31, 1921, the number in Washington was 76,514, and on June 30, 1921, outside Washington, 510,410.

This made a reduction of 330,836 employees since the peak of the war.

Under an act of May 22, 1920, classified employees upon reaching certain ages are automatically retired from the service unless certified for continuance. The retirement age for railway mail clerks is 62 years; for mechanics, post office clerks and carriers, 65 years, and for others 70 years. Those who have served 15 years or more are entitled to annuity based on length of service and salary received during the ten years preceding retirement. The minimum annuity is $180 and the maximum $600 per annum. Deduction of 2½% is made from salaries to provide for this annuity, which will be returned, with 4% interest to persons leaving the service before retirement. In case of separation by death the deduction is returned to the person's heirs. If an annuitant dies before he receives annuity equal to the deductions made from his salary, with interest, the difference is paid to his heirs.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population; for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns, and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

The expenditure for salaries in the Executive Civil Service is over $200,000,000 a year. The Civil Service Act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service and the Government Printing Service should be requested directly of the Civil Service Commission at Washington The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States, army nurses, veterans, widows, or wives of disabled veterans.

Honorably discharged soldiers, sailors and marines and their widows, and the wives of those who are disabled are given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Panama Canal Service.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service Act. Here are amendments to the rules:

"1. A person separated without delinquency or misconduct from a competitive position, or from a position which he entered by transfer or promotion from a competitive position, may be reinstated in the department or office in which he formerly served upon certificate of the commission subject to the following limitations:

(a). A person may be reinstated to the department or independent Government establishment from which separated upon a request made within one year from date of his separation, but in unusual cases the year-limit may be extended in the interest of the service, in one year periods, based on length of service, up to five years.

(b). Veterans of the Civil War or War with Spain, including widows and Army nurses, separated prior to July 18, 1918, may be reinstated without time limit, but if since separated may be reinstated within five years from date of separation.

(c). A veteran of the War with Germany, including Army nurses, who was in the classified service prior to military service, may be reinstated in any part of the competitive classified service within five years from date of honorable cessation of active military service. Such person, after the expiration of the five-year period of eligibility, and any person with similar military service not in the Civil Service prior to military service, may be reinstated within five years in the department or independent establishment from which separated.

(d). The widow of a veteran of the War with Germany, formerly in the classified service and who was his wife while in the military service, may be reinstated in any part of the classified service within five years from the date her husband's military service ceased.

UNITED STATES COAST AND GEODETIC SURVEY.

THE Coast and Geodetic Survey of the Department of Commerce is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof, and the publication of charts covering said coasts.

The results obtained are published in annual reports and in special publications; charts upon various scales including sailing charts, general charts of the coast, harbor charts and tide tables issued annually in advance; coast pilots with sailing directions covering the navigable waters; notice to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Light Houses, and containing current information necessary for safe navigation; catalogues of charts and publications and such other publications as may be required to carry out the organic law governing the survey.

STATISTICS OF THE SURVEY AS OF JULY, 1921.

There are about 320,000 square miles of precise triangulation and 2,900 linear miles of primary traverse completed in the United States. There is about an equal amount of each still to be done to bring the precise work within fifty miles of every place in the United States. This is the minimum amount required to give adequate control to local surveys. There is tertiary triangulation along the whole coast of the United States proper, but this needs constant revision due to changes in the shore line and to the loss of stations. The necessary triangulation in the Philippine Islands is nearly completed. Alaska, however, has only about one-third of its coast covered by tertiary triangulation and there is no precise triangulation in the interior of Alaska.

About 44,000 miles of precise levels have been completed in the United States and there are about 25,000 miles still to be done to bring the levels within fifty miles of every place in the United States. This is considered the minimum amount necessary to give adequate control for local level lines. There were about 42,000 square miles of precise triangulation, about 600 linear miles of precise traverse and about 1,800 linear miles of precise levels completed during the past fiscal year.

There remains yet to be surveyed 166,000 square miles of water area off the Atlantic and Gulf coasts besides 5,000 square miles to be developed by dragging close to the shore and such resurveys from time to time in shallow waters as may be necessitated by changes. On the Pacific coast 70,500 square miles have yet to be done in addition to 1,400 square miles of dragging and repeated resurveys of shallow waters subject to changes. The hydrographic survey of all Alaska is not more than 10 per cent. completed, but a large part of the most frequented waters is surveyed. In the Philippine Archipelago the surveys are 70 per cent. complete. Around the Hawaiian, Porto Rican and Virgin Islands, much hydrographic surveying has been accomplished but there yet remains about three years' work for a surveying vessel in each locality.

THE UNITED STATES GOVERNMENT PRINTING OFFICE.

IN this establishment practically all of the printing and binding for the Government is performed, with the exception of postage stamps, paper money, and bonds The Public Printer is the executive officer of the Government Printing Office; is appointed by the President, and receives a salary of $6,000 a year. Directly, or through his principal officers, he purchases all the materials, paper, and machinery, subject to provisions of certain laws; disburses all moneys; appoints all officers and employees, and exercises general supervision over all affairs of the office. George H. Carter of Iowa is the Public Printer.

The Government Printing Office was really established in 1861, when John Defrees, at that time doing contract printing for Congress, sold his printing plant to the Government. That plant has gradually grown by additions and new buildings, until at the present time it contains approximately 14 acres of floor space and is well equipped with modern machinery for the rapid production of all classes of printing and binding. Congress appropriates money for the operation of this office, and of the amount of that appropriation each department and bureau is allotted a certain portion and may have work done to that amount. Work is performed at cost, and the output runs in value to over $12,000,000 a year. During one year the compensation of employees amounts to $6,500,000, and the value of paper used to $5,400,000; about 80,000 different jobs are handled, ranging from envelopes and blanks to sumptuously bound volumes in large editions; two and a quarter billion ems of type are set; 170,000 forms are sent to press; two and one-fourth billion chargeable impressions are run from presses; over a billion postal cards are printed; 190,000,000 sheets are folded; 80,000,000 signatures are sewed, and 55,000,000 copies are ruled.

PAN-AMERICAN UNION.

THE Pan-American Union is the international organization and office maintained in Washington, D. C., by the twenty-one American republics, as follows: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Hayti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, United States, Uruguay, and Venezuela. It is devoted to the development and advancement of commerce, friendly intercourse, and good understanding among these countries. It is supported by quotas contributed by each country, based upon the population. Its affairs are administered by a Director-General and Assistant Director, elected by and responsible to a Governing Board, which is composed of the Secretary of State of the United States and the diplomatic representatives in Washington of the other American Governments. These two executive officers are assisted by a staff of experts, statisticians, commercial specialists, editors, translators, compilers, librarians, clerks and stenographers. The Union publishes a monthly bulletin in English, Spanish, and Portuguese, which is a record of Pan-American progress. It also publishes numerous special reports and pamphlets on various subjects of practical information. Its *library*, the Columbus Memorial *Library*, contains 50,000 volumes, 25,000 photographs, 175,000 index cards, and a collection of 1,600 maps. The Union is housed in a building erected through the gifts of Andrew Carnegie and the contributions of the American republics.

Director-General—Dr. L. S. Rowe; *Assistant Director*—Francisco J. Yanes; *Counselor*—Franklin Adams; *Chief Statistician*—William C. Wells; *Trade Adviser*—W. A. Reid; *Chief Clerk*—Wm. I. Griffin.

UNITED STATES BUREAU OF FISHERIES—DEPARTMENT OF COMMERCE.

(From data supplied by the Bureau.)

THE work of the Bureau of Fisheries comprises (1) the propagation of food fishes and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish culture and the investigation of the fishing grounds of the Atlantic, Gulf, and Pacific Coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries; (4) the study of the methods and apparatuses of the fisheries, preservation of fishery products and the development of uses for the little used or neglected products. The bureau also has jurisdiction over the fur-seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the bureau is as follows: *Commissioner*—Hugh M. Smith. *Deputy Commissioner*—Henry F. Moore. *Chief Clerk*—I. H. Dunlap. Assistants in charge of division: *Inquiry Respecting Food Fishes*—Robert E. Coker. *Fish Culture*—Glen C. Leach. *Statistics and Methods*—Lewis Radcliffe. *Alaska Service*—Ward T. Bower.

FEDERAL BOARD FOR VOCATIONAL EDUCATION.

THIS Board is composed of the Secretaries of Labor (Chairman), Agriculture, and Commerce, the United States Commissioner of Education, Harry L. Fidler (Vice Chairman) representing labor, Calvin F. McIntosh representing agriculture. Director, Lewis H. Carris; Secretary and Chief Clerk, E. Jos. Aronoff. Headquarters, Washington, D. C. There are no district offices.

RAILWAY WAGE BOARD.

(Constituted April 13, 1920, under the Railway Control Act; headquarters, Chicago.)

FOR the labor group, Albert Phillips, of Ohio, Vice Pres. Brotherhood of Locomotive Firemen and Enginemen, of Group 1; A. O. Wharton, of Missouri, of the Railway Employees' Department of the American Federation of Labor, and Walter D. McMenimen, of Mass., ex-Pres. Brotherhood of Railroad Trainmen. For the management group, Horace Baker, of Ohio, formerly Gen. Manager of the Cincinnati, New Orleans & Texas Pacific Railroad; J. H. Elliott, of Texas, formerly Gen. Manager of the Texas & Pacific Railway Co., and Samuel Higgins, of Pennsylvania, ex-Gen. Manager New Haven Road; for the public group, R. M. Barton, of Tennessee, formerly a member of the Tennessee Court of Appeals; G. Wallace W. Hanger, of the District of Columbia, formerly Chief Clerk of what is now the U. S. Bur. of Labor Statistics, and since 1913 Assistant Commissioner of the U. S. Board of Mediation and Conciliation, and ex-Gov. Ben W. Hooper, of Tenn.

UNITED STATES BOARD OF MEDIATION AND CONCILIATION.

(Created by Act of Congress, approved July 15, 1913.)

Commissioner—William L. Chambers. *Assistant Commissioner*—Whitehead Kluttz. *Secretary*—William J. Hoover. *Members of Board*—Chairman, Martin A. Knapp, William L. Chambers, and Whitehead Kluttz.

Alien Prop. Cus.—Col. Thomas W. Miller; *Gen Coun.*—Isaac M. Meekins; *Ass't Gen. Coun.*—McKenzie Moss; *Man. Dir.*—George E. Williams; *Sec.*—Fred. H. Wilson.

THE UNITED STATES CENSUS.

(From data supplied by the Bureau.)

THE Constitution requires a census of the United States decennially. The first was in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were under the Secretary of State. In 1849 the census work was transferred to the newly organized Department of the Interior, where it remained until the passage, in 1903, of the act creating the Department of Commerce and Labor, by which the Census Bureau was transferred to the new department. Meanwhile Congress, March 6, 1902, had made the Census Office a permanent bureau. Since March 4, 1913, when the Department of Commerce and the Department of Labor were separately organized, the Bureau of the Census has been attached to the former. The work is divided into two branches, the decennial census and special statistical inquiries, the latter mostly made between the decennial censuses. The thirteenth decennial census was taken as of date April 15, 1910. It covered: (1) population, (2) agriculture (including irrigation), (3) manufactures, and (4) mines, quarries, and oil and gas wells. The cost of the census of 1910 was about $14,290,000, in addition to which $1,675,000 was spent in carrying on the annual investigations of the permanent bureau during the census period. Of this amount $7,200,000 represents the cost of collecting the data through over 70,000 paid enumerators, besides supervisors, clerks, and special agents.

The Fourteenth Decennial Census was taken as of January 1, 1920. It covers: (1) population, (2) agriculture (including irrigation and drainage), (3) manufactures, (4) forestry and forest products, and (5) mines, quarries, and oil and gas wells. The cost of this census is estimated at $20,179,000, in addition to which $2,371,000 will be spent in carrying on the annual investigations of the bureau during the three-year census period (July 1, 1919, to June 30, 1922). Of the first named amount, $12,500,000 covers the cost of collecting the data through approximately 87,000 enumerators, in addition to supervisors, clerks, and special agents.

The permanent work of the bureau is provided for by the act of Congress approved March 6, 1902, and amendatory and supplemental acts, and include the gathering and publishing of statistical facts pertaining to the dependent, defective, and delinquent classes; wealth, public indebtedness, and taxation; births and deaths; financial and other activities of cities; finances of States; religious bodies; transportation by water; electrical industries; Federal employees; cotton, and tobacco stocks. These inquiries are made at intervals ranging in length from ten years to two weeks. The census of manufactures in addition to forming part of the decennial census, is taken in each mid-decennial year; and a biennial census of products of manufacturing industries, and a quinquennial census of agriculture will also be taken hereafter. Special inquiries are made from time to time at the direction of the President, the Secretary of Commerce, or Congress.

The Director of the Census is appointed by the President and receives $7,500 per annum during the three-year decennial census period and $6,000 during the seven "intercensal" years. The Director is William M. Steuart, of Michigan; Assistant Director, Joseph A. Hill, of New Hampshire. The permanent organization includes five chief statisticians—for Population, William C. Hunt; for Manufactures, Eugene F. Hartley; for Statistics of States and Cities, Starke M. Grogan; for Agriculture, Cotton and Tobacco, William L. Austin; and for Vital Statistics, William H. Davis. The permanent employes of the bureau of Washington number approximately 700, and in addition about 700 special agents are employed intermittently in the South for the collection of cotton statistics. The total office force of the bureau, including temporary employees, during the three-year decennial census period reached a maximum of about 6,000.

UNITED STATES RECLAMATION SERVICE.

(From data furnished by the Service; as of July 1, 1921.)

ARTHUR P. DAVIS, Director, Interior Department Bldg., 19th and F, N. W., Washington. D. C. Western Office, Tramway Bldg., Denver, Colo. Employees: Washington Office, 85; Western, 3,500 to 6,000; expenditures per year about $8,000,000.

The Reclamation Service was organized by the Secretary of the Interior under Reclamation Act of June 17, 1902. It is engaged in the investigation, construction, and operation of irrigation works in the 17 arid and semi-arid States of the West. Twenty-five primary projects and three Indian projects are under construction or operation, aggregating 3,200,000 acres on completion and the major works aid in serving an additional 1,100,000 acres under private canals that generally get stored water from the Government reservoirs. The funds for this work have come chiefly from the sale of public lands; and the money expended is returned to the fund by easy payments of settlers, usually in twenty annual instalments without interest, in accordance with the Reclamation Extension Act of August 13, 1914.

The Service has built about 13,000 miles of canals, ditches, and drains, including 106,000 canal structures, and has excavated 183,000,000 cubic yards of materials. In connection with this work there have been constructed 100 storage and diversion dams, with an aggregate volume of 13,980,000 cubic yards, including the Arrowock Dam (349 feet high), Idaho, on the Boise River, and the Elephant Butte Dam (306 feet high), New Mexico, on the Rio Grande. The Service has built 95 tunnels, 986 miles of road, 83 miles of railroad, 3,224 miles of telephone line, a dozen power plants, and 672 miles of transmission lines. It is mining coal and has manufactured 1,676,000 barrels of cement and sand cement. The net construction cost to June 30, 1920, was $130,870,000.

Over 150,000 persons are living on the 42,000 farms irrigated by the Service. Of the 3,200,000 acres above referred to, water was furnished in 1920 to 1,675,000 acres, and of this 1,156,000 acres were harvested, producing crops worth over $67,000,000, or an average of about $60 per acre. The additional lands using stored water yielded crops worth $50,000,000 more.

VACANT PUBLIC LANDS IN THE UNITED STATES.

VACANT PUBLIC LANDS IN THE UNITED STATES—*Continued.*

The lands in the original thirteen States, Connecticut, Delaware, Georgia, Maryland, Massachusetts, North Carolina, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, South Carolina, and Virginia, also in Texas, never formed a part of the public domain; their disposition is governed by the State laws and information concerning same should be sought from the State authorities. There are no public lands in the States of Kentucky and Tennessee and none is known to this office remaining undisposed of in the States of Illinois, Indiana, and Ohio.

ALASKA.

The unappropriated lands in Alaska are not included herein. The total area of Alaska is 378,165,760 acres, of which about 25,385,000 (20,713,204 acres thereof for forestry purposes) are reserved. Approximately 1,376,424 acres have been surveyed under the rectangular system.

LAND OFFICE RECEIPTS, ETC.

Cash receipts of the General Land Office during the fiscal year ended June 30, 1921: Disposal of public lands, $3,769,856.98; sales of Indian lands, $903,371.93; power permits, $12,353.19; coal leases, $10,583.09; receipts under Mineral Leasing Act, public lands, $6,607,466.24; receipts under Mineral Leasing Act, naval petroleum reserve lands, $3,118,511.07; depredations on public lands, $53,710.22; miscellaneous, $32,344.64. Total receipts for the year, $14,508,197.36.

Area of public and Indian lands originally entered during the fiscal year 1921, 15,631,630.96 acres. Area of lands patented, 10,117,809.75.

The total number of entries, acres sold and amount received therefor under the Timber and Stone Acts of June 3, 1878, and Aug. 4, 1892, were from June 3, 1878, to June 30, 1921, entries, 105,253; acres, 13,626,-191.30; amount, $34,698,129.26.

FEDERAL RESERVE BOARD.

(As of Nov. 4, 1921.)

Ex-Officio Members—A. W. Mellon, Secretary of Treasury, *Chairman;* D. R. Crissinger, Comptroller of the Currency. *Members*—W. P. G. Harding, Governor; Edmund Platt, Vice Governor; Adolph C. Miller, Charles S. Hamlin, John R. Mitchell.

W. W. Hoxton, *Secretary;* W. L. Eddy, *Assistant Secretary;* W. M. Imlay, *Fiscal Agent;* J. F. Herson, *Chief Division of Examination and Chief Federal Reserve Examiner;* Walter S. Logan, *General Counsel;* H. Parker Willis, *Director Division of Analysis and Research;* M. Jacobson, *Statistician;* E. A. Goldenweiser, *Associate Statistician;* E. L. Smead, *Chief Division of Reports and Statistics.*

SUPERINTENDENTS OF MINTS.

Carson City..(Equipped as Assay Office), Wm. A. Burns, Assayer in charge
New Orleans.....Leonard Magruder
Philadelphia.....Adam M. Joyce
San Francisco.....Thaddeus W. H. Shanahan
Denver.....Thomas Annear

UNITED STATES CIVIL SERVICE COMMISSION.

President—Martin A. Morrison, Indiana, $5,000. *Commissioners*—Geo. R. Wiles, Vermont, $5,000; Mrs. Helen H. Gardener, District of Columbia, $5,000. *Chief Examiner*—Herbert A. Filer, Maryland, $3,500. *Secretary*—John T. Doyle, New York, $2,500.

UNITED STATES GEOGRAPHIC BOARD.

Chairman—C. Hart Merriam, of the United States Department of Agriculture. *Secretary*—Charles S. Sloane, Bureau of the Census, Department of Commerce. Headquarters, Washington, D. C.

Frank Bond, General Land Office, Department of the Interior.
Goodwin D. Ellsworth, Post-Office Department.
J. H. Robinson, Post-Office Department.
J. N. B. Hewitt, Bureau of American Ethnology, Smithsonian Institution.
James McCormick, Geological Survey, Department of the Interior.
Jas. W. McGuire, Coast and Geodetic Survey, Department of Commerce.
Major Lawrence Martin, Div. of Western European Affairs, Department of State.
John S. Mills, Department of the Treasury.
James E. Payne, Government Printing Office.
George R. Putnam, Bureau of Lighthouses, Department of Commerce.
W. C. Barnes, United States Forest Service, Department of Agriculture.
Capt. Louis R. de Steiguer, Hydrographer, Department of the Navy.

By executive order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determines, changes, and fixes place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority.

UNITED STATES STEAMBOAT INSPECTION SERVICE.

(By George Uhler, Supervising Inspector General of that Bureau of United States Department Commerce.)

THE Steamboat Inspection Service by Act of Congress, approved Feb. 14, 1903, was transferred from the Treasury Department to the Department of Commerce. The transfer went into effect July 1, 1903. The Supervising Inspector General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce for the fiscal year ended June 30, 1921: Number of annual certificates of inspection issued to domestic steam, motor vessels and barges, 7,753; number of certificates issued to foreign steamers, 342; total number of annual certificates of inspection issued to domestic and foreign, 8,095. Increase in the number of certificates to domestic vessels over previous year, 17; increase in number of certificates to foreign vessels over previous year, 27; increase in number of certificates of all kinds of vessels over previous year, 44. Gross tonnage of domestic vessels, all kinds inspected, 13,139,030; increase over previous year, 397,223. Gross tonnage of foreign steamers inspected, 3,091,971; increase over previous year, 212,379. Number of officers' licenses issued, 25,997. Decrease in number of licenses issued from previous year, 7,617. Number of new life preservers inspected. 306,661, of which number 6,107 were rejected. Increase in number of new life preservers inspected over previous year, 80,551. Number of marine boiler plates inspected at the mills by assistant inspectors, 4,752.

TREASURERS OF THE UNITED STATES.

CONTINENTAL TREASURER—The germ of the Treasury Department was planted when, on July 29, 1775, the Continental Congress appointed two Treasurers. The appointments were Michael Hillegas and George Clymer. The latter soon resigned to accept his seat as delegate to the Congress. Mr. Hillegas discharged the duties of Treasurer until September 11, 1789. The Treasury Department was organized under the act of September 2, 1789. Strictly speaking, it was reorganized, for the department under various names had been in existence since 1775. The Constitution went into effect March 4, 1789. Washington was inaugurated as the first President of the United States April 30, 1789. It will thus be seen that Mr. Hillegas was Treasurer for nearly five months after the inauguration of Washington, and for nine days after the Treasury Department was organized under the Constitution.

Douglas MacArthur	June 12, 1919	.....

Note.—The selection of the Superintendents of the Military Academy was confined to the Corps of Engineers from the establishment of the Institution, March 16, 1802, till the passage of the law of July 13, 1866, which opened it to the entire Army. By the Act of June 12, 1858, the local rank of Colonel was conferred upon the Superintendent.

Major Williams resigned June 20,1803, on a point of command, and pending its settlement until April 9, 1805, when he again returned to service as Chief Engineer, no permanent Superintendent of the Military Academy was appointed, the command devolving upon the senior officer of the Corps of Engineers present for duty.

Bvt. Major P. G. T. Beauregard, Corps of Engineers, by order of John B. Floyd, Secretary of War, relieved Col. Delafield, Jan. 23, 1861, from the superintendency of the Military Academy, but was himself displaced five days later, Jan. 28, 1861, by direction of the succeeding Secretary of War, Joseph Holt, the command again devolving upon Col. Delafield.

SUPERINTENDENTS U. S. NAVAL ACADEMY AT ANNAPOLIS.

ORIGIN OF THE FLAG OF THE UNITED STATES.

(From an article by William Elliot Griffis, D. D., in the Independent.)

EUROPEANS knowing only the theory of the heraldic origin of the American flag have made merry over the absurdity (from their point of view) of the Stars and Stripes. If, however, the basis of our national standard is derived from the Dutch Republic, then much is clear. Paintings made after the Revolutionary War are untrustworthy as witnesses, especially those having six-pointed stars, for the reason that no proof yet exists to show that any regimental flag in the Continental Army had stars in its field, unless possibly toward the end of the war. Scores of British prints representing flags captured from or seen on Continental ships or regimental staves have only stripes.

Our fathers, of the thirteen colonies united as one, made "an appeal to Heaven" by uniting on their first flag, raised at Cambridge, Mass., January 1, 1776, the "Unions" of the two countries, Netherlands and Great Britain, that had held sovereignty of the land they lived on. Of European national flags daily seen in our harbors, two are prominent above all. One, the Dutch, was made in 1579, the other, the British, in 1707. From 1609 to 1664, a tri-colored republican flag of a federal union of states had floated over New Netherland, or the soil of the four middle colonies, later called New York, New Jersey, Pennsylvania and Delaware, as the flag of the homeland. The seven alternate red and white stripes recalled to our fathers, in 1776, the successful revolt against "taxation without representation," or, as the Dutch Parliament of 1477 put it, "no taxation without consent;" the union of seven states in a republic; a July declaration of independence, published in 1579, with the abjuring, in 1581, of an oppressive monarch.

In the Pennsylvania "State House" (the very name and use of the words are Dutch), the Declaration of Independence was signed under the British flag and the arms of King George, and not until July 9 were the British union jack and the royal arms taken down from the building now called Independence Hall. Not until September 9, 1776, did Congress order that their "commissions and instruments be made to read "United States" where heretofore the words "United Colonies" had been used. The stripes have never left the flag, because they represent a vital fundamental idea. They have been from first to last the one permanent element in our national standard. When unfurled, January 1, 1776, the first Union flag raised over the first American army mirrored true history. Flags many, of astonishing variety of color, inscription and emblem came into view and use. There were pine trees, rattlesnakes, beavers, threefold knotted cords, with their thirteen ends free, a chain or circle of thirteen rings linked together, and other objects notably American, with some borrowed from heraldry, or from British or Dutch history. In the latter case, the sheaf of arrows, the hat of liberty, and the Netherlands lion were ancestral. Meanwhile, officers of the seventeen Continental men-of-war and of scores of privateers kept clamoring for something significant to display in foreign ports, especially while buying munitions of war. These calls for a "distinctive standard" increased in volume even to indignant remonstrance. Still there was nothing, until June 14, 1777, except local or colonial symbols and "the Congress flag" of the thirteen stripes.

No evidence of any use of the British "Union" after October 4, 1776, is known. Abundance of exact documentary proof shows that the thirteen stripes were ever present, but there is no proof that the stars were. In the book of photographs of extant flags used, or alleged to be used in the American Revolution (made by Gherardi Davis, New York, 1908), the field of stars is rarely seen and in none with absolute surety, before 1780, but the stripes are always in evidence. The collection of British prints of our flag, now in Fraunces Tavern, gives the same testimony—stripes always, stars never until 1780. In the journal of William Russell, American prisoner in the Forton prison, near Plymouth, England, we read the entry made on July 4, 1780: "To-day being the anniversary of American Independence the American prisoners wore the thirteen stars and stripes drawn on pieces of paper on their hats, with the motto, Independence, Liberty or Death." The record of the Continental Congress, June 14, 1777, reads as follows: "Resolved, that the flag of the United States be thirteen stripes, alternate red and white, that the Union be thirteen stars, white in a blue field, representing a new constellation." The entry in the journal of Captain Abraham Swarthout of Colonel Gansevoort's New York regiment, written August 3, 1777, in Fort Schuyler, shows beyond cavil, where the first flag of stars and stripes, of which we have record, was made and hoisted; but this was in a fort not in the field, or at the head of a regiment. The vote of Congress on the flag was not officially published until September 3, 1777. There is no record that the Stars and Stripes were carried at Brandywine, Pa., at Gooch's Bridge, Del., or that even the "Quiberon" French squadron of November 1, 1777, to the U. S. S. "Ranger," commanded by Paul Jones, was given to any but the striped flag without stars. On land, the most prominent of all the many symbols on the regimental flags on the Continental Army throughout the war was the rattlesnake, which is oftenest referred to by both native and foreign witnesses. In fact the resolution of Congress of June 14, 1777, was not heeded, even by Washington himself, or even by the Board of War. One Continental officer wrote with surprise on August 3, 1777: "It appears by the papers that Congress resolved on the 14th of June last," &c. As late as May 10, 1779, Washington, in correspondence with the Board of War, states that applications came to him repeatedly for drums and colors, but there were many varying flags for particular regiments, and "it is not yet settled what is the standard of the United States." The War Board replied, through Richard Peters, that if "General Washington would favor the Board with his opinion on the subject as to what was the one common flag of the United States," a recommendation to Congress would be made and they would get the materials and "order a number for the army."

Replying on September 3, 1779, Washington says nothing about stars, but recommended that the number belonging to the regiments from each State should be "inserted within the curve of the serpent."

In 1847 the Dutch Government politely made the inquiry, "What is the American flag?" In 1857, in the harbor of New York, nine different styles of arrangement of stars were noted in one day. On March 16, 1896, the Secretary of War, Daniel Lamont, ordered that the constellation should be in six rows.

ANOTHER VERSION OF THE FLAG'S ORIGIN.

(By Frank H. Vizetelly, in the New York Tribune.)

As to the red and white stripes of the national flag, Robert Allen Campbell is authority for the statement that on December 13, 1775, a dinner party was given in Philadelphia which was attended by George Washington and Benjamin Franklin, together with other political leaders. In the course of this dinner the conversation turned upon the question of the flag, and Benjamin Franklin is said to have made the following speech:

"While the field of your flag must be new in the details of its design, it need not be entirely new in its elements. It is fortunate for us that there is already in use a flag with which the English Government is familiar, and which it has not only recognized but protected for more than half a century, the design of which can be readily modified, or rather extended, so as to most admirably suit our purpose. I refer to the flag of the East India Company, which is one with a field of alternate longitudinal red and white stripes, and having the cross of St. George for a union.

As the East India Company was founded in 1599, this flag had been in existence 176 years. When the union between England and Scotland took place, in 1707, the canton of the company's flag was changed from the cross of St. George to the crosses of St. George and St. Andrew. It was this flag which, on January 1, 1776, was raised at Cambridge, Mass., just twenty days after the dinner referred to above.

The sixth annual report of the New York State Department of Education, 1910, page 10, contains a beautiful colored reproduction of this flag, which is the flag of the East India Company in every threed of its bunting, and the report says: "This was the first distinctive American flag indicating a union of the Colonies. It consisted of thirteen alternate red and white stripes with the combined crosses of St. George and St. Andrew in the canton. It was a peculiar flag, the thirteen stripes standing for the union of the Colo-

nies and their revolt against the mother country, and the combined crosses representing the allegiance to her which was yet partially acknowledged. It was variously designated as the Union flag, the Grand Union flag and the Great Union flag, and is now frequently referred to as the Cambridge flag."

On August 14, 1777, Congress resolved that "the flag of the United States be thirteen stripes, alternately red and white, and that the union be thirteen stars, white in a blue field, representing a new constellation." This meant that at first they were arranged in a ring like a round robin, so that one should have no precedence over the other, but soon the flag had to be remodelled, and in 1794, as there were fifteen States, Congress, on January 15 of that year, enacted that "from and after May 1, 1795, the flag of the United States be fifteen stripes and the union be fifteen stars." It was one of these flags that the Chesapeake flew in her fight with the Shannon on June 1, 1813.

By 1818, when five other States had joined the Union, Congress enacted, on April 4, that the stripes should be reduced permanently to the old East India Company's number—thirteen—and the union should then have twenty stars and that a star should be added for each new State admitted. The new flag was first unfurled on the House of Representatives on April 13, 1818, and in the canton of this banner the twenty stars had been arranged to form a large five-pointed star, but this was quickly abandoned, and the stars were then placed in rows.

HISTORY OF THE FLAG AND ITS CHANGES IN DESIGN.

According to the Smithsonian Institution there were many forms of early flags, especially Colonial types used by the individual colonies and militia regiments, before the flag of the United States was established by the Continental Congress on June 14, 1777, now celebrated as Flag Day. The National Museum has an early naval 12-star type flag said to have been flown by John Paul Jones during the War of the Revolution. From the time of the Revolution the stars and stripes in the flag have varied. There were 13 stars during the Revolution, 15 in the War of 1812, 29 in the Mexican War, 33 to 35 in the Civil War, 45 in the Spanish War, and 48 to-day. The stripes were changed first from 13 to 15, and then back again to 13.

The American flag of the highest historic and sentimental value to the whole country is in the National Museum collections. It is the original "Star-Spangled Banner" which flew over Fort McHenry in Baltimore Harbor during the bombardment on September 13-14, 1814, and was the inspiration of Francis Scott Key's immortal poem, now sung as our national anthem. It is of the 15 stars and stripe type adopted after the admission of Vermont and Kentucky by an act approved by President Washington, January 13, 1794. The "Star-Spangled Banner" measures about 30 feet square, though it was probably somewhat longer, and is much battered and torn, with one star missing, possibly shot away. From 1795 this form continued as the standard flag until President Monroe's Administration, when Congress enacted that it should thereafter be of thirteen stripes and twenty stars, with the addition of a star for each new State, commencing July 4, 1818.

It seems that for many years the army did not carry the Stars and Stripes in battle, though it had been in general use as a garrison flag. The land forces during this period and before carried what was known as national colors or standards of blue, with the coat of arms of the United States, comprising an eagle surmounted by a number of stars, emblazoned thereon, with the designation of the body of troops. In 1834, War Department regulations gave the artillery the right to carry the Stars and Stripes. The infantry and cavalry still used the national standards, which remained the colors of the infantry until 1841 and of the cavalry until 1887, when that branch of the army was ordered to carry the Stars and Stripes. From its adoption in 1777, however, naval vessels universally displayed the National Flag. The history of the flag thus indicates that the Stars and Stripes was not officially carried by American troops in battle until the period of the Mexican War, 1846-47. In that war a flag of 13 stars and stripes was carried by the battalion of volunteers from Maryland and the District of Columbia, and the flag of Company I, Fourth Regiment of Indiana Infantry, of 13 stripes, with an eagle in the field. Ten flags of the National Museum collection pertain to the Civil War. Other flags include some of the Spanish-American War, a flag used by Admiral Charles Wilkes, U. S. Navy; a miniature flag carried by Captain C. F. Hall in the Arctic, 1864-1869; the American colors carried by Rear-Admiral Peary in his Arctic explorations in 1909; the flag carried by the Smithsonian African Expedition under the direction of Col. Theodore Roosevelt, in 1909-10; and numerous examples of the National Ensign.

DESCRIPTION OF THE FLAG.

The official flag of the United States bears forty-eight white stars in a blue field, arranged in six rows of eight stars each. Two stars were added in 1912 by the admission of Arizona and New Mexico to the Union. The garrison flag of the army is made of bunting, thirty-six feet fly and twenty feet hoist, thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "Union Jack" is blue, with a star for every State in white. The Coast Guard flag, authorized by act of Congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since. June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

When the National and State or other flags fly together the National flag should be on the right. When used on a bier or casket at a funeral the stars should be placed at the head. In no case should the flag be allowed to touch the ground. The statutes of the United States forbid the use of the flag in registered trade-marks, and the use of the flag for advertising purposes is illegal. The President's flag consists of a blue field with four white stars, one in each corner, similar to the Admiral's flag, and in the centre a white spread-eagle with red, white, and blue shield on the body, the design being very similar to the seal of the United States. This spread-eagle design is based upon the seal which has been used in the White House for many years as the personal seal of the President. The flag of Admiral of U. S. Navy is blue, with four white stars—two horizontal and two perpendicular in centre. The flag of Vice-Admiral of U. S. Navy is blue, with three white stars—triangular. The flag of the Secretary of the Navy is blue, with two white stars (perpendicular) at either end and white anchor in centre. The use of the 13-star boat flag has been discontinued, and in its place is a 48-star flag. The consular flag is blue, with large white C in centre, surrounded by thirteen white stars. The flag of the Panama Canal consists of a blue square bearing the letters "P. C." in white.

The flag of New York State is blue charged with the arms of the State. The flag of New York City consists of three perpendicular lines, blue, white, and orange (the blue nearest the flagstaff); on the white bar is the seal of the city, without the legend.

FLAG DESECRATION.

New York forbids the use of the flag for advertising purposes and punishes public mutilation, trampling or casting contempt upon flag as a misdemeanor. The New York statute also provides for a forfeiture of a penalty of $50 for each offense, to be recovered in a civil action, which may be brought by or in name of any citizen, and two or more penalties may be sued for and recovered in one action. Money so recovered, less reasonable cost and expense, is paid into State Treasury. Provisions of New York statute are not to be construed as applying to a certificate, diploma, warrant or commission of appointment to office, ornamental picture, article of jewelry, stationery for use in private correspondence, or newspaper or periodical; nor to advertising put out by U. S. in its governmental capacity, i. e., to obtain recruits or to advertise its governmental activities. These activities are in no way related to commerce.

(UNANIMOUSLY ADOPTED IN CONGRESS, JULY 4, 1776, AT PHILADELPHIA.)

WHEN, in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right ihestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his mea ures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our Legislature.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, IN GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain is and ought to be totally dissolved; and that as FREE AND INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

SIGNERS OF THE DECLARATION OF INDEPENDENCE. (REVISED BY SIMON NEWTON, DETROIT.)

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION.—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

The unity of government which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can in any event be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice of a common country, that country has a right to concentrate your affections. The name of American, which belongs to you, in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts—of common dangers, sufferings, and successes.

It is important, likewise, that the habits of thinking in a free country should inspire caution in those intrusted with its administration to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our country and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change by usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, any partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice towards all nations; cultivate peace and harmony with all. Religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of time and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence, I conjure you to believe me, fellow-citizens, the jealousy of a free people ought to constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defence against it. Excessive partiality for one foreign nation, and excessive dislike of another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

Why forego the advantages of so peculiar a situation? Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor, or caprice?

'Tis our true policy to steer clear of permanent alliances with any portion of the foreign world; so far, I mean, as we are now at liberty to do it; for let me not be understood as capable of patronizing infidelity to existing engagements. I hold the maxim no less applicable to public than to private affairs, that honesty is always the best policy. I repeat it, therefore, let those engagements be observed in their genuine sense. But, in my opinion, it is unnecessary and would be unwise to extend them.

Taking care always to keep ourselves, by suitable establishments, on a respectably defensive posture, we may safely trust to temporary alliances for extraordinary emergencies.

In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which hitherto has marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism, this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796. GEORGE WASHINGTON.

Constitution of the United States.

THE Constitution originally consisted of a Preamble and seven Articles, and in that form was "Done in Convention by the Unanimous Consent of the States present the Seventeenth Day of September in the Year of our Lord one thousand seven hundred and Eighty seven and of the Independence of the United States of America the Twelfth." The Constitution was declared in effect on the first Wednesday in March, 1789. The signers of the original Constitution, by virtue of their membership in Congress, were:

GO. WASHINGTON, *Presidt. and deputy from Virginia.* NEW HAMPSHIRE—John Langdon, Nicholas Gilman. MASSACHUSETTS—Nathaniel Gorham, Rufus King. CONNECTICUT—Wm. Saml. Johnson, Roger Sherman. NEW YORK—Alexander Hamilton. NEW JERSEY—Wil. Livingston, David Brearley, Wm. Patterson, Jona. Dayton. PENNSYLVANIA—B. Franklin, Robt. Morris, Thos. Fitzsimons, James Wilson, Thomas Mifflin, Geo. Clymer, Jared Ingersoll, Gouv. Morris. DELAWARE—Geo. Read, John Dickinson, Jaco. Broom, Gunning Bedford jun, Richard Bassett. MARYLAND—James McHenry, Danl. Carroll, Dan. of St. Thos. Jenifer. VIRGINIA—John Blair, James Madison, Jr. NORTH CAROLINA—Wm. Blount, Hu. Williamson, Richd. Dobbs Spaight. SOUTH CAROLINA—J. Rutledge, Charles Pinckney, Charles Cotesworth Pinckney, Pierce Butler. GEORGIA—William Few, Abr. Baldwin. Attest: WILLIAM JACKSON, *Secretary.*

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.
Pennsylvania, December 12, 1787, vote 46 to 23.
New Jersey, December 18, 1787, unanimously.
Georgia, January 2, 1788, unanimously.
Connecticut, January 9, 1788, vote 128 to 40.
Massachusetts, February 6, 1788, vote 187 to 168.
Maryland, April 28, 1788, vote 63 to 12.
South Carolina, May 23, 1788, vote 149 to 73.
New Hampshire, June 21, 1788, vote 57 to 46.
Virginia, June 25, 1788, vote 89 to 79.
New York, July 26, 1788, vote 30 to 28.
North Carolina, November 21, 1789, vote 193 to 75.
Rhode Island, May 29, 1790, vote 34 to 32.

THE CONSTITUTION.

PREAMBLE.

WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

ARTICLE I.

Section 1—(Legislative powers; in whom vested.)

All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

Section 2—(House of Representatives, how and by whom chosen. Qualifications of a Representative. Representatives and direct taxes, how apportioned. Enumeration. Vacancies to be filled. Power of choosing officers, and of impeachment.)

1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 8; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia, 3.*

4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

Section 3—(Senators, how and by whom chosen. How classified. State Executive, when to make temporary appointments, in case, etc. Qualifications of a Senator. President of the Senate, his right to vote. President pro tem., and other officers of the Senate, how chosen. Power to try impeachments. When President is tried, Chief Justice to preside. Sentence.)

1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose,

* See Article XIV., Amendments.

they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

7. Judgment of cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

Section 4—(Times, etc., of holding elections, how prescribed. One Session in each year.)

1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Section 5—(Membership. Quorum. Adjournments. Rules. Power to punish or expel. Journal. Time of adjournments, how limited, etc.)

1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

Section 6—(Compensation. Privileges. Disqualification in certain cases.)

1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

Section 7—(House to originate all revenue bills. Veto. Bill may be passed by two-thirds of each house, notwithstanding, etc. Bill, not returned in ten days, to become a law. Provisions as to orders, concurrent resolutions, etc.)

1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it becomes a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

3. Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.

Section 8—(Powers of Congress.)

1. The Congress shall have power:

To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.

3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.

4. To establish an uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.

5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.

6. To provide for the punishment of counterfeiting the securities and current coin of the United States.

7. To establish post-offices and post-roads.

8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.

9. To constitute tribunals inferior to the Supreme Court.

10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.

11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.

12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.

13. To provide and maintain a navy.

14. To make rules for the government and regulation of the land and naval forces.

15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.

16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.

17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles

square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.

18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.

Section 9—(Provision as to migration or importation of certain persons. Habeas Corpus. Bills of attainder, etc. Taxes, how apportioned. No export duty. No commercial preference. Money, how drawn from treasury, etc. No titular nobility. Officers not to receive presents, etc.)

1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

3. No bill of attainder or ex post facto law shall be passed.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

5. No tax or duty shall be laid on articles exported from any State.

6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.

7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.

Section 10—(States prohibited from the exercise of certain powers.)

1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

Section 1—(President; his term of office. Electors of President; number and how appointed. Electors to vote on same day. Qualification of President. On whom his duties devolve in case of his removal, death, etc. President's compensation. His oath of office.)

1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:

2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.

3. The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.*

4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

8. Before he enter on the execution of his office he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

* This clause is superseded by Article XII., Amendments.

Section 2—(President to be Commander-in-Chief. He may require opinions of Cabinet Officers, etc., may pardon. Treaty-making power. Nomination of certain officers. When President may fill vacancies.)

1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

Section 3—(President shall communicate to Congress. He may convene and adjourn Congress, in case of disagreement, etc. Shall receive ambassadors, execute laws, and commission officers.)

He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

Section 4—(All civil offices forfeited for certain crimes.)

The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

Section 1—(Judicial powers. Tenure. Compensation.)

The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

Section 2—(Judicial power; to what cases it extends. Original jurisdiction of Supreme Court. Appellate. Trial by jury, etc. Trial, where.)

1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign states, citizens, or subjects.

2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

Section 3—(Treason defined. Proof of. Punishment of.)

1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attainted.

ARTICLE IV.

Section 1—(Each State to give credit to the public acts, etc., of every other State.)

Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

Section 2—(Privileges of citizens of each State. Fugitives from justice to be delivered up. Persons held to service having escaped, to be delivered up.)

1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

3. No person held to service or labor in one State, under the laws thereof, escaping into another shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

Section 3—(Admission of new States. Power of Congress over territory and other property.)

1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

Section 4—(Republican form of government guaranteed. Each State to be protected.)

The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

ARTICLE V.

(Constitution; how amended. Proviso.)

The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

(Certain debts, etc., declared valid. Supremacy of Constitution, treaties, and laws of the United States. Oath to support Constitution, by whom taken. No religious test.)

1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

(What ratification shall establish Constitution.)

The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

AMENDMENTS TO THE CONSTITUTION OF THE UNITED STATES.

THE following amendments to the Constitution, Articles I. to X. inclusive, were proposed at the First Session of the First Congress, begun and held at the City of New York, on Wednesday, March 4, 1789, and were adopted by the necessary number of States. The original proposal of the ten amendments was preceded by this preamble and resolution:

"The conventions of a number of the States having, at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added, and as extending the ground of public confidence in the Government will best insure the beneficent ends of its institution:

"*Resolved*, By the Senate and House of Representatives of the United States of America, in congress assembled, two-thirds of both Houses concurring, that the following articles be proposed to the Legislatures of the several States, as amendments to the Constitution of the United States; all or any of which articles, when ratified by three-fourths of the said Legislatures, to be valid to all intents and purposes, as part of the said Constitution, namely:"

THE TEN ORIGINAL AMENDMENTS.

(They were declared in force December 15, 1791.)

ARTICLE I.

Religious Establishment Prohibited. Freedom of Speech, of the Press, and Right to Petition.

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

ARTICLE II.

Right to Keep and Bear Arms.

A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

ARTICLE III.

No Soldier to Be Quartered in Any House, Unless, Etc.

No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

ARTICLE IV.

Right of Search and Seizure Regulated.

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

ARTICLE V.

Provisions Concerning Prosecution, Trial and Punishment.—Private Property Not to Be Taken for Public Use, Without Compensation.

No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

ARTICLE VI.

Right to Speedy Trial, Witnesses, Etc.

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial

jury of the State and district wherein the crime shall have been committed, which districts shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

ARTICLE VII.

Right of Trial By Jury.

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

ARTICLE VIII.

Excessive Bail or Fines and Cruel Punishments Prohibited.

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

ARTICLE IX.

Rule of Construction of Constitution.

The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people

ARTICLE X.

Rights of States Under Constitution.

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

The following amendment was proposed to the Legislatures of the several States by the Third Congress on the 5th of March, 1794, and was declared to have been ratified in a message from the President to Congress, dated Jan. 8, 1798.

ARTICLE XI.

Judicial Powers Construed.

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign state.

The following amendment was proposed to the Legislatures of the several States by the Eighth Congress on the 12th of December, 1803, and was declared to have been ratified in a proclamation by the Secretary of State, dated September 25, 1804. It was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire.

ARTICLE XII.

Manner of Choosing President and Vice-President.

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which list they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

The following amendment was proposed to the Legislatures of the several States by the Thirty-eighth Congress on the 1st of February, 1865, and was declared to have been ratified in a proclamation by the Secretary of State, dated December 18, 1865. It was rejected by Delaware and Kentucky; was conditionally ratified by Alabama and Mississippi; and Texas took no action.

ARTICLE XIII.

Slavery Abolished.

1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.
2. Congress shall have power to enforce this article by appropriate legislation.

The following, popularly known as the Reconstruction Amendment, was proposed to the Legislatures of the several States by the Thirty-ninth Congress on the 16th of June, 1866, and was declared to have been ratified in a proclamation by the Secretary of State, dated July 28, 1868. The amendment got the support of 23 Northern States; it was rejected by Delaware, Kentucky, Maryland, and 10 Southern States. California took no action. Subsequently it was ratified by the 10 Southern States.

ARTICLE XIV.

Citizenship Rights Not to Be Abridged.

1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any

law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Apportionment of Representatives in Congress.

2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

Power of Congress to Remove Disabilities of United States Officials for Rebellion.

3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or holding any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.

What Public Debts Are Valid.

4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

The following amendment was proposed to the Legislatures of the several States by the Fortieth Congress on the 27th of February, 1869, and was declared to have been ratified in a proclamation by the Secretary of State, dated March 30, 1870. It was not acted on by Tennessee; it was rejected by California, Delaware, Kentucky, Maryland, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. New Jersey rejected it in 1870, but ratified it in 1871.

ARTICLE XV.

Equal Rights for White and Colored Citizens.

1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

The following amendment was proposed to the Legislatures of the several States by the Sixty-first Congress on the 12th day of July, 1909, and was declared to have been ratified in a proclamation by the Secretary of State, dated February 25, 1913. The income tax amendment was ratified by all the States except Connecticut, Florida, Pennsylvania, Rhode Island, Utah, and Virginia.

ARTICLE XVI.

Income Taxes Authorized.

The Congress shall have power to lay and collect taxes on incomes, from whatever sources derived, without apportionment among the several States, and without regard to any census or enumeration.

The following amendment was proposed to the Legislatures of the several States by the Sixty-second Congress on the 16th day of May, 1912, and was declared to have been ratified in a proclamation by the Secretary of State, dated May 31, 1913. It got the vote of all the States except Alabama, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Rhode Island, South Carolina, Utah, and Virginia.

ARTICLE XVII.

United States Senators to Be Elected by Direct Popular Vote.

1. The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures.

Vacancies in Senatorships, When Governor May Fill by Appointment.

2. When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the Legislature of any State may empower the Executive thereof to make temporary appointment until the people fill the vacancies by election as the Legislature may direct.

3. This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

The following amendment was proposed to the Legislatures of the several States by the Sixty-fifth Congress, Dec. 18, 1917; and on Jan. 29, 1919, the United States Secretary of State proclaimed its adoption by 36 States, and declared it in effect on Jan. 16, 1920.

Early in 1920, the validity of the Eighteenth Amendment was upheld by the Supreme Court of the United States, in suits to void, brought by the States of Rhode Island and New Jersey, and by various brewers and distillers.

ARTICLE XVIII.

Liquor Prohibition Amendment.

1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

2. The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the Legislatures of the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

The following amendment was proposed to the legislatures of the several States by the Sixty-fifth Congress, having been adopted by the House of Representatives, May 21, 1919, and by the Senate, June 4, 1919. On Aug. 26, 1920, the United States Secretary of State proclaimed it in effect, having been adopted (June 10, 1919-Aug. 18, 1920), by three-quarters of the States. The Tennessee House, Aug. 31, rescinded its ratification, 47 to 24.

ARTICLE XIX.

Giving Nation-Wide Suffrage to Women.

1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.
2. Congress shall have power, by appropriate legislation, to enforce the provisions of this Article.

THE FEDERAL SUFFRAGE AMENDMENT.

THE United States House of Representatives, in January, 1918, adopted a resolution submitting a Federal Suffrage Amendment to the States, but the United States Senate refused its consent. The House, May 21, 1919, readopted the resolution; and the Senate adopted it June 4, 1919. Then the resolution went to the Legislatures of the States, thirty-six of which—the necessary three-quarters of all—adopted Federal Suffrage for women in the following order:

DATES OF RATIFICATION OF SUFFRAGE AMENDMENT.

STATES.	1919.	STATES.	1919.	STATES.	1919.	STATES.	1920.
Illinois	June 10	Missouri	July 3	North Dakota	Dec. 1	Nevada	Feb. 7
Wisconsin	June 10	Arkansas	July 28	South Dakota	Dec. 4	New Jersey	Feb. 9
Michigan	June 10	Montana	July 30	Colorado	Dec. 12	Idaho	Feb. 11
Kansas	June 16	Nebraska	July 31		1920.	Arizona	Feb. 12
Ohio	June 16	Minnesota	Sept. 8	Rhode Island	Jan. 6	New Mexico	Feb. 19
New York	June 16	New Hampshire	Sept. 10	Kentucky	Jan. 6	Oklahoma	Feb. 28
Pennsylvania	June 24	Utah	Sept. 30	Oregon	Jan. 12	West Virginia	Mar. 10
Massachusetts	June 25	California	Nov. 1	Indiana	Jan. 16	Washington	Mar. 22
Texas	June 28	Maine	Nov. 5	Wyoming	Jan. 28	Tennessee	Aug. 18
Iowa	July 2						

The Illinois Legislature ratified on June 10, 1919, but an error in the State's certification caused a re-ratification on June 17.

Ratification was *defeated* in Ala. (Sept. 2, 1919); Ga. (July 24, 1919); Miss. (Jan. 21, 1920); S. C. (Jan. 24, 1920); Va. (Feb. 12, 1920); Md. (Feb. 17, 1920); Del. (June 2, 1920); La. (June 15, 1920); N. C. (Aug. 17, 1920).

SUFFRAGE IN FOREIGN COUNTRIES.

The following foreign States and Dominions have granted woman suffrage:
Isle of Man, 1881; New Zealand, 1893; Australia, 1902; Finland, 1906; Poland, 1918; Scotland, 1918; Austria, 1918; Czecho-Slovakia, 1918; Hungary, 1918; Holland, 1919; British East Africa, 1919; Luxemburg, 1919; Uruguay (municipal), 1919; Norway, 1907; Denmark, 1915; Mexico, 1917; Russia, 1917; Ireland, 1918; Wales, 1918; Canada, 1918; Germany, 1918; England, 1918; Belgium, 1919; Rhodesia, 1919; Iceland, 1919; Sweden, 1919; Costa Rica, 1920.

FREEDOM OF THE SEAS.

THIS doctrine was first propounded by Grotius in his Mare Liberum, "The air, running water, the sea—are common to all." Selden answered with his Mare Clausum, which defended the pretensions of England over the waters surrounding the British Isles. The issue between Grotius and Selden may be regarded as settled by the present doctrine regarding the marine league, i. e., that the jurisdiction of a state extends three miles beyond the coast line, and no further. In the eighteenth century continental antagonism to British sea power produced the doctrine that "free ships make free goods." This was backed by the armed neutralities of 1780 and 1800, and was finally incorporated, in great part, into international law by the Declaration of Paris, 1856, which also abolished privateering. Meantime a third meaning had come to be fastened to "freedom of the seas," the idea that private property should be immune from capture on the high seas in war time unless it was contraband or intended for a blockaded port. Of this notion the United States has always been the champion.

CONGRESS OF BERLIN.

THE famous Congress of Berlin met under the presidency of Bismarck at Berlin in 1878 to settle questions which had arisen out of the Russian defeat of the Turks in the war of 1877-78. It had been the desire of Russia to erect a strong Slav State, Bulgaria, out of land taken from Turkey, leaving the latter little in Europe except Constantinople. England opposed, from fear of Russian control at Constantinople, and Austria, desiring Balkan land and fearing a strong Russia, added her protest. Bismarck mediated, Russian plans for Bulgaria were checkmated, and Austria secured control of Bosnia and Herzegovina. Much of the land intended for Bulgaria was given back to Turkey. This contributed to break up the old Russo-German friendship and later led to the Franco-Russian alliance.

FEDERAL CONSTITUTIONAL AMENDMENTS IN CONGRESS AND IN NEW YORK STATE.

Notes—Twelve amendments were proposed in 1789, of which New York ratified 11, but only 10 were adopted by three-fourths of the States. An attempt was made to have the amendments ratified by resolution, but the motion failed, 49 to 2.

On February 4, 1818, the President reported to Congress that 12 States had ratified the amendment forbidding titles, while 3 had rejected it and 2 were undecided.

A resolution to ratify the amendment of 1865 passed the Senate on February 2, and the Assembly on February 3, 1865, in the Senate, 18 to 8, and in the Assembly, 72 to 40.

The fourteenth amendment was the first ratified in New York by resolution. Others were ratified by statute.

NATIONAL STATUARY HALL.

The National Hall of Statuary, formerly a corridor of the United States House of Representatives in the Capitol at Washington, was established by Congress July 2, 1864. Each State was invited to contribute marble or bronze statues of her two most distinguished deceased citizens. The following is a list of statues presented by the States and the dates of the works:

State.	Name.	Date.	State.	Name.	Date.
Alabama	J. L. M. Curry	1906	New Hampshire	John Stark	1894
Arkansas	Uriah M. Rose	1917	"	Daniel Webster	1894
Connecticut	Roger Sherman	1872	New Jersey	Richard Stockton	1886
"	Jonathan Trumbull	1872	"	Philip Kearny	1875
Florida	John W. Gorrie	1914	New York	Robert R. Livingston	1874
"	Gen. E. Kirby Smith	1918	"	George Clinton	1873
Idaho	George L. Shoup	1909	North Carolina	Zebulon Baird Vance	1916

Works of art in the Capitol have been acquired by gift, from private individuals and from States.

LINCOLN'S GETTYSBURG ADDRESS.

(Delivered at the Dedication of the National Cemetery, November 19, 1863.)

FOURSCORE and seven years ago our fathers brought forth on this continent, a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this ground. The brave men, living and dead who struggled here have consecrated it, far above our poor power to add or detract. The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth. [An accurate version of the Gettysburg Address as revised by Mr. Lincoln and printed in "Autographs of Our Country's Authors," Balti., 1864.]

EVERETT AND LINCOLN AT GETTYSBURG.

(From a speech by the late U. S. Sen. J. J. Ingalls of Kansas.)

"Abraham Lincoln and Edward Everett spoke at the dedication of the National Cemetery at Gettysburg, November 19, 1863. The place, the occasion, the audience, the associations were in the highest degree inspiring. Everett was an orator of deserved renown, with copious and glittering vocabulary, graceful rhetoric, strong, cultivated mind, elegant scholarship, a rich flexible voice, and noble presence. His address occupied two hours in delivery, and was worthy of the speaker and his theme. At its close Lincoln rose slowly on the platform of the pavilion. From an ancient case he drew a pair of steel-framed spectacles, with bows clasping upon the temples in front of the ears, and adjusted them with deliberation. He took from his breast pocket a few sheets of foolscap, which he unfolded and held in both hands. From this manuscript, in low tones, without modulation or emphasis, he read 266 words and sat down before his surprised, perplexed and disappointed auditors were aware that he had really begun. It left no impression, so it was said, except mild consternation and a mortified sense of failure.

"None supposed that one of the great orations of the world had been pronounced in the five minutes which Mr. Lincoln occupied in reading his remarks. But the studied, elaborate, and formal speech of Everett has been forgotten, while the few sonorous and solemn sentences of Lincoln will remain so long as constitutional liberty abides among men. Henceforth, whoever recalls the Battle of Gettysburg . . . will hear above the thunder of the reverberating guns, above the exulting shouts of the victors and the despairing, 'that government of the people, by the people, and for the people shall not perish from the earth.' "

THE CAPITOL AT WASHINGTON.

THE Capitol is situated in latitude 38° 53′ 20″.4 north and longitude 77° 00′ 35″.7 west from Greenwich It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac. The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet. The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds. The dome is crowned by a bronze statue of Freedom, which is nineteen feet six inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches. The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons. The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height. The southeast cornerstone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extensions was laid July 4, 1851, by President Fillmore. The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

THE WHITE HOUSE.

THE site was selected by President Washington and Major Peter Charles L'Enfant when they laid out Washington, 1791; architect, James Hoban of Dublin; plans chosen by competition closed July 15, 1792. Cornerstone laid October 13, 1792. First occupation—President and Mrs. John Adams, November, 1800. Burned by British in 1814. Mr. Hoben superintended the restoration. First White House appropriation from U. S. Treasury, April 24, 1800, $15,000, for furniture. The first appropriation for repairs, $15,000, March 3, 1807. Congress appropriated $8,137 for enlarging "the offices west of the President's House," 1819. South Portico finished 1823; cost $19,000. East Room finished and furnished by appropriation made in 1826. North Portico added; cost $24,769.25, 1829. Original plans always followed. First heated by gas, 1848; system of heating and ventilation installed, 1853.

A thorough overhauling and restoration was made under direction of New York architects, McKim, Mead & White, during incumbency of President Roosevelt, June 20, September 29, 1902. Congress appropriated in all $475,445; the architects returning an unexpended balance of $7,906.10

The principal apartments in the White House are officially designated: the Red Room, Blue Room, Green Room, State Dining Room, Family Dining Room, and Usher's Lobby. There are a Family Floor, a main stairway, and a private staircase and elevators.

The dimensions of the White House, in 1840, were: length or frontage, 170 feet; depth or width, 86 feet. The mansion was called "White House" because it was built of white free stone. Architect Hoban had modeled the structure after the palace of the Duke of Leinster. The original cost was defrayed out of the sale of lands donated by Maryland and Virginia.

THE PRESIDENTS OF THE UNITED STATES—THEIR BIOGRAPHIES IN BRIEF

(Compiled for THE WORLD ALMANAC from published memoirs, newspaper records, and personal correspondence with the families of the ex-Presidents. The references will be found on second following page.)

NOTES TO THE TABLES OF THE PRESIDENTS.

* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. ¶ She was the divorced wife of Captain Robards. (*a*) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (*b*) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats, and elected Jackson President.

(*c*) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (*d*) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the city of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredericksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire. Ex-President Roosevelt was shot and wounded by John Schrank, an insane man, at Milwaukee, Wis., October 14, 1912.

Cleveland after taking the oath as President, kissed the open Bible, his lips touching Psalm cxii., verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce and Garfield were inaugurated on Friday. Tyler, Polk and Pierce died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native state in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk war of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861; Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary war; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the war of 1812-15; Lincoln in the Black Hawk war; Taylor, Pierce, and Grant in the Mexican war; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the Civil War, and Roosevelt was in the war with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution.

Grant was christened Hiram Ulysses and Cleveland, Stephen Grover. W. H. Harrison was the oldest man elected to the Presidency, and Roosevelt the youngest, Grant being the next youngest by six months. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Monroe's daughter (Mrs. Gouverneur), Tyler's daughter (Mrs. Waller), Grant's daughter (Mrs. Sartoris), Roosevelt's daughter (Mrs. Longworth) and Wilson's daughters, Jessie (Mrs. Sayre) and Eleanor (Mrs. McAdoo) were the only children of Presidents married therein. Wives of Tyler, Benjamin Harrison, and Wilson died in the White House. John Tyler was father of the largest family, eight sons and six daughters. Eight Presidents: Washington, Jefferson, Madison, Monroe, W. H. Harrison, Tyler, Taylor, and Wilson were Virginians by birth. Six Presidents: Grant, Hayes, Garfield, B. Harrison, McKinley, and Taft were Ohioans by birth.

INAUGURAL CEREMONIES OCCURRED AS FOLLOWS.

PRESIDENT.	Date.	Year.	Day.	PRESIDENT.	Date.	Year.	Day.

Arizona became a State February 14, 1912. New Mexico was admitted January 6, 1912.
The electoral vote for Vice President in 1896 was: Republican, 271; Democratic, 149; Populist, 27.

SALARY OF THE PRESIDENT.

THE salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from $15,000 to $70,000. The salary was finally placed at $25,000, and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to $50,000. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, $25,000." In the Second Session of the Sixtieth Congress the President's salary was fixed at $75,000 a year.

Membership of House under census of 1850 was increased from 233 to 234 by act of July 30, 1852; membership under census of 1860 was increased from 233 to 241 by act of March 4, 1862; membership under census of 1870 was originally fixed at 283, but increased to 292 by act of May 30, 1872.

Representation such as shown in table was assigned after apportionment under censuses, as follows: (1790) Tenn.; (1800) Ohio; (1810) Ala., Del., Ind., La., Miss.; (1830) Ark., Mich.; (1840) Cal., Fla., Iowa, Tex., Wis.; (1850) Minn., Ore.; (1860) Neb., Nev.; (1870) Col.; (1880) Idaho, Mont., S. Dak., N. Dak., Wash., Wyo.; (1890) Utah; (1900) Okla.

Ariz. and N. Mex. were included in apportionment under 1910 census, in anticipation of becoming States.

Maine's apportionment of seven members under 1810 census was included in the 20 members originally assigned to Mass. but credited to Maine after it became a State, March 15, 1820.

The ratio under the Constitution was one Representative in Congress for each 30,000 of population. Thereafter, the ratios, as determined by the decennial censuses, were as follows: 1790 and 1800, one to each 33,000; 1810, one in each 35,000; 1820, one in each 40,000; 1830, one in each 47,700; 1840, one in each 70,680; 1850, one in each 93,423; 1860, one in each 127,381; 1870, one in each 131,425; 1880, one in each 151,911; 1890, one in each 173,901; 1900, one in each 194,182; 1910, one in each 211,877.

Of the thirteen Original States the present quotas are the same as under the Constitution in Connecticut, Delaware, Maryland, and Virginia. The original quotas in the other Original States were as follows: Georgia, 3; Massachusetts, 8; New Hampshire, 3; New Jersey, 4; New York, 6; North Carolina, 5; Pennsylvania, 8; Rhode Island, 1; and South Carolina, 5.

PARTY STRENGTH IN CONGRESS.

FEDERALISTS AND REPUBLICANS.

Congress.		Federalists.		Republicans.		President.	Remarks.
		Senate.	House.	Senate.	House.		
1st.	1789–1791	26	53	0	12	Washington.	In Colonial and Revolutionary Days the Americans were either Whigs (Liberals), or Tories (Conservatives). John Adams called it a division between the Court party and the Country party. There was, however, no party organization, and the Colonists were mostly Whigs. The rulers sent from England were the Tories. In the Revolution, the people were divided between Patriots (Whigs), and Loyalists (Tories)
2nd.	1791–1793	17	55	13	14	Washington.	
3rd.	1793–1795	18	51	12	54	Washington.	
4th.	1795–1797	19	46	13	59	Washington.	
5th.	1797–1799	21	51	11	54	Adams.	
6th.	1799–1801	19	57	13	48	Adams.	
7th.	1801–1803	13	34	19	71	Jefferson.	
8th.	1803–1805	10	38	24	103	Jefferson.	
9th.	1805–1807	7	29	27	112	Jefferson.	
10th.	1807–1809	7	27	31	110	Jefferson.	
11th.	1809–1811	10	46	24	95	Madison.	Immediately after the Revolution, the people became either Nationalists (Republicans), or Federalists, according as they favored States' rights, or a strongly centralized government. The Federalists were stronger in the big States, such as Va., Pa., and Mass. The Republicans also were called Democrats, or Democratic-Republicans.
12th.	1811–1813	6	36	30	105	Madison.	
13th.	1813–1815	9	67	27	115	Madison.	
14th.	1815–1817	12	61	26	122	Madison.	
15th.	1817–1819	10	57	34	128	Monroe.	
16th.	1819–1921	10	42	36	145	Monroe.	
17th.	1821–1823	7	58	41	129	Monroe.	
18th.	1823–1825	8	72	40	141	Monroe.	
19th.	1825–1827	10	79	38	134	Adams.	
20th.	1827–1829	11	85	37	128	Adams.	

DEMOCRATS AND WHIGS.

Congress.		Democrats.		Whigs.		President.	Remarks.
		Senate.	House.	Senate.	House.		
21st.	1829–1831	38	142	10	71	Jackson.	The Whig party at first included National Republicans, Nullifiers, Anti-Masons, and Federalists. It finally went to pieces, as a party, on the slavery issue; and its last presidential candidate was Gen. Scott, in 1852, who carried but four States —Mass., Vt., Ky., and Tenn. The Democratic party gradually absorbed the various pro-Slavery and States' rights elements.
22nd.	1831–1833	35	130	13	83	Jackson.	
23rd.	1833–1835	30	147	18	93	Jackson.	
24th.	1835–1837	33	144	19	98	Jackson.	
25th.	1837–1839	29	108	18	118	Van Buren.	
26th.	1839–1841	22	103	28	132	Van Buren.	
27th.	1841–1843	23	98	29	144	Harrison-Tyler.	
28th.	1843–1845	23	140	27	69	Tyler.	
29th.	1845–1847	30	139	24	76	Polk.	In the 25th Congress there were 5 Independents in the Senate, and 13 in the House; in the 26th, 2 in the Senate and 6 in the House; in the 30th, 4 in the House. In the 29th Congress there were 6 Native Americans in the House, as Independents.
30th.	1847–1849	34	108	21	115	Polk.	
31st.	1849–1851	33	116	25	111	Taylor-Fillmore.	
32nd.	1851–1853	36	140	23	88	Fillmore.	
33rd.	1853–1855	39	157	18	73	Pierce.

SUMMARY OF ELECTORAL VOTE, SINCE 1789.

1789. Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntingdon, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney, of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

1808. For President, James Madison, of Virginia, Republican, 122; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

1812. For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, Rep., of Mass, 131; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

1816. For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Eager Howard, of Maryland, Federalist, 22; James Ross, of Pennsylvania, 5; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

1824. For President, Andrew Jackson, of Tennessee, Republican, 99; John Quincy Adams, of Massachusetts, Republican, 84; Henry Clay, of Kentucky, Republican, 37; William H. Crawford, of Georgia, Republican, 41. For Vice-President, John C. Calhoun, of South Carolina, Republican, 182; Nathan Sanford, of New York, Republican, 30; Nathaniel Macon, of North Carolina, Republican, 24; Andrew Jackson, of Tennessee, Republican, 13; Martin Van Buren, of New York, Republican, 9; Henry Clay, of Kentucky, Republican, 2; Calhoun was chosen Vice-President.

There was no choice in the Electoral College in 1824, for President, and the election was thrown into the House of Representatives, which chose John Quincy Adams for President, he receiving 87 votes, as against 71 for Jackson, and 54 for Crawford.

1828. For President, Andrew Jackson, of Tennessee, Democrat, 178; John Quincy Adams, of Massachusetts, National Republican, 83. For Vice-President, John C. Calhoun, of South Carolina, Democrat, 171; Richard Rush, of Pennsylvania, National Republican, 83; William Smith, of South Carolina, Democrat, 7.

1832. For President, Andrew Jackson, of Tennessee, Democrat, 219; Henry Clay, of Kentucky, National Republican, 49; John Floyd, of Georgia, Independent, 11; William Wirt, of Maryland, Anti-Mason, 7. For Vice-President, Martin Van Buren, of New York, Democrat, 189; John Sergeant, of Pennsylvania, National Republican, 49; Henry Lee, of Massachusetts, Independent 11; Amos Ellmaker, of Pennsylvania, Anti-Mason, 7; William Wilkins, of Pennsylvania, Democrat, 30.

1836. For President, Martin Van Buren, of New York, Democrat, 170; Wm. Henry Harrison, of Ohio, Whig, 73; Hugh L. White, of Tennessee, Whig, 26; Daniel Webster, of Massachusetts, Whig, 14; Willie P. Mangum, of North Carolina, Whig, 11. For Vice-President, Richard M. Johnson, of Kentucky, Democrat, 147; F. Granger, of New York, Whig, 77; John Tyler, of Virginia, Whig, 47; Wm. Smith, of Alabama, Democrat, 23.

1840. For President, William Henry Harrison, of Ohio, Whig, 234; Martin Van Buren, of New York, Democrat, 60. For Vice-President, John Tyler, of Virginia, Whig, 234; Richard M. Johnson, of Kentucky, Democrat, 48; Littleton W. Tazewell, of Virginia, Democrat, 11; James K. Polk, of Tennessee, Democrat, 1.

1844. For President, J. K. Polk, of Tennessee, Democrat, 170; H. Clay, of Kentucky, Whig, 105. For Vice-President, G. M. Dallas, of Pennsylvania, Democrat, 170; T. Frelinghuysen, of New Jersey, Whig, 105.

1848. For President, Zach. Taylor, of Louisiana, Whig, 163; Lewis Cass, of Michigan Democrat, 127. For Vice-President, Millard Fillmore, of New York, Whig, 163; Wm. O. Butler, of Kentucky, Democrat, 127.

1852. For President, Franklin Pierce, of New Hampshire, Democrat, 254; Winfield Scott, of New Jersey, Whig, 42. For Vice-President, W. R. King, Ala., Dem., 254; W. A. Graham, N. Car., Whig, 42.

In South Carolina in 1848, 1852, 1856, and 1860 the Presidential Electors were chosen by the Legislature. In 1864 the States of Tennessee and Louisiana also held elections and were carried for Lincoln: "but," says A. K. McClure in his book "Our Presidents," "their votes were not necessary to the election of the Republican ticket, and although Lincoln earnestly desired that these States should be recognized and the votes counted, Congress, by joint resolution, that Lincoln signed with great reluctance, declared that they should not be recognized, and they were omitted." Nor was there any count in Florida, Georgia, South Carolina, or Texas.

WHITE HOUSE BRIDES.

The following is a list of women who have been married in the Executive Mansion at Washington since it became the official residence of the Presidents of the United States:

1—Lucy Payne Washington, Mrs. Madison's sister, to Justice Todd of the Supreme Court of the United States, 1811.

2—Anna Todd to Representative John G. Jackson, 1812.

3—Maria Monroe, daughter of the President, to Samuel Lawrence Gouverneur, 1820.

4—Helen Jackson to John Adams, a son of the President, 1826.

5—Delia Lewis to Alphonse Yver Pageot, 1829.

6—Mary Easton to Lucien B. Polk, 1835.

7—Emily Martin to Lewis Randolph, 1837.

8—Elizabeth Tyler, daughter of the President, to William Waller, 1842.

9—Nellie Grant, daughter of the President, to Algernon Sartoris, 1874.

10—Emily Platt, niece of President Hayes, to Gen. Russell Hastings, 1878.

11—Frances Folsom to President Grover Cleveland, 1886.

12—Alice Roosevelt, daughter of the President, to Representative Nicholas Longworth, 1906.

13—Jessie Woodrow Wilson, daughter of the President, to Francis Bowes Sayer, 1913.

14—Eleanor Wilson, daughter of the President, to William G. McAdoo, Secretary of the Treasury, 1914.

1868.

Dow, Proh., 10,305. In Virginia, the Democratic vote included that of 31,674 "Readjusters."

In 1868 the Florida electors were chosen by the Legislature. Under a joint resolution of Congress, Mississippi, Texas and Virginia were excluded from voting because they had no representation in Congress under the Reconstruction laws. The other Southern States had representation in Congress, except Georgia.

In 1876 the Colorado electors were chosen by the Legislature.

1884.

It was in the Presidential campaign of 1884 that the Rev. Dr. Burchard, heading a delegation of minister who called on Mr. Blaine, at New York City, to congratulate him, made the much-lamented reference t "rum, Romanism, and rebellion," which was held largely responsible for Blaine's defeat. The defeat o Cleveland in 1888 was attributed by Democratic politicians to his message to Congress, delivered a yea before, making the tariff and revenue question the sole issue before the country. In 1892 Simon Wing the Socialist-Labor candidate, polled 21,164 votes, which is included in the total. Both Republicans an Democrats fused with the Weaver, or People's Party, in different States. This is why no votes were cas for Cleveland in Colorado, Kansas, North Dakota, and Wyoming; none for Harrison in Florida, and onl a nominal vote in Alabama and Mississippi.

1896.

The totals under columns in the above table are those of the Statistical Abstract of the United States en from reports of State officials on file in the Department of State at Washington. In some of the tes the returns to the State Department vary slightly from those sent by the Secretaries of State in the pective States to the Almanac.

NOTE—Figures in table above and in recapitulation below do not include blank or void ballots or votes t for names or parties other than those specified.

RECAPITULATION, 1920 PRESIDENTIAL VOTE.

NDIDATE.	Party.	Vote.	CANDIDATE.	Party.	Vote.
rding....	Republican.....	16,152,200	Macauley...	Single Tax.....	5,837
x.....	Democrat.....	9,147,353		American (Tex.).....	47,968
os.....	Socialist.....	919,799		Black and Tan Rep. (Tex.)	27,247
W. Cox..	Socialist-Labor.....	31,175	Harding....	Insurgent Rep. (S. C.)....	360
tkins....	Pronibition.....	189,408			
ristensen.	Farmer-Labor.....	265,411	Total.....		26,786,758

There is no definite approximation of the strength of the Non-Partisan League vote, inasmuch as it ended itself in contests for Governorships, Senators, Congressmen, and local State officials. In some ne Western States the Farmer-Labor vote and the Non-Partisan League vote represented one and the ie political class, and in other States the Non-Partisan League vote and the Labor vote shaded into h other.

Pres. (1921), Debs, Soc., 5,111

VOTE FOR U. S. SENATOR, 1920.

T. H. Caraway (Dem.), 126,477.
C. F. Cole (Rep.), 65,381.

VOTE FOR GOVERNOR, 1920.

T. C. McRae (Dem.), 123,604.
Wallace Townsend (Rep.), 46,339.
Sam Busler (Soc.), 4,543.
J. H. Blount (Negro), 15,627.

VOTE ON PROPOSED CONSTITUTIONAL AMENDMENTS, 1920.

No. 13 (Initiative and Referendum), for, 84,481; against, 42,913.

No. 14 (Equal Suffrage), for, 85,550; against, 48,926.

No. 15 (Increase Supreme Court), for, 63,509; against, 62,281.

All the amendments were lost, inasmuch as the Constitution of the State of Arkansas requires that an amendment to that instrument must have a majority of the total vote cast at the election. The total vote for Governor in 1920 was 190,113, a majority of which is 95,057.

PAST VOTE OF ARKANSAS.

PRESIDENTIAL ELECTIONS.

THERE is, properly speaking, no popular vote for President and Vice-President; the people vot for electors, and those chosen in each State meet therein and vote for the candidates for President and Vic President. The record of any popular vote for electors prior to 1828 is so meagre and imperfect that compilation would be useless. In most of the States, for more than a quarter century following the estat lishment of the Government, the State Legislatures "appointed" the Presidential electors, and the peopl therefore voted only indirectly for them, their choice being expressed by their votes for members of th Legislature.

Gov. (1920), Allen, Rep., 319,914; Davis, Dem., 214,940; Stanton, Soc., 12,544.

U. S. Senator (1920), Curtis, Rep., 327,072; Hodges, Dem., 170,443; Reedy, Soc., 13,417.

Women voted in Kansas in 1916 for President.

Pres. (1916), Proh., 12, 882. Pres. (1920), Proh., 68.

Gov. (1918), Allen, Rep., 287,957; Lansdon, Dem., 133,054; Kleihege, Soc., 12,703.

United States Senator (1918), Thompson, Dem., 149,300 of which 741 was soldier; Capper, Rep., 281,931, of which 1,464 was soldier; Harding, Soc., 11,429, of which 29 was soldier.

PAST VOTE OF KANSAS.

1872 (Pres.), Dem., 32,970; Rep., 66,805; Dem. (O'C.), 596.

1874 (Gov.), Dem., 35,301; Rep., 48,594

1876 (Pres.), Dem., 37,002; Rep., 78,322; Gr., 7,772; Proh., 140.

1878 (Gov.), Dem., 37,308; Rep., 74,020; Gr., 27,057.

1880 (Pres.), Dem., 59,789; Rep., 121,520; Gr., 19,710; Proh., 25.

1882 (Gov.), Dem., 83,237; Rep., 75,158; Gr., 20,989.

1884 (Pres.), Dem., 90,132; Rep., 154,406; Gr., 16,341; Proh., 4,954.

1886 (Gov.), Dem., 115,687; Rep., 149,615; Proh., 8,094.

1888 (Pres.), Dem., 102,745; Rep., 182,904; U. L., 37,788; Proh., 6,779.

1890 (Gov.), Dem., 71,357; Rep., 115,025; F. A., 106,972; Proh., 1,230.

PAST VOTE OF KANSAS—*Continued.*

1892 (Pres.), Rep., 157,237; Pop., 163,111; Proh., 4,539.

1894 (Gov.), Dem., 26,709; Rep., 148,697; Pop., 118,329; Proh., 5,496.

1895 (Ch. J.), Rep., 124,272; Fr. Sil., 42,888.

1896 (Pres.), Dem., 126,660; Pop., 46,194; Rep., 159,541; Gold Dem., 1,209; Proh., 1,921; Nat., 620.

1898 (Gov.), Dem. and Pop., 134,158; Rep., 149,292; Soc. Lab., 642; Proh., 1,092.

1900 (Gov.), Dem. and Pop., 164,794; Rep., 181,893; Proh., 2,662; Soc. Dem., 1,258.

1900 (Pres.), Dem. and Pop., 162,601; Rep., 185,985; Soc. Dem., 1,258; Proh., 3,605.

1902 (Gov.), Dem. and Pop., 117,148; Rep., 159,242; Soc., 4,098; Proh., 6,065; Pop., 635.

1904 (Pres.), Dem. and Pop., 84,800; Rep., 210,893; Soc., 15,494; Proh., 7,245; Pop., 6,156.

1904 (Gov.), Dem., 116,991; Rep., 186,731; Soc., 12,101; Proh., 6,584.

1906 (Gov.), Dem. and Pop., 150,024; Rep., 152,147; Soc., 4,453; Proh., 7,621.

1908 (Pres.), Dem. and Pop., 161,209; Rep., 197,216; Soc., 12,420; Proh., 5,033; Ind., 301.

1908 (Gov.), Dem. and Pop., 162,385; Rep., 196,692; Soc., 11,721; Proh., 3,886; Ind., 68.

1910 (Gov.), Dem., 146,014; Rep., 162,181; Soc., 15,384; Proh., 2,373.

These returns do not include the Federal service vote for 1920, which was not available Nov. 30.

KENTUCKY.

VOTE FOR GOVERNOR, MICHIGAN, 1920.

Alexander J. Groesbeck, Republican, 2990 E. Gd. Blvd., Detroit, 703,180.
Woodbridge N. Ferris, Democrat, Big Rapids, 310,566.
Benjamin Blumenberg, Socialist, 42 Watson St., Detroit, 23,542.
John Y. Johnston, Prohibition, Rosebush, 6,990.
Edward R. Markley, Socialist Labor, 25 Cleveland St., Detroit, 2,097.
Edward J. Jeffries, Farmer-Labor, 1804 W. Gd. Blvd., Detroit, 11,817.

MICHIGAN APPROVES PAROCHIAL SCHOOLS.

The people of Michigan defeated at the polls in Nov., 1920, the proposed amendment to the State Constitution abolishing parochial schools. A bitter fight was waged on the question all over the State. The proposal was defeated in all but about a dozen counties. Some Protestant denominations besides the Roman Catholics joined in voting against the amendment. The big industrial cities went strongly in opposition to the amendment. It was asserted, just after the election, by a Detroit ecclesiastic, that $500,000 was expended in the campaign to preserve the parochial schools, and $300,000 on the other side of the controversy.

PAST VOTE OF MICHIGAN.

Gov. (1915), Bilbo, Dem., 50,541; Lester, Soc., 4,064.

Governor, 1919, Lee M. Russell, Dem., was elected without opposition. At the primaries, earlier the year, there were two contestants for the Democratic nomination. Russell got 77,453 votes: Oscar Johnston, 69,531.

WOMEN BARRED FROM VOTING IN MISSISSIPPI AND GEORGIA.

Following the passing by Congress of the Suffrage Amendment to the United States Constitutio and the proclaiming of the amendment by the United States Secretary of State, Bainbridge Colby, as bei in full force and effect, the various equal suffrage organizations throughout the country made preparatio to have the women vote at the November, 1920, Presidential elections in those States where that sex d not already have the franchise.

The first and greatest obstacle encountered was the provision in practically every State requiring re istration. The Anti-Suffrage organizations also got busy and both sides appealed to the chief State in officers in the different commonwealths, the one side claiming, the other side denying and clamoring again the right of the women to register. Finally the contest narrowed down to the two States of Georgia a Mississippi.

In Georgia, the six-months' provision in the primary law, so it was ruled by the State Attorney Gener barred women from voting in 1920.

In Mississippi, the Attorney General there decided, the four-month's clause in the primary law barr women from voting in 1920.

HOW MANY WOMEN VOTED IN 1920.

There is no definite answer to this question, for the reason that in only one State, Illinois, is a separa record kept of the sexes when they register and also when they vote. Mrs. Carrie Chapman Catt's es mate is three women voted for every five men—that is, the woman's vote was three-eighths of the to vote. The following table based on the 1910 census, but calculated for 1920, shows the estimated numb of women in each State, of voting age:

Ala	552,154	Idaho	76,799	Mass.	1,181,933	N. Hamp	148,909	Oregon	185,155	Vermont	117,5

NON-PARTISAN LEAGUE VOTE.

The Non-Partisan League polled a much smaller vote than was expected by A. C. Townley and his associates in Montana, Idaho, Wisconsin, South Dakota, Minnesota, Nebraska, Washington and Colorado. They were snowed under by the Republican avalanche. In none of the States above mentioned did the Non-Partisan League carry an important candidate to victory at the polls. In Wisconsin the league backed the Republican ticket. In North Dakota they indorsed the Republican candidate for Governor, who was elected, but many leaguers voted for O'Connor, Democrat and Independent. The struggle in North Dakota this year, dependent on the strength of the league in the Legislature, will be over a proposal to investigate the league's relations with many of the local banking institutions throughout that State, several of which have failed recently.

NEBRASKA.

LIMITATION ON GOVERNOR'S TERM.

Under the North Carolina Constitution, the Governor is elected for a term of four years, and is not eligible for that office for more than four years in any term of eight years, unless he becomes Governor by having been Lieut.-Governor or President of the State Senate.

NORTH DAKOTA.

The Prohibition Party failed to secure the petition that the Ohio election laws require for an organization that has not polled at least 10 per cent. of the total vote at the last general election, and for that reason there was neither an electoral nor a State ticket of the party on the ballot. Only 274 scattering Prohibitionist votes were cast.

Pres. (1920), Single Tax, 2,153; Proh., 294.
Pres. (1916), Hanly, Proh., 8,080.
Gov. (1920), Donahey, Dem., 918,962; Davis, Rep., 1,039,835; Hamilton, Soc., 42,889; Foote, Single Tax, 1,497.
Gov. (1918), Cox., Dem, 486,403; Willis, Rep., 474,459.
U. S. Sen (1920), Julian, Dem., 782,650; Willis, Rep., 1,134,953; Strong, Single Tax, 2,647.

VOTE FOR JUDICIARY, OHIO, 1920.

AMERICAN RELIEF ADMINISTRATION.

(42 Broadway, New York City, and Washington, D. C.)

THE American Relief Administration, a private charitable organization, has since 1919 maintain child feeding missions in Poland, Austria, Hungary, Czecho-Slovakia, Esthonia, Lithuania, and Latv During the past year its missions have been withdrawn from Czecho-Slovakia and Lithuania and 780,0 children are now being fed (Dec. 1, 1921), one meal a day in the remaining countries.

On July 23, 1921, the A. R. A., through its Chairman, Herbert Hoover, answered the appeal of Max Gorky and offered its services and that of co-operating organizations to care for 1,000,000 children a invalids in the famine area of the Volga Valley with the provision that Americans held as prisoners in Russ should be released. On Aug. 20 an agreement was signed with Soviet Russia with practically the sa stipulations which have been agreed to by the governments of the countries in which the other A. R. missions operate. Col. William N. Haskell was appointed Director of the A. R. A. in Russia and I Henry Beeuwkes, Medical Director. Headquarters were established in Moscow. The American R Cross agreed to appropriate $3,000,000 for medical and hospital supplies. From other stores it has add supplies valued at more than $600,000.

On Aug. 27 the first American Relief Administration party left Riga for Moscow and on the 29 2,000 tons of balanced rations arrived at Petrograd. Feeding stations were opened in Moscow and Pet grad during the first week in September, but the main effort was directed to the famine area comprisi the provinces of Saratov, Samara, Simbirsk, Kazan, Ufa, and Orenburg. The first meal was served Kazan on Sept. 21 to 350 children. At the end of 1921 the A. R. A. was giving a free daily meal to 1 000,0 children.

Persons may remit in sums of $10 or multiples thereof, by mail only, to the New York, Washingt or London offices, for food to be delivered to friends in Russia. The food and supplies are purchased America, sent abroad in American ships and distributed under the supervision of American personnel.

PRESIDENT HARDING'S INAUGURAL ADDRESS.

(Delivered at the U. S. Capitol, Washington, D. C., March 4, 1921.)

MY COUNTRYMEN: When one surveys the world about him after the great storm, noting the ks of destruction and yet rejoicing in the ruggedness of the things which withstood it, if he is an Amer- he breathes the clarified atmosphere with a strange mingling of regret and new hope. We have seen orld passion spend its fury, but we contemplate our Republic unshaken, and hold our civilization se- Liberty—liberty within the law—and civilization are inseparable, and though both were threatened find them now secure; and there comes to Americans the profound assurance that our representative ernment is the highest expression and surest guaranty of both.

Standing in this presence, mindful of the solemnity of this occasion, feeling the emotions which no may know until he senses the great weight of responsibility for himself, I must utter my belief in the he inspiration of the founding fathers. Surely there must have been God's intent in the making of new-world Republic. Ours is an organic law which had but one ambiguity, and we saw that effaced baptism of sacrifice and blood, with union maintained, the Nation supreme, and its concord inspir-

We have seen the world rivet its hopeful gaze on the great truths on which the founders wrought. have seen civil, human and religious liberty verified and glorified. In the beginning the Old World ed at our experiment; to-day our foundations of political and social belief stand unshaken, a precious ritance to ourselves an inspiring example of freedom and civilization to all mankind. Let us express wed and strengthened devotion, in grateful reverence for the immortal beginning, and utter our con- ice in the supreme fulfilment.

PROGRESS PROVES WISDOM.

The recorded progress of our Republic, materially and spiritually, in itself proves the wisdom of the rited policy of non-involvement in Old World affairs. Confident of our ability to work out our own iny, and jealously guarding our right to do so, we seek no part in directing the destinies of the Old World. do not mean to be entangled. We will accept no responsibility except as our own conscience and judg- t, in each instance, may determine. Our eyes never will be blind to a developing menace, our ears r deaf to the call of civilization. We recognize the new order in the world, with the closer contacts h progress has wrought. We sense the call of the human heart for fellowship, fraternity, and co- eration. We crave friendship and harbor no hate. But America, our America, the America builded he foundation laid by the inspired fathers, can be a party to no permanent military alliance. It can r into no political commitments nor assume any economic obligations which will subject our decisions ny other than our own authority.

I am sure our own people will not misunderstand nor will the world misconstrue. We have no thought mpede the paths to closer relationship. We wish to promote understanding. We want to do our part aking offensive warfare so hateful that Governments and peoples who resort to it must prove the right- ness of their cause or stand as outlaws before the bar of civilization.

ASSOCIATION FOR COUNSEL.

We are ready to associate ourselves with the nations of the world, great and small, for conference, for sel: to seek the expressed views of world opinion; to recommend a way to approximate disarmament relieve the crushing burdens of military and naval establishments. We elect to participate in sug- ng plans for mediation, conciliation and arbitration, and would gladly join in that expressed conscience rogress, which seeks to clarify and write the laws of international relationship, and establish a world t for the disposition of such justiciable questions as nations are agreed to submit thereto. In expres- aspirations, in seeking practical plans, in translating humanity's new concept of righteousness and ce and its hatred of war into recommended action we are ready most heartily to unite; but every com- nent must be made in the exercise of our national sovereignty. Since freedom impelled, and independ- e inspired, and nationality exalted, a world supergovernment is contrary to everything we cherish and have no sanction by our Republic. This is not selfishness, it is sanctity. It is not aloofness, it is secur- It is not suspicion of others, it is patriotic adherence to the things which made us what we are.

To-day, better than ever before, we know the aspirations of humankind, and share them. We have e to a new realization of our place in the world and a new appraisal of our Nation by the world. The elfishness of these United States is a thing proven; our devotion to peace for ourselves and for the world ell established; our concern for preserved civilization has had its impassioned and heroic expression. re was no American failure to resist the attempted reversion of civilization; there will be no failure to- or to-morrow.

RESTS ON POPULAR WILL.

The success of our popular government rests wholly upon the correct interpretation of the deliberate, ligent, dependable popular will of America. In a deliberate questioning of a suggested change of na- al policy, where internationality was to supersede nationality, we turned to a referendum, to the Amer- people. There was ample discussion, and there is a public mandate in manifest understanding.

America is ready to encourage, eager to initiate, anxious to participate in any seemly programme likely essen the probability of war and promote that brotherhood of mankind which must be God's highest eption of human relationship. Because we cherish ideals of justice and peace, because we appraise rnational comity and helpful relationship no less highly than any people of the world, we aspire to a place in the moral leadership of civilization, and we hold a maintained America, the proven republic, unshaken temple of representative democracy, to be not only an inspiration and example, but the high- agency of strengthened good will and promoting accord on both continents. Mankind needs a world-, benediction of understanding. It is needed among individuals, among peoples, among governments it will inaugurate an era of good feeling to mark the birth of a new order. In such understanding men strive confidently for the promotion of their better relationships and nations will promote the comities essential to peace.

TRADE TIES BIND CLOSELY.

We understand that ties of trade bind nations in closest intimacy, and none may receive except as he s. We have not strengthened ours in accordance with our resources or our genius, notably on our own inent, where a galaxy of republics reflect the glory of new-world democracy, but in the new order of nce and trade we mean to promote enlarged activities and seek expanded confidence. Perhaps we can e no more helpful contribution by example than prove a republic's capacity to emerge from the wreck- of war. While the world's embittered travail did not leave us devastated lands not desolated cities, no gaping wounds, no breast with hate, it did involve us in the delirium of expenditure, in expanded ency and credits, in unbalanced industry, in unspeakable waste and disturbed relationships. While ncovered our portion of hateful selfishness at home, it also revealed the heart of America as sound and less and beating in confidence unfailing.

Amid it all we have riveted the gaze of all civilization to the unselfishness and the righteousness of esentative democracy, where our freedom never has made offensive warfare, never has sought terri- al aggrandizement through force, never has turned to the arbitrament of arms until reason has been rusted. When the Governments of the earth shall have established a freedom like our own and shall e sanctioned the pursuit of peace as we have practised it, I believe the last sorrow and the final sacri-

fice of international warfare will have been written. Let me speak to the maimed and wounded soldier who are present to-day, and through them convey to their comrades the gratitude of the Republic for thei sacrifices in its defense. A generous country will never forget the services you rendered, and you may hop for a policy under Government that will relieve any maimed successors from taking your places on anothe such occasion as this.

OUR SUPREME TASK.

Our supreme task is the resumption of our onward, normal way. Reconstruction, readjustment, res toration—all these must follow. I would like to hasten them. If it will lighten the spirit and add to th resolution with which we take up the task, let me repeat for our Nation, we shall give no people just caus to make war upon us; we hold no national prejudices; we entertain no spirit of revenge; we do not hate we do not covet; we dream of no conquest nor boast of armed prowess. If, despite this attitude, war i again forced upon us, I earnestly hope a way may be found which will unify our individual and collectiv strength and consecrate all America, materially and spiritually, body and soul, to national defense. I ca vision the ideal republic, where every man and woman is called under the flag for assignment to duty fo whatever service, military or civic, the individual is best fitted; where we may call to universal servic every plant, agency, or facility, all in the sublime sacrifice for country, and not one penny of war profit shal inure to the benefit of private individual, corporation, or combination, but all above the normal shall flo into the defense chest of the Nation. There is something inherently wrong, something out of accord wit the ideals of representative democracy, when one portion of our citizenship turns its activities to privat gain amid defensive war while another is fighting, sacrificing, or dying for national preservation.

UNITY OF SPIRIT AND PURPOSE.

Out of such universal service will come a new unity of spirit and purpose, a new confidence and con secration, which would make our defense impregnable, our triumph assured. Then we should have litt or no disorganization of our economic, industrial and commercial systems at home, no staggering war debts no swollen fortunes to flout the sacrifices of our soldiers, no excuse for sedition, no pitiable slackerism, n outrage of treason. Envy and jealousy would have no soil for their menacing development, and revolutio would be without the passion which engenders it. A regret for the mistakes of yesterday must not, however blind us to the tasks of to-day. War never left such an aftermath. There has been staggering loss of lif and measureless wastage of materials. Nations are still groping for return to stable ways. Discourag ing indebtedness confronts us like all the war-torn nations, and these obligations must be provided for No civilization can survive repudiation.

We can reduce the abnormal expenditures, and we will. We can strike at war taxation and we must We must face the grim necessity, with full knowledge that the task is to be solved, and we must proceed with a full realization that no statute enacted by man can repeal the inexorable laws of nature. Our mos dangerous tendency is to expect too much of government, and at the same time do for it too little. W contemplate the immediate task of putting our public household in order. We need a rigid and yet san hold in order. We need a rigid and yet sane economy, combined with fiscal justice, and it must be attend ed by individual prudence and thrift, which are so essential to this trying hour and reassuring for the future

REFLECTION OF WAR'S REACTION.

The business world reflects the disturbance of war's reaction. Herein flows the lifeblood of mat rial existence. The economic mechanism is intricate and its parts interdependent, and has suffered th shocks and jars incident to abnormal demands, credit inflations, and price upheavals. The normal ba ance have been impaired, the channels of distribution have been clogged, the relations of labor and mat agement have been strained. We must seek the readjustment with care and courage. Our people mus give and take. Prices must reflect the receding fever of war activities. Perhaps we never shall know th old level of wage again, because war invariably readjusts compensations, and the necessaries of life wi show their inseparable relationship; but we must strive for normalcy to reach stability. All the penaltie will not be light nor evenly distributed. There is no way of making them so. There is no instant step fro disorder to order. We must face a condition of grim reality, charge off our losses and start afresh. I is the oldest lesson of civilization. I would like government to do all it can to mitigate; then, in unde standing, in mutuality of interest, in concern for the common good, our tasks will be solved. No altere system will work a miracle. Any wild experiment will only add to the confusion. Our best assuranc lies in efficient administration of our proven system.

FROM DESTRUCTION TO PRODUCTION.

The forward course of the business cycle is unmistakable. Peoples are turning from destruction t production. Industry has sensed the changed order and our own people are turning to resume their norma onward way. The call is for productive America to go on. I know that Congress and the Administra tion will favor every wise Government policy to aid the resumption and encourage continued progres I speak for administrative efficiency, for lightened tax burdens, for sound commercial practices, for ade quate credit facilities, for sympathetic concern for all agricultural problems, for the omission of unnecessar interference of Government with business, for an end to Government's experiment in business, and fo more efficient business in Government administration. With all of this must attend a mindfulness of th human side of all activities, so that social, industrial and economic justice will be squared with the purpose of a righteous people. With the nation-wide induction of womanhood into our political life, we may cour upon her intuition, her refinement, her intelligence, and her influence to exalt the social order. We coun upon her exercise of the full privileges and the performance of the duties of citizenship to speed the attain ment of the highest state.

PRAYER FOR INDUSTRIAL PEACE.

I wish for an America no less alert in guarding against dangers from within than it is watchful against enemies from without. Our fundamental law recognizes no class, no group, no section; there must be non in legislation or administration. The supreme inspiration is the common weal. Humanity hungers fo international peace, and we crave it with all mankind. My most reverent prayer for America is for i dustrial peace, with its rewards, widely and generally distributed, amid the inspirations of equal oppor tunity. No one justly may deny the equality of opportunity which made us what we are. We have mis taken unpreparedness to embrace it to be a challenge of the reality, and due concern for making all cit zens fit for participation will give added strength of citizenship and magnify our achievement.

If revolution insists upon overturning established order, let other peoples make the tragic experimen There is no place for it in America. When world war threatened civilization, we pledged our resource and our lives to its preservation, and when revolution threatens we unfurl the flag of law and order and re new our consecration. Ours is a constitutional freedom where the popular will is the law supreme and mi orities are sacredly protected. Our revisions, reformations and evolutions reflect a deliberate judgme and an orderly progress, and we mean to cure our ills, but never destroy or permit destruction by forc I had rather submit our industrial controversies to the conference table in advance than to a settlemen table after conflict and suffering. The earth is thirsting for the cup of good will; understanding is its fou tain source. I would like to acclaim an era of good feeling amid dependable prosperity and all the bles ings which attend.

PROTECTION OF INDUSTRIES.

It has been proved again and again that we cannot, while throwing our markets open to the worl

PRESIDENT HARDING'S INAUGURAL ADDRESS—*Continued.*

ntain American standards of living and opportunity and hold our industrial eminence in such unequal petition. There is a luring fallacy in the theory of banished barriers of trade, but preserved Ameri- standards require our higher production costs to be reflected in our tariffs on imports. To-day, as er before, when peoples are seeking trade restoration and expansion, we must adjust our tariffs to the order. We seek participation in the world's exchanges, because therein lies our way to widened in- nce and the triumphs of peace. We know full well we cannot sell where we do not buy, and we can- sell successfully where we do not carry. Opportunity is calling not alone for the restoration but for ew era in production, transportation and trade. We shall answer it best by meeting the demand of a assing home market, by promoting self-reliance in production, and by bidding enterprise, genius and iency to carry our cargoes in American bottoms to the marts of the world.

AN AMERICA OF HOMES.

We would not have an America living within and for herself alone, but we would have her self-reliant, pendent, and ever nobler, stronger, and richer. Believing in our higher standards, reared through stitutional liberty and maintained opportunity, we invite the world to the same heights. But pride hings wrought is no reflex of a completed task. Common welfare is the goal of our national endeavor. alth is not inimical to welfare; it ought to be its friendliest agency. There never can be equality of re- ds or possessions so long as the human plan contains varied talents and differing degrees of industry thrift; but ours ought to be a country free from great blotches of distressed poverty. We ought to a way to guard against the perils and penalties of unemployment. We want an America of homes, nined with hope and happiness, where mothers, freed from the necessity for long hours of toil beyond r own doors, may preside as befits the hearthstone of American citizenship. We want the cradle of erican childhood rocked under conditions so wholesome and so hopeful that no blight may touch it in levelopment, and we want to provide that no selfish interest, no material necessity, no lack of oppor- ty shall prevent the gaining of that education so essential to best citizenship.

There is no short cut to the making of these ideals into glad realities. The world has witnessed again again the futility and the mischief of ill-considered remedies for social and economic disorders. But are mindful to-day as never before of the friction of modern industrialism, and we must learn its causes reduce its evil consequences by sober and tested methods. Where genius has made for great possibil- justice and happiness must be reflected in a greater common welfare.

SERVICE THE SUPREME COMMITMENT.

Service is the supreme commitment of life. I would rejoice to acclaim the era of the Golden Rule and vn it with the autocracy of service. I pledge an Administration wherein all the agencies of Government called to serve, and ever promote an understanding of Government purely as an expression of the popu- will. One cannot stand in this presence and be unmindful of the tremendous responsibility. The ld upheaval has added heavily to our tasks. But with the realization comes the surge of high resolve, there is reassurance in belief in the God-given destiny of our Republic. If I felt that there is to be responsibility in the Executive for the America of to-morrow I should shrink from the burden. But are a hundred millions, with common concern and shared responsibility, answerable to God and country. Republic summons them to their duty, and I invite co-operation.

I accept my part with single-mindedness of purpose and humility of spirit, and implore the favor guidance of God in His Heaven. With these I am unafraid, and confidently face the future. I have n the solemn oath of office on that passage of Holy Writ wherein it is asked: "What doth the Lord ire of thee but to do justly, and to love mercy, and to walk humbly with thy God?" This I plight God and country.

PRESIDENT HARDING'S MEMORIAL DAY MESSAGE.

PRESIDENT HARDING in a Memorial Day message to the American Legion, May 26, 1921, said: nericans have never been much given to the establishment of holidays and fete days. Perhaps our onal life has been so short and entirely within so matter of fact and practical a period of the world's ory that we have been little moved by the sentiments that such occasions inspire. Yet I think no on has ever established a national day of consecration that represented a more lofty and ennobling iment than does our national Memorial Day. To its observance we have brought the full measure incere reverence and gratitude that a great people is ever to entertain for those who have made the t sacfifice in its behalf.

"Memorial Day marks our recognition of those who, from our national beginnings, have deserved the t that the Nation could give of gratitude and appreciation. It reminds us that in every generation, n Lexington to the Argonne, our valorous sons have well deserved the highest tribute that a Nation, ified, defended, preserved, could give to them. Whenever the demand has come, and wherever it may e called the sons of our proud land, it has always been answered. Though we have never been a mili- or war-loving people, there has been no time when Americans did not rise to the full measure of the irement which national honor and national safety imposed upon them. When national safety was cause, the response was always insistent and decisive. When civilization summoned, and our sons e called to other seas and skies and soils, we saw the same promptness, the same zeal, the same devotion.

"On this Memorial Day of 1921 we stand, I trust, very close to peace achieved, to safety insured. r it be our common aim and purpose that in coming years our Nation's aim and policy shall be directed nake certain that there shall be least need for further sacrifices, greatest guarantees of the stability, permanence and the inspiring character of those institutions of liberty to which our Nation has been cated."

EX-PRESIDENT WOODROW WILSON'S MEMORIAL DAY LETTER.

Woodrow Wilson, in a Memorial Day letter to The Stars and Stripes, May 27, 1921, said: "Memorial has always been one of our most solemn and thoughtful anniversaries, when we recalled great mem- s and dedicated ourselves again to the maintenance and purification of the Nation, but it is year it has dded and tremendous significance, because the memories and sacrifices of the great World War are among the most stimulating of the recollections of the day.

"We celebrate the immortal achievements of the men who died in France on the field and in the trenches, way from home, in order that both our own people and the peoples across the seas might be delivered the ugliest peril of all history. It is our privilege not only to indulge a high and solemn pride and for the heroes of that great struggle, but also to rededicate ourselves to the achievement of the great cts for which that war was fought. We shall not be happy, we shall not be able to enjoy the full pride he day's recollections, until we have made sure that the duties that grew out of the war have been ful- l to the utmost.

"Are we sure? If we are not, shall we not soon take steps to do whatever has been omitted? Cor- y yours,

WOODROW WILSON."

PRES. HARDING'S ADDRESS AT BURIAL OF UNKNOWN AMER. SOLDIER.

(Arlington Cemetery, November 11, 1921.)

MR. Secretary of War and ladies and gentlemen, we are met to-day to pay the impersonal tribut The name of him whose body lies before us took flight with his imperishable soul. We know not when he came, but only that his death marks him with the everlasting glory of an American dying for his countr

He might have come from any one of millions of American homes. Some mother gave him in h love and tenderness, and with him her most cherished hopes. Hundreds of mothers are wondering to-da finding a touch of solace in the possibility that the Nation bows in grief over the body of one she bore live and die, if need be, for the Republic. If we give rein to fancy, a score of sympathetic chords are touche for in this body there once glowed the soul of an American, with the aspirations and ambitions of a citiz who cherished life and its opportunities. He may have been a native or an adopted son; that matte little, because they glorified the same loyalty, they sacrificed alike.

We do not know his station in life, because from every station came the patriotic response of the fi millions. I recall the days of creating armies, and the departing of caravels which braved the murdero seas to reach the battle lines for maintained nationality and preserved civilization. The service flag mark mansion and cottage alike, and riches were common to all homes in the consciousness of service to countr

THE GLORY OF HIS DEATH.

We do not know the eminence of his birth, but we do know the glory of his death. He died for h country, and greater devotion hath no man than this. He died unquestioning, uncomplaining, with fai in his heart and hope on his lips, that his country should triumph and its civilization survive. As a typic soldier of this representative democracy, he fought and died, believing in the indisputable justice of h country's cause. Conscious of the world's upheaval, appraising the magnitude of a war the like of whi had never horrified humanity before, perhaps he believed his to be a service destined to change the ti of human affairs.

In the death gloom of gas, the bursting of shells and rain of bullets, men face more intimately t great God over all, their souls are aflame, and consciousness expands and hearts are searched. With t din of battle, the glow of conflict, and the supreme trial of courage, come involuntarily the hurried a praisal of life and the contemplation of death's great mystery. On the threshold of eternity, many soldier, I can well believe, wondered how his ebbing blood would color the stream of human life, flowi on after his sacrifice. His patriotism was none less if he craved more than triumph of country; rath it was greater if he hoped for a victory for all human kind. Indeed, I revere that citizen whose confiden in the righteousness of his country inspired belief that its triumph is the victory of humanity.

FOUGHT FOR LIBERATION OF CONSCIENCE.

This American soldier went forth to battle with no hatred for any people in the world, but hati war and hating the purpose of every war for conquest. He cherished our national rights, and abhorr the threat of armed domination; and in the maelstrom of destruction and suffering and death he fired shot for liberation of the captive conscience of the world. In advancing toward his objective was son where a thougnt of a world awakened; and we are here to testify undying gratitude and reverence for th thought of a wider freedom.

On such an occasion as this, amid such a scene, our thoughts alternate between defenders living a defenders dead. A grateful Republic will be worthy of them both. Our part is to atone for the los of heroic dead by making a better Republic for the living.

Sleeping in these hallowed grounds are thousands of Americans who have given their blood for t baptism of freedom and its maintenance, armed with exponents of the Nation's conscience. It is bet and nobler for their deeds. Burial here is rather more than a sign of the Government's favor; it is a su gestion of a tomb in the heart of the Nation, sorrowing for its noble dead.

To-day's ceremonies proclaim that the hero unknown is not unhonored. We gather him to the N tion's breast, within the shadow of the Capitol, of the towering shaft that honors Washington, the gre father, and of the exquisite monument to Lincoln, the martyred savior. Here the inspirations of yest day and the conscience of to-day forever unite to make the Republic worthy of his death for flag a country.

CONSECRATION TO A BETTER ORDER FOR THE LIVING.

Ours are lofty resolutions to-day, as with tribute to the dead we consecrate ourselves to a bet order for the living. With all my heart, I wish we might say to the defenders who survive, to moth who sorrow, to widows and children who mourn, that no such sacrifice shall be asked again.

It was my fortune recently to see a demonstration of modern warfare. It is no longer a conflict chivalry, no more a test of militant manhood. It is only cruel, deliberate, scientific destruction. The was no contending enemy, only the theoretical defense of a hypothetic objective. But the attack w made with all the relentless methods of modern destruction. There was the rain of ruin from the aircra the thunder of artillery, followed by the unspeakable devastation wrought by bursting shells; there w mortars belching their bombs of desolation; machine guns concentrating their leaden storms; there w the infantry, advancing, firing, and falling—like men with souls sacrificing for the decision. The flyi missiles were revealed by illuminating tracers, so that we could note their flight and appraise their dea liness. The air was streaked with tiny flames marking the flight of massed destruction; while the eff tiveness of the theoretical defense was impressed by the simulation of dead and wounded among th going forward, undaunted and unheeding. As this panorama of unutterable destruction visualized t horrors of modern conflict, there grew on me the sense of the failure of a civilization which can leave problems to such cruel arbitrament. Surely no one in authority, with human attributes and a full a praisal of the patriotic loyalty of his countrymen, could ask the manhood of kingdom, empire, or republ to make such sacrifice until all reason had failed, until appeal to justice through understanding had be denied, until every effort of love and consideration for fellow men had been exhausted, until freedom self and inviolate honor had been brutally threatened.

HE SPEAKS NOT AS A PACIFIST.

I speak not as a pacifist fearing war, but as one who loves justice and hates war. I speak as one w believes the highest function of government is to give its citizens the security of peace, the opportuni to achieve, and the pursuit of happiness.

The loftiest tribute we can bestow to-day—the heroically earned tribute—fashioned in delibers conviction, out of unclouded thought, neither shadowed by remorse nor made vain by fancies, is the co mitment of this Republic to an advancement never made before. If American achievement is a cherish pride at home, if our unselfishness among nations is all we wish it to be, and ours is a helpful example the world, then let us give of our influence and strength, yea, of our aspirations and convictions, to p mankind on a little higher plane, exulting and exalting, with war's distressing and depressing traged barred from the stage of righteous civilization.

There have been a thousand defenses justly and patriotically made; a thousand offenses which rea and righteousness ought to have stayed. Let us beseech all men to join us in seeking the rule under wh reason and righteousness shall prevail.

PRESIDENT HARDING'S ADDRESS AT BURIAL OF UNKNOWN AMERICAN SOLDIER—*Con't.*

Standing to-day on hallowed ground, conscious that all America has halted to share in the tribute of eart and mind and soul to this fellow American, and knowing that the world is noting this expression f the Republic's mindfulness, it is fitting to say that his sacrifice, and that of the millions dead, shall not e in vain. There must be, there shall be, the commanding voice of a conscious civilization against armed arfare.

BEGINNING OF A NEW ERA OF PEACE.

As we return this poor clay to its mother soil, garlanded by love and covered with the decorations at only nations can bestow, I can sense the prayers of our people, of all peoples, that this Armistice ay shall mark the beginning of a new and lasting era of peace on earth, good will among men. Let me oin in that prayer.

Our Father who art in heaven, hallowed be Thy name. Thy kingdom come, Thy will be done on arth, as it is in heaven. Give us this day our daily bread, and forgive us our trespasses as we forgive those ho trespass against us. And lead us not into temptation, but deliver us from evil, for Thine is the kingom, and the power, and the glory, forever. Amen.

IMPEACHMENTS IN UNITED STATES HISTORY.

THE Constitution of the United States, Article II., Section IV., provides that civil officers of the United tates may be removed from office on impeachment and conviction of treason, bribery or other high crimes nd misdemeanors: that the House of Representatives has the sole power of impeachment, and the Senate ie sole power to try impeachments; that the Vice President shall preside at impeachments except when ie President is tried, when the Chief Justice of the Supreme Court shall preside; and that two-thirds of ie members present must vote for conviction before a person impeached shall be deemed guilty. Only ght persons have been impeached and tried before the Senate, and only two of them have been convicted. he record is as follows:

William Blount, Senator from Tennessee, impeached July 7, 1797, for conspiring to wage war with ain in favor of Great Britain, to excite the Cherokee Indians against Spain, and to create disaffection nong the Indians toward the United States; trial Dec. 17, 1798, to Jan. 14, 1799; vote, 11 guilty, 14 not uilty; verdict, acquittal.

John Pickering, Judge of the District Court of the United States for the District of New Hampshire; mpeached 1803 for drunkenness and disregard of the terms of the statutes; trial March 3 to March 12, 803; vote, 19 guilty, 7 not guilty; verdict, guilty; punishment, removal from office.

Samuel Chase, Associate Justice of the Supreme Court of the United States; impeached 1804 for misonduct at trials of persons charged with breach of the Sedition Law; trial Nov. 30, 1804, to March 1, 1805; ote, 9 guilty, 30 not guilty, and 15 guilty, 19 not guilty, on different counts; verdict, acquittal.

James Peck, Judge of the District Court of the United States for the District of Missouri; impeached r tyrannous treatment of counsel, 1830; trial May 11 to May 30, 1830, and from Dec. 13, 1830, to Jan. , 1831; vote, 22 guilty, 21 not guilty; verdict, acquittal.

West H. Humphreys, Judge of the District Court of the United States for the District of Tennessee, imeached 1862 for supporting the secession movement and unlawfully acting as Judge of the Confederate istrict Court; trial May 22 to June 26, 1862; vote, 32 guilty, 4 not guilty; verdict, guilty; punishment, moval from office.

Andrew Johnson, President of the United States, impeached for usurpation of the law, corrupt use the veto power, interference at elections and high crimes and misdemeanors; trial, March 30 to May 26, 68; vote, guilty, 35, not guilty, 19; verdict, acquittal.

William W. Belknap, Secretary of War of the United States, impeached for accepting bribes; trial pril 5 to Aug. 1, 1876; vote, guilty, 5, not guilty, 25; verdict, acquittal.

Charles Swayne, Judge of the District Court of the United States for the District of Florida; impeached 05 for misconduct in office; trial Feb. 6 to Feb. 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

Robert W. Archbald, Associate Judge of United States Commerce Court, was impeached July 11, 1912, thirteen articles charging him with corrupt collusion with coal mine owners and railroad officials while office. The Senate began his trial Dec. 3, 1912, and ended Jan. 13, 1913. Verdict, guilty; removed om office.

On June 12, 1914, District Judge Alston G. Dayton was impeached. Proceedings dropped March 1915.

In the House, near the close of the 66th Congress, a member asked for the impeachment of Federal istrict Judge Kenesaw Mountain Landis for having accepted, at a salary, the post of Commissioner of aseball. The demand was not acted upon by the House.

SCHOOLS OF JOURNALISM IN THE UNITED STATES.

(A List Prepared by the U. S. Bureau of Education, Washington, D. C.)

Journalism is taught in special schools or in special classes at the following institutions:

At State Universities—Arkansas, California, Colorado, Florida, Illinois, Indiana, Iowa, Kansas, Kenucky, Louisiana, Michigan, Minnesota, Missouri, Maine, Montana, Nebraska, North Carolina, Ohio, klahoma, Oregon, South Carolina, South Dakota, Texas, Utah, Virginia, Washington, West Virginia, isconsin.

At State Colleges and Schools—Colorado Agricultural College, Delaware College, Fort Hays (Kansas) ormal School, Georgia Technical School of Commerce, Indiana State Normal School, Iowa State College, ansas State Agricultural College, Kansas State Normal School, Massachusetts Agricultural College, issouri State Normal College, Nebraska State Normal School, North Dakota Agricultural College, Oklama Agricultural and Mechanical College. Pennsylvania State College, Purdue University, South Dakota ate College, Wisconsin State Normal School.

At Endowed Colleges and Universities—Austin College, Beaver College, Beloit College, Billings Polychnic Institute, Boston University, Bucknell College, Buena Vista College, Carleton College, Colby ollege, College of Emporia, Columbia University, De Pauw University, Emmanuel Missionary College, oucher College, Howard College, Kansas City Polytechnic Institute, Knox College, Lawrence College, high University, Leland Stanford Junior University, Marietta College, Marquette University, McKendree ollege, Miami University, Morningside College, Mount Union College, Municipal University of Akron, ew York University, Pomona College, Ripon College, St. Xavier College, Toledo University, Trinity Colge, Tulane University, University of Chicago, University of Denver, University of Notre Dame, Univerty of Pittsburgh, University of Southern California, Vassar College, Western Reserve University.

THE PULITZER SCHOOL OF JOURNALISM.

Elsewhere in the Almanac will be found a special article on the Pulitzer School of Journalism, at Colmbia University, together with a list of the various prize and scholarship winners.

CHIEF NEW YORK STATE LEGISLATION OF 1921.

Advertising—Chapter 520. Provides punishment for untrue or misleading advertisements.

Aldermanic Districts—Reapportioned and number reduced from 67 to 65.

Anti-Monopoly—Chapter 712. Prevents indirect price fixing of articles or products used in trac commerce or manufacture by rules of trades unions.

ILLITERACY IN STATE OF NEW YORK.

ACCORDING to the census of 1920 there are 425,022 *illiterate persons* 10 years of age and over in the State of New York, "illiterate" meaning unable to write. Of this number 16,150 are *native whites* of native parentage, 12,256 are of *foreign or mixed parentage*, and 389,603 are of *foreign birth*. The number of illiterate *negroes* is 5,032. In the total population 10 years of age and over the *percentage of illiteracy* is 5.1, which shows a diminution since 1910, when it was 5.5.

There is less illiteracy in the rural districts of the State than in the cities, the percentage being 2.9 for the rural population and 5.5 for the urban.

By counties the percentage of illiteracy ranges from 8.4 in Clinton County to 0.7 in Allegany County.

Bnhattan	140,810	7.5	135,358				

The percentage of illiteracy in the total population of New York City 10 years of age and over is 6.7, which shows a slight decrease since 1910, when it was 6.7. For the native white the percentage is 0.3, the foreign-born white, 13.8, and for the negro, 2.1.

That the younger generation in this city is much less illiterate than the older is indicated by the fact that while 6.5 per cent. of the males and 9.4 per cent. of the females 21 years of age and over are illiterate, the percentage of illiteracy in the population 16 to 20 years of age is but 1.0.

POPULATION AND AREA OF NEW YORK STATE COUNTIES.

(In computing the increase from 1890 to 1900 for certain counties the population of Indian reserva- in 1900 has been deducted from the total population of the county in order to make it comparable the total for 1890, which does not include the population of Indian reservations. The deductions made for the several counties are as follows: Cattaraugus, 1,982; Chautauqua, 31; Erie, 1,305; Franklin, 3; Genesee, 346; Niagara, 337; Onondaga, 530.)

County.	When Formed.	Land Area Sq. M.	Population 1920.	Pop. Per Sq. M. 1920.	Population 1910.	Population 1900.	Population 1890.	Population 1880.	Population 1870.

NOTE TO THE ABOVE TABLE.

The absence of population figures for 1910 or 1900 indicates that the place was incorporated at some between the censuses unless otherwise explained by footnote. Places which in 1910 were incorporated through surrender of charter or for other reasons have no corporate existence in 1920 are not presented als table.

POPULATION GROWTH OF CHIEF CITIES IN NEW YORK STATE.

bany—(1920) 113,344; (1910) 100 253; (1900) 52; (1890) 94,923; (1880) 90 758; (1870) 69,422; 0) 62,367; (1850) 50,763 (1840) 33,721; (1830) 9), (1820) 12,630; (1810) 10,762; (1800) 5 349; 0) 3,498.

MANUFACTURES IN NEW YORK STATE IN 1919.

A preliminary statement of the general results of the 1920 census of manufactures, covering the y 1919, for the State of New York was issued October 10 1921 by the Bureau of the Census, Department Commerce. The figures are preliminary and subject to such change and correction as may be found ne sary from a further examination of the reports The census of manufactures 1919, like that of 1914 exclu the hand trades, the building trades, and the neighborhood industries, and took account only of establi ments conducted under the so-called factory system. The word 'establishment' as used in the cer reports may mean more than one mill or plant, provided they are owned or controlled and operated t single individual, partnership, corporation, or other owner or operator and are located in the same t or city. The reports were taken for the calendar year ending December 31, 1919, or the business year of establishment most nearly conforming to that calendar year

PERSONS IN GAINFUL OCCUPATIONS IN NEW YORK STATE CITIES.

(U. S. Census Returns, as of Jan. 1, 1920.)

The occupation figures cover persons 10 years of age and over. The term "gainful occupations", for census purposes, is construed to include all occupations except those of women doing housework in their own homes and having no other employment and those of children working at home merely on general housework, on chores, or, at odd times, on other work.

City.	Total Both Sexes.	Per Cent. of Total Pop.	Per Cent. of Pop. 10 yrs. & Over.	Males.	Per Cent. of All Gainful Work'rs	Per Cent. of All Males 10 yrs. & Over.	Females.	Per Cent. of Total Pop.	Per Cent. of All Females 10 yrs. & Over.

Japanese	5	5	121	80	173,100
Chinese	1	4	12	12	3,000

Native includes farmers with country of birth not reported, as follows: For 1920, 2,892; for 1910, 681.

The figures above show that Canadian, English, German, Irish, Scotch, colored, and Indian farmers are decreasing in New York State, while Austrian, Danish, French, Dutch, Hungarian, Italian, Polish, Russian, Swedish, and Swiss farmers are increasing in number, particularly as to Poles, Slavs, Italians and Hungarians.

NUMBER OF FARMERS, BY TENURE, COLOR, AND NATIVITY, 1920 AND 1910.

Tenure.	All Farmers.		Native White.		Foreign-Born White.		Colored.	
	1920.	1910.	1920.	1910.	1920.	1910.	1920.	1910.
Total	193,195	215,597	166,869	187,629	25,776	27,029	550	939
ners	151,717	166,674	130,404	144,850	20,884	21,016	429	808
nagers	4,376	4,051	3,586	3,390	765	647	25	14
ants	37,102	44,872	32,879	39,389	4,127	5,366	96	117

Native white includes farmers with country of birth not reported.

MORTGAGED FARMS, 1920 AND 1910.
(Owned farms only; includes all farms owned in whole or in part by the operator.)

Class.	No. of Owned Farms.		Increase.		Class.	No. of Owned Farms.		Increase.	
	1920.	1910	No.	Per Cent.		1920.	1910.	No.	Per Cent.
otal	151,717	166,674	—14,957	—9.0	Mortgaged	66,633	72,311	—5,678	—7.9
from mo tgage	75,522	93,118	—17,596	—18.9	Unknown	9,562	1,245	8,317	668.0

A minus sign (—) denotes decrease. The comparative figures for farms free from mortgage and tgaged are due to the fact more farms were tabulated "unknown" in 1920 than in 1910.

MORTGAGED FARMS (OR FARM HOMES), 1890 TO 1920.

Class.	Owned Farms.		Owned Farm Homes.		Per Cent. of Total.			
	1920.	1910.	1900.	1890.	1920.	1910.	1900.	1890.

from mortgage	75,522	93,118	89,655	97,509	53.1	56.3	53.7	55.8
tgaged	66,633	72,311	77,164	77,143	46.9	43.7	46.3	44.2
nown	9,562	1,245	3,784					

Total includes "free from mortgage" and "mortgaged."

MORTGAGE DEBT, 1920 AND 1910.

Item.	Owned Farms Mortgaged.		Item.	Owned Farms Mortgaged.	
	1920.	1910.		1920.	1910.
arms reporting amt.			Aver. int. paid, per cent.	5.4	
debt	59,735	62,555	Average value per farm.	$6,497	$4,551
e of land and bldgs.	$388,114,245	$284,659,163	Average debt per farm..	$2,436	$1,556
. of mortgage debt..	$145,533,268	$97,309,848	Aver. equity per farm...	$4,061	$2,995
o of debt to value, r cent	37.5	34.2			

Includes only farms consisting wholly of owned land and reporting amount of debt. In considering comparative figures it should be borne in mind that the mortgage debt may have been more comly reported at one census than at the other.

MISCELLANEOUS NEW YORK STATE AGRICULTURAL DATA.

uction and crop valuation figures relate to calendar year 1919.
The average *dairy cow* in New York produces 502 gallons of *milk* a year.
Total production of *milk* in 1919—756,045,942 gallons, as against 783,479,286 gallons in 1909.
Butter made—24,727,662 lbs., valued at $14,347,664.
Cheese made—521,445 lbs., valued at $172,076.
Total receipts in 1919 from sale of *dairy products*—$174,155,050.
Wool production in 1919—3,350,824 lbs., valued at $1,976,986.
Eggs produced in 1919—62,175,162 dozen, of which 40,455,153 dozen were sold for $20,185,619.
Chickens sold in 1919—4,105,159, valued at $4,067,459.
Honey produced in 1919—3,223,323 lbs., valued at $934,768. About 6 per cent. of New York farmers bees; total number of hives, 127,858, wax produced, 41,178 lbs.

THE PALISADES INTERSTATE PARK.

THE Palisades Interstate Park comprises 36,000 acres (1,000 acres in the State of New Jersey and 35,000 New York State). The park embraces the Palisades cliffs and runs for twelve miles on the west bank the Hudson River from a point north of Fort Lee to Palisades, N. Y. The Harriman Park, which is e highlands region of the Palisades system, runs from Bear Mountain, N. Y., five miles south of West oint, for fifteen miles to Tuxedo, N. Y. The Commission also owns the State Rifle Range at Blauvelt, . Y., and the Hook Mountain quarries. In the creation of the Palisades Park, the State of New York as appropriated in money and lands $3,963,525. New Jersey has appropriated $727,984, including $500 000 r the Henry Hudson Drive. In addition, the Commission has received private contributions of $4,735 144 cash, and lands valued at $1,592,735. All these contributions and appropriations, together with value land donations, aggregate $13,119,419.

In the Palisades section of the park, the Commission maintains pavilions for picnic parties; bath houses id beaches; canoe beach for camping, and facilities for Winter storage of canoes; motor boat basin for small easure craft; week-end camps for working boys; hundreds of individual camps are established here under rmit. In the Harriman Park and Bear Mountain section of the Palisades system there is maintained by e Commission the Bear Mountain Inn, which is a restaurant, built by private funds and operated by e Commissioners for the sale of food at reasonable prices; a lawn plateau for baseball, tennis, running meets, d other organized athletic sports; a large grove on the side of Hessian Lake for picnic parties, benches d tables being scattered throu h this area, and swings for the children; the free use of rowboats is rmitted for a limited period on Hessian Lake; sightseeing automobiles take visitors into the ark which nges into the woodland for fifteen miles; parking places for automobiles have been developed seven ces have been either entirely made or artificially enlarged.

The Commission maintains the largest civil encampment in the world. In 1921 over 52,000 individuals. stly tenement children and mothers, averaged eight consecutive days' vacation each. Camps for work- g girls are maintained at cost. During the summer over 625,000 visitors were at Bear Mountain, nearly 0,000 of whom came by automobile. Over 1,100,000 sales were made at the Bear Mountain Inn Nearly 0,000 people were carried in the Commission automobiles. Over 800,000 people visited the Palisades ction of the park. No concessions are let in the Palisades Park. This park is under the jurisdiction of a int Commission, appointed by the Governors of New York and New Jersey.

George W. Perkins was the President of the New York Commission for nearly twenty years until his ath in 1920. The Commission consists of: New York State—Franklin W. Hopkins, acting President; Du Pratt White Secretary; Edward L. Partridge, Treasurer; Richard V. Lindabury. New Jersey—chard V. Lindabury, President; Edward L. Partridge, Vice-President; J. Du Pratt White Secretary; ederick C Sutro, Treasurer.

The first five-mile section of the Henry Hudson Drive, paid for by the State of New Jersey, at a cost $443,107, was opened Oct. 29, 1921. It extends from Englewood to the top of the Hudson cliffs, over- oking Alpine.

GEOLOGICAL HISTORY OF NEW YORK STATE.

(By John M. Clarke, Director of the State Museum.)

THE geological history of New York can be traced back to the Precambrian era, the oldest recogniz- le in the rocks of the earth. These earliest rocks, the Grenville metamorphosed sediments (gneisses, rble etc.) are, however, not the oldest which ever existed in the State. The Grenville rocks are exposed the Adirondacks and the Hudson Highlands. They prove that in Grenville time. Northern Eastern d probably Southwestern New York was under the sea. After the deposition of the Grenville sediments eous activity took place on a large scale and huge masses of molten rock (granite, anorthosite babbro ite) were pushed into the sediments from below. Some time after the whole Adirondack region was jected to enormous pressure and intensely folded, and then the great mass of Grenville sediments was raised well above the sea.

At the beginning of Cambrian time, when organic life becomes first recognizable in the State, only eastern margin was submerged, but toward the end (Potsdam time) the sea covered the whole region cept the central and northwestern Adirondacks. At the close of Cambrian time Northern New York s, however, above sea level. In the long Ordovician period, during which the Beekmantown, Chazy, ck River limestones, and the Utica, Frankfort and Lorraine shales and sandstones were deposited, the te was most of the time submerged under the Ordovician sea, except for the Adirondack island. Toward end of that period, however, the Green and Taconic Mountains arose along the eastern border of the te and practically all of Northern, Central, Eastern and Northeastern New York became dry land the following Silurian period were deposited the Medina and Oneida sandstone and conglomerate, the nton shale, sandstone, limestone and iron ore, the Rochester shale, the Lockport and Guelph dolomites, Salina shales, salt and waterlime, etc. During the early part of this period the sea had spread over y Central and Western New York, while during the late Silurian it had extended over practically all the te west and east of the Adirondack region. The strata of the next, or Devonian era, comprise the whole tskill and southwestern plateau provinces and cover more than a third of the State. These rocks abound fossils and show that the sea continued to cover at least the southern half of the State. The sea of the rboniferous period hardly came over the boundary of the State from Pennsylvania. At the end of aeozoic time New York, except for a small area at the mouth of the Hudson, was raised during the Ap- achian revolution well above the sea, never to be invaded again until the end of the glacial period. Dur- the long Mesozoic period New York was dry land; in Triassic time considerable volcanic activity pre- led in Southeastern New York, when sheets of lava (the trap of the Palisades) was forced into non-marine assic beds. During the next or Jurassic period the State was above the sea and actively eroded, but in following Cretaceous period Staten and Long Islands disappeared under the sea. At the end of this iod the State, which had been eroded nearly to a plain, was uplifted 2,000-3,000 feet. After this e in the Tertiary period the present drainage and relief of the State were developed in its major fea- es. Finally came the glacial period, which enriched the State with thousands of lakes and waterfalls. ended with the Champlain subsidence, during which the sea came for the last time into New York. nely, into the Champlain Basin and the Hudson Valley. A recent elevation has again drained these tions.

NEW YORK STATE WORKMEN'S COMPENSATION INSURANCE FUND.

CONDITION of the fund on Jan. 1, 1921—Assets, $8,080,277 (investments, $6,283 603; cash in bank, 4,064; accrued interest, $66,708; policy holders' accounts, $1,295,902). Liabilities—$6,858,091 (re- ve for losses, $5,271,011; reserve for deferred claim expenses, $158,130; reserve for unearned premiums, 6,922; other reserves, $1,052,028.

Transactions in 1920—Net premium income, $3,798,305; losses paid, $1,931,965 (medical, $251,654; p. total disabil., $797,084; perm. total disabil., $4,478; perm. partial disabil., $640,473; death, depend- s. and funeral expenses, $238,276).

This statement shows the operations under the General Budget of the State and does not include transactions under sinking funds, special funds, bond moneys and trust funds.

INCOME TAX RETURNS IN NEW YORK STATE.

Payments by individuals and corporations under the New York State income tax law exceeded $37,200,000 for 1919. Those who paid totalled over 618,600. Returns were filed by about 746,000 persons, nearly half of whom had incomes between $1,000 and $2,000. In this class were 144,000 single men, not heads of families, and 82,000 single women, not heads of families. There were over 20,000 unmarried women who filed returns as heads of families. Of all persons who filed returns, 1,752 had incomes of $40,000 to $50,000. The State business corporation tax collected totalled over $42,000,000 in 1920.

VITALITY RATES, NEW YORK STATE, COMPARED WITH ENGLAND AND WALES, 1920.

Area.	Birth Rate.	Death Rate Per 1,000 Population.								Infant Mortality.	
		All Causes	Typhoid Fever.	Smallpox.	Measles.	Scarlet Fever.	Wh'p'ing Cough	Diphtheria.	Influenza.	Deaths Under One Year.	Rate Per 1,000 Births
England and Wales	25.4	12.4	0.01	0.00	0.19	0.04	0.11	0.15	0.28	76,736	80
New York State	22.5	13.8	0.03	0.00	0 11	0.04	0.10	0.18	0.56	20,238	86

THE NEW YORK STATE FOREST PRESERVE.

(Specially prepared for the ALMANAC by the State Conservation Commission.)

NEW YORK STATE'S great Forest Preserve was established by act of the Legislature in 1885. It includes large areas in the two great forested sections of the State, the Adirondack and Catskill Mountains. Article 7, Section 7, of the State Constitution, adopted in 1894, assured its integrity for all time. It provided that "The lands of the State, now owned or hereafter acquired, constituting the forest preserve as now fixed by law, shall be forever kept as wild forest land. They shall not be leased, sold or exchanged, or be taken by any corporation, public or private, nor shall the timber thereon be sold, removed or destroyed. But the Legislature may by general laws provide for the use of not exceeding three per centum of such lands for the construction and maintenance of reservoirs for municipal water supply, for the canals of the State, and to regulate the flow of streams. Such reservoirs shall be constructed, owned and controlled by the State, but such work shall not be undertaken until after the boundaries and high flow lines thereof shall have been accurately surveyed and fixed, and after public notice, hearing and determination that such lands are required for such public use. The expense of any such improvements shall be apportioned on the public and private property and municipalities benefited to the extent of the benefits received."

The objects for which the Forest Preserve were established may be briefly stated as follows:

First—Forests are the great conservers of water supply. The leaves of the forest trees prevent rapid evaporation of moisture from the ground and the soft sponge-like duff of the forest floor hoards the water from melting snow and from rain, allowing it to run gradually into the brooks and rivers. The streams of Europe and Asia have shrunk as the forests have been cut away, and in many parts of our own country the water courses have diminished from the same cause.

Second—Forests increase the fall of rain. As the moisture laden winds from the lakes and ocean sweep over them, their lower temperature precipitates the vapor as rain or snow. Thus the forests are not only conservers of water supply but are also, for all practical purposes, actual producers of water supply.

Third—Forests are great equalizers of climate and temperature. It is a fact of common knowledge that the localities which have the most equable climates, which are most free from violent winds, from periods of drought, and from excessive heat and cold, are the sections which have a considerable forest cover over them or in their immediate vicinity.

Fourth—Because of the pace of our modern civilization, forests have become invaluable as recreation grounds for all the people. In fact their use for this purpose has increased so tremendously within the last twenty years that it is now one of the chief purposes for which a forest preserve should be maintained. Forested regions are also important as sanitary and health resorts, and are absolutely essential for the preservation of fish and game.

Fifth—Without preservation of the forest under State ownership, the supply of timber for the future will be seriously endangered. Private ownership of forest land has proved almost universally to be wasteful and to lead ultimately to complete denudation.

Since the establishment of the Forest Preserve, the State of New York has spent $5,830,800 in the acquisition of land for its extension. In addition large areas of other land have been acquired by tax sales, with the result that January 1, 1921, the area of the Forest Preserve in both the Adirondack and Catskill Mountains aggregated 1,936,492 acres.

Jurisdiction over the Forest Preserve is exercised by the Conservation Commission, which has charge, besides, of the State Reservation at Saratoga Springs, the St. Lawrence Reservation, the Cuba Reservation, and the John Brown Farm in the Town of North Elba, Essex County. Besides administrative control over this property, the commission also has entire charge of the fighting of forest fires upon both public and privately owned land in the large forested regions.

For the prompt detection of forest fires, fifty-three observation stations are maintained upon mountain tops throughout the Adirondacks and Catskills. All of these stations are connected by telephone lines with the ranger headquarters. Observers are on duty at these stations throughout the entire dry season from Spring until Fall. A force of sixty-five forest rangers and five district rangers is also maintained, to attend to the administration of the State owned land and the fighting of fires upon both State and private land.

The work of reforestation of State land and the raising of trees for the reforestation of private land is also conducted by the commission. For this purpose six nurseries are maintained, having a total capacity of 30,000,000 trees and an annual production of 10,000,000. Approximately 5,000 acres of State land are reforested each year. Trees are sold to private landowners at the cost of production, to municipalities at 50 cents per thousand, and are furnished to State institutions without charge.

The sections of the Adirondack and Catskill Mountains upon which it is most important for the State to insure the maintenance of a continuous forest cover have been defined by law and are known as the Adirondack and Catskill Parks. They are bounded by a line called the blue line. Within these parks approximately one-half of the land is still privately owned. Part of the land of the Forest Preserve lies outside of the park lines, and thus the park lines, which run through both State and private land, are simply lines to designate the most vital sections of the mountain regions. Extensive lumbering operations upon much of the land within the park lines are endangering the water sheds, and this led to a referendum vote in 1916 for the authorization of a bond issue of $7,500,000 for purchase of additional land to be added to the Forest Preserve. The proposition passed by a large majority and the Conservation Commission is now engaged upon the expenditure of this sum. The Legislature in 1917 appropriated $2,500,000 of the bond issue for immediate use. The recommendations of the Conservation Commission are submitted to the Commissioners of the Land Office, who act with the Conservation Commission in finally deciding on purchases.

It is conservatively estimated that the Forest Preserve is now worth, if it should be placed on the market, more than $40,000,000, showing an increase in value of approximately 800 per cent. over its cost to the State.

Investigations made by the Conservation Commission indicate that investment in hotels, boarding houses and other facilities for the care of Summer visitors in the Forest Preserve regions, the amount of money annually expended in caring for these people, the money spent by vacationists, and the number of persons actually engaged in the business of caring for Summer visitors, far exceed in amount similar figures for the lumber industry, thus indicating that the chief business in the Forest Preserve regions has now come to be that of caring for vacationists.

For such a business the Adirondack and Catskill Mountains are incomparable. They are covered almost everywhere with the native trees of North America—pine, spruce, hemlock, balsam, cedar, tamarack, beech birch, maple, and the other less important deciduous trees. Even on many of these areas that have been devastated in the past, these trees are returning.

Under a careful system of game protection the fauna native to the woods is preserved, and in many respects is increasing. Chief among the large animals are deer and bears. Beaver, which had become extinct, were reintroduced to the Adirondacks in 1905 and have since spread over every section of the woods. They have also been introduced in the Catskills and are becoming more abundant there. In 1915, through co-operation with the Benevolent and Protective Order of Elks, a carload of elk from Yellowstone Park were liberated in the Adirondacks. Among other common animals, many of which furnish a large amount of fur, should be mentioned the fox, mink, otter, marten, weasel, fisher, coon, and muskrat.

The lakes and streams, which are annually stocked by the Conservation Commission, contain brook trout, lake trout, rainbow trout, brown trout, largemouth and smallmouth black bass, great northern pike, pickerel, perch, bullheads, and many of the other coarser fishes.

NEW YORK STATE MUSEUM.

(Prepared by the Museum for the Almanac.)

The title, New York State Museum, is the statutory name of a scientific research organization. Historically it is the outcome of the great Natural History Survey of the State of New York organized in 1836. The nucleus of these now extensive collections are the scientific materials brought together during the existence of that survey. Under the present statute the "New York State Museum" includes the work of the State Geologist and his associates, who together form the Geological Survey of the State of New York; that of the State Botanist and his staff; of the State Entomologist and his staff; the Zoologist and the Archaeologist. The museum collections, as such, originate partly from the materials acquired for the researches of these officials and partly from special additions made to exemplify the resources of the State of New York. The State Museum is likewise known as the Department of Science of the University of the State of New York, and, as such, is under the administrative control of that university. The collections of the museum are arranged on a floor space of about 100,000 square feet on the upper floors of the State Education Building at Albany. These collections form what has been planned and worked out as an essentially State or provincial museum exhibiting the natural resources of animal and plant life, the mineral wealth, geological history, and aboriginal culture of New York State. It has not planned to receive, nor does it especially welcome, material from outside the State, unless this is adapted to illuminate the scientific problems of the State itself. The collections are open free on every week day, 9 A. M. to 5 P. M., and on Sundays, October 1 to May 1, 2 to 5 P. M. The Legislature grants $55,000 a year for maintenance.

Hall of Minerals—The general collection of about 5,000 specimens is supplemented by a very extensive and complete collection of minerals from New York State, probably the best in existence. There are probably in this hall about 14,000 specimens on exhibition.

Hall of Geology—The collections here illustrate the rock structure and the mineral wealth of the State, especially the application of minerals, ores and rocks to commerce and the industrial arts.

Hall of Fossils—This hall includes vertebrates and invertebrates and the long continued researches of the Geological Survey have made the collection of invertebrate fossils, and the corresponding classification of the rocks of New York, the standard of comparison for the world. The use of restorations of extinct animal life, with relief maps, reconstructions, &c., has helped to visualize the appearance of these.

Hall of Zoology—The animal life of New York is exhibited in this hall, the larger mammals in habitat groups and the smaller mammals, birds, fishes, reptiles and mollusks in extensive series of well-mounted specimens. The collection of birds eggs is one of the largest in America. This section also contains a representative gathering of insects, arranged to illustrate their economic relations to agriculture and forestry. The section of Botany maintains an herbarium of upward of 100,000 specimens of New York plants.

Halls of Archaeology and Ethnology—These contain six large groups representing the customs and habits of the Iroquois Indians in their natural state, before the advent of the white man. These figures have been cast from the best available representatives among the surviving Iroquois and mounted amid actual accessories and against painted backgrounds. They depict the hunt, warfare, council ceremony, industries and agriculture of the New York aborigines. The collections of relics of Indian life in New York are the most extensive in existence, and these collections, with the groups referred to, fill the mezzanine floors.

Publications:—The museum issues general and special publications on the natural resources of the State, in the form of bulletins, memoirs and annual reports. These now number about 350 and each can be obtained on payment of a small fee.

The museum owns three parcels of real estate, presented by citizens for preserving their geological interest: 1—The Clark Reservation near Syracuse, a tract of 104 acres characterized by its extraordinary display of abandoned cataracts and gorges produced by the flow of the post-glacial waters; 2—Stark's Knob Reservation, or Volcano, near Schuylerville; 3—The Lester Park, or Cryptozoon Ledge in the town of Greenfield, west of Saratoga Springs.

LAKES IN NEW YORK STATE.

The great northern lakes, viz.: Ontario, Erie and Champlain, are partly in this State. Lake George, south of Lake Champlain, communicates with it by a short outlet. It is 37 miles long, and from one to seven broad, and embosoms more than 200 islets. Its waters are so clear and transparent that the bottom is visible at almost any depth; and on each side it is skirted with mountains, abounding in romantic scenery. There are numerous small lakes in the western part of the State which discharge their waters into Lake Ontario, either directly or indirectly through the Seneca and Oswego Rivers, and being connected by canals and railroads, afford facilities to transportation. These, with their extent, &c., are as follows:

Lake.	Length Miles.	Breadth Miles.	Lake.	Length Miles.	Breadth Miles.	Lake.	Length Miles.	Breadth Miles.
Oneida	22	4 to 6	Skaneateles	15	½ to 1	Crooked	22	1½

Of the 1920-21 crop, 25,000 tons were cut above Albany; 141,730 tons below Albany, and 24,093 tons on lakes and ponds.

DAILY CAPACITY OF ARTIFICIAL ICE PLANTS IN NEW YORK CITY.

Manhattan, 5,630 tons; Bronx, 1,950 tons; Brooklyn, 5,435 tons; Queens, 1,820 tons; Richmond, 265 tons; total for city, 15,100 tons.

According to H. W. Cole, Secretary-Treasurer of the Natural Ice Association of America: "No ice has been harvested on the rivers of Maine for other than local use during the past ten years. The cost of transportation from Maine to New York and Philadelphia forbids the use of the ice in those places."

UNIVERSITY OF THE STATE OF NEW YORK.

AND STATE DEPARTMENT OF EDUCATION

(Contributed by the Department.)

The list of Regents is on page 534. They elect the *President of the University and State Commissioner of Education*—Frank P. Graves; *Assistant Commissioner for Higher Education and Director of Professional Education*—Augustus S. Downing; *Assistant Commissioner for Secondary Education*—Charles F. Wheelock *Assistant Commissioner for Elementary Education*—George M. Wiley; *Chiefs and Directors of Divisions: Administration*—Hiram C. Case; *Vocational and Extension Education*—Lewis A. Wilson; *Archives and History*—James Sullivan; *Attendance*—James D. Sullivan; *Library Extension*—William R. Watson; *Examinations and Inspection*—Avery W. Skinner; *School Buildings and Grounds*—Frank H. Wood, *Law*—Frank B. Gilbert; *Library School*—Edna M. Sanderson; *School Libraries*—Sherman Williams; *Visual Instruction*—Alfred W. Abrams, and *Secretary to the President of the University*—Mrs. N. F. Steers.

The educational system of the State of New York is under the control of the Board of Regents consisting of twelve members, one from each of the nine judicial districts of the State and three others at large, each member being elected for a term of twelve years at a joint session of the two Houses of the Legislature held in the second week of February of each year.

In its origin and history it is unique. By a law of 1784, following ideas enunciated by Diderot, a French encyclopedist, a corporation entitled the University of the State of New York, governed by a Board of Regents, was established to supervise and control collegiate and academic instruction, with the power to grant charters to institutions engaged in such work. Under the impetus given by the members of the Board of Regents a State superintendency for common schools, subsequently known as the State Department of Education, with control over education below collegiate and academic grades, was established by law in 1812. These two agencies for educational control continued as separate institutions until 1904 when they were combined and continued under the control of the Board of Regents which had become a constitutional body under the name of the University of the State of New York in accordance with Article 9, Section 2 of the Constitution of 1894.

The powers exercised by the Board of Regents may be increased, modified or diminished by the Legislature, but the number of its members may not be reduced below nine nor may the Legislature fail to provide for the maintenance and support of the system of free schools wherein all of the children of the State may be educated (Article 9, Section 1). Under legislative enactment the Board of Regents is the embodiment of the educational agencies of the commonwealth. Its province is the entire range of education It embraces the membership and the work of the public schools, academies, colleges, professional, technical and normal schools, universities, libraries, museums and learned societies. It provides opportunity for co-operation and understanding among its members while diminishing or adjudicating occasions of friction and conflict; adapts educational policy to varying needs, and indicates and provides a continuity of training. It accumulates books and manuscripts, supervises the public archives, collects valuable natural objects, and may carry on educational historical and scientific research work directly on behalf of the State; grants all educational charters in the State, confers honorary degrees, conducts examinations, and awards certificates, diplomas and degrees; admits to certain professions and occupations, and regulates the certification of public accountants and nurses. It apportions State educational funds. It fosters all forms of cultural work, such as is rendered by libraries and local associations of an educational and historical character, distributes printed matter, circulates library books and lantern slides, encourages civic improvement work; in fact, does everything it can to stimulate the intellectual life of the people. It meets monthly and has an annual convocation for the consideration of important educational matters.

Though it does not exercise a complete monopoly of education, for private institutions exist subject to no public authority, which do good work, it is the policy of the State to bring all chartered educational institutions into the university and, while allowing them virtually complete self-government in internal administration, to hold them accountable for the proper performance of their duties. These chartered institutions are subject to the inspection of the Regents, who may require annual reports of them.

DOGS IN NEW YORK STATE.

City and town clerks in New York State, outside of New York City, issued licenses for 231,879 dogs and for 170 dog kennels between March 1, 1920, and June 30, 1921. They collected in license fees $646,-03.16, and $4,506.90 in fees for the reclaiming of dogs which had been seized, making a total revenue of $650,510.06. Owners of dogs outside of New York City who fail to obtain licenses are liable to prosecution, with a penalty of $10 and costs, under an amendment enacted by the last Legislature. Under the old law unlicensed dogs were liable to seizure, but under the amended law the owner is made responsible.

There are over 250,000 dogs in the City of New York. It is estimated they run 2,000,000 miles a day.

NEW YORK STATE COVERNMENT.

Governor, Nathan L. Miller, Rep., Syracuse. Term expires Dec. 31, 1922. Salary $10,000 and mansion.
Secretary to Governor, W. Ward Smith; *Counsel to Governor*, C. T. Stagg.
Adjutant General, Brig. Gen. J. Lester Kinkaid, of Syracuse. His headquarters is at Albany. He is an officer of the National Guard.
Lieutenant-Governor, Jeremiah Wood, Rep., Lynorook. Term expires Dec. 31, 1922. Salary, $5,000

Agriculture, State Schools of—At Alfred University, Alfred (where also is located the State School of Clay Working and Ceramics); at Farmingdale, L. I.; at Morrisville, Madison County; at St. Lawrence University, Canton; at Cobleskill, Schoharie County, and at Delhi, Delaware County (in connection with the State School of Domestic Science).

The State Agricultural Experiment Station is at Geneva. *Director*—Wm. Thatcher.

The State College of Agriculture is at Cornell University, Ithaca, both of which institutions are managed by the State and its representatives.

Architect, State—Lewis F. Pilcher, of Brooklyn.

Athletic Commission, State: *Chairman*—William Muldoon, of Harrison; George K. Morris, of Amsterdam; Frank Dwyer, of Geneva.

Secretary—Harry Burchell, 291 Broadway, N. Y.
Dep. Comm.—Clarence Jennings, of Rochester; John E. Van Derbosch, of Schenectady; Thomas F. O'Rourke and Walter G. Hook, of New York.
Adv. Comm.—George W. Aldrich, Col. Roscoe Conkling, George J. Corbett, Charles Thorley, and Bernard F. Gimbel, all of New York City.

Banks, Supt. of—Geo. V. McLaughlin, Brooklyn.

Blind, Commission for—Hall of Records, N. Y., *Chairman*, M. C. Migel. *Sec.*, Grace S. Harper.

Bridge and Tunnel Commission, State—*Chairman*, George R. Dyer, of N. Y.; *Vice Chairman*, E. W. Bloomingdale, N. Y.; McDougall Hawkes and A. J. Shamberg.

Bronx Parkway Commission—280 Madison Ave., N. Y.

Canal Board—Composed of the Lieut.-Gov., Sec. of State, Comptroller, Treasurer, Atty. Gen., Eng. and Surveyor and Supt. of Public Works.

Charities, State Board of—*President*, W. R. Stewart, N. Y.; *Vice President*, Wm. H. Gratwick, Buffalo. *Other Members*—Lee K. Frankel, S. A. Fahnestock, and Victor F. Ridder of N. Y.; Dr. J. R. Kevin, Brooklyn; Mrs. Martin H. Glynn, Albany; Mrs. E. W. Higley, Hudson Falls; Ceylon H. Lewis, Skaneateles; P. S. Livermore, Ithaca; Mrs. Lillie B. Werner, Rochester; Hy. Marquand, Bedford Hills; *Secretary to Commission*, Chas. H. Johnson, Albany.

The State Charitable Institutions are—Schools for Mental Defectives, Newark; Syracuse; Rome; Craig Colony for Epilept., Sonyea; Letchworth Village (epileptics and feeble minded), Thiells Hosp. for Crippl. and Deform. Child., W. Haverstraw; Hosp. for Treat. of Incip. Pulm. Tuberc., Raybrook; Soldiers and Sailors' Home, Bath; Woman's Relief Corp Home, Oxford; School for Blind, Batavia.

INSTITUTIONS FOR THE DEAF AND DUMB.

The several institutions for the deaf and dumb receive $325 a year per capita from the State for such pupils, between the ages of twelve and twenty-five years, as may receive appointments from the Commissioner of Education. Pupils between five and twelve years of age are received as county pupils at the annual charge to counties of $300, upon the order of an overseer of the poor or a county supervisor. As a rule the grounds and buildings of these institutions belong exclusively to private corporations, who appoint the superintendent or principal.

N. Y. Instit. for the Instruct. of the Deaf and Dumb (opened May 20, 1818), New York.

Le Couteulx St. Mary's Instit. for the Improv. Instr. of Deaf Mutes (opened November, 1862), Buffalo.

Instit. for the Improv. Instr. of Deaf Mutes (opened March 1, 1867), New York.

St. Joseph's Instit. for Improv. Instr. of Deaf Mutes: Fem. Dept. (opened 1870), Westchester; fem. branch (opened 1874), Brooklyn; male dept. (opened 1875), Westchester.

Central N. Y. Instit. for Deaf Mutes (opened March 22, 1875), Rome.

Western N. Y. Instit. for Deaf Mutes (opened October 4, 1876), Rochester.

Northern N. Y. Instit. for Deaf Mutes (opened Sept. 10, 1884), Malone.

Albany Home School for the Oral Instr. of the Deaf (opened Sept. 17, 1889), Albany.

Fiscal Supervisor of State Charities, Frank R. Utter, of Friendship.

JURY DUTY IN THE CITY OF NEW YORK.

To be qualified to serve, a person must be not less than 21 nor more than 70 years of age, and he must be a male citizen of the United States, and a resident of the County of New York; and he is a resident within the meaning of the jury law if he dwells or lodges here the greater part of the time between the first day of October and the last day of June. He must be the owner, in his own right, of real or personal property of the value of $250; or the husband of a woman who is the owner, in her own right, of real or personal property of that value. He must also be in the possession of his natural faculties, and not be infirm or decrepit; intelligent, of good character, and able to read and write the English language understandingly.

A clergyman, minister of any religion officiating as such and not following any other calling. A practising physician, surgeon, surgeon-dentist, or veterinary surgeon not following any other calling, and a licensed pharmaceutist or pharmacist, or a duly licensed embalmer, while actually engaged in his profession as a means of livelihood. An attorney or counsellor-at-law regularly engaged in the practice of law as a means of livelihood. A professor or teacher in a college, academy, or public school, not following any other calling. Editor, editorial writer, or reporter of a daily newspaper or press association regularly employed as such and not following any other vocation. The holder of an office under the United States, or the State, or City or County of New York, whose official duties, at the time, prevent his attendance as a juror. A Consul of a foreign nation. A captain, engineer, or other officer actually employed upon a vessel making regular trips; a licensed pilot, actually following that calling. A superintendent, conductor, or engineer employed by a railroad company other than a street railroad company, or a telegraph operator employed by a press association or telegraph company who is actually doing duty in an office or along the railroad or telegraph line of the company or association by which he is employed. Honorably discharged firemen. Active and honorably discharged militiamen and active members of the Old Guard. A duly licensed engineer of steam boilers actually employed as such. Inspectors, poll clerks, and ballot clerks, or a person who is physically incapable. Grand. Sheriff's, Special, and Municipal Court Jurors.

The law of the County of the Bronx, recently created, is the same as Manhattan.

EDISON GOLD MEDAL WINNERS.

1909, to Elihu Thomson; 1910, to Frank J. Sprague; 1911, to George Westinghouse; 1912, to William Stanley; 1913, to Charles F. Brush; 1914, to Alexander Graham Bell; 1916, to Nikola Tesla; 1917, to John J. Carty; 1918, to Benjamin G. Lamme; 1919, to W. L. R. Emmet; 1920 to Michael I. Pupin.

THE NEW YORK SOUTHERN SOCIETY.

The New York Southern Society, with offices at 5 Nassau Street, was formally organized in the City of New York on November 9, 1886, and incorporated under the laws of the State of New York in May 1889. The object of the society is to cherish and perpetuate the memories and traditions of the Southern people and to cultivate friendly relations between the Southern men resident, or temporarily sojourning, in New York City.

The officers for the year 1921-1922 are *President*, Samuel McRoberts; *Vice President*, Junius Parker; *Secretary*, William G. Fitzwilson; *Treasurer*, William D. Buckner.

The organization has a membership of about 1100 with members located in nearly every State in the Union and in many foreign countries. Numbered among the members are: Thomas Nelson Page, George Foster Peabody, Thomas F. Ryan, Martin W. Littleton, Irvin Cobb, Bainbridge Colby, Barnard M. Baruch, William G. McAdoo, Barron G. Collier, Percy H. Johnston, and many others of distinction.

MAYORS OF THE CITY OF NEW YORK.

BEFORE the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1898 the term of the first Mayor of Greater New York (Van Wyck) began.

Richmond County—J. H. Tiernan ($7,500). *Clerk of Court*—W. Finley ($4,500).

NEW YORK CITY'S FIRST LIBERTY POLE.

THE first Liberty Pole was raised in New York City in 1776, in what is now City Hall Park. The sixth, on the same spot, a reproduction of the original, was raised on June 14, 1921. It stands between Broadway and the City Hall, on a line with Warren Street, and is the gift of the Sons of the Revolution and the New York Historical Society.

At the base of the pole is a box containing a bulletin of the New York Historical Society, copies of current newspapers, official records of the Sons of the Revolution and copies of Valentine's Manual of New York and Guide to New York.

"Pop Goes the Weazel," a favorite tune in revolutionary days, was the tune played as the banner was unfurled, after which Senator Willis of Ohio sounded the keynote of the day when he issued a challenge to Bolshevists or Anarchists or any others who might attempt to tear the pole down in future.

23—C. H. Woodward, Mrs. Myrta M. Hanford.

PLATINUM STAMPING LAW.

THE New York Platinum Stamping Law, enacted by the Legislature at the request of the Jeweller's Vigilance Committee, provides that if an article is made of platinum and any other metals appearing to be platinum, and if such article is stamped billed or marked platinum, or any word that looks like platinum, or an abbreviation of it, then all the parts of the article which appear to be platinum will be considered as platinum and will have to come up to the standard of 925-1,000 fine.

The standard is 925-1,000 fine, which not only includes the platinum metal alone, but also the other metals in the platinum group, and if tests are made, all the metals in this family group of platinum may be included.

THE AMERICAN LEGION.

(National headquarters, Indianapolis, Indiana.)

The American Legion, composed of the men and women who wore the uniform of the United States in the great World War, was organized in 1919. The 1921 Convention was held at Kansas City, Mo., Oct. 31-Nov. 2.

NATIONAL OFFICERS.

Commander—Hanford MacNider, Mason City, Iowa. *Vice Commanders*—H. Nelson Jackson, Burlington, Vt.; George L. Berry, Nashville, Tenn.; Raymond O. Brackett, Marblehead, Mass.; Charles S. Kendrick, San Francisco, Cal.; John A. McCormick, Las Animas, Colo. *Chaplain*—Rev. E. A. Blackman, Kansas. *Adjutant*—Lemuel Bolles, Indianapolis, Ind. *Treasurer*—Robert H. Tyndall, Indianapolis, Ind. *Judge Advocate*—Robert A. Adams, Indianapolis, Ind. *Historian*—Eben Putnam, Wellesley Farms, Mass. *Assistant Adjutant*—R. G. Creviston, Indianapolis, Ind.

Among the distinguished guests of the Legion at the Convention were: Vice President Calvin Coolidge, Gen. John J. Pershing, Rear Admiral Hugh Rodman, Major Gen. John A. Lejeune of the Marine Corps; Marshal Foch, of France; Lord Admiral Beatty, of Great Britain; Gen. Armando V. Diaz, of Italy; and Lieut. Gen. Baron Jacques, of Belgium. There were Legion delegates present not only from every State in the Union, but also from Africa, Alaska, Brazil, Chile, China, Cuba, Great Britain, France, Guatemala, Hawaii, Japan, Panama, Peru, Porto Rico, Honduras, Turkey and Venezuela.

The convention adopted a resolution declaring that the "sentiments expressed by America's Ambassador, Col. George Harvey, in his Pilgrim Day speech, setting forth the reasons for America's entry into the World War and the cause for which America fought, do not represent the true American attitude as interpreted by the American Legion, and let it be known now and for all time that America fought not only for the maintenance of America's rights, but for the freedom of the world, and that a copy be forwarded to the President of the United States."

THE AMERICAN LEGION AUXILIARY—NATIONAL BODY.

The following officers were elected by the first national convention, at Kansas City, of the American Legion Auxiliary: *President*—Mrs. Lowell F. Hobart, Milford, Ohio. *Vice Presidents*—Mrs. W. H. Cudworth, Milwaukee, Wis.; Mrs. Clarence R. Edwards, Westwood, Mass.; Mrs. Madge Johnson, Aberdeen, S. D.; Mrs. Carrol Marks, Los Angeles, Cal.; Mrs. Edward Clinton Murray, Houston, Tex. *Secretary*—Miss Pauline Curnick, Indianapolis, Ind. *Treasurer*—Miss M. I. McCoy, Topeka, Kan. *Historian*—Mrs. Belle Nye, Albuquerque, N. M. *Chaplain*—Mrs. F. O. Burdick, Wichita Falls, Tex.

AMERICAN LEGION AUXILIARY—N. Y. STATE BODY.

Chairman—Miss Thais Magrane, 330 W. 88th St., N. Y. *Vice Chairmen*—Mrs. W. G. Keens, Albany; Mrs. P. L. Ryan, Syracuse; Mrs. J. J. Reardon, Elmhurst. *Secretary* and *Treasurer*—Mrs. Arthur A. Ransom, Sea Cliff. *District Chairmen*—(1) Mrs. Emma L. Belcon, 2440 Crotona Ave., Bronx; (2) Mrs. Irene A. Land, 559 79th St., Brooklyn; (3) Mrs. Stanley Matthews, Kingston; (4) Mrs. R. E. Brown, Granville; (5) Mrs. Jones, Utica; (6) Mrs. Ann Seymour, Binghamton; (7) Mrs. G. L. Roe, Rochester; (8) Mrs. U. G. Keeley, Lancaster; (9) Mrs. Edw. B. Garrison, Monroe.

THE AMERICAN LEGION—DEPARTMENT OF NEW YORK.

(State headquarters, Hall of Records, Chambers and Centre Sts., N. Y. City.)

Officers: *Commander*—William F. Deegan, New York City. *1st Vice Commander*—Albert S. Callan, Chatham. *2d Vice Commander*—Robert C. Booth, Plattsburg. *3d Vice Commander*—Percival H. Case, Rochester. *Adjutant*—Edward J. Kiely, Jr., Jamaica, N. Y. *Treasurer*—H. Allster Morriss, New York City. *Historian*—Prof. Finla G. Crawford, Syracuse. *Chaplain*—Rev. Gregory Mabry, Kingston.

District Chairmen—James M. Blackwell, 1st Judicial District, 63 Wall St., New York City; Donald C. Strachan, 2d Judicial District, 255a Clifton Place, Brooklyn; Edward M. Scheiberling, 3d Judicial District, Albany; William E. Flanders, 4th Judicial District, Norwood; Theodore H. Skinner, 5th Judicial District, Kenwood; Charles P. Coffey, 6th Judicial District, Ithaca; Dr. R. C. Hill, 7th Judicial District, Bath; Bernard Ryan, 8th Judicial District, Albion; Elmer H. Lemon, 9th Judicial District, Newburgh.

County Chairmen—Manhattan, Thos. J. Brady, 140 W. 42d St.; Bronx, Timothy F. Driscoll, 2656 Decatur Ave.; Kings, Donald C. Strachan, 111 Broadway, Manhattan; Queens, Edward Kiely, Jr., 94 Herriman Ave., Jamaica; Richmond, E. C. Badeau, 92 Taylor St., West New Brighton.

TRANSIT COMMISSION'S READJUSTMENT PLAN.

Following is a summary of the Transit Commission's plan for readjustment of N. Y. City street railroads:

1. All existing lines—subway, elevated and surface—should be unified for operation, and under control of a single authority in which the companies and the City participate on equal terms.

2. The railway properties still in private ownership, should, so far as required for purposes of the unified system, be transferred to the City; the owners receiving new securities, based on actual value for operating purposes.

3. The possession of any of the roads for purposes of operation should be based on acceptance from the City of new leases for restricted periods, and the revenue used only for payment of actual operating cost and interest and sinking fund charges on new securities—plus limited percentages of profit allowed when earned.

4. New securities should be amortized in favor of the City, subject to the right of the City to retake any of the lines on payment of unamortized proportion of securities.

5. Provision should be made from revenue of roads for payment in each year of interest and sinking fund charges on city's investment in dual subways; and on all subsequent rapid transit investments by City.

6. The preferential allowance of profits to the companies for rights yielded under previous contracts or leases, and claims based on unpaid accumulation of preferential profits should be given up; and all intercompany leases or other undertakings covering use of lines or equipment cancelled.

7. The lines in the reorganized system should be arranged to eliminate duplication of service, so that the roads will serve long hauls, and surface cars—or buses—local and connecting hauls.

8. Only such lines as in the judgment of the Commission are adaptable to such a system should be acquired, or accorded value for acquisition.

9. As rapidly as possible financially full and continuous service should be restored on all lines, free transfers re-established and postponed repairs made.

10. All train and car schedules should be arranged to provide for comfort and convenient service at all hours.

11. Immediate provision should be made for new subways.

12. Provision should be made for winding up affairs of present operating companies at earliest practicable time on basis of adjustment suggested, for settlement by them of current liabilities before transfer of lines to City and for termination of receiverships.

13. In order to preserve unified rate of fare, all surplus earnings should be pooled and a proper fund established, to consist of such surplus earnings and such temporary borrowings as may be necessary to cover current needs.

14. The rate of fare shall not be fixed, in any discretionary sense, by the Commission or by any other authority but shall be determined year to year, automatically, according to actual costs of operation.

The Commission said further that until the new plan is tested present fares shall remain at 5 cents.

POST OFFICES IN NEW YORK CITY.

THE **New York General Post Office**, with jurisdiction over Manhattan and the Bronx, covers the two city blocks, 31st Street to 33rd Street, Eighth Avenue to Ninth Avenue. The main entrance is on Eighth Avenue. *Postmaster*—Edward M. Morgan. *Assistant Postmaster*—Edward S. Post. In this building are located the Postal Inspectors, Railway Mail Service, and all the general offices

The old General Post Office, now called the City Hall Station, covers the triangular block bounded by Broadway, Park Row and Mail Street, abutting City Hall Park.

The Hudson Terminal Station, 30 Church Street, is another large and important branch.

The Grand Central Station, Lexington Avenue and 45th Street, handles the mail over the N. Y. Central and New Haven Railroads, in addition to local business in that district.

POPULATION OF NEW YORK AND LONDON.

NEW YORK.

The City of New York comprises five boroughs—Manhattan, Bronx, Brooklyn, Queens, and Richmond. Manhattan covers New York County, Brooklyn covers Kings County, and the other boroughs cover the counties from which they were named. The total area of the five boroughs and of the incorporated City of New York, according to the Tax Department, is 314.75 square miles. By acres, the areas of the boroughs are as follows: Manhattan, 14,038; Bronx, 23,017; Brooklyn, 49,709; Queens, 75,082; Richmond, 36,600; total—201,446. Their population, Jan 1, 1920, was, by the U. S Census, as follows: Manhattan, 2,284,103; Bronx, 732,016; Brooklyn, 2,018,356; Queens, 469,042; Richmond, 116,531; total—5,620,048.

LONDON.

The registration City of London coincides in area with the municipal and parliamentary City of London; it contains 675 acres, and in 1921 it had a night population of 13,706.

The registration County of London coincides in area with the administrative County of London; it contains 74,816 acres; and in 1911 it held a population of 4,483,241, which, according to an official Government estimate, had grown in 1921 to 4,521,685. The area of registration County of London is approximately the collective area of the London parliamentary boroughs. The registration County of London is the census London and is the area covered by the registration of London vital statistics.

The "outer ring" of London takes in many of the suburbs; in 1911 it had 2,729,673 population, estimated to have increased, in 1919, to 2,900,314. It is included in the bailiwick of the City and Metropolitan Police.

The area of the so-called Greater London, comprising the registration County of London and the "outer ring," is about 693 square miles; in 1921 its population was 7,476,168.

Average population per square mile—Greater New York, 17,841, Greater London, 10,789.

POLICE FORCE OF NEW YORK CITY.

The police force of the City of New York consists (Sept. 1, 1921) of 1 Chief Inspector ($7,500); 1 Dep. Chief Inspector ($5,300); 1 Marine Inspector ($4,900); 21 other Inspectors ($4,900); 1 Chief Surgeon ($6,500); 7 other Surgeons ($4,400); 17 Honorary Surgeons (no compensation); 1 Superintendent of Telegraph ($5,300); Assistant Superintendent of Telegraph ($3,800); 103 Captains ($4,000); 1 Military Captain ($4,500); 24 Lieutenants ($3,300); 769 Sergeants ($2,700); 9,887 Patrolmen ($1,769 to $2,280); 55 Policewomen; 0 Patrolwomen; 5 Chaplains. Total—10,870.

Rank of Doorman abolished by Act of Legislature, April 16, 1912.

Patrolmen, First Grade, five years' service, $2,280 each; Second Grade, less than five years and more than four years and six months, $2,100 each; Third Grade, less than four years and six months and more than four years, $2,040 each; Fourth Grade, less than four years and more than three years, $1,920 each; Fifth Grade, less than three years and more than two years, $1,769 each; Sixth Grade, less than two years and more than one year, $1,769 each; Seventh Grade, less than one year, $1,769 each.

Members of the police force may be retired on one-half rate of compensation after service of twenty-five years, or after twenty years' service upon certificate of police surgeons of permanent disability, or after twenty years' service if a veteran of Civil War. Members of the police force may also be retired upon pension upon certificate of police surgeons of permanent disability or disease contracted without misconduct on the part of the officer, and by reason of the performance of duty, at not to exceed one-half of rate of compensation.

The 1920 fires by boroughs were: Manhattan, 6,899 ($11,718,948); Bronx, 1,456 ($932,440); Brooklyn, 4,476 ($4,605,585); Queens, 1,185 ($775,655); Richmond, 622 ($774,280).

The figures from 1898 include the five boroughs. Number of fires from 1866 to 1897, inclusive, 72,891; total loss from 1866 to 1897, inclusive, $128,116,733; average annual loss per fire from 1866 to 1897, inclusive, $1,757.65.

The first fire engines used in New York were worked by hand and were imported from England in 1731. The population was then 8,628, and there were 1,200 houses. The engines were housed in a part of the City Hall, then at Wall and Nassau Streets. The first Fire Chief was Anthony Lamb, a mathematical instrument maker, with a shop in Old Slip. His salary was $60 a year. In 1737 a volunteer fire department was organized. The paid Fire Department dates from 1865. The first paid Chief was John Decker. The first paid engine company was at Centre and Chambers Streets.

FIRE COMMISSIONERS, NEW YORK CITY.

John J. Scannell, January 1, 1898, to December 31, 1901; Thomas Sturgis, January 1, 1902, to December 31, 1903; Nicholas J. Hayes, January 1, 1904, to December 31, 1905; John H. O'Brien, January 1, 1906, to October 10, 1906; Francis J. Lantry, October 11, 1906, to February 10, 1908; Hugh Bonner, February 11, 1908, to March 17, 1908; Nicholas J. Hayes, March 21, 1908, to December 31, 1909; Rninelander Waldo, January 1, 1910, to May 23, 1911; Joseph Johnson, June 1, 1911, to December 31, 1913; Robert Adamson, January 1, 1914, to December 31, 1917; Thomas J. Drennan, January 1, 1918.

NOTE—The valuations for the year 1897 have been ascertained as follows: In Manhattan and The Bronx from tax bills of 1897 and from information furnished by the Department of Taxes and Assessments; in the Boroughs of Brooklyn Queens, and Richmond from the reports of the various Boards of Supervisors as verified by the expert accountants of the City of New York. The valuations for year 1898 have been ascertained as follows: In Manhattan and The Bronx from the reports of the Department of Taxes and Assessments. In the Boroughs of Brooklyn, Queens, and Richmond as there was no tax levied in 1898, the valuations of the preceding year were repeated The assessed valuations of real estate were increased in 1903 from a varying percentage theretofore of the full value to presumably the full value thereof.

The 1920 tax rate included levy for the Seventh Avenue-Varick Street subway construction, which added nine points in every borough but Richmond.

Note—In 1914 and thereafter the first rate in second column is that of Manhattan, the second is that of the Bronx.

ASSESSED VALUES, TAX LEVIES AND TAX RATES.

(Former City of New York. The tax rate is figured on each $100 of assessed valuation.)

BANKS IN MANHATTAN AND BRONX.

THE New York Clearing House at 77 Cedar Street is composed of banks and trust companies associated for exchanging checks and bills they hold against one another. The Federal Reserve Bank of New York also clears. Other banks clear through members. The representatives of the members appear at the Clearing House at 10 A. M. with the checks and drafts to be exchanged. The resulting balances are ascertained in about an hour, and before 1.30 o'clock those indebted pay their balances, and after that hour the other banks receive the amounts due them. The Clearing House has been in operation since 1853.

Elsewhere in the ALMANAC will be found statistics as to the capital, profits, loans, gold holdings, and deposits of many institutions named in this table.

Banks are open from 10 A. M. to 3 P. M., and on Saturdays from 10 A. M. to 12 noon.

JOHN FRITZ MEDAL WINNERS.

THE John Fritz Medal Board of Award—Societies represented: Amer. Soc. of Civ. Engineers, Amer. Inst. Mining and Metallurgical Engineers, Amer. Soc. of Mech. Engineers, Amer. Inst. of Electrical Engineers. fice, 29 West 39th St., New York.

The first award of the medal was made to John Fritz at a dinner given to him on his eightieth birthday, g. 21, 1902. The other awards have been as follows: 1905, to Lord Kelvin, for work in cable telegraphy; 06, to George Westinghouse for invention and development of airbrake; 1907, to Alexander Graham ll, for invention and introduction of telephone; 1908, to Thomas Alva Edison, for invention duplex and adruplex telegraph, phonograph, development of a commercially practical incandescent lamp, the develop- nt of a complete system of electric lighting, including dynamos, regulating devices, underground system otective devices and meters; 1909, to Charles T. Porter, for advancing knowledge of steam engineering and provements in engine construction; 1910, to Alfred Noble, for notable achievements as a civil engineer; 11, to Sir William H. White, for notable achievements in naval architecture; 1912, to Robert W. Hunt, contributions to early development of Bessemer steel process; 1913, no award; 1914, to Prof. John E. eet, for achievements in machine design, and pioneer work in construction and development of high- ed steam engine; 1915, to Dr. James Douglas, for achievements in mining metallurgy, education, and lustrial welfare; 1916, to Dr. Elihu Thomson, for achievement in electrical invention, in electrical en- eering and industrial development, and in scientific research; 1917, to Dr. Henry M. Howe, for his in- stigations in metallurgy; 1918, to J. Waldo Smith, for providing New York with water; 1918, to Gen. orge W. Goethals, as builder of the Panama Canal; 1920, to Orville Wright, for development of the air- ne; 1921, to Sir Robert Hadfield, for invention of manganese steel; 1922, to Eugene Schneider, for velopment of ordnance (75-m. gun).

THE HARBOR OF NEW YORK.

(Data by courtesy of the Chief of Engineers, U. S. Army.)

NEW YORK BAY is the principal entrance to New York City. It is divided into two parts, the Low Bay and the Upper Bay, by the Narrows, a passage about five-eighths of a mile wide at its narrowest par The entrance to the Lower Bay is between Sandy Hook on the south and Rockaway Point on the nor and is about seven miles wide. The Upper Bay extends from the Narrows to the Battery. The princip entrance channels to the harbor of New York are the Ambrose Channel and the Main Ship-Bayside-Gedn Channel.

Ambrose Channel, which is the newer and more important channel, was completed April 17, 191 It has a comparatively straight course in a northwesterly and then northerly direction from deep water the ocean through the Lower Bay. It is 38,000 feet in length and 2,000 feet in width, and has a depth 40 feet at mean low water. The mean range of tide is about 4.5 feet.

Main Ship-Bayside-Gedney Channel is the route formerly used by deep-draught vessels. It extend westward past Sandy Hook and then northward through the Lower Bay. It has a depth of 30 feet at mea low water and a nominal width of 1,000 feet, which has decreased in places to 500 feet. The Main Chann in the Upper Bay leads between Jersey Flats and Gowanus Flats and has depths of 40 to 90 feet and a widt of about one-half mile. Within the harbor there are several channels connecting the different section Bay Ridge, Red Hook and Buttermilk Channels lie in Gowanus Bay along the Brooklyn shore of the Upp Bay and form an easterly channel that extends from the Narrows to East River and is separated from t Main Ship Channel by a broad shoal off Gowanus Bay and by Governor's Island. By means of these chann the extensive terminals of the Bush Terminal Co. and of the New York Dock Co., as well as the municip terminals in South Brooklyn, are directly accessible for large ships and have easy communication wi the other sections of the inner harbor.

Bay Ridge Channel has a minimum depth of 35 feet at mean low water for its full width of 1,200 fe and of 40 feet for the middle 800 feet of that width. Red Hook Channel is approximately 1,200 feet wi and has available depths of 38 to 40 feet at mean low water throughout its length. The combined leng of these channels is about 4.5 miles and the mean range of tide is about 4½ feet. Buttermilk Chann has a depth of 30 feet, but at places along the sides the depth does not exceed 27 feet. The channel broad, having at its narrowest point a width of about 800 feet.

Rivers, Creeks and Bays.—The Hudson (North) River empties into Upper New York Bay at the Ba tery, the southernmost point of Manhattan Island. The width of the river between established pierhe lines is 3,900 feet at the Battery and gradually decreases to 2,750 feet between Castle Point, N. J., a West 14th Street, New York City, and 2,725 feet opposite West 59th Street.

A vessel drawing 40 feet can be carried at mean low water up to West 19th Street through the easter or New York side of the river; from West 19th to about West 50th Street, through the western, or N Jersey side; and between West 50th and West 75th Streets, in the middle of the river, and thence, general near the east shore, to the north boundary of the city. The mean range of tide at the Battery is 4.2 fe

The East River is a tidal strait about 16 miles long and from 600 to 4,000 feet wide, exclusive of ba and estuaries, and extends from the Battery in New York City to Throgs Neck at the head of Long Isla Sound. This river separates the Boroughs of Manhattan and the Bronx from the Boroughs of Quee and Brooklyn.

The East River has a through channel to Long Island Sound 30 feet deep at mean low water and wi width of 550 feet or more, except at Hell Gate, where the 30-foot channel is too narrow for navigation a the safe depth is limited to 26 feet. A project is under way for deepening the entire channel to 35 a 40 feet. The mean range of tide in the East River is 4.4 feet at the Battery, 4 feet at the Brookl Navy Yard and 6.6 feet at the east entrance to Hell Gate.

Harlem River and Spuyten Duyvil Creek together form a waterway about 8 miles in length, whi extends from the East River to the Hudson River and separates the Borough of Manhattan from the Bo ough of the Bronx. The East River entrance to the Harlem River is about 8½ miles by water northea of the Battery and the Hudson River entrance to Spuyten Duyvil Creek is about 13½ miles by water nor of the Battery. The improved channel in Harlem River has a width of 150 to 400 feet and a depth of 1 feet at mean low water, except at Macombs Dam Bridge, where ledge rock projects at a point 12 feet belo mean low water.

Bronx River is a short and narrow stream that empties into a shallow bay or estuary on the East Riv at Hunts Point, about 11 miles northeast of the Battery. The navigable portion of the river consists a channel extending from its mouth to a dam at East 177th Street. This channel is about 2½ miles lon and from about 50 to 300 feet wide and has a depth of 7 feet at mean low water in the lower section. Th mean range of tide in the Bronx River is about 7 feet in the estuary and 6 feet at the dam.

Westchester Creek is a small stream lying wholly within the limits of the City of New York. Th stream extends northward from an estuary in the north shore of East River about 14 miles northeast of th Battery. The estuary is about 1 mile long and from 500 to 3,000 feet wide. The portion of the cree now under improvement is 2⅔ miles long from deep water in the East River and from 110 to 500 feet wid The lower section has a depth at mean low water of 8 feet, while the upper section has a mean depth 6 feet.

East Chester Creek is a shallow stream that empties into East Chester Bay on the north shore of Lon Island Sound about 12 miles west of the Connecticut State line and about 21 miles northeast of the Battery The lower two miles of the navigable portion of this stream lie wholly within the limits of the City of Ne York and have a depth of 4 feet at mean low water, or 11 feet at high water, while the upper section ha a depth of about 5 feet at high water.

Flushing Bay is on the north shore of Long Island, about 12 miles from the Battery. The bay is abou 1 mile wide and 2 miles long. Flushing Creek, which flows into the head of the bay, is a tidal stream nav igable for a distance of about 3.5 miles from its mouth. The total length of dredged channel in the ba and the creek is about 3 miles and the mean low water depth of channel in the bay is 10 feet; in the creel 8 feet. The mean range of tide is about 7.1 feet.

Newtown Creek is the inlet of the East River that separates for a distance of about 4 miles the Bo oughs of Queens and Brooklyn. The improved channel has a width of about 125 feet and a least dept of about 14 feet at mean low water. The mean range of tide is about 4 feet.

Wallabout Channel is a channel in Wallabout Bay, an inlet of the East River adjacent to the Unite States Navy Yard in Brooklyn. The channel consists of a waterway extending in a half circle around th inside of the island known as Cob Dock and is divided into two parts by a stone causeway connecting th mainland with Cob Dock. The eastern section of the channel is about 2,000 feet long and from 250 t 350 feet wide and has a depth of about 20 feet at mean low water. At the head of Wallabout Chann are two bodies of navigable water, Kent Avenue Basin and Wallabout Basin, which are 2,200 feet lon and 1,300 feet long respectively

Jamaica Bay is situated on the south shore of Long Island and lies wholly within the limits of the C of New York. It is about 8 miles long and 4 miles wide and covers an area of approximately 32 squa miles. The bay is connected with the ocean at Rockaway Inlet by a shifting channel having a least dep over the bar of about 11 feet at mean low water. An entrance channel 17 feet deep at mean low wa has been dredged through the north end of the bars. The bay contains numerous small low-lying islan A channel 2½ miles long is under joint improvement by the Federal Government and the City of New Yo

e United States is to provide and maintain the entrance channel and to reimburse the city for dredg- the main channel in the bay; while the city is to dredge the other channels within the bay, bulkhead shores of the bay, and fill in behind the bulkheads. On June 30, 1920, an entrance channel had been npleted to a width of about 200 feet, and a depth of 17 feet at mean low water.

The New Jersey Portion of the Harbor.—Newark Bay is a large estuary extending from the confluence the Passaic and Hackensack Rivers south to Staten Island, a distance of about 6 miles. It is about miles wide. At Staten Island the bay is connected on the east with Kill van Kull and on the west h Arthur Kill. The navigable channel in the bay has a dredged depth of 20 feet at mean low water the range of tide is about 5 feet.

Passaic River is a tidal stream which is navigable for vessels drawing 6 feet of water as far as the city Passaic, 16 miles above its mouth. In the lower portion of the river the depth of the navigable channel 20 feet to within 800 feet of the Jackson Street bridge at Newark; thence 16 feet deep to the Montclair d Greenwood Lake railroad bridge; thence 6 feet deep to Passaic.

Hackensack River is a tidal stream which merges with the Passaic River at the head of Newark Bay s navigable to New Milford, 20½ miles from its mouth. At mean low water, 12 feet can be carried to tle Ferry, 12¾ miles; thence 10 feet through the highway bridge at Little Ferry; thence 12 feet to Hack- ack, 2¼ miles; thence quite shoal to New Milford.

Arthur Kill separates Staten Island from New Jersey. It is about 12 miles long. This channel, to- ther with Kill van Kull, forms Staten Island Sound, and, with the lower end of Newark Bay, forms the nd waterway between New York and New Jersey, the boundary between the two States following the tre of the waterway. Vessels drawing 19 feet can be taken at mean low water into Newark Bay via ver New York Bay, Raritan Bay and Arthur Kill. Vessels drawing 23 feet at mean low water can be en through Upper New York Bay, Kill van Kull and Arthur Kill to Perth Amboy, N. J.

Kill van Kull, a connecting waterway about 3 miles in length, lies along the northern shore of Staten nd and extends from the lower end of Newark Bay to Upper New York Bay. Vessels having a draught 5 feet can be brought at mean low water into Newark Bay through Upper New York Bay and the channel Kill van Kull.

Raritan Bay lies at the southern end of Staten Island and forms the western portion of Lower New k Bay. Its greatest length from north to south is about 5 miles and from east to west about 7 miles. Raritan River empties into the bay at its western end and the Arthur Kill extends northward from western end. Vessels enter the bay by way of the Main Snip-Bayside-Gedney Channel, but a draught ot more than 19 feet at mean low water can be carried through the dredged channels at the head of bay.

Raritan River empties into Raritan Bay at Perth Amboy. At mean low water vessels with a draught 6 feet can be carried to the Washington Canal at Sayreville, a distance of 6.7 miles; thence 10 feet to w Brunswick, a distance of about 5.3 miles.

Elizabeth River is a small stream that empties into the Arthur Kill near its junction with Newark . The navigable channel in the lower river has a depth of 7 feet at mean high water for 1½ miles.

THE STATUE OF LIBERTY.

THE Statue of Liberty on Bedloe's Island, New York Harbor, was first proposed, soon after the Franco- rman War, by a group of prominent Frenchmen, who commissioned one of their number, Frederic August tholdi, sculptor (born 1833, died 1904), to do the work. The U. S. Congress, Feb. 22, 1877, authorized sident Hayes to set apart a site on the island, which Bartholdi, on a visit, had suggested. A committee formed in 1874, to raise funds. In France, 180 cities, 40 general councils, many societies, and thousands people contributed. In the United States, by the aid of The World, $300,000 was raised for the pedestal. statue cost about $700,000, making the total about $1,000,000.

The head of the Statue was completed for the Paris Exposition, in 1878; the forearm had been sent America and shown at the Centennial Exposition, Philadelphia, in 1876. Thence it was transferred Madison Square, New York City, where it remained until 1886. On Oct. 24, 1881, the anniversary of Battle of Yorktown, all the pieces of the frame work and base were put in place at Paris, Levi P rton, the American Ambassador, driving the first rivet. The Statue was finished in 1883; on July 4 4, M. De Lesseps, President of the French Committee, officially presented the Statue to Ambassador rton; on Aug. 5, 1884, the cornerstone of the pedestal was laid, on Bedloe's Island; late in June, 1885, French vessel, Isere, from Rouen, France, landed the Statue at New York in 210 packing cases; the k of putting the parts together was begun in May, 1886, and the Statue was unveiled on Oct. 28, 1886.

DIMENSIONS OF THE STATUE.

	Ft.	In.		Ft.	In.
ght from base to torch	151	1	Distance across the eye	2	6
ndation of pedestal to torch	305	6	Length of nose	4	6
d to top of head	111	6	Right arm, length	42	0
gth of hand	16	5	Right arm, greatest thickness	12	0
ex finger	8	0	Thickness of waist	35	0
umference at second joint	3	6	Width of mouth	3	0
, of finger nail	13x10	in.	Tablet, length	23	7
d from chin to cranium	17	3	Tablet, width	13	7
d, thickness from ear to ear	10	0	Tablet, thickness	2	0

DIMENSIONS OF THE PEDESTAL.

	Ft.	In.		Ft.	In.
ght of pedestal	89	0	Square sides at top, each	40	0
are sides at base, each	62	0	Grecian columns, above base	72	8

DIMENSIONS OF THE FOUNDATION.

	Ft.	In.		Ft.	In.
ght of foundation	65	0	Square sides at top	66	7
are sides at bottom	91	0			

The Statue weighs 450,000 pounds (225 tons); the bronze alone weighs 200,000 pounds, and is 3-16 n inch thick; 40 persons can stand in the head, and 12 in the torch; number of steps in Statue, from estal to head, 154; number of rounds in ladder in uplifted right arm, 54.

BEDLOE'S ISLAND HISTORY.

The statue site, Bedloe's Island (Bedlow's Island), was named after Isaac Bedlow, who bought it from old Colonial Government of New Amsterdam. It was called Kennedy's Island during the Revolution, r Capt. Kennedy, commander of the British Naval Station in New York. He bought the island from trustees of Mary Smith, a daughter of Bedlow, for one hundred pounds. In 1750 it was purchased New York for a pest house site. In 1800 the State gave it to the general government. In 1841 the ent star-shaped fort was built on the island, at a cost of $213,000; 70 guns were mounted on the para- , and a garrison of 350 men were stationed there.

PIERS IN NEW YORK CITY.

THE PORT OF NEW YORK AUTHORITY.

(Headquarters, No. 11 Broadway, N. Y. City.)

By chapter 154 of the Laws of New York and chapter 151 of the Laws of New Jersey, 1921, Commissioners om the State of New York and Commissioners from the State of New Jersey were authorized to sign the mpact between the State of New York and the State of New Jersey for the creation of the Port of New ork District and the creation of the Port of New York Authority.

The Port of New York Authority is a body corporate and politic, having the powers enumerated in the mpact. The compact was signed on April 30, 1921, by Commissioners William R. Willcox and Eugenius . Outerbridge, on behalf of the State of New York, and by Commissioners J. Spencer Smith, Frank R. ord and De Witt Van Buskirk, and Attorney-General Thomas F. McCram, on behalf of the State of New rsey. Attorney-General Charles D. Newton of the State of New York signed the compact on May 6, 1921.

The Commissioners for New Jersey were appointed April 7, 1921; those for New York State on April , 1921. Their names, with year of expiration of term in parenthesis, are: Eugenius H. Outerbridge, *Chairn*, New York City (July 1, 1928); Alfred E. Smith, New York City (July 1, 1926); Lewis H. Pounds, ooklyn (July 1, 1924); J. Spencer Smith, *Vice-Chairman*, Tenafly, N. J. (July 1, 1923); De Witt Van Buskirk, yonne, N. J. (July 1, 1924); Frank R. Ford, Caldwell, N. J. (July 1, 1925); George W. Goethals, *Consulting ngineer;* B. F. Cresson, Jr., *Chief Engineer;* Julius Henry Cohen, *Counsel;* William Leary, *Secretary;* C. A. hlmann, *Assistant Secretary.*

The commission has authority to give public hearings.

Above data cover entire port district, including Newark and Perth Amboy.

ENTRANCES AND CLEARANCES VIA OTHER PORTS.

Including vessels that reached and left the United States via other domestic ports, the total entrances in year ended June 30, 1920, were: Steam, 4,963 (15,367,775 tons); sail, 405 (369,277 tons). Cleared: 4,792 vessels, including steam and sail of 15,189,182 tons net.

NEW YORK HARBOR TRAFFIC.

(From a Chamber of Commerce Bulletin.)

Inquiry is frequently made at the Chamber regarding marine shipping in and about New York Harbor. The latest estimates upon water shipments for New York are for the calendar year 1916. The figures for the Hudson River Channel from Ellis Island to the Northern city limits, place the freight handled at 68,377,558 short tons, which had a value of $7,339,340,857. The total number of passengers carried in this channel are estimated at 84,470,659. The number of American vessels engaged in this trade, both registered and unregistered, equalled 5,866. Of this number 4,655 vessels were canal boats, lighters, barges, etc.

(Lackawanna Railroad); **Chambers St.** to Pavonia Ave., Jersey City (Erie Railroad); **Desbrosses St.** to Montgomery St., Jersey City (Pennsylvania Railroad); **Christopher St.** to Hoboken (Lackawanna Railroad); **W. 23d St.** to Communipaw (Jersey Central, P. and R. and B. & O. Railroads); also to Montgomery St., Jersey City (Pennsylvania Railroad); also to Hoboken (Lackawanna Railroad); also to Pavonia Ave., Jersey City (Erie Railroad); also to 14th St., Hoboken; **W. 42d St.** to Weehawken (West Shore and N. Y., O. & W. Railroads); **W. 130th St.** to Edgewater, N.J.; **Dyckman St.** to Englewood Cliffs (Palisades Interstate Park).

RAILROAD PASSENGER STATIONS IN MANHATTAN.

altimore & Ohio, foot W. 23d and Liberty Streets.
entral of New Jersey, foot of W. 23d and Liberty Streets; Sandy Hook Route (in Summer), foot of W. 42d and Cedar Streets, also.
elaware, Lackawanna & Western, foot of Barclay, Christopher and W. 23d Streets.
rie, foot of Chambers and West 23d Streets.
udson Terminal, Cortlandt, Dey, Church and Fulton Streets.
ehigh Valley, foot of West 23d and Liberty Streets.
ong Island, 7th Ave. and 33d St., foot East 34th Street.
ew York Central & Hudson River, 42d St. and 4th Ave., Grand Central Station; Putnam Division 155th Street and Eighth Ave.
New York, New Haven & Hartford, 4th Avenue and 42d Street, Grand Central Station.
New York, Ontario & Western, foot of Cortlandt, and West 42d Streets.
New York, Susquehanna & Western, foot of Chambers and W. 23d Streets.
Pennsylvania, foot of Cortlandt and Desbrosses Streets, 7th Avenue, 31st to 33d Street and Hudson Terminal (Fulton and Church Streets).
Philadelphia & Reading, foot W. 23d and Liberty Sts.
Staten Island, foot of Whitehall Street, South Ferry
West Shore, foot Cortlandt and West 42d Streets.

THE NEW YORK-NEW JERSEY VEHICULAR TUNNEL.

(Contributed by the N. Y. State Bridge and Tunnel Commission, Sept. 1, 1921.)

New York State Bridge and Tunnel Commission—Commissioners: Gen. George R. Dyer, Chairman; E. W. Bloomingdale, McDougall Hawkes, A. J. Shamberg, N. Y. City Commissioner of Plant and Structures, N. Y. State Engineer, Paul Windels, Counsel, Morris M. Frohlich, Secretary.

New Jersey Interstate Bridge and Tunnel Commission—Commissioners: T. Albeus Adams, Chairman; Samuel M. Shay, Thomas J. S. Barlow, Theodore Boettger, John F. Boyle, Frank F. Gallaher, Charles S. Stevens, Weller H. Noyes, Emerson Richards, Counsel, James P. Dolan, Secretary, James J. McMahon, Assistant Secretary.

Chief Engineer—Clifford M. Holland.

The project of building a bridge over the Hudson has been agitated for many years but no definite action was taken until 1906 when the two States provided for Commissions to investigate. The three bridge sites considered were from Manhattan at 179th St., 110th St. and 59th St. Engineering difficulties were encountered at 179th St. which outweighed the narrowness of the channel at that point and the low cost of the approaches. Nor did any action result on the two other proposed sites, although at various times charters have been granted to private bridge companies for such construction.

No serious consideration was given to a tunnel to take the place of the vastly more costly bridge, but mention was made of it in the report of the Bridge Commission for 1909. Construction of subaqueous tunnels under the Hudson and East Rivers in recent years gave impetus to the consideration of building a vehicular tunnel. In 1913 Jacobs and Davies, the engineers who constructed the Hudson and Manhattan tube under the Hudson River, reported that the tunnel plan was feasible, the problem of ventilation being the more serious, in view of the deadly carbon monoxide gas exhausted in volume by motor cars. Their suggestion was to build twin tubes, 23 feet external diameter, similar to the Pennsylvania tubes, having roadways 17 feet wide to accommodate two lines of traffic in each direction. The tunnel to run from Canal St., Manhattan, to approximately an extended line of 12th St., Jersey City, and estimated to cost $11,000,000.

For a time nothing further was done, as the Legislatures of the two States did not take an interest. The need for such a system of transportation was presented to public attention by the coal famine in the winter of 1917-1918 and the situation brought about by inability to get foodstuffs into New York City because of ice. Plans were recommended by Gen. George W. Goethals, in a report dated Jan. 21, 1918, to the Commission advising a shield driven tunnel, providing for a single tube 42 feet exterior diameter constructed of precast concrete blocks. The tunnel was divided horizontally, giving two traffic levels with roadways 22 feet 6 inches wide, planned to provide for three lines of traffic in each direction, and estimated to cost $12,000,000, exclusive of the cost of land and easements.

ACTUAL WORK BEGUN IN 1920.

The States of New York and New Jersey enacted legislation providing for the construction, maintenance and operation of a tunnel, to be paid for by each State in equal parts, and directed the Commissions to enter into a treaty or contract to that end. The treaty was executed in final form on Dec. 30, 1919, and has been consented to by a resolution of Congress, approved by the President. $1,000,000 was made available by the Legislature of each State and active work was undertaken by the engineering force on July 1, 1919, and a Board of Consulting Engineers began consideration of the problem on Oct. 1.

On Jan. 6, 1920, Chief Engineer C. M. Holland recommended the construction of twin tubes of 29 feet external diameter of cast iron rings, lined with concrete, and providing for a 20 foot roadway in each for two lines of traffic, one tube for eastbound vehicles and the other for westbound traffic. The tunnels recommended provide a narrow sidewalk for pedestrians and sufficient ventilation ducts and service conduits. The ventilation is through four shafts, two on each side of the river, one located on either side as near the pier head line as is practicable, within a modern pier structure, which would provide protection to the tunnels and allow slips for the deepest draft ocean-going vessels, the other shafts to be located nearer the portals, this making a series of ventilation units materially reducing the cost of equipment and operation.

VENTILATION OF TUNNEL.

The ventilation of the tunnel will be accomplished by supplying the fresh air through a continuous duct and withdrawing the vitiated air through another continuous duct. The fresh air enters the roadway through two continuous slots, one on each side, and the vitiated air enters the duct through openings located at frequent intervals. The ventilation requirements are based on a maximum concentration of carbon monoxide of four parts to 10,000 parts of air. This requires 3,600,000 cubic feet of fresh air per minute, representing an average of forty complete air changes per hour.

After study of traffic, across the ferries and bridges and on the city streets, it was seen that precaution must be taken to prevent the congestion of traffic on the streets at the tunnel terminals; and it is planned to separate the incoming from the outgoing traffic to permit of its concentration and absorption without endangering the capacity use of the tunnel and interference with normal street traffic. The Manhattan entrance is from a plaza on Broome St. from Hudson to Varick Sts., and the exit is on the south side of Canal St. at Varick and Vestry Sts. The Jersey City entrance is from a plaza at 12th and Provost Sts., and the exit at 14th and Provost Sts. The subsurface conditions in Manhattan required careful consideration, as the cost of caring for these is a large element of cost in the New York approach. The taking of property dictates study, so that the least expensive may be taken when it will provide the facilities required to meet traffic needs. It is estimated that the entire cost of construction to the date of opening will be $28,669,000, which sum can be amortized on the estimated traffic at rate of tolls equal to present ferry rates in about 11 years. This last consideration is due to the requirement of the New York act that tolls be collected to pay all maintenance and operating charges and amortize the cost of construction within 20 years.

QUICK TRANSIT FOR FOOD SUPPLIES.

Among the advantages which the tunnel will afford will be the quick and certain transportation of merchandise, foodstuffs and coal from the mainland direct to final destination in Manhattan, the Bronx and Long Island, unhindered by climatic or other conditions. In the item of coal alone, the entire cost of the tunnel could have been defrayed out of any one of a dozen days' losses in January, 1918, due to the inability to move the coal barges across the river, not to mention the deaths, illness and physical suffering resulting from the coal famine. Milk and produce wagons or trucks coming from the New York counties adjoining the New Jersey line could drive directly into the city and deliver their product with certainty many hours earlier than is now possible. Outgoing freight deliveries could also be made more efficiently and in larger volume than is now possible by the present lighterage system. This would do away with the necessity of using valuable waterfront property for railroad piers, floats and bridges on both the Manhattan and Jersey shores. Finally the most important question of time in transit would be solved for all classes of freight or passenger carrying vehicles at no increase in ferry cost. At present, owing to the crowded conditions at certain hours, a truck or car is forced to wait in line, sometimes for several hours, before it can be driven aboard the ferry, whereas with the tunnel proposed, and its wide plazas at each end, there would not be the slightest delay or congestion at any time.

THE NEW YORK-NEW JERSEY VEHICULAR TUNNEL—*Continued.*

THE TUNNEL IN BRIEF.

Total length of proposed tunnels	9,300 feet
Outside diameter of circular subsurface tubes	29 feet
Construction material	Cast iron ring lined with concrete
Elevation of top of tube	60 feet below mean low tide
Maximum gradients on approaches at each end	3½ per cent.
Width of roadway in each tunnel	20 feet
Width of approach tunnels leading from exit portals	30 feet
Ventilation	Blower and exhaust fans at 4 shafts—2 on each side of river
Pavements	Granite blocks 6 inches thick, steel protected curbs, concrete sidewalks
Total cost of proposed tunnel, including easements	$28,669,000
Annual cost of maintenance and operation	From $283,000 to $615,000
Estimated annual traffic on completion (both directions)	5,610,000 vehicles
Total estimated annual capacity of tunnel (both directions)	15,800,000 vehicles
Manhattan terminus of tunnel	Entrance Broome St.—Exit Canal and Varick Sts.
Jersey City terminus	Entrance 12th St.—Exit 14th St

TUNNELS IN OPERATION IN AND ABOUT NEW YORK CITY.
